THE CONSTITUTION OF INDIA

PREAMBLE

WE, THE PEOPLE OF INDIA, having solemnly resolved to constitute India into a SOVEREIGN SOCIALIST SECULAR DEMOCRATIC REPUBLIC and to secure to all its citizens:

JUSTICE, social, economic and political;

LIBERTY of thought, expression, belief, faith and worship;

EQUALITY of status and of opportunity; and to promote among them all

FRATERNITY assuring the dignity of the individual and the unity and integrity of the Nation;

IN OUR CONSTITUENT ASSEMBLY this twenty-sixth day of November, 1949, do HEREBY ADOPT, ENACT AND GIVE TO OURSELVES THIS CONSTITUTION.

ARTICLE 51A

Fundamental Duties - It shall be the duty of every citizen of India-

(a) to abide the Constitution and respect its ideals and institutions, the National Flag and the National Anthem;

(b) to cherish and follow the noble ideals which inspired our national struggle for freedom;

(c) to uphold and protect the sovereignty, unity and integrity of India;

(d) to defend the country and render national service when called upon to do so;

(e) To promote harmony and the spirit of common brotherhood amongst all the people of India transcending religious, linguistic and regional or sectional diversities; to renounce practices derogatory to the dignity of women;

(f) to value and preserve the rich heritage of our composite culture;

(g) to protect and improve the natural environment including forests, lakes, rivers, wild life and to have compassion for living creatures;

(h) to develop the scientific temper, humanism and the spirit of inquiry and reform;

(i) to safeguard public property and to abjure violence;

(j) to strive towards excellence in all spheres of individual and collective activity so that the nation constantly rises to higher levels of endeavour and achievement.
Curriculum updation is a continuous process, as such the Board brings out the revised curricula every year. It is obligatory for the School and the students preparing for the Board’s Examination of a particular year to follow the syllabi, courses and the books prescribed by it for that year. No deviation from the ones prescribed is permissible. All concerned are, therefore, strongly advised to purchase the curriculum prescribed for the year concerned from the CBSE Headquarters or its Regional Offices for their information and use. Orders with the required price and postage can be placed with the Store Keeper (Publications) at the Headquarters or with the Regional Office of the zone as the case may be. Readers are also advised to refer to the details given at the end of the publication. The syllabi and courses in Regional and Foreign Languages have been provided in the volume II printed separately which is also a priced publication.

PART I
ELIGIBILITY REQUIREMENTS, SCHEME OF STUDIES AND SCHEME OF EXAMINATIONS
1. ELIGIBILITY OF CANDIDATES

6. Admission of Students to a school: Transfer/Migration of Students

Admission: General Conditions:

6.1 A student seeking admission to any class in ‘School’ will be eligible for admission to that class only if he:-

(i) has been studying in a school recognised by or affiliated to this Board or any other recognised Board of Secondary Education in India;

(ii) has passed qualifying or equivalent qualifying examination making him eligible for admission to that class;

(iii) satisfies the requirements of age limits (minimum and maximum) as determined by the State/ U. T. Government and applicable to the place where the school is located; and

(iv) produces:-

(a) the School Leaving Certificate/transfer certificate signed by the Head of the Institution last attended and countersigned;

(b) document(s) in support of his having passed the qualifying or equivalent qualifying examination; and

(c) Date of Birth Certificate issued by the Registrar of Births and Deaths, where-ever existing, as proof of date of birth.

Explanation:-

(a) A person who has been studying in an institution which is not recognised by this Board or by any other recognised Board of Secondary Education or by the State/ U. T. Government of the concerned place shall not be admitted to any class or a “School” on the basis of Certificate(s) of such unrecognised institutions attended by him earlier.

(b) Qualifying Examination’ means an examination-the passing of which makes a student eligible for admission to a particular class; and ‘equivalent examination’ means an examination conducted by any recognised Board of Secondary Education/Indian University or an institution recognised by or affiliated to such Board/University and is recognised by the Board equivalent to the corresponding examination conducted by this Board or conducted by a “School” affiliated to/recognised by this Board.

6.2 No student migrating from a school in a foreign country other than the school affiliated to this Board, shall be eligible for admission unless an eligibility certificate in respect of such a student has been obtained from this Board. For obtaining eligibility certificate from the Board, the Principal of the School to which admission is being sought will submit to the Board full details of the case and relevant documents with his own remarks/ recommendations. The eligibility certificate will be issued by the Board only after the Board is satisfied that the course of study undergone and examination passed is equivalent to corresponding class of this Board.
6.3 No person who is under the sentence of rustication or is expelled from any Board/University/School or is debarred from appearing in the examination for whatever reason by any Board/University shall be admitted to any class in a School affiliated to this Board.

6.4 No student shall be admitted or promoted to any subsequent higher class in any school unless he has completed the regular course of study of the class to which he was admitted at the beginning of the academic session and has passed the examination at the end of the concerned academic session, qualifying him for promotion to the next higher class.

6.5 No student shall be admitted in Class XI and above in a school affiliated with the Board after 31st day of August of the year except with prior permission of the Chairman, CBSE/Competent Authority as may have been defined in the State/Union Territory Education Acts. The application for permission to grant admission after 31st August shall be routed through the Principal of the school specifying the reasons which are unavoidable. The candidate shall complete the required percentage of attendance (75%) for Class XI & XII as per Examination Bye-Laws of the Board to make him/her eligible for the examinations. In such cases where the admission by the candidate could not be taken in a higher class by the stipulated date because of the late declaration of result by the Board such permission would not be required, provided the candidate applied for admission within a fortnight of the declaration of the result.

7. Admission to Class XI

7.4 Admission to class XI in a school shall be open only to such a student who has:

(a) Obtained minimum Grade D in at least five subjects of external examination as per the Scheme of Studies and a Qualifying Certificate at the Secondary School(Class X) Examination conducted by this Board;

(b) Has passed an equivalent examination conducted by any other recognised Board of Secondary Education/Indian University and recognised by this Board as equivalent to its secondary school examination; and

(c) Has obtained minimum Grade D in the Scholastic areas as well as satisfactory Grades in Co-Scholastic areas under the Continuous and Comprehensive Evaluation and Certificate of School - Based Assessment duly signed by the Board at the Secondary School(Class X) Examination conducted by a Senior Secondary School affiliated to the Board.

Notwithstanding anything contained in the rules above, Chairman shall have the powers to permit admission in Class XI in respect of such students who have opted for not appearing for the Secondary School examination conducted by the Board but changing school after passing the Secondary School examination conducted by a Senior Secondary school affiliated to the Board on grounds of shifting of family from one place to another, transfer of parent(s), for better academic performance or on medical grounds etc. to avoid undue hardship to the candidate(s).

7.5 Admission to Class XII:

(i) No admission shall be taken in Class XII directly. Provided further that admission to Class XII in a school shall be open only to such a student who:

(a) has completed a regular course of study for Class XI; and,
(b) has passed Class XI examination from a school affiliated to this Board.

(ii) A student who has completed a regular course of study for Class XI and has passed Class XI examination from this Board or an institution recognised by/affiliated to any recognised Board in India can be admitted in class XII to a school only on transfer of the parent(s) or shifting of their families from one place to another, after procuring from the student the mark sheet and the Transfer Certificate duly countersigned by the Educational Authorities of the Board concerned.

In case of such admissions, the schools would obtain post facto approval of the Board within one month of the admission of the student.

(iii) Notwithstanding any thing contained in paras 1 to 5 of this Byelaws, the admission of students passing qualifying examination from an examining body outside India shall be regulated according to the provisions contained in byelaw 6.2 of this chapter; provided that the condition of completing regular course of study for class IX and XI is satisfied in cases of admission to Class X and Class XII respectively.

8. Admission Procedure

(i) Admission register in the form prescribed by the State Government concerned/Kendriya Vidyalaya Sangathan/Navodaya Vidyalaya Samiti as the case may be, shall be maintained by the "School" where the name of every student joining "The School" shall be entered.

(ii) Successive numbers must be allotted to students on their admission and each student should retain this number throughout the whole of his career in the school. A student returning to the school after absence of any duration shall resume admission on his original number.

(iii) If a student applying for admission to a school has attended any other school, an authenticated copy of Transfer Certificate in the format given in the Examination Bye-Laws from his last school must be produced before his name can be entered in the admission Register.

(iv) In no case shall a student be admitted into a class higher than that for which he is entitled according to the Transfer Certificate.

(v) A student shall not be allowed to migrate from one "School" to another during the session after his name has been sent up for the Secondary School(Class X) and Senior School Certificate(Class XII) Examinations conducted by the Board. This condition may be waived only in special circumstances by the Chairman.

(vi) A student leaving his school at the end of a session or who is permitted by the school during the session shall on a payment of all dues, receive an authenticated copy of the Transfer Certificate up-to-date. A duplicate copy may be issued if the Head of the institution is satisfied that the original is lost but it shall always be so marked.

(vii) In case a student from an institution not affiliated to the Board seeks admission in a school affiliated to the Board, such a student shall produce a transfer certificate duly countersigned by an authority as indicated in the format given in Examination Bye-Laws.
(viii) If the statement made by the parent or guardian of a student or by the student himself/herself, if he/she was major at the time of his/her admission to a school, is found to contain any wilful misrepresentation of facts regarding the student’s career, the head of the institution may punish him/her as per provision of the Education Act of the State/Union Territory or Kendriya Vidyalaya Sangathan/Navodaya Vidyalaya Samiti Rules, as the case may be, respectively and report the matter to the Board.

9. Admission to Examinations

General

Notwithstanding anything contained in these Byelaws, no candidate who has been expelled or is under the punishment of rustication or is debarred for appearing in or taking an examination for any reason whatsoever, shall be admitted to the All India/Delhi Senior School Certificate/Secondary School Examinations conducted by the Board.

All India/Delhi Senior School Certificate Examinations:

10. Academic Qualification for Undertaking Examinations:

10.1 A candidate for All India/Delhi Senior School Certificate Examination should have obtained/passed the following at least two years earlier than the year in which he/she would take Senior School Certificate Examination (Class XII) of the Board:

(a) (i) obtained minimum Grade D in at least five subjects of external examination and a Qualifying Certificate at the Secondary School Examination (Class X) conducted by the Board, or
(ii) obtained minimum Grade D in the Scholastic areas as well as satisfactory Grades in Co-Scholastic areas under the Continuous and Comprehensive Evaluation scheme in the Secondary School examination conducted by the school affiliated to the Board upto Senior Secondary level and Certificate of School-Based Assessment duly signed by the Board or
(iii) has passed an equivalent examination conducted by any other recognised Board/University.
(b) secured a grade higher than grade E in each of the subjects of internal assessment at Secondary School Examination (Class X) referred to at (a) above.

12. Admission to Examinations: Regular Candidates

All India/Delhi Senior School Certificate Examination will be opened to such regular candidates who have submitted their duly completed application for admission to the concerned examination, and/or his name in the manner prescribed by the Board, along with the prescribed fee forwarded to the Controller of Examinations by the Head of the Institution/School with the following duly certified by such head:-

(i) that he possesses the academic qualifications as laid down in Examination Bye-Laws;
(ii) that he has not passed equivalent or higher examination of any other Board or University;
(iii) that he is on the active rolls of the School;
(iv) that he has completed a “regular Course of study” as defined and detailed in Examination Bye-Laws in a school in the subjects in which he would appear in the Examination;
(v) that he bears a good moral character and is of good conduct; and
(vi) that he satisfies all other provisions applicable to him/her, of the Examination Bye-Laws and any other provision made by the Board by governing admission to the examination concerned, if any.

12.1 (i) It is mandatory upon a school affiliated to Board to follow the Examination Bye Laws of the Board in toto.

(ii) No affiliated school shall endeavor to present the candidates who are not on its roll nor will it present the candidates of its unaffiliated branch/schools to any of the Board’s Examinations.

(iii) If the Board has reasons to believe that an affiliated school is not following the sub-section (i) and (ii) of this section, the Board will resort to penalties as deemed fit.

13.1 A Regular Course of Study

(i) The expression “a regular course of study” referred to in the Bye-Law means at least 75% of attendance in the classes held counted from the day of commencing teaching of Class XI/ XII, as the case may be, upto the 1st of the Month preceding the month in which the examination of the School / Board commences. Candidates taking up a subject(s) involving practicals shall also be required to have put in at least 75% of the total attendance for practical work in the subject in the laboratory. Heads of institutions shall not allow a candidate who has offered subject(s) involving practicals to take the practical examination(s) unless the candidates fulfil the attendance requirements as given in this Rule.

(ii) The candidates who had failed in the same examination in the preceding year and who rejoin Class XI/XII shall be required to put in 75% of attendance calculated on the possible attendance from the 1st of the month following the publication of the results of that examination by the School/Board upto the 1st of the month preceding the month in which the examination of the School / Board commences.

(iii) In the case of migration from other institutions, attendance at the institution/school recognised by the Education Department of the State/Union Territory from which the candidate migrates will be taken into account in calculating the required percentage of attendance.

13.2 Requirement of Attendance in Subjects of Internal Assessment

(i) No student from a School affiliated to the Board shall be eligible to take the Secondary and Senior School Certificate Examinations conducted by the Board unless he has completed 75% of attendance counted from the opening of class X/XII upto the first of the month preceding the month in which the examination commences in the subjects of internal assessment. Also no student from a School affiliated to the Board shall be eligible to take the Class IX/X/XI examination conducted by the School unless he has completed 75% of attendance in class IX/X/XI in the subjects of internal assessment.
(a) No student from a School affiliated to the Board shall be eligible to take the Secondary and Senior School Certificate Examinations conducted by the Board unless he has completed 60% of attendance in respect of students participating in Sports at National level organized by recognized Federations/CBSE/SGFI counted from the opening of class X/XII up to the first of the month preceding the month in which the examination commences in the subjects of internal assessment. Also no student from a School affiliated to the Board shall be eligible to take the Class IX/X/XI Examinations conducted by the School unless he has completed 60% of attendance in respect of students participating in Sports at National level organized by recognized Federations/CBSE/SGFI in the subjects of internal assessment.

(ii) Exemption from W.E/Art Education/P & H E may be granted to a candidate on medical grounds in respect of Secondary and Senior School candidates appearing for the Secondary and Senior School Certificate Examinations conducted by the Board provided the application is supported by a certificate given by a registered medical officer of the rank not below that of Assistant Surgeon and forwarded by the Head of the School with his recommendations.

(iii) The Chairman shall have the powers to condone shortage of attendances in subjects of internal assessment in respect of Secondary and Senior School candidates appearing for the Secondary School and Senior School Certificate Examinations conducted by the Board.

14.1 Rules for Condonation of shortage of Attendance

(i) If a candidate's attendance falls short of the prescribed percentage, in case of students appearing for the Secondary and Senior School Certificate Examinations conducted by the Board, the Head of the School may submit his name to the Board provisionally. If the candidate is still short of the required percentage of attendance within three weeks of the commencement of examination, the Head of the Institution shall report the case to the Regional Officer concerned immediately. If in the opinion of the Head of the Institution, the candidate deserves special consideration, he may submit his recommendation to the Regional Officer concerned not later than three weeks before the commencement of the examination for condonation of shortage in attendances by the Chairman, CBSE who may issue orders as he may deem proper. The Head of the school in his letter requesting for condonation of shortage in attendance, should give the maximum possible attendance by a student counted from the day of commencing teaching of Classes X/XII (beginning of the session) up to the 1st of the month preceding the month in which the examination of the Board commences, attendance by the candidate in question during the aforesaid period and the percentage of attendance by such a candidate during the aforesaid period.

(ii) Shortage up to 15% only may be condoned by the Chairman in respect of those students appearing for the Secondary and Senior School Certificate Examinations conducted by the Board. Cases of candidates with attendance below 60% in class X or class XII, appearing for the Board's examinations, as the case may be, shall be considered for condonation of shortage of attendance by the Chairman only in exceptional circumstances created on medical grounds, such as candidate suffering from serious diseases like cancer, AIDS, TB or similar serious diseases requiring long period of hospitalization.
(iii) The Principal shall refer a case of shortage within the above prescribed limit of condonation to the Board, either with the recommendations or with valid reasons for not recommending the case.

(iv) The following may be considered valid reasons for recommending the cases of the candidates with attendance less than the prescribed percentage:

(a) prolonged illness;
(b) loss of Father/Mother or some other such incident leading to his absence from the school and meriting special considerations;
(c) any other reason of similar serious nature; and
(d) authorised participation in sponsored tournaments and Sports Meets of not less than inter school level and NCC/NSS Camps including the days of journeys for such participation shall be counted as full attendance.

15. **Detaining of Eligible Candidates**

In no case the Heads of affiliated schools shall detain eligible candidates from appearing at the examination of the Board.

16. **Private Candidates**

Definition. Refer Examination Bye-Laws.

17. **Persons eligible to appear as ‘Private Candidates’ at Delhi Senior School Certificate (Class XII) Examination:**

i) A candidate who had failed at the Delhi Senior School Certificate Examination of the Board will be eligible to reappear at a subsequent examination as private candidate in the syllabus and text books as prescribed for the examination of the year in which he/she will reappear.

ii) The following categories of candidates shall also be eligible to appear as private candidates at the Delhi Senior School Certificate Examination of the Board on the conditions laid down in these byelaws:-

(a) teachers serving in educational institutions affiliated to the Board, who have already passed Secondary or an equivalent examination at least two years before taking the Senior School Certificate Examination. Teacher candidates shall submit his application form along with a certificate by the Head of School in which they are serving duly countersigned by the Director of Education, Government of National Capital Territory of Delhi to the Regional Officer, Delhi;

(b) women candidates who are bonafide residents of the National Capital Territory of Delhi and have obtained minimum Grade D in at least five subjects as per the Scheme of Studies and a Qualifying Certificate issued by the Board/minimum Grade D in the Scholastic areas as well as satisfactory Grades in Co-Scholastic areas under the Continuous and Comprehensive Evaluation scheme in the Secondary School examination conducted by the school affiliated to the Board upto Senior
Secondary level and Certificate of School - Based Assessment duly signed by the Board at the Secondary School Examination conducted by the Board/School or an equivalent examination at least two years before appearing at the Senior School Certificate Examination subject to conditions mentioned in byelaw 17(iii); and

(c) physically handicapped students who have obtained minimum Grade D in at least five subjects as per the Scheme of Studies and a Qualifying Certificate issued by the Board/minimum Grade D in the Scholastic areas as well as satisfactory Grades in Co-Scholastic areas under the Continuous and Comprehensive Evaluation scheme in the Secondary School examination conducted by the school affiliated to the Board upto Senior Secondary level and Certificate of School - Based Assessment duly signed by the Board at the Secondary School Examination conducted by the Board/School or its equivalent at least two years before appearing at the Senior School Certificate Examination on producing reasonable evidence of having deficiency to attend normal institutions for the purpose of studies.

(d) Regular candidate(s) of the previous year who have completed regular course of Studies and have been allotted roll no. for appearing at the examination but could not appear at the Annual Examination due to medical reasons except short age of attendance as laid down in the examination bye laws will also be eligible to reappear at a subsequent examination as a private candidate in the syllabus and text books as prescribed for the examination of the year in which he will reappear.

(iii) Women/handicapped private candidates shall be required to satisfy the following additional conditions:-

(a) that they have privately pursued the prescribed course of studies under proper guidance;

(b) that they are unable to join a Senior Secondary School affiliated to the Board or there are such other reasons compelling them to appear at the examination as a private candidate.

18. Persons eligible to appear as ‘Private Candidates’ at All India Senior School Certificate Examination (Class XII)

(i) A candidate who had failed at the All India Senior School Certificate Examination of the Board will be eligible to reappear at a subsequent examination as a private candidate in the syllabus and text books as prescribed for the examination of the year in which he will reappear.

(ii) Teachers serving in educational institutions affiliated to the Board who have obtained minimum Grade D in at least five subjects as per the Scheme of Studies and a Qualifying Certificate issued by the Board/minimum Grade D in the Scholastic areas as well as satisfactory Grades in Co-Scholastic areas under the Continuous and Comprehensive Evaluation scheme in the Secondary School examination conducted by the school affiliated to the Board up to Senior Secondary level and Certificate of School - Based Assessment duly signed by the Board at the Secondary School Examination conducted by the Board/
School or an equivalent examination at least two years before taking the Senior School Certificate Examination. Teacher candidates shall submit his application form alongwith a certificate by the Head of School in which they are serving duly countersigned by the Director of Education of the State/Union Territory concerned to the Regional Office of the Board in which the teacher is serving.

(iii) Regular candidates of the previous year who have completed regular course of studies and have been allotted roll no. for appearing at the examination but could not appear at the Annual Examination due to medical reasons except shortage of attendance as laid down in the examination bye laws will also be eligible to reappear at a subsequent examination as a private candidate in the syllabus and text books as prescribed for the examination of the year in which he will reappear.

19. Procedures for submission of Applications of Private Candidates at All India/Delhi Senior School Certificate Examination (Class XII)

(i) A private candidate must submit to the Regional Officer of the Board within the prescribed limit an application in the form prescribed together with the prescribed fee for the examination and three copies of passport size photographs duly signed, by the candidate and counter signed in the case of teacher by the authorities mentioned in Rule 1.18 (ii) (a) or 1.19 (ii) and in case of others a member of the Governing Body of the Board or Head of a School affiliated to the Board.

(ii) If the application of a private candidate is received after the prescribed date, he shall pay late fee as prescribed.

(iii) When a private candidate’s application for admission to the examination is rejected, the examination fee including late fee if any, paid by him less Rs. 10/- or the amount as decided by the Chairman from time to time, will be refunded to him, provided that in the case of candidates whose applications have been rejected on account of the candidate’s producing a false certificate or making a false statement in the application, the full amount of fee shall be forfeited.

(iv) Private candidates shall not be allowed to offer for their examination, a subject (even if the subject is recognised for the examination) which is not being taught in an affiliated school.

(v) Private candidates shall not be allowed to offer such subjects for the examinations which involve practical work except in case of candidates who had failed earlier and who had put in a regular course of study at an institution affiliated to the Board in the previous academic year. However, notwithstanding this condition, female candidates, may offer Home Science with practical.

(vi) Those regular candidates who have failed to obtain promotion to class XII of the school affiliated to the Board or any other recognised Board shall not be admitted to the Senior School Certificate Examination of the Board as private candidates.

(vii) Every year, in the beginning of the session, the Heads of School shall send to the Regional Officer concerned, a list of female and handicapped students who have been detained in Class XI containing student’s name, date of birth, the name of his father or guardian and the place of residence.
20. **Rules for Change in Subject**
   (i) Change of subject(s) in class XI may be allowed by the Head of the School but not later than 31st of October of that academic session.

   (ii) No candidate shall be permitted to change his subject of study after passing Class XI.

   (iii) The candidate shall not offer a subject in Class XII which he has not studied and passed in Class XI.

   (iv) Notwithstanding anything contained in the rule 26 (ii) & (iii) Chairman shall have the powers to allow a change in subject(s) to avoid undue hardship to the candidate provided such a request for change is made before 30th September.

