MINORITY INSTITUTIONS

1. Determination of Minority Character of an Educational Institution

The benefits of Article 30(1) of Indian Constitution can be claimed by the community only on proving that it is a religious or linguistic minority and the institution was established by it. The question of proof in a Court of Law is regulated by the provisions of the Indian Evidence Act. This act requires that when there is a written document, other evidence is to be excluded but if there is no written document, other evidence is admissible.

2. Object of Establishment of Minority Educational Institutions

It is not always necessary that the objects for which a minority may establish an educational institution must include the conservation of its language, script or culture. Article 30(1) only emphasises that the body establishing and administering an educational institution belongs to a minority based on religion or language. It says nothing about the character of education to be imparted by them. Hence an institution will be a minority institution, even if it imparts secular education. Once it is proved to be a minority institution, the character of education to be imparted and of administration will be at the choice of those who can administer it. In these matters, the choice cannot be of any one also.

3. Fulfilment of Statutory Requirements for seeking Recognition

An Institution seeking recognition must fulfil the statutory requirements concerning the academic standards, the qualifications of teachers, and of the students seeking admission. It must have the financial resources and the capability to run on a sustained basis. When the applications seeking recognition are not considered favourably, grounds of rejection must be communicated to the educational institutions filling such applications so as to enable them to overcome obstacles to their early recognition.

4. Medium of instruction in Minority Educational Institutions

The State Government or the University is not empowered to prescribe the medium of instruction to be followed by minority educational institutions. However, in case of institutions receiving grants-in-aid, there are certain standards or proficiency to be observed. No decision, within our knowledge, lays down that teaching of a State language compulsorily is within such conditions for grant of aid. But if