21. **Submission of Migration Certificate by Private/Teacher Candidates for All India/Delhi Senior School Certificate Examination.**

   The candidates who have passed the Secondary or equivalent examination from other recognised Board/University shall be required to submit Migration Certificate from the concerned Board/University along with the examination form. However, in case a Migration Certificate is not received fifteen days before the commencement of the examination, the candidature of the candidate shall be cancelled and the admit card for appearance at the examination shall not be issued to him by the Board.
2. SCHEME OF EXAMINATIONS AND PASS CRITERIA

37. General Conditions

(i) The Scheme of Examinations and Pass Criteria for All India/Delhi Senior School Certificate Examination conducted by the Board, shall be as laid down from time to time.

(ii) Class XI examination shall be conducted by the schools themselves. Schools affiliated to the Board upto Secondary level shall also conduct the Class IX examination themselves. However, in respect of schools affiliated to the Board upto Senior Secondary level, the schools shall be provided question paper banks and marking schemes by the Board but the examination shall be conducted by the schools themselves.

(iii) The Board will conduct the external examinations at the end of Class XII. The Board will also conduct external examination at the end of Class X in respect of those students studying in schools affiliated to the Board upto Secondary level and also those students studying in Class X in the schools which are affiliated to the Board upto Senior level but wish to move out of the CBSE system for various reasons.

(iv) Class XII examination will be based on the syllabi as prescribed by the Board for Class XII from time to time.

(v) Number of papers, duration of examination and marks for each subject/paper will be as specified in the curriculum for the year.

(vi) The examination would be conducted in theory as well as in practicals, depending upon the nature of the subject(s) and the marks/grades allotted shall be as prescribed in the curriculum.

(vii) Marks/grades shall be awarded for individual subjects and the aggregate marks shall not be given.

38. Grading

(i)(a) At the Senior School Certificate Examination assessment of theory/practical papers in external subjects shall be in numerical scores. In addition to numerical scores, the Board shall indicate grades in the marks sheets issued to the candidates in case of subjects of external examinations. In case of internal assessment subjects, only grades shall be shown.

(ii) Letter grades on a nine-point scale shall be used.

(iii) The grades shall be derived from scores in case of subjects of external examination. In case of subjects of internal assessment, they shall be awarded by the schools.

(iv) The qualifying marks in each subject of external examination shall be 33% at Senior School Certificate Examination. However, at Senior School Certificate Examination, in a subject involving practical work, a candidate must obtain 33% marks in the theory and 33% marks in the practical separately in addition to 33% marks in aggregate, in order to qualify in that subject.

(v)(a) For awarding the grades for the Senior Secondary Examination, the Board shall put all the passed students in a rank order and will award grades as follows:
A-1 Top 1/8th of the passed candidates
A-2 Next 1/8th of the passed candidates
B-1 Next 1/8th of the passed candidates
B-2 Next 1/8th of the passed candidates
C-1 Next 1/8th of the passed candidates
C-2 Next 1/8th of the passed candidates
D-1 Next 1/8th of the passed candidates
D-2 Next 1/8th of the passed candidates
E Failed candidates

NOTES:
(a) Minor variation in proportion of candidates to adjust ties will be made.
(b) In case of a tie, all the students getting the same score, will get the same grade. If the
number of students at a score point need to be divided into two segments, the smaller
segment will go with the larger.
(c) Method of grading will be used in subjects where the number of candidates who have
passed is more than 500.
(d) In respect of subjects where total number of candidates passing in a subject is less than
500, the grading would be adopted on the pattern of grading and distribution in other
similar subjects.

39. Merit Certificates
(a) The Board will award Merit Certificates in each subject to the top 0.1% of candidates
passing that subject, provided that they have passed the examination as per the pass
criteria of the Board at the Senior School Certificate Examination.
(ii) The number of merit certificates for the Senior School Certificate Examination in a subject
will be determined by rounding off the number of candidates passing the subject to the
nearest multiple of thousand. If the number of candidates passing a subject is less than
500, no merit certificate will be issued.
(iii) At the Senior School Certificate Examination, in the matter of a tie, if one student gets a
merit certificate, all candidates getting that score will get the merit certificate.

40. Scheme of Examination (Senior School Certificate Examination)
(i) The Board shall conduct examination in all subjects except General Studies, Work
Experience, Physical and Health Education, which will be assessed internally by the schools.
(ii) In all subjects examined by the Board, a student will be given one paper each carrying
100 marks for 3 hours. However, in subjects requiring practical examination, there will be
a theory paper and practical examinations as required in the syllabi and courses.

(iii) In Work Experience, General Studies and Physical and Health Education, the Schools will maintain cumulative records of student's periodical achievements and progress during the year. These records are subject to the scrutiny of the Board as and when deemed fit.

(iv) A candidate from a recognised school who has some physical deformity or is otherwise unable to take part in Work Experience and Physical and Health Education, may be granted exemption by the Chairman on the recommendation of the Head of the institution, supported by the medical certificate from a Medical Officer of the rank not below an Assistant Surgeon.

(v) Private/Patrachar Vidyalaya and candidates sponsored by Adult School shall be exempted from Work Experience, General Studies and Physical and Health Education.

(vi) A candidate may offer an additional subject which can be either a language at elective level or another elective subject as prescribed in the Scheme of Studies, subject to the conditions laid down in the Pass Criteria.

40.1 Pass Criteria (Senior School Certificate Examination)

(i) A candidate will be eligible to get the pass certificate of the Board, if he/she gets a grade higher than E in all subjects of internal assessment unless he/she is exempted. Failing this, result of the external examination will be withheld but not for a period of more than one year.

(ii) In order to be declared as having passed the examination, a candidate shall obtain a grade higher than E (i.e. at least 33% marks) in all the five subjects of external examination in the main or at the end of the compartmental examination. The pass marks in each subject of external examination shall be 33%. In case of a subject involving practical work a candidate must obtain 33% marks in theory and 33% marks in practical separately in addition to 33% marks in aggregate in order to qualify in that subject.

(iii) No overall division/distinction/aggregate shall be awarded.

(iv) In respect of a candidate offering an additional subject, the following norms shall be applied:

(a) A language offered as an additional subject may replace a language in the event of a candidate failing in the same provided after replacement the candidate has English/Hindi as one of the languages.

(b) An elective subject offered as an additional subject may replace one of the elective subjects offered by the candidate. It may also replace a language provided after replacement the candidate has English/Hindi as one of the languages.

(c) Additional language offered at elective level may replace an elective subject provided after replacement, the number of languages offered shall not exceed two.
(v) Candidates exempted from one or more subjects of internal examination shall be eligible for appearing in external examination and result shall be declared subject to fulfilment of other conditions laid down in the Pass Criteria.

(vi) In order to be declared as having passed the Class XI Examination a candidate shall obtain 33% marks in all the subjects. The pass marks in each subject of examination shall be 33%. In case of subject involving practical work a candidate must obtain 33% marks in theory and 33% in practical separately in addition to 33% marks in aggregate in order to qualify in that subject.

40.2 Eligibility for Compartment in Senior School Certificate Examination

A candidate failing in one of the five subjects of external examination shall be placed in compartment in that subject provided he/she qualifies in all the subjects of internal assessment.

42. Compartment Examination for Senior School Certificate Examination

(i) (a) A candidate placed in compartment at the Senior School Certificate Examination may reappear at the compartmental examination to be held in July the same year, may avail himself/herself of Second Chance in March/April and Third Chance in July of next year. Further he/she may avail himself/herself of Fourth Chance in March/April and Fifth Chance in July of the subsequent next year. The candidate will be declared 'PASS' provided he/she qualifies the compartmental subjects in which he/she had failed.

(ii) (a) A candidate who fails to appear or fails at one or all the chances of compartment at the Senior School Certificate Examination shall be treated to have failed in the examination and shall be required to reappear in all the subjects at the subsequent annual examination of the Board as per syllabi and courses laid down for the examination concerned in order to pass the examination. The candidates' practical marks/internal assessment marks obtained in the Main examination will be carried over till the fifth chance compartmental examination. The candidate shall have the option to appear at the practical examination in the subjects involving practical or retain their previous marks in one more annual examination after the Fifth Chance Compartment.

(iii) Syllabi and Courses for the Compartmental/Improvement of Performance examinations for the Senior School Certificate/Secondary School Examinations conducted by the Board shall be the same as applicable for the candidates of full subjects appearing at the examination in the year concerned.

(iv) (a) A candidate placed in compartment at the Senior School Certificate Examination shall be allowed to appear only in those subjects in which he/she has been placed in compartment at the subsequent five chances of Compartment.

(v) For subjects involving practical work, in case the candidate who has appeared for the Secondary School Examination conducted by the Board and Senior School Certificate Examination has qualified/passed in practical/internal assessment at the main examination he/she shall appear only in theory part and previous practical/internal assessment marks
will be carried forward and accounted for. In case a candidate has not qualified/failed in practical/internal assessment he/she shall have to appear in theory and practical/internal assessment both irrespective of the fact that s/he has already qualified/cleared the theory examination.

42A. Retention of Practical Marks in Respect of Failure candidates for Senior School Certificate Examinations

(i) A candidate who has failed at the Senior School Certificate Examination in the first attempt shall be required to re-appear in all the subjects at the subsequent annual examination of the Board. He/she shall appear only in theory part and his/her previous practical marks will be carried forward and accounted for if he/she has passed in practical. In case a candidate has failed in practical he/she shall have to appear in theory and practical both. If he/she fails to pass the examination in three consecutive years, after the first attempt, he/she shall have to reappear in all the subjects including practical.

43. Additional Subject(s)

(i) A candidate who has obtained minimum Grade D in at least five subjects as per the Scheme of Studies and a Qualifying Certificate at the Secondary School Examination conducted by the Board/passed the Senior School Certificate Examination of the Board may offer an additional subject as a private candidate provided the additional subject is provided in the Scheme of Studies and is offered within six years of passing the examination of the Board. No exemption from time limit will be given after six years. Facility to appear in additional subject will be available at the annual examination only.

(ii) However, candidates appearing in six subjects at the Senior School Certificate Examination having been declared 'Pass' by virtue of securing pass marks in five subjects as per Rule 40.1(iv) may appear in the failing subject at the Compartment Examination to be held in July the same year.

44. Improvement of performance - Senior School Certificate Examination

(i) A candidate who has passed an examination of the Board may reappear for improvement of performance in the succeeding year only; however, a candidate who has passed an examination of the Board under Vocational Scheme may reappear for improvement of performance in the main examination in the succeeding year or the following year provided they have not pursued higher studies in the mean time. They will appear as private candidates. Those reappearing for the whole examination may, however, appear as regular candidates also if admitted by the school as regular students. The candidate (s) appearing for improvement of performance can appear in the subject (s) only in which they have been declared pass and not in the subject in which they have been declared fail.

(ii) For subjects involving practical work, in case the candidate has passed in practical at the main examination, he/she shall be allowed to appear in theory part only and marks in practical obtained at the main examination shall be carried forward and accounted for. In case a candidate has failed in practical, he/she shall have to appear in theory and practical both irrespective of the fact that he/she has already cleared the theory examination.
(iii) Candidates who appear for improvement of performance will be issued only Statement of Marks reflecting the marks of the improvement examination.

(iv) A candidate appearing for Improvement of Performance in one or more subjects can not appear for additional subject simultaneously.

**Examination Bye-Laws**

Rest of conditions for appearing in the examination shall be as laid down in the Examination bye laws of the Board from time to time.
3. SCHEME OF STUDIES

3.1 Academic Stream

*The learning areas will include:*

I&II Two Languages (Core/Elective) out of

Hindi, English, Assamese, Bengali, Gujrati, Kashmiri, Kannada, Marathi, Malyalam, Manipuri, Oriya, Punjabi, Sindhi, Tamil, Telugu, Urdu, Sanskrit, Arabic, Persian, Limboo, Lepcha, Bhutia, Mizo, Nepali, Tibetan, French, German, Portuguese, Russian and Spanish.

Notes:
1. Out of the languages, one shall be English or Hindi, both English and Hindi can also be offered simultaneously.
2. The languages may be offered either at Core/Elective level. The same language, however cannot be offered both at the Core level and Elective level.
3. A candidate has the freedom to offer, in lieu of one of the two languages above, any other elective subject provided under III below.

Note: English can be offered at any of the three levels given below:

1. English Core
2. English Elective
3. Functional English

III to V. Three Electives out of the following:

Note: 1. The candidate shall opt either for Computer Science or Informatics Practices. However along with either of this, they can opt for Multimedia and Web technology. Thus, a Candidate can opt for maximum of two IT based Courses.

VI. General Studies

VII. Work Experience

VIII. Physical and Health Education
Additional Subject:

A candidate can also offer an additional elective which may either be a language at elective level (out of those mentioned above) or, any other elective subject. In this respect please also refer to clause 2.5 (iv) under chapter 2.

While transacting the Curriculum due emphasis should be laid on National Identity and Value Education. Schools are expected to draw their own programmes in this area in accordance with the guidelines contained in the brochure ‘National Integration through Schools’ published by the Board, Likewise, programmes in General Studies, Work Experience and Physical and Health Education be planned in accordance with the guidelines brought out by the Board.

3.2.1 Bridges between Vocational and Academic Streams

Bridges between Commerce-based vocational courses/packages and the subjects pertaining to different disciplines under the Academic Stream have also been provided. Accordingly, Business Studies, Accountancy and other subjects can be combined, subject to meeting the obligations required under the prescribed scheme of studies, with the following areas from the commerce based Vocational Courses:

1. Typewriting in English (code no. 607)
2. Stenography in English (code no. 608)
3. Typewriting in Hindi (code no. 609)
4. Stenography in Hindi (code no. 610)
5. Marketing (code no. 613)
6. Consumer Behaviour and Protection (code no. 615)
7. Storekeeping (code no. 617)
8. Store Accounting (code no. 618)

3.2.2 These electives can be offered along with Business Studies, Accountancy and other subject to the following stipulations:

(i) Not more than two electives from the above list be offered.
(ii) These papers be not combined with the electives related to similar disciplines under the academic stream in order to avoid duplication e.g. Store Accounting (code no. 618) can not be combined with Accountancy (code no. 055)
(iii) If Stenography in Hindi or English is offered, it is obligatory to offer Hindi Typewriting or English Typewriting respectively as the case may be to make the combinations more meaningful. English Stenography, however, cannot be combined with Hindi Typewriting or corollarily Hindi Stenography with English Typewriting.

Physical & Health Education 2

* Time expected to spend outside school hours

While designing the courses it has been presumed that, given margin to vacations, public holidays and other contingencies, a minimum of 30 weeks of teaching time will be available in each session for actual instructional transaction. Accordingly, the distribution of periods over units and sub-units has been made which is only suggestive in character. The schools, keeping the overall number of periods in each subject area the same may assign more or less number of periods to individual units according to their relative importance if throughout necessary. The distribution of marks over each unit (unitwise weightage) is prescriptive, hence shall remain unchanged.

Notes: 1. Schools are expected to give adequate time for Community Service outside the school hours, the minimum being equivalent of two periods a week.
2. The Vocational Group candidates should make use of the time allotted for Work Experience for on the job training, if so required.

3.4 Medium of Instruction

The medium of instruction in general in all the schools affiliated with the board shall either be English or Hindi.

3.5 Special Adult Literacy Drive (SALD)

In pursuance of the objects of the National Literacy Mission, Government of India, a Special Adult Literacy Programme has been taken up by Board from the academic session 1991-92 beginning with classes IX & XI as a special measure to help remove illiteracy, through massive involvement of students. This has been termed as SALD. The Adult Literacy Drive has been made an essential component of Work Experience. Framework of SALD is given at Appendix ‘A’. Since this activity has to be taken up by all the schools on a compulsory basis, their attention is invited, among other things, to clauses 2 and 3 of the Framework.
PART II
COURSES OF STUDIES
1. ENGLISH (Elective) Code No: 001
Classes XI-XII

Background

The course is intended to give students a high level of competence in English with an emphasis on the study of literary texts and will provide extensive exposure to a variety of rich texts of world literature as well as to Indian writings in English, including classics, and develop sensitivity to the creative and imaginative uses of English and give them a taste for reading with delight and discernment. The course will be pitched at a level which the students may find challenging.

The course is primarily designed to equip the students to pursue higher studies in English literature and English language at the college level and prepare students to become teachers of English.

Objectives

The general objectives at this stage are:

- to provide extensive exposure to a variety of writings in English including some classics.
- to develop sensitivity to literary and creative uses of language.
- to further expand the learners’ vocabulary resources through the use of dictionary, thesaurus and encyclopaedia.
- to develop a taste for reading with discernment and delight.
- to initiate the study of formal English grammar and elementary linguistics and phonetics.
- to enable learners to translate texts from mother tongue into English and vice versa.
- to critically examine a text and comment on different aspects of it.

At the end of this stage the Elective Course would ensure that the learner

- grasps the global meaning of the text, its gist and understands how its theme and sub-theme relate.
- relates the details to the message in it; for example, how the details support a generalization or the conclusion either by classification or by contrast and comparison.
- comprehends details, locates and identifies facts, arguments, logical relationships, generalization, conclusions, etc.
- draws inferences, supplies missing details, predicts outcomes, grasps the significance of particular details and interprets what he/she reads.
- assesses the attitude and bias of the author.
- infers the meanings of words and phrases from the context; differentiates between apparent synonyms and appreciates the nuances of words.
- appreciates stylistic nuances, the lexical structure, its literal and figurative use and analyses a variety of texts.
identifies different styles of writing like humorous, satirical, contemplative, ironical and burlesque.

- does text-based writing (writing in response to questions or tasks based on prescribed as well as ‘unseen’ texts).
- develops the advanced skills of reasoning, making inferences, judgements, etc.
- develops familiarity with the poetic uses of language including features of language through which artistic effect is achieved.
- to develop sensitivity to the literary and creative uses of language.
- to further expand the learners’ vocabulary resources through the use of dictionary, thesaurus and encyclopaedia.
- to develop a taste for reading with discernment and delight.
- to initiate the study of formal English grammar and elementary linguistics and phonetics.
- to enable learners to translate texts from mother tongue into English and vice versa.
- to critically examine a text and comment on different aspects of it.

At the end of this stage the Elective Course would ensure that the learner

- grasps the global meaning of the text, its gist and understands how its theme and sub-theme relate.
- relates the details to the message in it; for example, how the details support a generalization or the conclusion either by classification or by contrast and comparison.
- comprehends details, locates and identifies facts, arguments, logical relationships, generalizations, conclusions, etc.
- draws inferences, supplies missing details, predicts outcomes, grasps the significance of particular details and interprets what he/she reads.
- assesses the attitude and bias of the author.
- infers the meanings of words and phrases from the context; differentiates between apparent synonyms and appreciates the nuances of words.
- appreciates stylistic nuances, the lexical structure, its literal and figurative use and analyses a variety of texts.
- identifies different styles of writing like humorous, satirical, contemplative, ironical and burlesque.
- does text-based writing (writing in response to questions or tasks based on prescribed as well as ‘unseen’ texts).
- develops the advanced skills of reasoning, making inferences, judgements, etc.
- develops familiarity with the poetic uses of language including features of language through which artistic effect is achieved.
Methods and Techniques

The techniques used for teaching should promote habits of self-learning and reduce dependence on the teacher. The multi-skill, learner-centred, activity based approach already recommended for the previous stages of education, is still in place, though it will be used in such a way that silent reading of prescribed/selected texts for comprehension will receive greater focus as one of the activities. Learners will be trained to read independently and intelligently, interacting actively with texts and other reference materials (dictionary, thesaurus, encyclopaedia, etc.) where necessary. Some pre-reading activity will generally be required, and course books should suggest those. The reading of texts should be followed by post reading activities. It is important to remember that every text can generate different readings. Students should be encouraged to interpret texts in different ways, present their views of critics on a literary text and express their own reactions to them. Some projects may be assigned to students from time to time. For instance, students may be asked to put together a few literary pieces on a given theme from English as well as regional literatures.

Marks Periods

1. Reading an unseen passage and poem 20 35
   (a) One literary or discursive passage of about 500-600 words followed by short questions 12
   (b) A poem of about 15 lines followed by short questions to test
interpretation and appreciation 8

2. **Writing** 20 30
   (a) To write an essay on argumentative/discursive topic (150-200 words) 10
   (b) To write a composition such as an article, report, speech (150-200 words) 10

3. **Applied Grammar** 10 10
   (a) Editing and error correction of words and sentences 05
   (b) Changing the narration of a given input 05

4. **Texts for detailed study** 40 100
   (a) Two passages or extracts followed by short answer type questions for comprehension, interpretation, drawing inferences (4 x 2) 08
   (b) Two out of three questions to be answered in 100 words each testing global comprehension (6+6) 12
   (c) Five out of six questions to be answered in about 60 words each testing comprehension, characterisation, interpretation (3+3) 4 x 5 = 20

5. **Fiction** 10 30
   (a) One out of two questions to be answered in about 60 words and/or each seeking comments, interpretation 04
   (b) One question in about 100 words to test evaluation and appreciation of characters, events, episodes and interpersonal relationships 06

**Books prescribed**

   or
2. FUNCTIONAL ENGLISH (Code No. 101)

Aims and Objectives of the Functional English Course

- to enable the learner to acquire competence in different linguistic functions
- to reinforce the various subskills related to reading, writing, listening and speaking.

The Approach to Functional English Curriculum

- A skill based communicative approach is recommended in Functional English with graded texts followed by learner centred activities.
- It is recommended that teachers consciously take a back seat, playing the role of a manager, coordinator and facilitator.

Language Skills and their Objectives

   Approach to Reading

- The course aims at introducing variety in text type rather than having short stories and prose pieces. The emphasis will have to be to enlarge the vocabulary through word building skills and to impart training in reading for specific purposes.

Specific Objectives of Reading

To develop specific study skills:

- to refer to dictionaries, encyclopedia, thesaurus and academic reference material
- to select and extract relevant information, using reading skills of skimming and scanning,
- to understand the writer’s attitude and bias.
- to comprehend the difference between what is said and what is implied.
- to understand the language of propaganda and persuasion.
- to differentiate between claims and realities, facts and opinions.
- to form business opinions on the basis of latest trends available.
- to comprehend technical language as required in computer related fields.
- to arrive at personal conclusion and comment on a given text specifically
  - to develop the ability to be original and creative in interpreting opinion
  - to develop the ability to be logically persuasive in defending one’s opinion.

To develop literary skills as enumerated below:

- to personally respond to literary texts
to appreciate and analyze special features of languages that differentiate literary texts from non-literary ones

- to explore and evaluate features of character, plot, setting etc.

- to understand and appreciate the oral, mobile and visual elements of drama

- to identify the elements of style such as humour, pathos, satire and irony etc.

**Speaking and Listening**

- Speaking needs a very strong emphasis and is an important objective leading to professional competence. Hence testing of oral skills must be made an important component of the overall testing pattern. To this end, speaking & listening skills are overtly built into the material to guide the teachers in actualization of the skills.

**Specific Objectives of Listening and Speaking or Conversation Skills (Aural/Oral)**

- to listen to lectures and talks and to be able to extract relevant and useful information for a specific purpose.

- to listen to news bulletins and to develop the ability to discuss informally on a wide ranging issues like current national and international affairs, sports, business etc.

- to respond in interviews and to participate in formal group discussions.

- to make enquiries meaningfully and adequately and to respond to enquiries for the purpose of travelling within the country and abroad.

- to listen to business news and to be able to extract relevant important information.

- to develop the art of formal public speaking.

**Writing Skills**

- The course for two years has been graded in such a way that it leads the students towards acquiring advanced writing skills through integrated tasks that move from less linguistically challenging to more challenging ones. It has been planned on the premise that sub skills of writing should be taught in a context and more emphasis should be laid on teaching the process of writing.

**Specific Objectives of Writing**

- to write letters to friends, pen friends, relatives etc.

- to write business letters and official ones.

- to send telegrams, faxes, e-mails.

- to open accounts in post offices and banks.

- to fill in railway reservation slips.

- to write on various issues to institutions seeking relevant information, lodge complaints, express thanks or tender apology.

- to write applications, fill in application forms, prepare a personal bio-data for admission into colleges, universities, entrance tests and jobs.
- to write informal reports as part of personal letters on functions, programmes and activities held in school (morning assembly, annual day, sports day etc.)
- to write formal reports for school magazines or in local newspapers on the above events or occasions.
- to write presentation of opinions, facts, arguments in the form of set speeches for debates.
- to present papers for taking part in symposia.
- to take down notes from talks and lectures and make notes from various resources for the purpose of developing the extracted ideas into sustained pieces of writing.
- to write examination answers according to the requirement of various subjects.
SECTION A
ADVANCED READING SKILLS 20 Marks 60 Periods

Two unseen passages (including poems) with a variety of questions including 04 marks for vocabulary such as word formation and inferring meaning. The total no. of words of the 2 passages should be between 650-1000 words.

1. 350-500 words in length-8 marks (for note-making and summarising) 08
2. 300-500 words in length-12 marks (04 marks for vocabulary and 08 marks for reading comprehension) 12

The passages or poems could be of any of the following types
a) Factual passages e.g. instructions, descriptions, reports
b) Discursive passages involving opinion e.g. argumentative, reflective persuasive etc.
c) Literary texts e.g. poems, extracts from fiction, biography, autobiography, travelogue etc.

In the case of a poem, the text may be shorter than 200 words.

SECTION B
EFFECTIVE WRITING SKILLS 20 Marks 50 Periods

THREE writing tasks as indicated below:

3. One out of two short writing tasks such as composing messages, notices, e-mails and factual description of people, arguing for or against a topic (50-80 words) 05

Note: Though e-mail is included as one of the writing tasks, it is suggested that it may be tested as a part of formative assessment.
4. Writing **one** out of two of the following kinds of letters on the basis of given verbal or visual input:
   a) Official letter for making inquiries, suggesting changes/registering complaints, asking for & giving information, placing orders and sending replies (80-100 words)
   b) Letters to the editor on various social, national and international issues. (120-150 words)

5. **One** out of two long and sustained writing tasks such as writing a speech or writing an article based on a verbal or a visual input (150-200 words).

**SECTION C**

**APPLIED GRAMMAR**

A variety of questions may be asked to test grammar items in context (not as isolated sentences). Though only modals, determiners, voice and tense forms are being dealt with in Class XI, other grammar items such as prepositions, verb forms, connectors which have been learnt earlier would also be included.

6. Drafting questions/questionnaires based on given input

7. Composing a dialogue based on the given input

8. Recognizing consonant and vowel values in pronunciation, stress and intonation

9. Correction of errors in sentences

**SECTION D**

**LITERATURE**

In the Literature Reader, questions will be asked to test local and global comprehension involving interpretative, inferential, evaluative and extrapolatory skills.

10. **One** out of two extracts from different poems from the Literature Reader, each followed by two or three questions to test Local and Global comprehension of ideas and language used in the text.

11. **Two** out of three short answer questions based on different poems to test theme, setting and literary devices. They may or may not be based on extracts. (80-100 words)

12. **One** out of two questions on the play from the Literature Reader to test comprehension of characters, actions and plot (80-100 words). An extract may or may not be used.

13. **Two** out of three short answer questions based on different prose texts from the Literature Reader to test global comprehension, usage, lexis and meaning (80-100 words)

14. **One** out of two extended questions based on one of the prose texts in the Literature Reader to test global comprehension and for extrapolation beyond the text (100-125 words)
Prescribed Books

Conversation Skills

(Listening and Speaking)

Conversation Skills will be tested both as part of Formative & Summative Assessment. Out of the 10 marks allotted for Conversation, 05 marks may be used for testing listening and 05 marks for testing speaking. The Conversation Skills Assessment Scale may be used for evaluation.

Listening

The examiner will read aloud either a passage on a relevant theme or a short story. The passage may be factual or discursive. The length of the passage should be around 350 words. The examinees are expected to complete the listening comprehension tasks given in a separate sheet while listening to the teacher. The tasks set may be gap-filling, multiple choice, true or false or short answer questions. There may be ten different questions for half a mark each.

Speaking

Speaking shall be tested either through narration using a sequence of pictures or through description of a picture of people or places. It may also require speaking on a given topic involving a personal experience.

NOTE :-

• The duration of the speaking test should not be less than 5 minutes.
• At the start of the examination the examiner will give the candidate some time to prepare for the task.
• Students can be asked to relate something from their personal experience such as a funny happening, the theme of a book, story of a movie seen recently etc.
• Once the candidate has started speaking, the examiner should intervene as little as possible.

Conversation Skills Assessment Scale

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>The learner</td>
<td>The learner;</td>
</tr>
<tr>
<td>1. Has general ability to understand words and phrases in a familiar context but cannot follow connected speech;</td>
<td>1. shows ability to use only isolated words and phrases but cannot operate on connected speech level;</td>
</tr>
<tr>
<td>2. Has ability to follow short connected utterances in a familiar context;</td>
<td>2. in familiar situations, uses only short connected utterances with limited accuracy;</td>
</tr>
</tbody>
</table>
3. Has ability to understand explicitly stated information in both familiar and unfamiliar contexts;

4. Understands a range of longer spoken texts with reasonable accuracy, and is able to draw inferences;

5. Shows ability to interpret complex discourse in terms of points of view; adapts listening strategies to suit purposes.

3. shows ability to use more complex utterances with some fluency in longer discourse; still makes some errors which impede communication;

4. organises and presents thoughts in a reasonably logical and fluent manner in unfamiliar situations; makes errors which do not interfere with communication;

5. can spontaneously adapt style appropriate to purpose and audience; makes only negligible errors.

**Reading Project**

Inculcating good reading habits in children has always been a concern for all stakeholders in education. The purpose is to create independent thinking individuals with the ability to not only create their own knowledge but also critically interpret, analyse and evaluate it with objectivity and fairness. This will also help students in learning and acquiring better language skills.

Creating learners for the 21st century involves making them independent learners who can 'learn, unlearn and relearn' and if our children are in the habit of reading they will learn to reinvent themselves and deal with the many challenges that lie ahead of them.

Reading is not merely decoding information or pronouncing words correctly, it is an interactive dialogue between the author and the reader in which the reader and author share their experiences and knowledge with each other which helps them to understand the text and impart meaning to the text other than what the author himself may have implied. Good readers are critical readers with an ability to arrive at a deeper understanding of not only the world presented in the book but also of the real world around them. They not only recall what they read but comprehend it too. Their critical reading and understanding of the text helps them create new understanding, solve problems, infer and make connections to other texts and experiences. Reading does not mean reading for leisure only but also for information, analysis and synthesis of knowledge. The child may be encouraged to read on topics as diverse as science and technology, politics and history. This will improve his/her critical thinking skills and also help in improving his/her concentration.

Reading any text should be done with the purpose of:-

1. reading silently at varying speeds depending on the purpose of reading;

2. adopting different strategies for different types of texts, both literary and non-literary;

3. recognising the organisation of a text:

4. identifying the main points of a text;

5. understanding relations between different parts of a text through lexical and grammatical cohesion devices.

6. anticipating and predicting what will come next.
7. deducing the meaning of unfamiliar lexical items in a given context:
8. consulting a dictionary to obtain information on the meaning and use of lexical items:
9. analysing, interpreting, inferring (and evaluating) the ideas in the text:
10. selecting and extracting from text information required for a specific purpose.
11. retrieving and synthesising information from a range of reference material using study skills such as skimming and scanning:
12. interpreting texts by relating them to other material on the same theme (and to their own experience and knowledge): and
13. reading extensively on their own for pleasure.

A good reader is most often an independent learner and consequently an independent thinker capable of taking his/her own decisions in life rationally. Such a learner will most assuredly also be capable of critical thinking.

Reading a book should lead to creative and individual response to the author's ideas presented in the book in the form of:-

- short review
- dramatisation of the story
- commentary on the characters
- critical evaluation of the plot, story line and characters
- comparing and contrasting the characters within the story and with other characters in stories by the same author or by the other authors
- extrapolating about the story's ending or life of characters after the story ends
- defending characters' actions in the story.
- making an audio story out of the novel/text to be read out to younger children.
- Interacting with the author
- Holding a literature fest where various characters interact with each other
- Acting like authors/poets/dramatists, to defend their works and characters.
- Symposiums and seminars for introducing a book, an author, or a theme
- Finding similar text in other languages, native or otherwise and looking at differences and similarities.
- Creating graphic novels out of novels/short stories read
- Dramatising incidents from a novel or a story
- Creating their own stories

1. **A Reading Project of 10 marks has been introduced in class XI.**
2. **Schools may use books of their own choice.**
3. **Schools can vary the level but at least one book per term is to be read by every child.**
Teachers may opt for:-

• One book;
• Books by one author; or
• Books of one genre; to be read by the whole class.

The Project should lead to independent learning/reading skills and hence the chosen book/selection should **not be taught** in class, but may be introduced through activities and be left for the students to read at their own pace. Teachers may, however, choose to assess a child's progress or success in reading the book by asking for verbal or written progress reports, looking at the diary entries of students, engaging in a discussion about the book, giving a short quiz or a worksheet about the book/short story. The mode of intermittent assessment may be decided by the teacher as she/he sees fit.

These may be used for Formative Assessment (F1, F2, F3 and F4) only. Various modes of assessment such as conducting Reviews, Discussions, Open Houses, Exchanges, Interact with the Author, writing script for plays can be considered.

SECTION A

ADVANCED READING SKILLS 20 Marks 60 Periods

Two unseen passages (including poems) with a variety of questions including 04 marks for vocabulary such as word formation and inferring meaning. The total range of the 2 passages including a poem or a stanza, should be around 650-1000 words.

1. 350-500 words in length (for note-making and summarising) 08
2. 300-500 words in length (4 marks for word attack skills) 12

The passages or poems could be of any one of the following types

Factual passages e.g. illustrations, description, reports

Discursive passages involving opinion e.g. argumentative, persuasive

Literary passages e.g. poems, extracts from fiction, biography, autobiography, travelogue etc.

In the case of a poem, the text may be shorter than the prescribed word limit.

SECTION B

EFFECTIVE WRITING SKILLS 25 Marks 60 Periods

3. One out of two short writing tasks such as notices, advertisements, factual description of people arguing for or against topics, places and objects, drafting posters, accepting and declining invitations. (50-80 words) 5

4. Writing one out of two letters of any of the following types based on given verbal/visual input 10

a) Official letters for making inquiries, suggesting changes-registering complaints asking for and giving information, placing orders and sending replies (80-100 words)

b) Letters to the editor on various social, national and international issues (125-150 words)
c) Application for a job including CV (Curriculum Vitae)/Resume

5. One out of two long and sustained writing task such as writing a speech, a report or writing an article based on verbal/visual input (200 words) 10

SECTION C

APPLIED GRAMMAR 20 Marks 30 Periods

Variety of questions, as listed below may be asked, involving the application of grammar items in context (i.e. not in isolated sentences). The grammar syllabus will be sampled each year. Grammar items such as modals, determiners, voice and tense forms have been dealt with in class XI. However, other items such as prepositions, verb forms, connectors which have been learnt earlier would also be included.

6. Reordering of words and sentences 5
7. Composing a dialogue based on the given input 5
8. Error correction in sentences 5
9. Drafting questions/questionnaires based on given input 5

SECTION D

LITERATURE 35 Marks 30 Periods

In the Literature Reader, questions will be asked to test comprehension at different levels and of different kinds local, global, interpretative, inferential, evaluative and extrapolatory.

10. One out of two extracts from different poems from the Literature Reader; each followed by two or three questions to test local and global comprehension of ideas and language used in the text. 7

11. Two out of the three short answer questions based on different poems to test theme, setting and literary devices. It may or may not be based on an extract. (80-100 words) 8

12. One out of two questions based on the play from the Literature Reader to test comprehension and drawing/evaluating inferences. An extract may or may not be used (80-100 words) 5

13. Two out of three short questions based on different prose texts from the Literature Reader to test global comprehension of usage & lexis and meaning (80-100 words) 8

14. One out of two extended questions based on one of the prose texts in the Literature Reader to test global comprehension and for extrapolation beyond the text (100-125 words) 7

Prescribed Books:

2. Literature Reader - Functional English published by Central Board of Secondary Education, Delhi.

45
3. ENGLISH (Core)
Code No: 301

Background

Students are expected to have acquired a reasonable degree of language proficiency in English by the time they come to class XI, and the course will aim, essentially, at promoting the higher-order language skills.

For a large number of students, the higher secondary stage will be a preparation for the university, where a fairly high degree of proficiency in English may be required. But for another large group, the higher secondary stage may be a preparation for entry into the world of work. The Core Course should cater to both groups by promoting the language skills required for academic study as well as the language skills required for the workplace.

Objectives

The general objectives at this stage are:

- to listen to and comprehend live as well as recorded oral presentations on a variety of topics,
- to develop greater confidence and proficiency in the use of language skills necessary for social and academic purposes.
- to participate in group discussions/interviews, making short oral presentations on given topics.
- to perceive the overall meaning and organisation of the text (i.e., the relationships of the different “chunks” in the text to each other).
- to identify the central/main point and supporting details, etc.
- to build communicative competence in various registers of English.
- to promote advanced language skills with an aim to develop the skills of reasoning, drawing inferences, etc. through meaningful activities.
- to translate texts from mother tongue (s) into English and vice versa.
- to develop ability and knowledge required in order to engage in independent ~ reflection and enquiry.
- to develop the capacity to appreciate literary use of English and also use English creatively and imaginatively.

At the end of this stage learners will be able to do the following:

- read and comprehend extended texts (prescribed and non-prescribed) in the following genres: fiction, science fiction, drama, poetry, biography, autobiography, travel and sports literature, etc.
- text-based writing (i.e., writing in response to questions or tasks based on prescribed or unseen texts)
- understand and respond to lectures, speeches, etc.
write expository/argumentative essays of 250-500 words, explaining or developing a topic, arguing a case, etc.

write formal/informal letters and applications for different purposes.

write items related to the workplace (minutes, memoranda, notices, summaries reports; filling up of forms, preparing CVs, e-mail messages, etc.).

taking/making notes from reference materials, recorded talks etc.

**Language Items**

The Core Course should draw upon the language items suggested for classes IX-X and delve deeper into their usage and functions. Particular attention may, however, be given to the following areas of grammar:

- the uses of different tense forms for different kinds of narration (e.g. media commentaries, reports, programmes, etc.).

- the use of passive forms in scientific and innovative writings

- converting one kind of sentence/clause into a different kind of structure as well as other items to exemplify stylistic variations in different discourses

- modal auxiliaries - uses based on semantic considerations.

**Methods and Techniques**

The techniques used for teaching should promote habits of self-learning and reduce dependence on the teacher. In general, we recommend a multi-skill, learner-centred, activity based approach, of which there can be many variations. The core classroom activity is likely to be that of silent reading of prescribed/selected texts for comprehension, which can lead to other forms of language learning activities such as role play, dramatization, group discussion, writing, etc. although many such activities could be carried out without the preliminary use of textual material. It is important that students be trained to read independently and intelligently, interacting actively with texts, with the use of reference materials (dictionaries, thesauruses, etc.) where necessary. Some pre-reading activity will generally be required, and the course books should suggest suitable activities, leaving teachers free to devise other activities when desired. So also, the reading of texts should be followed by post reading activities. It is important to remember that every text can generate different readings. Students should be encouraged to interpret texts in different ways.

Group and pair activities can be resorted to when desired, but many useful language activities can be carried out individually.

In general, teachers should encourage students to interact actively with texts and with each other. Oral activity (group discussion, etc.) should be encouraged.

Formative and Summative Assessment to be followed in all skills.

READING

Reading unseen Passages for Comprehension and Note-making 20 Marks 40 Periods

This section will have three unseen passages followed by a variety of questions. The questions will include those on vocabulary such as word formation and inferring meaning for 05 marks. The total length of the three passages shall be around 1100 words.

The passages could be any of the following three types:

(a) Factual passages e.g. instructions, descriptions, reports.
(b) Discursive passages e.g. argumentative, persuasive or reflective
(c) Literary passages e.g. excerpts from biographies, novels, poems or essays of subjective type.
Q1 and Q2 will be two unseen texts - one from prose and the other from poetry. The total length of these two texts will be around 600 words.

Each of these extracts will be for 6 marks- five marks for local, global and inferential comprehension in the form of Multiple Choice Questions and one mark for vocabulary.

Q3 will have a prose passage of about 500 words and it will be used for note making (05 marks) and testing vocabulary (03 marks)

**SECTION B**

**WRITING** 20 Marks 40 periods

4. One out of two short writing tasks based on personal response to a verbal stimulus in the form a narrative or a story. (100-150 words) 05

5. One out of two compositions based on a visual and/or verbal input (in about 150-200 words). The output may be descriptive, reflective or argumentative in nature such as an article for publication in a newspaper or a school magazine, a speech or a report either from a 3rd person point of view or as recounting of an experience/incident in the writer's life. 08

6. Writing One out of two letters based on given input. Letter types include (a) letter to the editor (giving suggestions or opinions on an issue of public interest) or (b) letter to the school or colleges authorities, regarding admissions, school issues, requirements / suitability of courses etc. 07

**SECTION C**

**GRAMMAR** 10 Marks 30 Periods

Different grammatical structures in meaningful contexts will be
tested. Item types will include gap-filling, sentence-reordering, dialogue-completion and sentence-transformation. The grammar syllabus includes determiners, tenses, clauses, modals and voice. These grammar areas will be tested using the following test types:

7. Error Correction 04
8. Editing Task 04
9. Reordering of sentences 02

SECTION D

TEXTUAL QUESTIONS 40 Marks 100 Periods

Questions on the prescribed textbooks will test comprehension at different levels: literal, inferential and evaluative based on the following prescribed text books:

Text Book 20 Marks

10. One out of two extracts based on poetry from the text to test comprehension & appreciation using four multiple choice questions. 04
11. Five out of six short answer questions on the lessons from poetry, prose and plays (at least 2 questions will be from poetry, 1 from play and the remaining from prose). (Upto 40 words) 2x5=10
12. One out of two long answer type questions based on the prose text to test global comprehension and extrapolation beyond the set text / and across two texts (Expected word limit would be about 100-125 words) 06

Supplementary Reader 10 Marks

13. One out of two long answer type questions based on Supplementary Reader to test comprehension of theme, character and incidents. (Upto 100 words) 04
14. Two out of three short answer questions on Supplementary Reader (upto 30 words) 3+3=6

Prescribed Books

2. Snapshots - Supplementary Reader published by NCERT, New Delhi.

Conversation Skills 10 marks
(Listening + Speaking)

Conversation Skills will be tested both as part of Formative & Summative Assessment. Out of the 10 marks allotted for Conversation, 05 marks may be used for testing listening and 05 marks for testing speaking. The Conversation Skills Assessment Scale may be used for evaluation.
**Listening**

The examiner will read aloud either a passage on a relevant theme or a short story. The passage may be factual or discursive. The length of the passage should be around 350 words. The examinees are expected to complete the listening comprehension tasks given in a separate sheet while listening to the teacher. The tasks set may be gap-filling, multiple choice, true or false or short answer questions. There may be ten different questions for half a mark each.

**Speaking**

Speaking shall be tested either through narration using a sequence of pictures or through description of a picture of people or places. It may also require speaking on a given topic involving a personal experience. Description of a picture (can be pictures of people or places)

**NOTE:**
- The duration of the speaking test should not be less than 5 minutes for each candidate.
- At the start of the examination the examiner will give the candidate some time to prepare for the task.
- Once the candidate has started speaking, the examiner should intervene as little as possible.
- Topics chosen should be within the personal experience of the examinee such as: relating a funny anecdote, retelling the theme of a book read or a movie seen recently.

**Conversation Skills Assessment Scale**

Reading Project

Inculcating good reading habits in children has always been a concern for all stakeholders in education. The purpose is to create independent thinking individuals with the ability to not only create their own knowledge but also critically interpret, analyse and evaluate it with objectivity and fairness. This will also help students in learning and acquiring better language skills.

Creating learners for the 21st century involves making them independent learners who can ‘learn, unlearn and relearn’ and if our children are in the habit of reading they will learn to reinvent themselves and deal with the many challenges that lie ahead of them.

Reading is not merely decoding information or pronouncing words correctly, it is an interactive dialogue between the author and the reader in which the reader and author share their experiences and knowledge with each other which helps them to understand the text and impart meaning to the text other than what the author himself may have implied. Good readers are critical readers with an ability to arrive at a deeper understanding of not only the world presented in the book but also of the real world around them. They not only recall what they read but comprehend it too. Their critical reading and understanding of the text helps them create new understanding, solve problems, infer and make connections to other texts and experiences. Reading does not mean reading for leisure only but also for information, analysis and synthesis of knowledge. The child may be encouraged to read on topics as diverse as science and technology, politics and history. This will improve his/her critical thinking skills and also help in improving his/her concentration.

Reading any text should be done with the purpose of:-

1. reading silently at varying speeds depending on the purpose of reading:
2. adopting different strategies for different types of texts, both literary and non-literary:
3. recognising the organisation of a text:
4. identifying the main points of a text;
5. understanding relations between different parts of a text through lexical and grammatical cohesion devices.
6. anticipating and predicting what will come next.
7. deducing the meaning of unfamiliar lexical items in a given context:
8. consulting a dictionary to obtain information on the meaning and use of lexical items:
9. analysing, interpreting, inferring (and evaluating) the ideas in the text:
10. selecting and extracting from text information required for a specific purpose.
11. retrieving and synthesising information from a range of reference material using study skills such as skimming and scanning:
12. interpreting texts by relating them to other material on the same theme (and to their own experience and knowledge): and
13. reading extensively on their own for pleasure.
A good reader is most often an independent learner and consequently an independent thinker capable of taking his/her own decisions in life rationally. Such a learner will most assuredly also be capable of critical thinking.

Reading a book should lead to creative and individual response to the author's ideas presented in the book in the form of:-

- short review
- dramatisation of the story
- commentary on the characters
- critical evaluation of the plot, story line and characters
- comparing and contrasting the characters within the story and with other characters in stories by the same author or by the other authors
- extrapolating about the story's ending or life of characters after the story ends
- defending characters' actions in the story.
- making an audio story out of the novel/text to be read out to younger children.
- Interacting with the author
- Holding a literature fest where various characters interact with each other
- Acting like authors/poets/dramatists, to defend their works and characters.
- Symposiums and seminars for introducing a book, an author, or a theme
- Finding similar text in other languages, native or otherwise and looking at differences and similarities.
- Creating graphic novels out of novels/short stories read
- Dramatising incidents from a novel or a story
- Creating their own stories

1. **A Reading Project of 10 marks has been introduced in class XI.**
2. **Schools may use books of their own choice.**
3. **Schools can vary the level but at least one book per term is to be read by every child.**

**Teachers may opt for:-**

- One book;
- Books by one author; or
- Books of one genre; to be read by the whole class.

The Project should lead to independent learning/reading skills and hence the chosen book/selection should **not be taught** in class, but may be introduced through activities and be left for the students to read at their own pace. Teachers may, however, choose to assess a child's progress or success in reading the book by asking for verbal or written progress reports, looking at the diary entries of
students, engaging in a discussion about the book, giving a short quiz or a worksheet about the book/short story. The mode of intermittent assessment may be decided by the teacher as she/he sees fit. These may be used for Formative Assessment (F1, F2, F3 and F4) only. Various modes of assessment such as conducting Reviews, Discussions, Open Houses, Exchanges, Interact with the Author, writing script for plays can be considered.
SECTION-A

Reading unseen Passages and Note-making 20 Marks 40 Periods

Two unseen passages with a variety of questions including 03 marks for vocabulary such as word formation and inferring meaning and 05 marks for note-making.

The total length of the two passages will be between 950-1200 words. The passages will include two of the following:

(a) Factual Passages e.g. instructions, descriptions, reports.
(b) Discursive passage involving opinion e.g. argumentative, persuasive or interpretative text.
(c) Literary passage e.g. extract from fiction, drama, poetry, essay or biography

</table>

A passage of about 600-700 words carrying 12 marks and another passage of about 350-500 words carrying 08 marks

1. A passage to test reading comprehension. The passage can be literary, factual or discursive. The length of the passage should be between 600-700 words. 12

2. A shorter passage of 350-500 words for note-making and abstraction. 08
SECTION B

Advanced Writing Skills

3. One out of two short compositions of not more than 50 words each e.g. advertisement and notices, designing or drafting posters, writing formal and informal invitations and replies.

4. A report or a factual description based on verbal input provided (one out of two) (100-125 words)

5. Writing one out of two letters based on verbal input. Letter types include:

   (a) business or official letters (for making enquiries, registering complaints, asking for and giving information, placing orders and sending replies):

   (b) letters to the editor (giving suggestions on an issue)

   (c) application for a job

6. One out of two compositions based on visual and/or verbal input (150-200 words). Output may be descriptive or argumentative in nature such as an article, or a speech.

SECTION C

Text Books

Prescribed Books:

Flamingo

7. One out of two extracts based on poetry from the text to test comprehension and appreciation

8. Three out of four short questions from the poetry section to test local and global comprehension of text.

9. Five short answer questions based on the lessons from prescribed text. (2x5)

10. One out of two long answer type questions based on the text to test global comprehension and extrapolation beyond the set text. (Expected word limit about 125-150 words each)

Vistas

11. One out of two long answer type question based on Supplementary Reader to test comprehension and extrapolation of theme, character and incidents (Expected word limit about 125-150 words)
12.  **Four** short answer questions from the Supplementary Reader (2x4)  

*Prescribed Books*

4. हिंदी (आधार) कोड सं 302

प्रस्तावना

dस्वीकृत कक्षा तक हिंदी का अध्ययन करने वाला विद्यार्थी समझते हुए पढ़ने व चुनने के साथ-साथ हिंदी में सोचने और उसे मौखिक एवं लिखित रूप में व्यक्त कर पाने की सामान्य दक्षता अर्जित कर चुका होता है। उच्चतर माध्यमिक स्तर पर आने के बाद इन सभी दक्षताओं को सामान्य से ऊपर उस स्तर तक ले जाने की दरकार होती है, जहाँ हिंदी का इस्तेमाल मिन्न-मिन्न व्यवहार-क्षेत्रों की मांगों के अनुरूप किया जा सके। आधार पाद्यक्रम साहित्यिक बोध के साथ-साथ भाषाई दक्षता के विकास को ज्यादा आह्वानित देता है। यह पाद्यक्रम उन विद्यार्थियों के लिए उपयोगी साबित होगा, जो आगे विश्वविद्यालय में अध्ययन करते हुए हिंदी को एक विषय के रूप में पढ़ें या विज्ञान/समाजविज्ञान के किसी विषय को हिंदी माध्यम से पढ़ना चाहेंगे। यह उनके लिए भी उपयोगी साबित होगा, जो उच्चतर माध्यमिक स्तर की शिक्षा के बाद किसी तरह के रोज़गार में लग जाएंगे। वहां कामकाजी हिंदी का आधारभूत अध्ययन काम आएगा। जिन विद्यार्थियों की दिलचस्पी जनसंचार माध्यमों में होगी, उनके लिए यह पाद्यक्रम एक आरंभिक पृष्ठभूमि निर्मित करेगा। इसके साथ ही यह पाद्यक्रम सामान्य रूप से तरह-तरह के साहित्य के साथ विद्यार्थियों के संबंध को सहज बनाएगा। विद्यार्थी भाषिक अभिव्यक्ति के सुक्ष्म एवं जटिल रूपों से परिचित हो सकेंगे, जो यथार्थ्य को अपने विचारों में व्यवस्थित करने के साधन के तौर पर भाषा का अधिक सार्थक उपयोग कर पाएंगे और उनमें जीवन के प्रति मानवीय संवेदना तथा सम्प्रदाय-दृष्टि का विकास हो सकेगा।

उद्देश्य

• इन माध्यमों और विधाओं के लिए उपयुक्त भाषा, प्रयोग की इस्तेमाल उनमें आ रही होगी कि वे इससे जुड़े उच्चतर पाद्यक्रमों को समझ सकेंगे।

• सामाजिक हिंसा की भाषिक अभिव्यक्ति की समझ।

• भाषा के अंदर सङ्कीर्तन संबंध की समझ।

• सूजनात्मक साहित्य को संरचना और उसका आंतरिक उद्देश्य का ध्यान का विकास तथा भाषा में सांदर्भिकता उत्पन्न करने वाली सूजनात्मक दृष्टियों की संवेदना का विकास।

• विद्यार्थियों के गीत हिंदी प्रकार की विविधताओं (धर्म, जाति, जंग, क्षेत्र भाषा संबंधी) के प्रति सकारात्मक एवं विवेकपूर्ण रूप से का विकास।
• पठन-सामग्री को भिन्न-भिन्न कोणों से आलग-आलग सामाजिक, सांस्कृतिक विषयों के परिप्रेक्ष्य में देखने का अभ्यास कराना तथा नज़रिये की एकांगिकता के प्रति आलोचनात्मक दृष्टि का विकास करना।

• विद्यार्थी में स्तरीय साहित्य की समझ और उसका आंदोल उठाने की स्पष्टति, विकास, उसमें साहित्य को अध्ययन, बनाने वाले तत्त्वों की संवेदना का विकास।

• भिन्न ज्ञानानुशासनों के विषय की भाषा के रूप में हिंदी की विशिष्ट प्रकृति और उसकी क्षमताओं का बोध।

• कामकाजी हिंदी के उपयोग के कौशल का विकास।

• संचार माध्यमों (पिंड और इलेक्ट्रॉनिक) में प्रयुक्त हिंदी की प्रकृति से परिचय और इन माध्यमों की मांगों के अनुरूप मौखिक एवं लिखित अभिव्यक्ति का विकास।

• विद्यार्थी में किसी भी अपरिवर्तित विषय से संबंधित प्राथमिक जानकारी के स्रोतों का अनुसंधान और उन्हें व्यवस्थित ढंग से उनकी मौखिक और लिखित प्रस्तुति करने की क्षमता का विकास।

शिक्षण–युक्तियों

• कुछ बारे में इस स्तर पर हिंदी शिक्षण के लक्ष्यों के संदर्भ में सामान्य रूप से कही जा सकती है। एक तो यही कि कक्षा में दबाव एवं तनाव मुक्त माहौल होने की स्थिति में ही ये लक्ष्य हासिल किए जा सकते हैं। इसके इस पादयोग के में तैयारियुद्ध उद्देश्य को कोंट्रोल करने की कोई अपेक्षा नहीं है, इसलिए चीजों को समझने और उस समझ के आधार पर उत्तर को शब्दबद्ध करने की योग्यता विकसित करना ही हमारा काम है। इस योग्यता के विकास के लिए कक्षा में विद्यार्थियों और शिक्षक के बीच निर्बाध संबंध जरूरी है। विद्यार्थी अपनी संकायों और उलझनों को जितना ही अधिक व्यक्त करेंगे, उन्होंने ही ज्यादा सफाई उनमें आ पाएगी।

• भाषा की कक्षा से समाज में मौजूद विभिन्न प्रकार के हंडों पर बातचीत का मंच बनाना चाहिए। उदाहरण के लिए संविधान में शब्द विशेष के प्रयोग पर मनाही को चर्चा का विषय बनाया जा सकता है। यह समझ जरूरी है कि छात्रों को सिर्फ सकारात्मक पाठ देने से नहीं काम चलेगा बल्कि उन्हें समझाकर भाषिक यथार्थ का सीधे सामना करवाने वाले पाठों से परिचय होना जरूरी है।
• शांकाओं और उलझनों को रखने के अलावा भी कक्षा में विद्यार्थियों को अधिक—से—अधिक बोलने के लिए प्रेरित किया जाना जरूरी है। उन्हें यह अहसास कराया जाना चाहिए कि वे पढ़त सामग्री पर राय देने का अधिकार और उसकी कार्यवाहिता रखते हैं। उनकी राय को तक्षक्षों देने और उसे बेहतर तरीके से पुनर्प्रस्तुत करने की अध्यापकीय शैली यहां बहुत उपयोगी होगी।

• विद्यार्थियों को संवाद में शामिल करने के लिए यह भी जरूरी होगा कि उन्हें एक नामीयन समूह न मानकर अलग—अलग व्यक्तियों के रूप में आहंकारित दी जाए। शिक्षक को अक्सर एक कुशल संयोजक की भूमिका में स्वयं को देखना होगा, जो किसी भी इत्यादि व्यक्ति को संवाद का भागीदार बनने से वंचित नहीं रखता, उसके कद्दु—पक्के वक्तव्य को मानक भाषा—शैली में ढाल कर उसे एक आभा देता है और मैंने को अभिव्यजना मान बैठे लोगों को मुखर होने पर बाह्य कर देता है।

• अप्रत्याशित विषयों पर हिंसा करने और सोचे हुए की मौखिक व लिखित अभिव्यक्ति करने की योग्यता का विकास शिक्षक के सचेत प्रयास से ही सम्भव है। इसके लिए शिक्षक को एक निर्णय अंतराल पर नए—नए विषय प्रस्तावित कर लेकर एवं अनुच्छेद लिखने तथा संभाषण करने के लिए पूरी कक्षा को प्रेरित करना होगा। यह अन्यथा ऐसा है, जिसमें विषयों की कोई सीमा तय नहीं की जा सकती। विषय की निस्तंभ समावेश के शीर्ष शिक्षक यह सुनिश्चित कर सकता है कि उसके विद्यार्थी किसी निवंद—संकलन या कुंजी से तैयारसुदा सामग्री को उतार भर न ले। तैयारसुदा सामग्री के लोम से, बाध्यतावश ही सही मुक्त पाकर विद्यार्थी नये तरीके से सोचने और उसे शब्दबद्ध करने के यल में सन्नद्ध होंगे। मौखिक अभिव्यक्ति पर भी विशेष ध्यान देने की जरूरत है, क्योंकि भविष्य में साक्षात्कार संगीती जैसे मौकों पर यही योग्यता विद्यार्थी के काम आती है। इसके अन्यथा के सिलसिले में शिक्षक को उचित हायमान, मानक उच्चारण, पॉज, बलाधात, हजिरजबाबी इत्यादि पर खास बल देना होगा।

• मध्य कालिन काव्य की भाषा के मर्म से विद्यार्थि का परीमाण कराने के लिए जरूरी होगा कि किताबों में आए वाक्यों को संगीतबद्दल प्रस्तुतियों के औरिजिनल—वीडियो कैसेट तैयार किए जाएं। अगर आसानी से कोई गायक/गायिका मिले तो कक्षा में मध्यकालीन साहित्य के अध्यापन—शिक्षण में उससे मदद ली जानी चाहिए।

• तृतीयक और फीचर फिल्मों को शिक्षण सामग्री के तौर पर इस्तेमाल करने की जरूरत है। इनके प्रदर्शन के क्रम में इन पर लगातार उत्तारी तो जरूर सिनेमा के माध्यम से भाषा के प्रयोग की
विशेषता की पहचान कराई जा सकती है और हिंदी की अलग-अलग छटा दिखाई जा सकती है।
विद्यार्थियों को स्तरीय परीक्षा करने को भी कहा जा सकता है।

- कक्षा में सिर्फ एक पाठ्यपुस्तक की भौतिक उपस्थिति से बेहतर यह है कि शिक्षक के हाथ में
  तरह-तरह की पाठ्यसामग्री को विद्यार्थी देख सकें और शिक्षक उनका कक्षा में अलग-अलग मौकों
  पर इस्तेमाल कर सकें।

- भाषा लगातार ग्रहण करने की क्रिया में बनती है, इसे प्रदर्शित करने का एक तरीका यह भी है कि
  शिक्षक खुद यह सिखा सकें कि वे भी शब्दकोश, साहित्यकोश, सांवर्षिक की लगातार मदद ले रहे
  हैं। इससे विद्यार्थियों में इसका इस्तेमाल करने को लेकर तत्परता बढ़ती है। अनुमान के आधार पर
  निकटतम अर्थ तक पहुँचकर संबंधित होने की जगह वे सही अर्थ की खोज करने का अर्थ समझा
  जाएंगे। इससे शब्दों की अलग-अलग रंगत का पता चलेगा और उनमें संबद्धनीतिता बढ़ती है। वे
  शब्दों के बारे में अंतर के प्रति और सजग हो पाएंगे।

- कक्षा-अध्यापन के पूरक कार्य के रूप में सेमिनार, ट्यूटोरियल कार्य, समस्या-समाधान कार्य, समूह
  चर्चा, परियोजना, कार्य, स्वाध्याय आदि पर बल दिया जाना चाहिए। पाठ्यक्रम में जनसंचार माध्यमों
  से संबंधित अंशों को देखते हुए यह जरूरी है कि समय-समय पर इन माध्यमों से जुड़े व्यक्तियों और
  विशेषज्ञों को भी स्कूल में बुलाया जाए तथा उनके देख-रेख में कार्यशालाएं आयोजित की जाएं।

घ मौखिक परीक्षण 10 अंक

श्रवण (सुनना): वृत्ति या पड़ति सामग्री को सुनकर अर्थात्मक करना, वार्तालाप, बाद-विवाद, भाषण,
कथितप्रार्थना आदि को सुनकर समझना, मूल्यांकन करना और अभिव्यक्ति के दंग को समझना। 5

बोलना: भाषण, सत्तर कथिता-पाठ, वार्तालाप और उसकी ओपनवारिकता, कार्यक्रम–प्रस्तुति, कथा–कहानी
अथवा घटना सुनना, परिचय देना, भावानुकूल संवाद-वाचन। 5

वार्तालाप की दक्षताएँ :

टिप्पणी: वार्तालाप की दक्षताओं का मूल्यांकन निरंतरता के आधार पर परीक्षा के समय होगा। निर्धारित 10 अंकों में से 5 श्रवण (सुनना) के मूल्यांकन के लिए और 5 (बोलना) के मूल्यांकन के लिए होंगे।

श्रवण (सुनना) टिप्पणी का मूल्यांकन:

परीक्षक किसी प्रासंगिक विषय पर एक अनुच्छेद का सप्त वाचन करेंगे। अनुच्छेद, तथ्यात्मक या सुझावात्मक हो सकता है। अनुच्छेद लगभग 250 शब्दों का होना चाहिए। परीक्षक/अभ्यासिक को सुनने-सुनते परीक्षार्थी
अलग कागज पर दिए हुए श्रवण-बोध के अभ्यासों को हल कर सकने।

अपना रिक्तवाक्य-पूर्ति, बहुविकल्पी अश्वर तीर्थ-गलत का चुनाव आदि विधाओं में हो सकते हैं।
आचे-आचे अंक के 10 परीक्षण-प्रश्न होंगे।

मौखिक अभिव्यक्ति (बोलना) का मूल्यांकन:

1. चित्रों के क्रम पर आधारित वर्णन: इस भाग में अपेक्षा की जाएगी कि विवरणात्मक भाषा का
प्रयोग करें।
2. किसी चित्र का वर्णन: चित्र लोगों या स्थानों के हो सकते हैं।
3. किसी निर्धारित विषय पर बोलना, जिससे विद्यार्थी/परीक्षार्थी अपने व्यक्तिगत अनुभव का प्रत्यास्मरण
कर सके।
4. कोई कहानी सुनना या किसी घटना का वर्णन करना।

टिप्पणी:

परीक्षा से पूर्व परीक्षार्थी को कृप्त तैयारी के लिए समय दिया जाए।
• विवरणात्मक भाषा में वर्तमान काल का प्रयोग अपेक्षित है।
• निर्धारित विषय परीक्षार्थी के अनुभव–जगत के हों जैसे
कोई चुटकला या हास्य प्रसंग सुनना।
हाल में पढ़ी पुस्तक या देखे सिनेमा की कहानी सुनना।
जब परीक्षार्थी बोलना आरंभ कर दे तो परीक्षक कम से कम हस्तक्षेप करें।
कोशालों के अंतरण का मूल्यांकन
(इस बात का निर्णय करना कि क्या विद्यार्थीं में श्रवण और वाचन की निम्नलिखित योग्यताएँ हैं।)

<table>
<thead>
<tr>
<th>श्रवण (सुनना)</th>
<th>वाचन (बोलना)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>विद्यार्थीं में—</strong></td>
<td><strong>विद्यार्थीं—</strong></td>
</tr>
<tr>
<td>1. परिचित संदर्भ में प्रयुक्त शब्दों और पदों को समझने की सामान्य योग्यता है किन्तु वह सुसंदर्भ असह्य को नहीं समझ पाता।</td>
<td>1. केवल अलग—अलग शब्दों और पदों के प्रयोग की योग्यता प्रदर्शित करता है किन्तु एक सुसंदर्भ स्तर पर नहीं बोल सकता।</td>
</tr>
<tr>
<td>3. छोटे संदर्भ कथनों को परिचित संदर्भ में समझने की योग्यता है।</td>

उच्चतर माध्यमिक स्तर में प्रवेश लेने वाला विद्यार्थी पहली बार सामान्य शिक्षा से विशेष अनुशासन की शिक्षा की ओर उन्मुख होता है। इस वर्ष में विद्यार्थी भाषा के कोशलों से परिचित हो जाता है। भाषा और साहित्य के स्तर पर उसका दावरा अब घर, पास-पड़ोस, स्कूल, प्रांत और देश से होता हुआ धीरे-धीरे विश्व तक फैल जाता है। वह इस उम्र में पहुँच चुका है कि देश की सांस्कृतिक, सामाजिक, राजनीतिक और आर्थिक समस्याओं पर विचार-विमर्श कर सकते, एक ज़िम्मेदार नागरिक की तरह अपनी ज़िम्मेदारियों को समझ सकते तथा देश और खुद को सही दिशा में सकने में भाषा की ताकत को पहचान सकते। ऐसे दृढ़ भाषिक और वैचारिक आधार के साथ जब विद्यार्थी आता है तो उसे विमर्श की भाषा के रूप में हिंदी की व्यापक समझ और प्रयोग में दक्ष बनाना सबसे पहला उद्देश्य होता है। किशोरावस्था से पुकारवस्था के इस नातक मोड़ पर किसी भी विषय का चुनाव करते समय बच्चे और उनके अभिव्यक्तिपूर्ण इस बात को लेकर सबसे अधिक बिल्लित रहते हैं कि चयनित विषय उनके भावी कैरियर और जीवन के अवसरों में मदद करेगा कि नहीं। इस उम्र के विद्यार्थियों में चित्रण और निर्णय करने की प्रक्ति भी प्रवल होती है। इसी आधार पर वे अपने मानसिक, सामाजिक, बौद्धिक और भाषिक विकास के प्रति भी सचेत होते हैं और अपने भावी अध्ययन की विशेषता तय करते हैं। इस स्तर पर ऐच्छिक हिंदी का अध्ययन एक सुझानालय, साहित्य, सांस्कृतिक और विभिन्न प्रमुखताओं की भाषा के रूप में होगा। इस बात पर भी वे दिया जाएगा कि निरंतर विकसित होती हिंदी के अंतर्गत भारतीय स्वरूप से बच्चे का रिस्ला बन सकें।

इस स्तर पर विद्यार्थियों में भाषा के लिखित प्रयोग के साथ-साथ उसके मौलिक प्रयोग की कुशलता और वक्ता का विकास भी ज़रूरी है। प्रयोग यह भी होगा कि विद्यार्थी अपने खिचे हुए विचारों और भाषा की सहज और मौलिक अभिव्यक्ति की क्षमता हासिल कर सकें।

इस पाठ्यक्रम के अध्ययन से (i) विद्यार्थी अपनी रचना और आवश्यकता के अनुसार भाषा का गहन और विशेष अध्ययन जारी रख सकेंगे। (ii) विश्वविद्यालय स्तर पर निर्धारित हिंदी-साहित्य से संबंधित पाठ्यक्रम के साथ सहज संबंध स्थापित कर सकेंगे। (iii) लेखन-कौशल के व्यवहारिक और सूचनालय स्तर के अभ्यासित में सक्षम हो सकेंगे। (iv) रोजगार के किसी भी क्षेत्र में जाने पर भाषा का प्रयोग प्रभावी ढंग से कर सकेंगे। और (v) यह पाठ्यक्रम विद्यार्थी को संचार तथा प्रकाशन जैसे विभिन्न-क्षेत्र में अपनी क्षमता आजमाने के अवसर प्रदान कर सकता है।
उद्देश्य

- सूचनात्मक साहित्य की सारांश, उसका आनंद उठाना और उसके प्रति सूचनात्मक और आलोचनात्मक दृष्टि का विकास।
- साहित्य की विविध विधाओं (कविता, कहानी, निबंध आदि), महत्वपूर्ण कवियों और रचनाकारों, प्रमुख धाराओं और शैलियों का परिचय कराना।
- भाषा की सूचनात्मक बारीकियों और व्यावहारिक प्रयोगों का बोध तथा संदर्भ और समय के अनुसार प्रभावशाली दंग से उसकी मौखिक और लिखित अभिव्यक्ति कर सकना।
- विभिन्न ज्ञानानुशासनों के विरंचि की भाषा के रूप में हिंदी की विशिष्ट प्रकृति एवं क्षमता का बोध कराना।
- साहित्य की प्रभावशाली क्षमता का उपयोग करते हुए सभी प्रकार की विविध विधाओं (धर्म, जाति, लिंग, वर्ग, भाषा आदि) एवं अंतरों के प्रति सकारात्मक और संवेदनशील रूपों का विकास कराना।
- देश-विदेश में प्रचलित हिंदी के रूपों से परिचय कराना।
- संचार-माध्यमों (पिंट और इलेक्ट्रॉनिक) में प्रयुक्त हिंदी की प्रकृति से अवगत कराना और नवीन विधियों के प्रयोग की क्षमता का विकास करना।
- साहित्य की व्यापक धारा के बीच रखकर विशिष्ट रचनाओं का विश्लेषण और विवेचन करने की क्षमता हासिल करना।
- विपरीत परिस्थितियों में भी भाषा का इस्तेमाल जाति के साथ करना।
- अमूर्त विषयों पर प्रयुक्त भाषा का विकास और कल्पनाशीलता और मौलिक चिंतन के लिए प्रयोग करना।

शिक्षण-युक्तियाँ:

इन कक्षाओं में उचित वातावरण-निर्माण में अध्यापकों की भूमिका सदैव सहायक की होनी चाहिए। उनके भाषा और साहित्य की पढ़ाई में इस बात पर ध्यान देने की जरूरत होगी कि—

- कक्षा का वातावरण संवादात्मक हो ताकि अध्यापक, विद्यार्थी और पुस्तक तीनों के बीच एक रिश्ता बन सके।
• गलत से सही की ओर पहुँचने का प्रयास हो। यानी बच्चों को स्वतंत्र रूप से बोलने, लिखने और पढ़ने दिया जाए और फिर उनसे होने वाली भूलें की पहचान कराने कर अध्यापक अपनी पढ़ानी की शैली में परिवर्तन करे।

• ऐसे शिक्षण-विद्युतों की पहचान की जाए, जिससे कक्षा में विद्यार्थी की सक्रिय भागीदारी रहे और अध्यापक भी उनका साथी बना रहे।

• शारीरिक वादग्रस्त विद्यार्थियों के लिए उपयुक्त शिक्षण-सामग्री का इस्तेमाल किया जाए तथा किसी भी प्रकार से उन्हें अन्य विद्यार्थियों से कमतर या अलग न समझा जाए।

• विभिन्न विद्याओं से संबंधित सूचिकार और महत्त्वपूर्ण 10 अन्य पुस्तकें—जिनका जिक्र पाठ्यपुस्तक के अंत में किया जाएगा—स्वतंत्र पढ़ने के लिए उन्हें प्रेरित किया जाए।

• कक्षा में अध्यापक को हर प्रकार की विभिन्नताओं (लिंग, धर्म, जाति, वर्ग आदि) के प्रति सकारात्मक और संवेदनशील वातावरण निर्मित करना चाहिए।

• सूजनालक्पत्ता के अंत्य के लिए विद्यार्थी से साल में कम से कम दो रचनाएं लिखवाई जाएं।

### क अपठित-बोध : (गद्यांश और काव्यांश-बोध)

1. गद्यांश पर आधारित बोध, प्रयोग, रचनांतरण, शीर्षक आदि पर लघूतरासमक प्रश्न— 15
2. काव्यांश पर आधारित पाँच लघूतरासमक प्रश्न— 05

### ख रचनात्मक तथा व्यावहारिक लेखन :

अभिव्यक्ति और माध्यम के आधार पर सूचनात्मक लेखन से संबंधित दो प्रश्न :

3. निबंध (विकल्प सहित) 10
4. कार्यलयी पत्र (विकल्प सहित) 05
5. व्यावहारिक लेखन (प्रतिवेदन, कार्यसूची, कार्यवृत्त इत्यादि) पर दो प्रश्न (5+5) 10

### ग अंतर्स - भाग-1

(20+15) 35

## काव्य-भाग:

6. दो में से एक गद्यांश की सप्रसंग व्याख्या — 08
7. कविताओं के कथा पर दो प्रश्न— (3+3) 06
8. काव्य-सौंदर्य पर दो प्रश्न— (3+3) 06
गद्य—भाग:

9. समस्त व्याख्या (दो में से एक)—
   0.4

10. पाठों की विषय वस्तु पर आधारित लीलाएँ में से दो प्रश्न—
   (3+3)  0.6

11. दो में से किसी एक लेखक/कवि का साहित्यिक परिचय—
   0.5

अंतराल : भाग 1

12. विषयवस्तु पर आधारित (लीलाएँ में से दो प्रश्न)—
   (4+4)  0.8

13. विविध विधाओं पर आधारित दो बोधात्मक प्रश्न—
   (4+3)  0.7

(घ) मौखिक परीक्षण : (एच्छिक)—

श्रवण (सुनना) : वर्णित या परिचय सामग्री को सुनकर अर्थप्रणाली करना, वार्तालाप करना, बाद—विवाद, 
भाषण, कवितापाद आदि को सुनकर समझना, मूल्यांकन करना और अभिव्यक्ति के दंग को समझना।

बोलना : भाषण, सत्तर कविता—पाठ, वार्तालाप और उसकी ओपनचरकता, कार्यक्रम—प्रस्तुति, कथा—कहानी 
अथवा घटना सुनना, परिचय देना, भावानुकूल संवाद—बाचन।

वार्तालाप की दक्षताएँ:

टिप्पणी : वार्तालाप की दक्षताओं का मूल्यांकन निरंतरता के आधार पर परीक्षा के समय ही होगा। निर्धारित 
10 अंकों में से 5 श्रवण (सुनना) के मूल्यांकन के लिए और 5 (बोलना) के मूल्यांकन के लिए होगे।

श्रवण (सुनना) का मूल्यांकन:

परीक्षक किसी प्रारंभिक विषय पर एक अनुच्छेद का स्पष्ट बाचन करेगा। अनुच्छेद तथ्यात्मक या सुझावात्मक 
हो सकता है। अनुच्छेद लगभग 250 शब्दों का होना चाहिए। अयापक को सुनते—सुनते परीक्षार्थी/परीक्षक अलग 
कागज पर लिखे जायें श्रवण वोध ने भाषाप्रार्थना के अभ्यासों को हल कर सकेंगे।

अयापक रिक्तस्थान—पूर्ति, बहुविकल्पी अथवा सत्य/असत्य का सुनाव आदि विधाओं में हो सकते हैं। प्रत्येक 
आधे अंक के लिए 1—1 परीक्षण प्रश्न होगा।

मौखिक अभिव्यक्ति (बोलना) का मूल्यांकन:

1. चित्रों के क्रम पर आधारित वर्णन : इस भाग में अपेक्षा की जाएगी कि विद्यार्थी विवरणात्मक भाषा का 
   प्रयोग करें।

2. किसी चित्र का वर्णन: चित्र लोगों या स्थानों के हो सकते हैं।

3. किसी निर्धारित विषय पर बोलना : जिससे विद्यार्थी अपने व्यक्तिगत अनुभव का प्रत्यासमरण कर 
   सकें।

4. कोई कहानी सुनना या किसी घटना का वर्णन करना।
टिप्पणी:

- परीक्षा से पूर्व परीक्षार्थी को कुछ तैयारी के लिए समय दिया जाए।
- विवरणात्मक भाषा में वर्तमान काल का प्रयोग अपेक्षित है।
- निर्धारित विषय परीक्षार्थी के अनुभव-जज्ञासा के हों। जैसे: कोई चुटकुला या हास्य प्रसंग सुनाना।
- हाल में पड़े पुस्तक या देखे हुए चलचित्र (सिनेमा) की कहानी सुनाना।
- जब परीक्षार्थी बोलना आरंभ कर दे तो परीक्षक कम से कम हस्तक्षेप करे।

6. MATHEMATICS (Code No 041)

The Syllabus in the subject of Mathematics has undergone changes from time to time in accordance with growth of the subject and emerging needs of the society. Senior Secondary stage is a launching stage from where the students go either for higher academic education in Mathematics or for professional courses like engineering, physical and Bioscience, commerce or computer applications. The present revised syllabus has been designed in accordance with National Curriculum Framework 2005 and as per guidelines given in Focus Group on Teaching of Mathematics 2005 which is to meet the emerging needs of all categories of students. Motivating the topics from real life situations and other subject areas, greater emphasis has been laid on application of various concepts.

Objectives
The broad objectives of teaching Mathematics at senior school stage intend to help the pupil:

- to acquire knowledge and critical understanding, particularly by way of motivation and visualization, of basic concepts, terms, principles, symbols and mastery of underlying processes and skills.
- to feel the flow of reasons while proving a result or solving a problem.
- to apply the knowledge and skills acquired to solve problems and wherever possible, by more than one method.
- to develop positive attitude to think, analyze and articulate logically.
- to develop interest in the subject by participating in related competitions.
- to acquaint students with different aspects of mathematics used in daily life.
- to develop an interest in students to study mathematics as a discipline.
- to develop awareness of the need for national integration, protection of environment, observance of small family norms, removal of social barriers, elimination of sex biases.
- to develop reverence and respect towards great Mathematicians for their contributions to the field of Mathematics.

100
UNIT-I: SETS AND FUNCTIONS

1. Sets:

2. Relations & Functions:
   Ordered pairs, Cartesian product of sets. Number of elements in the cartesian product of two finite sets. Cartesian product of the reals with itself (upto R x R x R). Definition of relation, pictorial diagrams, domain, co-domain and range of a relation. Function as a special kind of relation from one set to another. Pictorial representation of a function, domain, co-domain & range of a function. Real valued function of the real variable, domain and range of these functions, constant, identity, polynomial, rational, modulus, signum and greatest integer functions with their graphs. Sum, difference, product and quotients of functions.

3. Trigonometric Functions:
   Positive and negative angles. Measuring angles in radians & in degrees and conversion from one measure to another. Definition of trigonometric functions with the help of unit circle. Truth of the identity \( \sin^2 x + \cos^2 x = 1 \), for all \( x \). Signs of trigonometric functions and sketch of their graphs. Expressing \( \sin (x+y) \) and \( \cos (x+y) \) in terms of \( \sin x, \sin y, \cos x & \cos y \). Deducing the identities like the following:

\[
\tan (x \pm y) = \frac{\tan x \pm \tan y}{1 \mp \tan x \tan y}, \quad \cot (x \pm y) = \frac{\cot x \cot y \mp 1}{\cot y \pm \cot x},
\]

\[
\sin x + \sin y = 2 \sin \frac{x+y}{2} \cos \frac{x-y}{2}, \quad \cos x + \cos y = 2 \cos \frac{x+y}{2} \cos \frac{x-y}{2},
\]

\[
\sin x - \sin y = 2 \cos \frac{x+y}{2} \sin \frac{x-y}{2}, \quad \cos x - \cos y = -2 \sin \frac{x+y}{2} \sin \frac{x-y}{2},
\]

Identities related to \( \sin 2x, \cos 2x, \tan 2x, \sin3x, \cos3x \) and \( \tan3x \). General solution of trigonometric equations of the type \( \sin \theta = \sin \alpha, \cos \theta = \cos \alpha \) and \( \tan \theta = \tan \alpha \).

UNIT-II: ALGEBRA

1. Principle of Mathematical Induction:
   Processes of the proof by induction, motivating the application of the method by looking at natural numbers as the least inductive subset of real numbers. The principle of mathematical induction and simple applications.

2. Complex Numbers and Quadratic Equations:
   (10) Periods
Need for complex numbers, especially \( \sqrt{-1} \), to be motivated by inability to solve every quadratic equation. Brief description of algebraic properties of complex numbers. Argand plane and polar representation of complex numbers. Statement of Fundamental Theorem of Algebra, solution of quadratic equations in the complex number system.

3. **Linear Inequalities:**
   
   (10) Periods

   Linear inequalities. Algebraic solutions of linear inequalities in one variable and their representation on the number line. Graphical solution of linear inequalities in two variables. Solution of system of linear inequalities in two variables - graphically.

4. **Permutations & Combinations:**
   
   (12) Periods

   Fundamental principle of counting. Factorial \( n \). Permutations and combinations, derivation of formulae and their connections, simple applications.

5. **Binomial Theorem:**
   
   (08) Periods

   History, statement and proof of the binomial theorem for positive integral indices. Pascal's triangle, General and middle term in binomial expansion, simple applications.

6. **Sequence and Series:**
   
   (10) Periods

   Sequence and Series. Arithmetic progression (A.P.), arithmetic mean (A.M.) Geometric progression (G.P.), general term of a G.P., sum of \( n \) terms of a G.P., geometric mean (G.M.), relation between A.M. and G.M. Sum to \( n \) terms of the special series
   
   \[ \sum_{k=1}^{n} k, \sum_{k=1}^{n} k^2 \text{ and } \sum_{k=1}^{n} k^3 \]

**UNIT-III: COORDINATE GEOMETRY**

1. **Straight Lines:**
   
   (09) Periods

   Brief recall of 2D from earlier classes. Slope of a line and angle between two lines. Various forms of equations of a line: parallel to axes, point-slope form, slope-intercept form, two-point form, intercept form and normal form. General equation of a line. Distance of a point from a line.

2. **Conic Sections:**
   
   (12) Periods

   Sections of a cone: circle, ellipse, parabola, hyperbola, a point, a straight line and pair of intersecting lines as a degenerated case of a conic section. Standard equations and simple properties of parabola, ellipse and hyperbola. Standard equation of a circle.

3. **Introduction to Three-dimensional Geometry**
   
   (08) Periods

   Coordinate axes and coordinate planes in three dimensions. Coordinates of a point. Distance between two points and section formula.

**UNIT-IV: CALCULUS**

1. **Limits and Derivatives:**
   
   (18) Periods
Derivative introduced as rate of change both as that of distance function and geometrically, intuitive idea of limit. Definition of derivative, relate it to slope of tangent of the curve, derivative of sum, difference, product and quotient of functions. Derivatives of polynomial and trigonometric functions.

UNIT-V: MATHEMATICAL REASONING

1. **Mathematical Reasoning:** (08) Periods
Mathematically acceptable statements. Connecting words/ phrases - consolidating the understanding of "if and only if (necessary and sufficient) condition", "implies", "and/or", "implied by", "and", "or", "there exists" and their use through variety of examples related to real life and Mathematics. Validating the statements involving the connecting words-difference between contradiction, converse and contrapositive.

UNIT-VI: STATISTICS & PROBABILITY

1. **Statistics:** (10) Periods
Measures of dispersion; mean deviation, variance and standard deviation of ungrouped/grouped data. Analysis of frequency distributions with equal means but different variances.

2. **Probability:** (10) Periods
Random experiments: outcomes, sample spaces (set representation). Events: occurrence of events, 'not', 'and' and 'or' events, exhaustive events, mutually exclusive events Axiomatic (set theoretic) probability, connections with the theories of earlier classes. Probability of an event, probability of 'not', 'and' & 'or' events.

**Recommended Textbooks.**

1) Mathematics Part I - Textbook for Class XI, NCERT Publication
2) Mathematics Part II - Textbook for Class XI, NCERT Publication
UNIT I. RELATIONS AND FUNCTIONS

1. Relations and Functions : (10) Periods

Types of relations: reflexive, symmetric, transitive and equivalence relations. One to one and onto functions, composite functions, inverse of a function. Binary operations.

2. Inverse Trigonometric Functions: (12) Periods

Definition, range, domain, principal value branches. Graphs of inverse trigonometric functions. Elementary properties of inverse trigonometric functions.

UNIT-II: ALGEBRA

1. Matrices: (18) Periods

Concept, notation, order, equality, types of matrices, zero matrix, transpose of a matrix, symmetric and skew symmetric matrices. Addition, multiplication and scalar multiplication of matrices, simple properties of addition, multiplication and scalar multiplication. Non-commutativity of multiplication of matrices and existence of non-zero matrices whose product is the zero matrix (restrict to square matrices of order 2). Concept of elementary row and column operations. Invertible matrices and proof of the uniqueness of inverse, if it exists; (Here all matrices will have real entries).

2. Determinants: (20) Periods

Determinant of a square matrix (up to 3 x 3 matrices), properties of determinants, minors, cofactors and applications of determinants in finding the area of a triangle. Adjoint and inverse of a square matrix. Consistency, inconsistency and number of solutions of system of linear equations by examples, solving system of linear equations in two or three variables (having unique solution) using inverse of a matrix.
UNIT-III: CALCULUS

1. Continuity and Differentiability: (18) Periods

2. Applications of Derivatives: (10) Periods

Applications of derivatives: rate of change, increasing/decreasing functions, tangents & normals, approximation, maxima and minima (first derivative test motivated geometrically and second derivative test given as a provable tool). Simple problems (that illustrate basic principles and understanding of the subject as well as real-life situations).

3. Integrals: (20) Periods

Integration as inverse process of differentiation. Integration of a variety of functions by substitution, by partial fractions and by parts, only simple integrals of the type

\[
\int \frac{1}{x^2 + a^2} \, dx, \int \frac{dx}{\sqrt{x^2 - a^2}}, \int \frac{dx}{ax^2 + bx + c}, \int \frac{dx}{\sqrt{ax^2 + bx + c}}
\]

\[
\int \frac{px + q}{ax^2 + bx + c} \, dx, \int \frac{(px + q)}{\sqrt{ax^2 + bx + c}} \, dx, \int \sqrt{a^2 \pm x^2} \, dx \quad \text{and} \quad \int \sqrt{x^2 - a^2} \, dx
\]

to be evaluated.

Definite integrals as a limit of a sum, Fundamental Theorem of Calculus (without proof). Basic properties of definite integrals and evaluation of definite integrals.

4. Applications of the Integrals: (10) Periods

Applications in finding the area under simple curves, especially lines, areas of circles/parabolas/ellipses (in standard form only), area between the two above said curves (the region should be clearly identifiable).

5. Differential Equations: (10) Periods

Definition, order and degree, general and particular solutions of a differential equation. Formation of differential equation whose general solution is given. Solution of differential equations by method of separation of variables, homogeneous differential equations of first order and first degree. Solutions of linear differential equation of the type:

\[
\frac{dy}{dx} + py = q, \text{ where } p \text{ and } q \text{ are functions of } x.
\]
UNIT-IV: VECTORS AND THREE-DIMENSIONAL GEOMETRY

1. Vectors: (12) Periods

2. Three-dimensional Geometry: (12) Periods
   Direction cosines and direction ratios of a line joining two points. Cartesian and vector equation of a line, coplanar and skew lines, shortest distance between two lines. Cartesian and vector equation of a plane. Angle between (i) two lines, (ii) two planes. (iii) a line and a plane. Distance of a point from a plane.

UNIT-V: LINEAR PROGRAMMING

1. Linear Programming: (12) Periods
   Introduction, definition of related terminology such as constraints, objective function, optimization, different types of linear programming (L.P.) problems, mathematical formulation of L.P. problems, graphical method of solution for problems in two variables, feasible and infeasible regions, feasible and infeasible solutions, optimal feasible solutions (up to three non-trivial constraints).

UNIT-VI: PROBABILITY

1. Probability: (18) Periods
   Multiplication theorem on probability. Conditional probability, independent events, total probability, Baye's theorem, Random variable and its probability distribution, mean and variance of random variable. Repeated independent (Bernoulli) trials and Binomial distribution.

Recommended Textbooks.
1) Mathematics Part I - Textbook for Class XII, NCERT Publication
2) Mathematics Part II - Textbook for Class XII, NCERT Publication
7. PHYSICS (Code No. 042)

Senior Secondary stage of school education is a stage of transition from general education to discipline-based focus on curriculum. The present updated syllabus keeps in view the rigour and depth of disciplinary approach as well as the comprehension level of learners. Due care has also been taken that the syllabus is comparable to the international standards. Salient features of the syllabus include:

- Emphasis on basic conceptual understanding of the content.
- Emphasis on use of SI units, symbols, nomenclature of physical quantities and formulations as per international standards.
- Providing logical sequencing of units of the subject matter and proper placement of concepts with their linkage for better learning.
- Reducing the curriculum load by eliminating overlapping of concepts/content within the discipline and other disciplines.
- Promotion of process-skills, problem-solving abilities and applications of Physics concepts.

Besides, the syllabus also attempts to

- strengthen the concepts developed at the secondary stage to provide firm foundation for further learning in the subject.
- expose the learners to different processes used in Physics-related industrial and technological applications.
- develop process-skills and experimental, observational, manipulative, decision making and investigatory skills in the learners.
- promote problem solving abilities and creative thinking in learners.
- develop conceptual competence in the learners and make them realize and appreciate the interface of Physics with other disciplines.

### Unit I: Physical World and Measurement  
(Periods 10)

Physics - scope and excitement; nature of physical laws; Physics, technology and society.

Need for measurement: Units of measurement; systems of units; SI units, fundamental and derived units. Length, mass and time measurements; accuracy and precision of measuring instruments; significant figures.

Dimensions of physical quantities, dimensional analysis and its applications.

### Unit II: Kinematics  
(Periods 30)

Frame of reference. Motion in a straight line: Position-time graph, speed and velocity.

Uniform and non-uniform motion, speed and velocity - average and instantaneous

Uniformly accelerated motion, velocity-time graph and position-time graph, equations for uniformly accelerated motion (graphical treatment only).

Simple introduction to elementary concepts of differentiation and integration for describing motion.

Scalar and vector quantities: vectors, notation, equality of vectors, multiplication of vectors by a real number; addition and subtraction of vectors. Position and displacement vectors, relative velocity.

Unit vector; Resolution of a vector in a plane - rectangular components. Motion in a plane. Projectile motion, circular motion.
Unit III: Laws of Motion  

Concept of force. Inertia, Newton’s first law of motion; momentum and Newton’s second law of motion; impulse; Newton’s third law of motion. Law of conservation of linear momentum and its applications.  

Equilibrium of concurrent forces. Static and kinetic friction, laws of friction, rolling friction.  

Dynamics of uniform circular motion: Centripetal force, examples of circular motion (vehicle on level circular road, vehicle on banked road).

Unit IV: Work, Energy and Power  

Scalar product of vectors. Work done by a constant force and a variable force; kinetic energy, work-energy theorem, power.  

Potential energy, potential energy of a spring, conservative forces: conservation of mechanical energy (kinetic and potential energies); non-conservative forces: elastic collisions and elementary idea of inelastic collisions.

Unit V: Motion of System of Particles and Rigid Body  

Centre of mass of a two-particle system, Centre of mass of rigid bodies. Momentum conservation and motion centre of mass.  

Vector product of vectors; moment of a force, torque, angular momentum, conservation of angular momentum with some examples.  

Equilibrium of rigid bodies, rigid body rotation and equations of rotational motion, comparison of linear and rotational motions;  

Moment of inertia, radius of gyration. Moments of inertia for simple geometrical objects (no derivation). Only statement of parallel and perpendicular axes theorems and their applications.

Unit VI: Gravitation  

Kepler’s laws of planetary motion. The universal law of gravitation.  

Acceleration due to gravity and its variation with altitude and depth.  

Unit VII: Properties of Bulk Matter  

Elastic behaviour, Stress-strain relationship, Hooke’s law, Young’s modulus, bulk modulus, shear, modulus of rigidity.  

Pressure due to a fluid column; Pascal’s law and its applications (hydraulic lift and hydraulic brakes). Effect of gravity on fluid pressure.  

Viscosity, Stokes’ law, terminal velocity, Reynold’s number, streamline and turbulent flow. Bernoulli’s theorem and its applications.  

Surface energy and surface tension, angle of contact, application of surface tension to drops, bubbles and capillary action.
Heat, temperature, thermal expansion; specific heat capacity - calorimetry; change of state - latent heat.

Heat transfer-conduction, convection and radiation, thermal conductivity, Newton’s law of cooling.

Unit VIII: Thermodynamics

(Periods 12)

Thermal equilibrium and definition of temperature (zeroth law of thermodynamics). Heat, work and internal energy. First law of thermodynamics.

Unit IX: Kinetic Theory of Gases

(Periods 8)

Equation of state of a perfect gas, work done on compressing a gas.

Kinetic theory of gases - assumptions, concept of pressure. Kinetic energy and temperature; rms speed of gas molecules; degrees of freedom, law of equipartition of energy (statement only) and application to specific heat capacities of gases; concept of mean free path, Avogadro’s number.

Unit X: Oscillations and Waves

(Periods 28)

Periodic motion - period, frequency, displacement as a function of time. Periodic functions. Simple harmonic motion (S.H.M) and its equation; phase; oscillations of a spring—restoring force and force constant; energy in S.H.M. Kinetic and potential energies; simple pendulum—derivation of expression for its time period; free and forced (damped) oscillations (qualitative ideas only), resonance.

Practicals

Note: Every student will perform 10 experiments (5 from each section) and 8 activities (4 from each section) during the academic year.

Two demonstration experiments must be performed by the teacher with participation of students. The students will maintain a record of these demonstration experiments. Schools are advised to follow the guidelines for evaluation in practicals for Class XII.

SECTION A

Experiments
1. Use of Vernier Callipers
   (i) to measure diameter of a small spherical/cylindrical body.
   (ii) to measure dimensions of a given regular body of known mass and hence find its density.
   (iii) to measure internal diameter and depth of a given beaker/calorimeter and hence find its volume.
2. Use of screw gauge
   (i) to measure diameter of a given wire and (ii) to measure thickness of a given sheet.
3. To determine radius of curvature of a given spherical surface by a spherometer.
4. To find the weight of a given body using parallelogram law of vectors.
5. Using a simple pendulum, plot L-T and L-T^2 graphs. To find the (a) effective length of second’s pendulum using appropriate graph (b) acceleration due to gravity.
6. To study the relationship between force of limiting friction and normal reaction and to find co-efficient of friction between a block and a horizontal surface.

Activities
1. To make a paper scale of given least count, e.g. 0.2cm, 0.5cm.
2. To determine mass of a given body using a metre scale by principle of moments.
3. To plot a graph for a given set of data, with proper choice of scales and error bars.
4. To measure the force of limiting friction for rolling of a roller on a horizontal plane.
5. To study the variation in range of a jet of water with angle of projection.
6. To study the conservation of energy of a ball rolling down on inclined plane (using a double inclined plane).

SECTION B

Experiments
1. To determine Young’s modulus of elasticity of the material of a given wire.
2. To find the force constant of a helical spring by plotting graph between load and extension.
3. To study the variation in volume with pressure for a sample of air at constant temperature by plotting graphs between P and V, and between P and I/V.
4. To determine the surface tension of water by capillary rise method.
5. To determine the coefficient of viscosity of a given viscous liquid by measuring terminal velocity of a given spherical body.
6. To study the relationship between the temperature of a hot body and time by plotting a cooling curve.

7. (i) To study the relation between frequency and length of a given wire under constant tension using sonometer.

   (ii) To study the relation between the length of a given wire and tension for constant frequency using sonometer.

8. To find the speed of sound in air at room temperature using a resonance tube by two-resonance positions.

Activities

1. To observe change of state and plot a cooling curve for molten wax.

2. To observe and explain the effect of heating on a bi-metallic strip.

3. To note the change in level of liquid in a container on heating and interpret the observations.

4. To study the effect of detergent on surface tension by observing capillary rise.

5. To study the factors affecting the rate of loss of heat of a liquid.

6. To study the effect of load on depression of a suitably clamped metre scale loaded (i) at its end (ii) in the middle.

gested manstration experiments.

---

**SUGGESTED LIST OF DEMONSTRATION EXPERIMENTS**

**CLASS XI**

1. To demonstrate that a centripetal force is necessary for moving a body with a uniform speed along a circle, and that the magnitude of this force increases with increase in angular speed.

2. To demonstrate inter-conversion of potential and kinetic energy

3. To demonstrate conservation of linear momentum.

4. To demonstrate conservation of angular momentum.

5. To demonstrate the effect of angle of launch on range of a projectile.

6. To demonstrate that the moment of inertia of a rod changes with the change of position of a pair of equal weights attached to the rod.

7. To study variation of volume of a gas with its pressure at constant temperature using a doctors' syringe.

8. To demonstrate Bernoulli's theorem with simple illustrations

9. To demonstrate that heat capacities of equal masses of different materials are different.

10. To demonstrate free oscillations of different vibrating systems.

11. To demonstrate resonance with a set of coupled pendulums.

12. To demonstrate longitudinal and transverse waves.

13. To demonstrate the phenomenon of beats, due to superposition, of waves produced by two sources of sound of slightly different frequencies

---

87
14. To demonstrate resonance using an open pipe.
15. To demonstrate the direction of torque.
16. To demonstrate the law of moments.

**Total** | **70**

**Unit I: Electrostatics**

(Periods 25)

Electric Charges; Conservation of charge, Coulomb’s law–force between two point charges, forces between multiple charges; superposition principle and continuous charge distribution.

Electric field, electric field lines, electric field due to a point charge; electric dipole, electric field due to a dipole at axial and equitorial position; torque on a dipole in uniform electric field.

Electric flux, statement of Gauss’s theorem and its applications to find field due to infinitely long straight wire, uniformly charged infinite plane sheet and uniformly charged thin spherical shell (field inside and outside).

Electric potential, potential difference, electric potential due to a point charge, a dipole and system of charges; equipotential surfaces, electrical potential energy of a system of two point charges and of electric dipole in an electrostatic field.

Conductors and insulators, free charges and bound charges inside a conductor. Dielectrics and electric polarisation, capacitors and capacitance, combination of capacitors in series and in parallel, capacitance of a parallel plate capacitor with dielectric medium between the plates, energy stored in a capacitor. Van de Graaff generator.
Unit II: Current Electricity  
(Periods 22)

Electric current, flow of electric charges in a metallic conductor, drift velocity, mobility and their relation with electric current; Ohm’s law, electrical resistance, V-I characteristics (linear and non-linear), electrical energy and power, electrical resistivity and conductivity. Carbon resistors, colour code for carbon resistors; series and parallel combinations of resistors; effect of temperature on resistance.
	emf and potential difference of a cell, internal resistance of a cell, combination of cells in series and in parallel.

Kirchhoff’s laws and simple applications. Wheatstone bridge, metre bridge.

Potentiometer - principle and its applications to measure potential difference and for comparing emf of two cells; measurement of internal resistance of a cell.

Unit III: Magnetic Effects of Current and Magnetism  
(Periods 25)

Concept of magnetic field, Oersted’s experiment.

Biot - Savart law and its application to current carrying circular loop.

Ampere’s law and its applications to infinitely long straight wire. Straight and toroidal solenoids, force between two parallel current-carrying conductors-definition of ampere.

Force on a current-carrying conductor in a uniform magnetic field. Torque experienced by a current loop in uniform magnetic field; moving coil galvanometer-its current sensitivity and conversion to ammeter and voltmeter.

Force on a moving charge in uniform magnetic and electric fields. Cyclotron.

Current loop as a magnetic dipole and its magnetic dipole moment. Magnetic dipole moment of a revolving electron. Magnetic field intensity due to a magnetic dipole (bar magnet) along its axis and perpendicular to its axis. Torque on a magnetic dipole (bar magnet) in a uniform magnetic field; bar magnet as an equivalent solenoid, magnetic field lines; Earth’s magnetic field and magnetic elements. Para-, dia- and ferro - magnetic substances, with examples. Electromagnets and factors affecting their strengths. Permanent magnets.

Unit IV: Electromagnetic Induction and Alternating Currents  
(Periods 20)

Electromagnetic induction; Faraday’s law, induced emf and current; Lenz’s Law, Eddy currents.

Self and mutual inductance, displacement current.

Alternating currents, peak and rms value of alternating current/voltage; reactance and impedance; LC oscillations (qualitative treatment only), LCR series circuit, resonance; power in AC circuits, wattless current.

AC generator and transformer.

Unit V: Electromagnetic waves  
(Periods 4)

Displacement current, Electromagnetic waves and their characteristics (qualitative ideas only).
Transverse nature of electromagnetic waves.

Electromagnetic spectrum (radio waves, microwaves, infrared, visible, ultraviolet, X-rays, gamma rays) including elementary facts about their uses.

Unit VI: Optics  
(Periods 30)

Reflection of light, spherical mirrors, mirror formula. Refraction of light, total internal reflection and its applications, optical fibres, refraction at spherical surfaces, lenses, thin lens formula, lensmaker’s formula. Magnification, power of a lens, combination of thin lenses in contact. Refraction and dispersion of light through a prism, rainbow.

Optical instruments: Microscopes, astronomical telescopes (reflecting and refracting). Magnifying powers and resolving power of microscopes and astronomical telescopes.

Unit VII: Dual Nature of Matter and Radiation  
(Periods 8)

Dual nature of radiation. Photoelectric effect, Experimental observation and their significance, Hertz and Lenard’s observations; Einstein’s photoelectric equation-particle nature of light.

Matter waves-wave nature of particles, de Broglie relation. Davisson-Germer experiment.

Unit VIII: Atoms & Nuclei  
(Periods 18)

Alpha-particle scattering experiment; Rutherford’s model of atom; Bohr model, energy levels, hydrogen spectrum.

Composition and size of nucleus, atomic masses, isotopes, isobars; isotones. Radioactivity-alpha, beta and gamma particles/rays and their properties; radioactive decay law. Mass-energy relation, mass defect; binding energy per nucleon and its variation with mass number; nuclear fission, nuclear reactor, nuclear fusion.

Unit IX: Electronic Devices  
(Periods 18)

Semiconductors; semiconductor diode – I-V characteristics in forward and reverse bias, diode as a rectifier; LED, photodiode, solar cell, and Zener diode; Zener diode as a voltage regulator. Junction transistor, transistor action, characteristics of a transistor; transistor as an amplifier (common emitter configuration) and oscillator. Logic gates (OR, AND, NOT, NAND and NOR). Transistor as a switch.
Unit X: Communication Systems  
(Periods 10)

Elements of a communication system (block diagram only); bandwidth of signals (speech, TV and digital data); bandwidth of transmission medium. Propagation of electromagnetic waves in the atmosphere, sky and space wave propagation. Need for modulation. Production and detection of an amplitude-modulated wave.

Practicals

Every student will perform 10 experiments (5 from each section) & 8 activities (4 from each section) during the academic year. Two demonstration experiments must be performed by the teacher with participation of students. The students will maintain a record of these demonstration experiments.

SECTION A

Experiments

1. To determine resistance per cm of a given wire by plotting a graph of potential difference versus current.
2. To find resistance of a given wire using metre bridge and hence determine the specific resistance of its material.
3. To verify the laws of combination (series/parallel) of resistances using a metre bridge.
4. To compare the emf of two given primary cells using potentiometer.
5. To determine the internal resistance of given primary cell using potentiometer.
6. To determine resistance of a galvanometer by half-deflection method and to find its figure of merit.
7. To convert the given galvanometer (of known resistance and figure of merit) into an ammeter and voltmeter of desired range and to verify the same.
8. To find the frequency of the a.c. mains with a sonometer.

Activities

1. To measure the resistance and impedance of an inductor with or without iron core.
2. To measure resistance, voltage (AC/DC), current (AC) and check continuity of a given circuit using multimeter.
3. To assemble a household circuit comprising three bulbs, three (on/off) switches, a fuse and a power source.
4. To assemble the components of a given electrical circuit.
5. To study the variation in potential drop with length of a wire for a steady current.
6. To draw the diagram of a given open circuit comprising at least a battery, resistor/rheostat, key, ammeter and voltmeter. Mark the components that are not connected in proper order and correct the circuit and also the circuit diagram.
SECTION B

Experiments

1. To find the value of v for different values of u in case of a concave mirror and to find the focal length.
2. To find the focal length of a convex lens by plotting graphs between u and v or between l/u and l/v.
3. To find the focal length of a convex mirror, using a convex lens.
4. To find the focal length of a concave lens, using a convex lens.
5. To determine angle of minimum deviation for a given prism by plotting a graph between angle of incidence and angle of deviation.
6. To determine refractive index of a glass slab using a travelling microscope.
7. To find refractive index of a liquid by using a convex lens and plane mirror.
8. To draw the I-V characteristic curve of a p-n junction in forward bias and reverse bias.
9. To draw the characteristic curve of a zener diode and to determine its reverse break down voltage.
10. To study the characteristics of a common - emitter npn or pnp transistor and to find out the values of current and voltage gains.

Activities

1. To study effect of intensity of light (by varying distance of the source) on an L.D.R.
2. To identify a diode, an LED, a transistor, and IC, a resistor and a capacitor from mixed collection of such items.
3. Use of multimeter to (i) identify base of transistor. (ii) distinguish between npn and pnp type transistors. (iii) see the unidirectional flow of current in case of a diode and an LED. (iv) check whether a given electronic component (e.g. diode, transistor or IC) is in working order.
4. To observe refraction and lateral deviation of a beam of light incident obliquely on a glass slab.
5. To observe polarization of light using two Polaroids.
6. To observe diffraction of light due to a thin slit.
7. To study the nature and size of the image formed by (i) convex lens (ii) concave mirror, on a screen by using a candle and a screen (for different distances of the candle from the lens/mirror).
8. To obtain a lens combination with the specified focal length by using two lenses from the given set of lenses.
B. Evaluation Scheme for Practical Examination:

- One experiment from any one section 8 Marks
- Two activities (one from each section) (4+4) 8 Marks
- Practical record (experiments & activities) 6 Marks
- Record of demonstration experiments & Viva based on these experiments 3 Marks
- Viva on experiments & activities 5 Marks

| Total | 30 Marks |

SUGGESTED LIST OF DEMONSTRATION EXPERIMENTS

CLASS XII

1. To demonstrate that there are two kinds of charges and that like charges repel and unlike charges attract each other.
2. To demonstrate electrostatic shielding.
3. To demonstrate the effect on resistance of distilled water on adding sodium chloride.
4. To study the effect produced on the magnetic field pattern by bringing various materials in its surrounding space of a bar magnet.
5. To study the factors that affect the strength of an electromagnet.
6. To demonstrate repulsion/attraction between two conductors carrying current in opposite/same direction.
7. To demonstrate the production of induced emf in a coil due to the movement of (i) a magnet towards and away from it.(ii) a similar coil carrying current towards and away from it.
8. To demonstrate the working of a simple AC generator.
9. To demonstrate the linear and angular range of a given remote.
10. To demonstrate (i) the principle of a transformer by winding primary and secondary on a steel rod; and (ii) removal of eddy currents by using a laminated core.
11. To demonstrate the phenomenon of total internal reflection.
12. To demonstrate the phenomenon of interference / diffraction of light
13. To demonstrate the variation in focal length of a lens by changing medium of its surrounding.
14. To demonstrate the effect of intensity of light on LDR.
15. To demonstrate the working of logic Gates using torch bulb, battery and switches.
16. To demonstrate the universal nature of NAND / NOR Gate.

Recommended Textbooks.

1. Physics Part-I, Textbook for XII, Published by NCERT
2. Physics Part-II, Textbook for XII, Published by NCERT
8. CHEMISTRY (Code No. 043)

Rationale

Higher Secondary is the most crucial stage of school education because at this juncture specialized discipline based, content-oriented courses are introduced. Students reach this stage after 10 years of general education and opt for Chemistry with a purpose of pursuing their career in basic sciences or professional courses like medicine, engineering, technology and study courses in applied areas of science and technology at tertiary level. Therefore, there is a need to provide learners with sufficient conceptual background of Chemistry, which will make them competent to meet the challenges of academic and professional courses after the higher secondary stage.

The new and updated curriculum is based on disciplinary approach with rigour depth taking care that the syllabus is not heavy and at the same time it is comparable to the international level. The knowledge related to the subject of Chemistry has undergone tremendous changes during the past one decade. Many new areas like synthetic materials, bio-molecules, natural resources, industrial chemistry are coming in a big way and deserve to be an integral part of chemistry syllabus at senior secondary stage. At international level, new formulations and nomenclature of elements and compounds, symbols and units of physical quantities floated by scientific bodies like IUPAC and CGPM are of immense importance and need to be incorporated in the updated syllabus. The revised syllabus takes care of all these aspects. Greater emphasis has been laid on use of new nomenclature, symbols and formulations, teaching of fundamental concepts, application of concepts in chemistry to industry/technology, logical sequencing of units, removal of obsolete content and repetition etc.

OBJECTIVES

The broad objectives of teaching Chemistry at Senior Secondary Stage are to help the learners:

- to promote understanding of basic facts and concepts in chemistry while retaining the excitement of chemistry.
- to make students capable of studying chemistry in academic and professional courses (such as medicine, engineering, technology) at tertiary level.
- to expose the students to various emerging new areas of chemistry and apprise them with their relevance in their future studies and their application in various spheres of chemical sciences and technology.
- to equip students to face various changes related to health, nutrition, environment, population, weather, industries and agriculture.
- to develop problem solving skills in students.
- to expose the students to different processes used in industries and their technological applications.
- to apprise students with interface of chemistry with other disciplines of science such as physics, biology, geology, engineering etc.
- to acquaint students with different aspects of chemistry used in daily life.
- to develop an interest in students to study chemistry as a discipline.

Unit: Some Basic Concepts of Chemistry

(Periods 12)

General Introduction: Importance and scope of chemistry.

Historical approach to particulate nature of matter, laws of chemical combination, Dalton's atomic theory: concept of elements, atoms and molecules.

Atomic and molecular masses, mole concept and molar mass, percentage composition, empirical and molecular formula, chemical reactions, stoichiometry and calculations based on stoichiometry.

Unit II: Structure of Atom

(Periods 16)

Unit III: Classification of Elements and Periodicity in Properties  
(Periods 8)
Significance of classification, brief history of the development of periodic table, modern periodic law and the present form of periodic table, periodic trends in properties of elements - atomic radii, ionic radii, Ionization enthalpy, electron gain enthalpy, electronegativity, valence.

Unit IV: Chemical Bonding and Molecular structure  
(Periods 16)
Valence electrons, ionic bond, covalent bond: bond parameters, Lewis structure, polar character of covalent bond, covalent character of ionic bond, valence bond theory, resonance, geometry of covalent molecules, VSEPR theory, concept of hybridization, involving s, p and d orbital and shapes of some simple molecules, molecular orbital theory of homonuclear diatomic molecules (qualitative idea only), hydrogen bond.

Unit V: States of Matter: Gases and Liquids  
(Periods 14)
Three states of matter, intermolecular interactions, types of bonding, melting and boiling points, role of gas laws in elucidating the concept of the molecule, Boyle's law, Charles law, Gay Lussac's law, Avogadro's law, ideal behaviour, empirical derivation of gas equation, Avogadro's number, ideal gas equation. Deviation from ideal behaviour.
Liquid State- vapour pressure, viscosity and surface tension (qualitative idea only)

Unit VI: Thermodynamics  
(Periods 16)
System and types of system, surrounding, work, heat, energy, extensive and intensive properties, state functions.
First law of thermodynamics - internal energy and enthalpy, heat capacity and specific heat, measurement of \( \Delta U \) and \( \Delta H \), Hess's law of constant heat summation, enthalpies of bond dissociation, combustion, formation atomization, sublimation, phase transformation, ionization and solution.
Introduction of entropy as a state function, free energy change for spontaneous and non-spontaneous process criteria for equilibrium.

Unit VII: Equilibrium  
(Period 16)
Equilibrium in physical and chemical processes, dynamic nature of equilibrium, law of mass action, equilibrium constant, factors affecting equilibrium - Le Chatelier's principle, ionic equilibrium - ionization of acids and bases, strong and weak electrolytes, degree of ionization, concept of pH, hydrolysis of salts (elementary idea), buffer solution, solubility product, common ion effect (with illustrative examples).

Unit VIII: Redox Reactions  
(Period 6)
Concept of oxidation and reduction, redox reactions, oxidation number, balancing redox reactions, application of redox reactions.
Unit IX: Hydrogen (Period 8)

Position of hydrogen in periodic table, occurrence, isotopes, preparation, properties and uses of hydrogen, physical and chemical properties of water, heavy water, hydrogen peroxide - preparation, properties and structure, hydrogen as a fuel.

Unit X: s -Block Elements (alkali and Alkaline Earth Metals) (Periods 14)

Group 1 and Group 2 Elements

General introduction, electronic configuration, occurrence, anomalous properties of the first element of each group, diagonal relationship, trends in the variation of properties (such as ionization enthalpy, atomic and ionic radii), trends in chemical reactivity with oxygen, water, hydrogen and halogens, uses.

Preparation and Properties of Some Important Compounds:

Sodium chloride, sodium hydroxide and biological importance of sodium and potassium.
Calcium oxide and Calcium carbonate and industrial uses of lime and limestone, biological importance of Magnesium and Calcium.

Unit XI: Some p -Block Elements (Periods 16)

General Introduction to p -Block Elements

Group 13 Elements: General introduction, electronic configuration, occurrence, variation of properties, oxidation states, trends in chemical reactivity, anomalous properties of first element of the group, Boron - physical and chemical properties, some important compounds, boron hydrides, Aluminium: Reactions with acids and alkalies, uses.

Group 14 Elements: General introduction, electronic configuration, occurrence, variation of properties, oxidation states, trends in chemical reactivity, anomalous behaviour of first elements of the group, Carbon -catenation, allotropic forms, physical and chemical properties.

Important compounds of silicon and their uses: silicates and zeolites.

Unit XII: Organic Chemistry -Some Basic Principles and Technique (Periods 14)

General introduction, methods of qualitative and quantitative analysis, classification and IUPAC nomenclature of organic compounds.

Electronic displacements in a covalent bond: inductive effect, electromeric effect, resonance and hyperconjugation.

Homolytic and heterolytic fission of a covalent bond: free radicals, carbocations, carbanions, electrophiles and nucleophiles.
Unit XIII: Hydrocarbons

Classification of Hydrocarbons

Alkanes: Nomenclature, isomerism, conformation (ethane only), physical properties, chemical reactions including free radical mechanism of halogenation, combustion and pyrolysis.

Alkenes: Nomenclature, structure of double bond (ethene), geometrical isomerism, physical properties, methods of preparation, chemical reactions: addition of hydrogen, halogen, water, hydrogen halides (Markownikov's addition and peroxide effect), ozonolysis, mechanism of electrophilic addition.

Alkynes: Nomenclature, structure of triple bond (ethyne), physical properties, methods of preparation, chemical reactions: acidic character of alkynes, addition reaction with - hydrogen, halogens, hydrogen halides and water.

Unit XIV: Environmental Chemistry

Environmental pollution - air, water and soil pollution, chemical reactions in atmosphere, smog, major atmospheric pollutants, acid rain, ozone and its reactions, depletion of ozone layer and its effect, greenhouse effect and global warming - pollution due to industrial wastes, green chemistry as an alternative tool for reducing pollution, strategies for control of environment pollution.

**PRACTICALS SYLLABUS**  
**Total Periods 60**

A. **Basic Laboratory Techniques**  
(Periods 2)
1. Cutting glass tube and glass rod
2. Bending a glass tube
3. Drawing out a glass jet
4. Boring a cork

B. **Characterization and Purification of Chemical Substances**  
(Periods 6)
Crystallization of an impure sample of any one of the following: alum, copper sulphate, benzoic acid.

C. **Experiments based on pH**  
(Periods 6)
Any one of the following experiments:
" Determination of pH of some solutions obtained from fruit juices, varied concentrations of acids, bases and salts using pH paper or universal indicator.
" Comparing the pH of solutions of strong and weak acids of same concentration.

D. **Chemical Equilibrium**  
(Periods 4)
One of the following experiments:
(a) Study the shift in equilibrium between ferric ions and thiocyanate ions by increasing/decreasing the concentration of either ions.
(b) Study the shift in equilibrium between \([\text{Co(H}_2\text{O)}_6]\text{2}^+\) and chloride ions by changing the concentration of either of the ions.

E. **Thermochemistry**  
(Periods 4)
Any one of the following experiments
i) Enthalpy of dissolutions of copper sulphate or potassium nitrate.
ii) Enthalpy of neutralization of strong acid (HC1) and strong base (NaOH)
iii) Determination of enthalpy change during interaction (hydrogen bond formation) between acetone and chloroforms.
F. Quantitative estimation (Periods 16)
- Using a chemical balance.
- Preparation of standard solution of oxalic acid.
- Determination of strength of a given solution of sodium hydroxide by titrating it against standard solution of oxalic acid.
- Preparation of standard solution of sodium carbonate.
- Determination of strength of a given solution of hydrochloric acid by titrating it against standard sodium carbonate solution.

G. Qualitative Analysis (Periods 16)
Determination of one anion and one cation in a given salt

Cations - \( \text{Pb}^{2+}, \text{Cu}^{2+}, \text{As}^{3+}, \text{Al}^{3+}, \text{Fe}^{3+}, \text{Mn}^{2+}, \text{Ni}^{2+}, \text{Zn}^{2+}, \text{Co}^{2+}, \text{Ca}^{2+}, \text{Sr}^{2+}, \text{Ba}^{2+}, \text{Mg}^{2+}, \text{NH}_4^+ \)

Anions - \( \text{CO}_3^{2-}, \text{S}^{2-}, \text{SO}_3^{2-}, \text{SO}_4^{2-}, \text{NO}_2^-, \text{NO}_3^-, \text{Cl}^-, \text{Br}^-, \text{I}^-, \text{PO}_4^{3-}, \text{C}_2\text{O}_4^{2-}, \text{CH}_3\text{COO}^- \)

(Note: Insoluble salts excluded)

H. Extra Elements - nitrogen, sulphur, chlorine, bromine and iodine (Periods 10) in an organic compound

PROJECT
Scientific investigations involving laboratory testing and collecting information from other sources.
A Few suggested Projects
- Checking the bacterial contamination in drinking water by testing sulphide ion.
- Study of the methods of purification of water.
- Testing the hardness, presence of iron, fluoride, chloride etc. Depending upon the regional variation in drinking water and study of causes of presences of these ions above permissible limit (if any).
- Investigation of the foaming capacity of different washing soaps and the effect of addition of sodium carbonate on it.
- Study the acidity of different samples of tea leaves.
- Determination of the rate of evaporation of different liquids.
- Study the effect of acids and bases on the tensile strength of fibers.
- Study of acidity of fruit and vegetable juices.

Note: Any other investigatory project, which involves about 10 periods of work, can be chosen with the approval of the teacher.

**Unit I: Solid State (Periods 12)**

Classification of solids based on different binding forces: molecular, ionic, covalent and metallic solids, amorphous and crystalline solids (elementary idea), Crystal Lattices and unit cells, calculation of density of unit cell, packing in solids, voids, number of atoms per unit cell in a cubic unit cell, point defects, electrical and magnetic properties.

**Unit II: Solutions (Periods 12)**

Types of solutions, expression of concentration of solutions of solids in liquids, solubility of gases in liquids, solid solutions, colligative properties - relative lowering of vapour pressure, elevation of boiling point, depression of freezing point, osmotic pressure, determination of molecular masses using colligative properties, abnormal molecular mass.

**Unit III: Electrochemistry (Periods 14)**

Redox reactions, conductance in electrolytic solutions, specific and molar conductivity, variations
of conductivity with concentration, Kohlrausch's Law, electrolysis and law of electrolysis (elementary idea), dry cell - electrolytic cells and Galvanic cells, lead accumulator, EMF of a cell, standard electrode potential, Nernst equation and its application to chemical cells, fuel cells.

**Unit IV: Chemical Kinetics**

(Periods 12)

Rate of a reaction (Average and instantaneous), factors affecting rate of reaction: concentration, temperature, catalyst order and molecularity of a reaction, rate law and specific rate constant, integrated rate equation and half life (only for zero and first order reactions), collision theory (elementary idea, no mathematical treatment).

**Unit V: Surface Chemistry**

(Periods 8)

Adsorption - physisorption and chemisorption, factors affecting adsorption of gases on solids, colloids distinction between true solutions, colloids and suspension; lyophilic, lyophobic multimolecular and macromolecular colloids; properties of colloids; Tyndall effect, Brownian movement, electrophoresis, coagulation, emulsion - types of emulsions.

**Unit VI: General Principles and Processes of Isolation of Elements**

(Periods 8)

Principles and methods of extracting - concentration, oxidation, reduction - electrolytic method and refining; occurrence and principles of extraction of aluminium, copper, zinc and iron.

**Unit VII: p -Block Elements**

(Periods 14)

**Group -15 Elements:** General introduction, electronic configuration, occurrence, oxidation states, trends in physical and chemical properties; compounds of nitrogen: preparation and properties of ammonia and nitric acid, Phosphorous - allotropic forms, compounds of phosphorous: preparation and properties of phosphine, halides (PCI3, PCI5) and oxoacids (elementary idea only).

**Group 16 Elements:** General introduction, electronic configuration, oxidation states, occurrence, trends in physical and chemical properties, simple oxides, Ozone, Sulphure - allotropic forms; compounds of sulphure: sulphuric acid: industrial process of manufacture, properties and uses, oxoacids of sulphure (Structures only).

**Group 17 Elements:** General introduction, electronic configuration, oxidation states, occurrence, trends in physical and chemical properties; compounds of halogens, hydrochloric acid, interhalogen compounds, oxoacids of halogens (structures only).

**Group 18 Elements:** General introduction, electronic configuration, occurrence, trends in physical and chemical properties, uses.

**Unit VIII: d and f Block Elements**

(Periods 14)

General introduction, electronic configuration, occurrence and characteristics of transition metals, general trends in properties of the first row transition metals - metallic character, ionization enthalpy, oxidation states, ionic radii, colour, catalytic property, magnetic properties, interstitial compounds, alloy formation, preparation and properties of K2Cr2O7 and KMnO4.
Lanthanoids - Electronic configuration, oxidation states and lanthanoid contraction.

Actinoids - Electronic configuration, oxidation states.

Unit IX: Coordination Compounds  (Periods 12)

Coordination compounds - Introduction, ligands, coordination number, colour, magnetic properties and shapes, IUPAC nomenclature of mononuclear coordination compounds. Bonding, isomerism, importance of coordination compounds (in qualitative analysis, extraction of metals and biological system).

Unit X : Haloalkanes and Haloarenes.  (Periods 12)

Haloalkanes: Nomenclature, nature of C -X bond, physical and chemical properties, mechanism of substitution reactions.

Haloarenes: Nature of C -X bond, substitution reactions (Directive influence of halogen in monosubstituted compounds only)

Uses and environmental effects of - trichloromethane, tetrachloromethane, iodoform.

Unit XI: Alcohols, Phenols and Ethers  (Periods 12)

Alcohols: Nomenclature, methods of preparation, physical and chemical properties (of primary alcohols only), identification of primary, secondary and tertiary alcohols, mechanism of dehydration, uses of methanol and ethanol.

Phenols: Nomenclature, methods of preparation, physical and chemical properties, acidic nature of phenol, electrophilic substitution reactions, uses of phenols.

Ethers: Nomenclature, methods of preparation, physical and chemical properties, uses.

Unit XII: Aldehydes, Ketones and Carboxylic Acids  (Periods 12)

Aldehydes and Ketones: Nomenclature, nature of carbonyl group, methods of preparation, physical and chemical properties, mechanism of nucleophilic addition, reactivity of alpha hydrogen in aldehydes: uses.

Carboxylic Acids: Nomenclature, acidic nature, methods of preparation, physical and chemical properties; uses.

Unit XIII: Organic compounds containing Nitrogen  (Periods 10)

Amines: Nomenclature, classification, structure, methods of preparation, physical and chemical properties, uses, identification of primary, secondary and tertiary amines.

Cyanides and Isocyanides - will be mentioned at relevant places in context.

Diazonium salts: Preparation, chemical reactions and importance in synthetic organic chemistry.

Unit XIV: Biomolecules  (Periods 12)

Carbohydrates - Classification (aldoses and ketoses), monosaccharides (glucose and fructose), oligosaccharides (sucrose, lactose, maltose), importance.
Proteins - Elementary idea of - amino acids, peptide bond, polypeptides, proteins, structure of proteins - primary, secondary, tertiary structure and quaternary structures (qualitative idea only), denaturation of proteins.

Vitamins - Classification and functions.

Nucleic Acids: DNA and RNA.

Unit XV: Polymers (Periods 8)
Classification - natural and synthetic, methods of polymerization (addition and condensation), copolymerization, some important polymers: natural and synthetic like polythene, nylon polyesters, bakelite, rubber.

Unit XVI: Chemistry in Everyday life (Periods 8)
Chemicals in medicines - analgesics, tranquilizers antiseptics, disinfectants, antimicrobials, antifertility drugs, antibiotics, antacids, antihistamines.
Chemicals in food - preservations, artificial sweetening agents.
Cleansing agents - soaps and detergents, cleansing action.

**PRACTICALS SYLLABUS**

**A. Surface Chemistry** *(Periods 6)*

(a) Preparation of one lyophilic and one lyophobic sol
   
   Lyophilic sol - starch, egg albumin and gum
   
   Lyophobic sol - aluminium hydroxide, ferric hydroxide, arsenous sulphide.

(b) Study of the role of emulsifying agents in stabilizing the emulsion of different oils.

**B. Chemical Kinetics** *(Periods 4)*

(a) Effect of concentration and temperature on the rate of reaction between sodium thiosulphate and hydrochloric acid.

(b) Study of reaction rates of any one of the following:

   (i) Reaction of iodide ion with hydrogen peroxide at room temperature using different concentration of iodide ions.

   (ii) Reaction between potassium iodate, (KIO3) and sodium sulphite: (Na2SO3) using starch solution as indicator (clock reaction).

**C. Electrochemistry** *(Periods 2)*

Variation of cell potential in Zn/Zn²⁺||Cu²⁺/Cu with change in concentration of electrolytes (CuSO4 or ZnSO4) at room temperature.

**E. Chromatography** *(Periods 2)*

i) Separation of pigments from extracts of leaves and flowers by paper chromatography and determination of Rf values.

ii) Separation of constituents present in an inorganic mixture containing two cations only (constituents having large difference in Rf values to be provided).

**F. Preparation of Inorganic Compounds**

i) Preparation of double salt of ferrous ammonium sulphate or potash alum.
ii) Preparation of potassium ferric oxalate.

G. Preparation of Organic Compounds (Periods 4)

Preparation of any two of the following compounds

i) Acetanilide
ii) Di-benzal acetone
iii) p-Nitroacetanilide
iv) Aniline yellow or 2-Naphthol aniline dye.
v) lodoform.

H. Tests for the functional groups present in organic compounds: (Periods 6)

Unsaturation, alcoholic, phenolic, aldehydic, ketonic, carboxylic and amino (Primary) groups.

I. Characteristic tests of carbohydrates, fats and proteins in pure samples and their detection in given food stuffs. (Periods 4)

J. Determination of concentration/molarity of KMnO4 solution by titrating it against a standard solution of: (Periods 8)

i) Oxalic acid,
ii) Ferrous ammonium sulphate

(Students will be required to prepare standard solutions by weighing themselves).

K. Qualitative analysis (Periods 14)

* Determination of one cation and one anion in a given salt.

Cation - Pb₂⁺, Cu²⁺, As₃⁺, Al³⁺, Fe³⁺, Mn²⁺, Zn²⁺, Co²⁺, Ni²⁺, Ca²⁺, Sr²⁺, Ba²⁺, Mg²⁺, NH₄⁺

Anions - Co₂⁻, S²⁻, SO₃⁻, SO₄²⁻, NO₂⁻, NO₃⁻, Cl⁻, Br⁻, I⁻, PO₄³⁻, C₂O₄²⁻, CH₃COO⁻

(Note: Insoluble salts excluded)

PROJECT

Scientific investigations involving laboratory testing and collecting information from other sources.

A few suggested Projects.

• Study of the presence of oxalate ions in guava fruit at different stages of ripening.
• Study of quantity of casein present in different samples of milk.
• Preparation of soybean milk and its comparison with the natural milk with respect to curd formation, effect of temperature, etc.
• Study of the effect of potassium bisulphate as food preservative under various conditions (temperature, concentration, time etc.)
• Study of digestion of starch by salivary amylase and effect of pH and temperature on it.
• Comparative study of the rate of fermentation of following materials: wheat flour, gram flour, potato juice, carrot juice etc.

• Extraction of essential oils present in Saunf (aniseed), Ajwain (carum), Illaichi (cardamom).

• Study of common food adulterants in fat, oil, butter, sugar, turmeric powder, chilli powder and pepper.

Note: Any investigatory project, which involves about 10 periods of work, can be chosen with the approval of the teacher.

Recommended Textbooks.

1. Chemistry Part -I, Published by NCERT, 2007
2. Chemistry Part -II, Published by NCERT, 2007
9. BIOLOGY (Code No. 044)

The present syllabus reinforces the ideas introduced in the lower classes while the students learn new concepts besides getting an exposure to contemporary areas of the subject. The syllabus also aims at emphasizing on the underlying principles that are common to both animals and plants as well as highlighting the relationship of biology with other areas of knowledge. The format of the syllabus allows a simple, clear, consequential flow of concepts without any jarring jumps. The syllabus also stresses on the connection of the study of Biology to real life problems, use of biological discoveries/innovations in everyday life - in environment, industry, health and agriculture. The updated syllabus also focuses on reducing the curriculum load while ensuring that ample opportunities and scope for learning and appreciating basic concepts of the subject continue to be available within its framework.

The prescribed syllabus is expected to

- promote understanding of basic principles of biology
- encourage learning of emerging knowledge and its relevance to individual and society
- promote rational/specific attitude to issues related to population, environment and development
- enhance awareness about environmental issues and problems and the appropriate solutions
- create awareness amongst the learners about variations amongst the living, and developing respect for the diversities and to appreciate that the most complex biological phenomena are also built on essentially simple processes.

It is expected that the students would get an exposure to various branches of Biology in the syllabus in a more contextual and friendly manner as they study its various units.

I Diversity in Living World  
(25 Periods)

Diversity of living organisms
Classification of the living organisms (five kingdom classification, major groups and principles of classification within each kingdom).
Systematics and binomial System of nomenclature
Salient features of animal (non-chordates up to phylum level and chordates up to class level) and plant (major groups; Angiosperms up to class) classification, viruses, viroids, lichens Botanical gardens, herbaria, zoological parks and museums.

II **Structural Organisation in Animals and Plants**

(30 Periods)

Tissues in animals and plants.

Morphology, anatomy and functions of different parts of flowering plants: Root, stem, leaf, inflorescence, flower, fruit and seed.

Morphology, anatomy and functions of different systems of earthworm cockroach and frog.

III **CELL: STRUCTURE AND FUNCTION**

(40 Periods)

Cell: Cell theory; Prokaryotic and Eukaryotic cell, cell wall, cell membrane and cell organelles’ (plastids, mitochondria, endoplasmic reticulum, Golgi bodies/dictyosomes, ribosomes, lysosomes, vacuoles, centrioles) and nuclear organization.

Mitosis, meiosis, cell cycle.

Basic chemical constituents of living bodies.

Structure and functions of carbohydrates, proteins, lipids and nucleic acids.

Enzymes: types, properties and function.

IV **Plant Physiology**

(40 Periods)

Movement of water, food, nutrients and gases, water relations, mineral nutrition, Respiration, Photosynthesis, Plant growth and development.

V **Human Physiology**

(45 Periods)

Digestion and absorption.

Breathing and respiration.

Body fluids and circulation.

Excretory products and elimination.

Locomotion and movement.

Neural control and coordination, chemical coordination and regulation.

*Recommended Textbook.*

Biology textbook for Class XI, Published by NCERT

*Practicals*

Time: 3 Hours

Marks : 30

60 Periods

1. Experiments and spotting
   20 marks

2. Record of one investigatory project and Viva based on the project
   5 marks

3. Class record and Viva, based on experiments
   5 marks

   30 marks
A. List of Experiments

1. Study and describe three locally available common flowering plants from each of the following families (Solanaceae, Fabaceae and Liliaceae) Types of root (tap or adventitious), stem (herbaceous/woody) leaf arrangement/shapes/venation/simple or compound).

2. Preparation and study of T.S. of dicot and monocot root and stem (only primary structure).

3. Study of osmosis by potato osmometer.

4. Study of plasmolysis in epidermal peels (e.g. Rhoeo leaves).

5. Study of distribution of stomata in the upper and lower surface of leaves and calculate the stomatal index \( \frac{\text{No of stomata}}{\text{no of stomata} + \text{no of epidermal cells}} \times 100 \)

6. Comparative study of the rates of transpiration in the upper and lower surface of leaves.

7. Test for the presence of sugar, starch, proteins and fats in suitable plant and animal materials (e.g., wheat, potato, groundnut, milk or other such suitable materials)

8. To separate chlorophyll pigment through paper chromatography.

9. To study the rate of respiration in flower buds and germinating seeds.

10. To study effect of salivary amylase on starch.

11. To test the presence of urea, sugar, albumin and bile salts in urine sample (simulated samples may be used).

B. Study/observation of the following (spotting)

1. Study parts of a compound microscope.

2. Study of the specimens and identification with reasons-Bacteria, Oscillatoria, Spirogyra, Rhizopus, Mushroom, Yeast, Liverwort, Moss, Fern, Pines, one monocotyledon and one dicotyledon and one lichen.

4. Study of the diversity in shape and size of cells in different plant and animal tissues (e.g., palisade, parenchyma, collenchyma, sclerenchyma, xylem, phloem, squamous epithelium, muscle fibres and mammalian blood smear) through temporary/permanent slides.

5. Study of mitosis in onion root tip cells.

6. Study of different modifications in root, stem and leaves.

7. Study and identify different types of inflorescences.

8. Study of imbibition in seeds/raisins.

9. Observation and comments on the experimental set up on:
   a. Anaerobic respiration
   b. Phototropism
   c. Apical bud removal
   d. Suction due to transpiration
10. To study human skeleton and different types of joints.

**UNIT-VI REPRODUCTION**  
(35 Periods)

*Human reproduction*: Reproductive system in male and female, menstrual cycle, production of gametes, fertilization, implantation, embryo development, pregnancy, parturition and lactation.

*Reproductive Health*: Problems and strategies, Population and birth control, contraception and MTP; sexually transmitted diseases, infertility.

**UNIT-VII GENETICS AND EVOLUTION**  
(45 Periods)

Mendelian inheritance.

Chromosome theory of inheritance, deviations from Mendelian ratio (gene interaction- incomplete dominance, co-dominance, multiple alleles).

Sex determination in human beings: XX, XY.

Linkage and crossing over.

Inheritance pattern: Mendelian disorders and chromosomal disorders in humans.

DNA and RNA, search for genetic material, replication, transcription, genetic code, translation.

Gene expression and regulation.

Genome and Human Genome Project.

DNA fingerprinting.

UNIT -VIII BIOLOGY AND HUMAN WELFARE (35 Periods)

Basic concepts of immunology, vaccines.
Pathogens, Parasites
Cancer and AIDS
Adolescence and drug / alcohol abuse.
Plant breeding, tissue culture, single cell protein, food production, animal husbandry.
Microbes in household food processing, industrial production, sewage treatment, energy generation, biocontrol agents and biofertilizers.

UNIT -IX BIOTECHNOLOGY AND ITS APPLICATION (30 Periods)

Principles and Processes; Recombinant DNA technology; Applications in Health and Agriculture; genetically modified (GM) organisms; biosafety issues.

UNIT -X ECOLOGY & ENVIRONMENT (35 Periods)

Ecosystems: components, types, energy flow, nutrient cycling and ecosystem services.

Environmental issues.

List of Experiments

1. Disect the given flower and display different whorls. Disect anther and ovary to show number of chambers.
2. Study pollen germination on a slide.
3. Collect and study soil from at least two different sites and study these for texture, moisture content, pH and water holding capacity of soil. Correlate with the kinds of plants found in them.
4. Collect water from two different water bodies around you and study the samples for pH, clarity and presence of any living organisms.
5. Study the presence of suspended particulate matter in air at the two widely different sites.
6. Study of plant population density by quadrat method.
7. Prepare a temporary mount of onion root tip to study mitosis.
8. To study the effect of the different temperatures and three different pH on the activity of salivary amylase on starch.

**Study/observation of the following (Spotting)**

1. Study of flowers adapted to pollination by different agencies (wind, insect)
2. Study of pollen germination on stigma through a permanent slide.
3. Study and identify stages of gamete development i.e. T.S. testis and T.S. ovary through permanent slides. (from any mammal)
4. Study meiosis in onion bud cell or grasshopper testis through permanent slide.
5. Study of T.S. of blastula through permanent slide.
6. Study Mendelian inheritance using seeds of different colour/size of any plant.
7. Study prepared pedigree charts of genetic traits such as rolling of tongue, blood groups, widow’s peak, colour blindness.
8. Exercise on controlled pollination-Emasculation, tagging and bagging.
9. To identify common disease causing organisms like *Ascaris, Entamoeba, Plasmodium, Ringworm* through permanent slide or specimen. Comment on symptoms of diseases that they cause.
10. Study two plants and two animals found in xeric conditions. Comment upon their adaptations/morphological features
11. Study plants and animals found in aquatic conditions. Comment upon their adaptations/morphological features.
10. BIOTECHNOLOGY (Code No. 045)

An unprecedented growth of human knowledge in the field of Biological Sciences coupled with equally significant developments in the field of technology have brought significant changes into existing social and economic systems. The emerging field of Biotechnology is likely to further enhance the applications of Science and Technology in the service of human welfare. Modern Biotechnology processes encompass a wide range of new products such as antibiotics, vaccines, monoclonal antibodies and many more. Furthermore, developments in recombinant DNA technology have yielded numerous new useful products in the fields of healthcare and agriculture. The present syllabus takes care of all these aspects. Due emphasis has been laid on familiarizing the learners with the fundamental concepts, basic techniques and their applications. It is expected that the knowledge gained through the study of different topics and the skills acquired through the prescribed practical work will make the learners competent to meet the challenges of academic as well as professional courses after studying the subject at senior secondary stage.

OBJECTIVES

The broad objectives of teaching Biotechnology at senior secondary level are:

- To help the learners know and understand basic facts and concepts in the subject at elementary stage.
- To expose the students to different basic processes and basic techniques used in Biotechnology.
- To familiarize the learners to understand the relationship of the subject to health, nutrition, environment, agriculture and industry etc.
- To develop conceptual competence in the learners so as to cope up with professional courses in future career.
- To acquaint students with different applications of Biotechnology in everyday life.
- To develop an interest in students to study biotechnology as a discipline.
Course Structure
Class XI
(Theory)

One Paper (Three Hours) 70 Marks (180 Periods)

Unit I Biotechnology Within Your Reach 5 Marks (20 Periods)

Chapter I: Introduction to Biotechnology

- Historical Perspectives
- Production Strategies in Biotechnology
- Quality Control
- Product Safety
- Good Manufacturing Practices
- Good Laboratory Practices
- Intellectual Property
- Public Perception
- Global market
- Biotechnology in India and Global Trends

Unit II Biomolecules 20 Marks (50 Periods)

Chapter I: Building Blocks of Biomolecules Structure and Dynamics 8 Marks (20 Periods)

- Building Blocks of Carbohydrates - Sugars and Their Derivatives
- Building Blocks of Proteins - Amino Acids
- Building Blocks of Lipids - Simple Fatty Acids, Sphingosine, Glycerol and Cholesterol
- Building Blocks of Nucleic Acids - Nucleotides
- Biochemical Transformations

Chapter II: Structure and Function of Macromolecules 7 Marks (20 Periods)

- Carbohydrates - The Energy Givers
- Proteins - The Performers
- Enzymes - The Catalysts
- Lipids and Biomembranes - The Barriers
- Nucleic Acids - The Managers

Chapter III: Biochemical Techniques 5 Marks (10 Periods)

- Techniques Based on Molecular Weight or Size
- Techniques Based on Polarity or Charge
- Techniques Based on Spectroscopy
- Techniques Based on Solubility

Unit III Cell and Development 20 Marks (50 Periods)

Chapter I: The Basic Unit of Life 8 Marks (20 Periods)

- Cell Structure and Components
Tissues and Organs
Stem cells
Biodiversity
Organization of Life

Chapter II : Cell Growth and Development 7 Marks (20 Periods)
Cell Division
Cell Cycle
Cell Communication
Movement
Nutrition
Gaseous Exchanges
Internal Transport
Maintaining the Internal Environment
Reproduction

In vitro Fertilization
Animal and Plant Development
Immune Response in Animals
Programmed Cell Death
Defense Mechanisms in Plants

Chapter III : Cellular Techniques 5 Marks (10 Periods)
Microscopy
Cell Sorting
Cell Fractionation
Cell Growth Determination

Unit IV Genetics and Molecular Biology 25 (60 Periods)

Chapter I : Principles of Genetics 10 Marks (25 Periods)
Historical Perspective
Multiple Alleles
Linkage and Crossing Over
Genetic Mapping
Gene Interaction
Sex-Linked Inheritance
Extranuclear Inheritance
Quantitative Inheritance
Genes at Population Level
Discovery of DNA as Genetic Material
Mutations
DNA Repair
Genetic Disorders
Chapter II: Genome Function  

Genome Organization  
DNA Replication  
Fine Structure of Genes  
From Gene to Protein  
Transcription - The Basic Process  
Genetic Code  
Translation  
Regulation of Gene Expression

Chapter III: Genetical Techniques  

Chromosomal Techniques  
Mutagenic Techniques  
Recombination in Bacteria  
Breeding Methods in Plants  
Pedigree Analysis in Humans

PRACTICALS  

Note: Every student is required to do the following experiments during the academic session.

1. Preparation of buffers and pH determination.  
2. Sterilization techniques (Wet and Dry Sterilization, Chemical sterilization and Ultrafiltration).  
4. Isolation of bacteria from curd and staining of bacteria.  
5. Determination of bacterial growth curve.  
7. Preparation of Karyotype.  
9. Isolation of genomic DNA.  
10. Detection of DNA by gel electrophoresis.  
11. Isolation of milk protein (casein).  
13. Assaying the enzyme acid phosphate.  

Scheme of Evaluation:

Time: 3 Hours  

The scheme of evaluation at the end of session will be as under:

Two experiments : 20 Marks  
Viva on experiments : 5 Marks  
Practical record : 5 Marks  

Max. Marks 30
CLASS XII
(THEORY)

One paper  Time: 3 Hours  Total Marks: 70 (180 Periods)

Unit V: Protein and Gene Manipulation  Marks 40 (100 Periods)

Chapter I: Recombinant DNA Technology  15 Marks (40 Periods)

  - Introduction
  - Tool of rDNA Technology
  - Marketing Recombinant DNA
  - DNA Library
  - Introduction of Recombinant DNA into Host Cells
  - Identification of Recombinants
  - Polymerase Chain Reaction (PCR)
  - DNA Probes
  - Hybridization Techniques
  - DNA Sequencing
  - Site-directed Mutagenesis

Chapter II: Genomics and Bioinformatics  10 Marks (25 Periods)

  - Introduction
  - Genome Sequencing Projects
  - Gene Prediction and Counting
  - Genome Similarity, SNPs and Comparative Genomics
  - Functional Genomics
  - History of Bioinformatics
  - Sequences and Nomenclature
  - Information Sources
  - Analysis using Bioinformatics Tools

Chapter III: Proteins Structure and Engineering  15 Marks (35 Periods)

  - Introduction to the World of Proteins
  - 3-D Shape of Proteins
  - Structure-Function Relationship in Proteins
  - Purification of Proteins
  - Characterization of Proteins
  - Protein Based Products
  - Designing Proteins
  - Proteomics

118
Unit VI: Cell Culture Technology 30 Marks (80 Periods)

Chapter I: Microbial Culture and Applications 10 Marks (26 Periods)

- Introduction
- Microbial Culture Techniques
- Measurement and Kinetics of microbial Growth
- Scale up of microbial process
- Isolation of microbial products
- Strain isolation and Improvement
- Applications of microbial culture technology
- Bio safety of genetically modified microbes

Chapter II: Plant Cell Culture and Applications 10 Marks (27 Periods)

- Introduction
- Cell and Tissue Culture Techniques
- Applications of Cell and Tissue Culture
- Gene Transfer Methods in Plants
- Transgenic Plants with Beneficial Traits
- Diagnostics in Agriculture and Molecular Breeding
- Bioethics in Plant Genetic Engineering

Chapter III: Animal Cell Culture and Applications 10 Marks (27 Periods)

- Introduction
- Animal Cell Culture Techniques
- Characterisation of Cell Lines
- Scale-up of Animal Culture Process
- Applications of Animal Cell Culture
- Stem Cell Technology
- Bio safety of genetically modified animals
Practicals
(60 Periods)

Note: Every student will be required to do the following experiments during the academic session

List of Experiments
1. Isolation of bacterial plasmid DNA and its detection by gel electrophoresis
2. Restriction digestion of plasmid DNA and its analysis by gel electrophoresis
3. Bacterial transformation using any plasmid
4. Data retrieval and data base search using internet site NCBI
5. Download a DNA and protein sequence from internet, analyse and comment on it.
6. Cell viability assay
7. Determination of blood groups.
8. Estimation of DNA
9. Ion-exchange chromatography for proteins.
10. Reading of a DNA sequencing gel and arrive at the sequence.
11. Estimation of blood glucose by enzymatic method (GOD/POD)
12. Project work.

Scheme of Evaluation:

Time: 3 Hours                          Max. Marks 30

The scheme of evaluation at the end of the session will be as under:

A. Two experiments : 6+6 (only one computer based practical)
   Practical record : 04
   Viva on Practicals : 04
B. Project work :
   Write up : 05
   Viva on project : 05

Total 30

Recommended Books :
1. A Text Book of Biotechnology - Class XI : Published by CBSE, New Delhi
2. A Laboratory Manual of Biotechnology - Class XI : Published by CBSE, New Delhi
3. A Text Book of Biotechnology - Class XII : Published by CBSE, New Delhi
4. A Laboratory Manual of Biotechnology - Class XII : Published by CBSE, New Delhi
11. ENGINEERING GRAPHICS (Code No. 046)

The subject of 'Engineering Graphics' has become an indispensable tool for Engineers, Technocrats, Architects, Draftsmen, Surveyors, Designers and many others professionals in the recent times. Understanding of its fundamental principles and wider applications of the same in the above fields and many other daily life situations form the basis for the syllabus at Senior Secondary Stage.

Objectives:

The study of the subject of Engineering Graphics at Senior School Level aims at helping the learner to:

- develop clear concept and perception of form, proportion and purpose.
- develop the skill of expressing three-dimensional and two-dimensional objects into professional language and vice versa.
- acquire the ability to readily draw neat sketches, often needed in "On-job situations".
- develop a clear understanding of plane and solid Geometry and machine drawing so as to apply the same in relevant practical fields such as technology and industry.
- acquire speed and accuracy in use of drawing instruments.
- Using technology (CAD) in developing isometric and orthographics projections of simple objects.

PLANE GEOMETRY

Printing English alphabets (capital & small) numerals in standard proportions. Unidirectional/aligned system of dimensioning as per SP : 46-1988 (Revised)

Unit 1: Construction of lines, angles and their divisions. Simple questions based on triangles, square, rhombus, trapeziums, regular polygons-pentagon, hexagon and octagon. 08 Pds.

Unit 2: Construction of circles, external and internal tangents of circles, inscribing, circumscribing circles in equilateral triangle, square, rhombus, regular polygons-pentagon, hexagon and octagon. 10 Pds.

Unit 3: Construction of Engineering curves:
(a) Ellipses by concentric circles, intersecting arcs and intersecting lines.
(b) Parabola by intersecting lines and intersecting arcs.
(c) Involute of a circle, cycloid, helix and sine curve. 20 Pds.

SOLID GEOMETRY

Unit 4: Methods of orthographic projections and dimensioning strictly as per SP: 46- 1988 revised conventions. Projection of points, lines, regular plane figure and right regular solids such as cubes, prisms and pyramids (square, triangular, pentagonal and hexagonal), cones, cylinders, spheres, hemi-spheres and frustum of pyramids and cone when they are kept with their axis (a) perpendicular, to HP/VP (b) parallel to one plane and inclined to the other (c) parallel to HP and VP both. 40 Pds.

Unit 5: Section of solids under the same conditions mentioned above made by the horizontal, vertical and inclined planes, also showing true-shape of section. 45 Pds.

MACHINE DRAWING

Unit 6: Orthographic projections of simple machine blocks. 40 Pds.

Unit 7: Construction of Isometric scale showing main divisions of 10 mm and smaller divisions of 1 mm each. Isometric projection(drawn to isometric scale) of figures such as triangles, squares, pentagons, hexagons, circles and semi-circles with their surface parallel to HP or VP and its one side or diagonal or diameter should be either parallel or perpendicular to HP/VP. 40 Pds.

Unit 8: Development of the surfaces of following solids:
2. Pyramids (triangular, square, pentagonal and hexagonal).
3. Right-circular-cylinder and cone 10 Pds.
Practicals

One paper (Practical) 3 hours 30 Marks

1. Developing "Prisms" & "Pyramids" with the help of card board (thick paper).
2. Developing different types of packing boxes (cartons).
3. Making different types of graphics designs/murals for interior/exterior decorations using coloured laminae using the knowledge of circumscribing, inscribing and circumscribing of plane geometrical figures.
4. Drawing ellipse by Trammel and Thread method on the ground / drawing sheet / ply wood / card board etc.
6. Drawing through activities: Involutes, cycloid, helix and sine curves listing their uses in daily life.
7. Preparing the following sections of solids (prisms, pyramids, sphere etc.) with clay, soap, thermocol, plasticine, wax or any other material easily and economically available. When the cutting plane is: parallel to the base, perpendicular to the base and inclined to the base.

Also creating different objects with combination of above solids.

Note:

I. In all the practicals drawing/sketching of the views should be incorporated and evaluated accordingly.

II. The scheme of evaluation is as follows:

(a) Practicals(2) 15 Marks
(b) Drawing/Sketch 05 Marks
(c) Viva-voce 05 Marks
(d) Sessional Work 05 Marks
Total 30 Marks.

Unit I: Isometric projection of solids 50 Pds.

(i) Construction of isometric scale showing main divisions of 10mm and smaller divisions of 1mm, also showing the leading angles. Drawing helping view/s such as triangles, pentagon, hexagon etc using isometric scale.

(ii) Isometric projections (drawn to isometric scale) of solids such as cube, regular prism and pyramids (triangular, square, pentagonal and hexagonal), cone, cylinder, sphere, hemi-sphere, frustum of right regular pyramids (triangular, square, pentagonal, hexagonal) and cone, when they are cut by a plane parallel to the base. The axis of the solid should be either perpendicular to H.P. / VP or parallel to HP and VP both. (Indicate the direction of viewing)

(iii) Combination of two solids (except "frustum" of Pyramids and Cone) Keeping the base side parallel or perpendicular to H.P./V.P. and placed centrally together, axis of both the solids should not be given parallel to H.P.

Note: (1) Question on frustum will be asked in vertical position only.

(2) Hidden lines are not required in isometric projection.

Unit II: Machine Drawing 36 Pds.

A. Drawing of machine parts

(i) Drawing to full size scale with instruments. 9 marks

(Internal choice will be given between only two of the following).

Introduction of threads: Standard profiles of screw threads square, knuckle, B.S.W., Metric (external and internal). Bolts (square, Hexagonal, Tee and Hook); Nuts: (square and hexagonal), Plain washer, combination of nut and bolt with or without washer for assembling two parts together, Single riveted lap joint with standard dimensions.
(ii) Free-hand sketches 6 marks

(Internal choice will be given between any two of the following.

Conventional representation of external and internal threads; studs (plain, square-neck and collar), screws (round-head, cheese-head, 90º flat countersunk-head, hexagonal socket-head and grub-screw). Types of rivets: - snap head, pan head-without tapered neck, flat head and 60º countersunk flat head: Types of sunk-keys (rectangular taper, woodruff and double-head feather key with gib head on both ends).

B. Students are required to attempt either all Assembly drawings or Dis-assembly drawings (asterix marked only) of the following Machine parts. 82 Pds.

Note:

1. In all Assembly drawings, only half sectional front view will be asked and the other half without section. Side/End view or Top View/Plan will be drawn without section, wherever applicable.

2. In all the Dis-assembly drawings (asterix marked only), only two orthographic views (one of the two views may be half in section or full in section) of any two parts.

3. (a) In all sectional views, hidden lines/edges are not to be shown.

(b) In all full views, hidden/edges are to be shown.

1. Bearings
   * (i) Open-Bearing
   * (ii) Bushed-Bearing
   * (iii) Footstep-Bearing (only sectional front-view will be asked)
   * (iv) Simple Plummer-Block (only sectional front view will be asked with only round brasses).

2. Rod-Joints
   * (i) Cotter-joints for circular-rods (socket and spigot joint)
   * (ii) Cotter-joints for round-rods (sleeve and cotter joint)
   * (iii) Cotter-joints for square rods (Gib and cotter-joint)
   * (iv) Knuckle-joints (only sectional front view will be asked)

3. Tie-rod and Pipe-joint
   (i) Tumbruckle
   (ii) Flange pipe joint

4. Couplings
   (i) Unprotected Flange Coupling (having socket and spigot arrangement)
   (ii) Protected Flange Coupling
5. Pulleys
   (i) Solid cast Iron Pulley (upto 200 mm diameter) having solid web
   (ii) Single groove V-belt pulley (upto 200 mm diameter)

Practicals

One paper (Practical)  
3 Hours  
30 Marks, 72 Pds.

(I) To perform the following jobs from the given views of the prescribed Machine Block (One).

Value-Points

1. Copy the given views  
2. Drawing the missing view with hidden lines  
3. Sketching the Isometric view without hidden edges  
4. To make the machine block of the above in three dimensions. (not to scale but approximately proportionately) drawn with any medium i.e. thermocol, soap-cake, plasticine, clay, wax, orchsis (available with flowerists) etc.

(II) "Computer aided design" CAD - Project  
10  
Project file to be submitted on the simple solids (Prism, Pyramids and frustums of equilateral triangle, square, pentagon and hexgon) or machine blocks as prescribed in part-I by using the "computer aided design" CAD software.

(III)  
(i) Sessional work relating to machine blocks as prescribed.  
(ii) Viva-voice based on part-I and part-II

12. HOME SCIENCE (Code No. 064)

Home Science as a discipline aims to empower learners by developing understanding of four different areas, namely:

- Food and Nutrition
- Human Development
- Community Resource Management and Extension
- Fabric and Apparel Science

The subject helps students to understand changing needs of Indian society, academic principles as well as develop professional skills.

This would make them competent to meet challenges of becoming a responsible citizen.

OBJECTIVES

The Syllabus at Senior Secondary level develops in the learners an understanding that the knowledge and skills acquired through Home Science facilitates development of self, family and community. It endeavours to -

1. acquaint learners with the basics of human development with specific reference to self and child.
2. help develop skills of judicious management of various resources.
3. enable learners to become alert and aware consumers.
4. impart knowledge of nutrition and lifestyles to enable prevention and management of disease.
5. inculcate healthy food habits.
6. help, develop understanding of textiles for selection and care of clothes.
7. develop skills of communication to assist in advocacy and dissemination of knowledge to community.

Unit I: Concept of Home Science and its Scope  (Periods 2)

Home Science, its scope.

Unit II: Know myself : Issues related to adolescents  (Periods 33)

Adolescence, meaning

Characteristics:

(i) Physical development - growth spurt, sexual development.
(ii) Social and Emotional development : period of storm and stress, importance of peer group, interest in opposite sex, varied and changing interest, identity crises, concern for future.
(iii) Cognitive development.

Individual differences:

Difference between two sex and same sex, early and late matures, role of heredity and environment (family, peers, school and neighbourhood)

Special Needs of adolescents :

(i) Nutritional requirements of adolescents - qualitative and quantitative (nutritional problems of adolescents - Iodine deficiency disease (IDD) Anaemia, obesity.)
(ii) Eating disorders of adolescents - anorexia nervosa, Bulemia, obesity, (importance of exercise and physical activity)

Some problems of adolescence:

Awkwardness due to growth spurt; depression; alcohol, drugs and smoking; delinquency; problems related to sex; HIV / AIDS and other sexually transmitted diseases;

Population Education:

(i) Cause and effects of overpopulation.
(ii) neglect of girl child - causes, government incentives to improve status of girl child.

First Aid

(i) First aid in cuts, burns, fractures.
(ii) Prevention of fire, electric shock and fall.

Unit III : Nutrition for Self and Family  (Periods 45)

(i) Definition of food, nutrition, health and Nutritional status.
(ii) Signs of good health

Functions of food:

Physiological (body building, energy giving, protective, regulatory), psychological and social functions.
Selection of foods for optimum nutrition and good health:

(i) Nutrients: sources, functions, deficiency and prevention, Proteins, Carbohydrates, Fats, Vitamins- Fat soluble (A, D, E, K) and water soluble (B1, B2, Niacin, Folic acid, B12 and Vitamin C), Minerals (Calcium, Iron and Iodine).

(ii) Basic Food Groups (ICMR) and their contribution; Concept of Balance diet, food and nutritional requirements for family (ICMR tables).

(iii) Factors influencing selection of food: culture, family food practices, media, peer group and availability of foods.

Maximum nutritive value from food by proper selection, preparation, cooking and storage:

(i) Selection and Storage of Foods: Perishable, semi-perishable, non-perishable, convenience foods.

(ii) Preservation of food:

(a) Reasons of spoilage of food

(b) Brief description of household methods of preservations -
   - Refrigeration, dehydration
   - Use of chemicals and household preservatives.

(iii) Preparation of food: loss of nutrients during preparations of food and their minimization.

(iv) Cooking:

(a) Principles of cooking

(b) Methods of cooking - boiling, steaming, pressure cooking, deep and shallow frying, baking, sauteing, roasting, grilling, solar cooking and microwave cooking.

(c) Effect of cooking on the nutritive value of food.

(d) Method of enhancing nutritive value-germination, fermentation, fortification and food combination.

Unit IV: My Resources (Periods 36)

(i) Resources: Meaning, characteristics and types:

(a) Human / Personal Resources: knowledge, skills, time, energy, attitudes;

(b) Non-human / material resources: money, goods, property;

(c) Community facilities / shared resources: Schools, parks, hospitals, roads, transport, water, electricity, library, fuel and fodder.

(d) Need to manage the resources and methods of conservation of shared resources.
(ii) Management:
   (a) Meaning and need for management.
   (b) Steps in management: planning, organizing, controlling, implementing and evaluation.
   (c) Decision making and its role in management.

(iii) Time and energy management:
   (a) Need and procedure for managing time for occupation and leisure.
   (b) Work simplifications: meaning and methods.
   (c) Need and ways to organize space for household.
   (d) Use of colours and accessories to make house attractive.

(iv) Work ethics:
   (a) Meaning and importance; discipline at work place; reaching on time, staying in seat, knowing the job, using polite language.

Unit V: My Apparel

(i) Introduction to Fibre Science:
   (a) Characteristics of fibre
   (b) Classifications of fibre
      - Natural-cotton, silk and wool
      - Man-made (Regenerated & Synthetic), (rayon nylon and polyester)
      - Blends - Characteristics (terrycot, terrysilk, terrywool).

(ii) Fabric Construction:
   (a) Yark making: Basic procedure (spinning, mechanical spinning, chemical spinning)
   (b) Weaving: Basic mechanism, types of weaves: plain (basket and rib), twill & satin weave.
      A brief mention of special weaves (pile and jacquard weaves)
   (c) Other methods of fabric constructions: knitting and nonwoven fabrics. (felting and bonding).
   (d) Effect of weaves on appearance, durability and maintenance of garment.

(iii) Fabric Finishes:
   (a) Meaning and importance.
   (b) Classification of finishes.
      - Basic finishes: (cleaning scouring), bleaching, stiffening, calendering and tentering.
      - Special finishes: (Mercerisation, shrinkage control (sanforizing), water proofing; dyeing and printing.)
PRACTICALS

Time: 3 Hours

Total 30

Unit I : Concept of Home Science (Periods 2)

Unit II : Know myself : issues related to adolescents (Periods 8)

Activity: Observe and test your own strengths and weaknesses; Discuss about them in class with your teacher and fellow students; take decision about maximum utilization of strength and improvement upon weaknesses.

Activity: Report situations from your life to indicate your interaction within the family, with peers and with members of the community.

Unit III : Nutrition for Self and Family (Periods 28)

Activity: Look for signs of good health within your family.

Activity: Make a list of foods available in the local market according to food groups.

Activity: Observe how different food stuffs are stored at home and evaluate the effectiveness of the method; practise skills to preserve and optimise nutrients by preparing meals and snacks.

Practical: Preparing meals and snacks

Practical: Household methods of food preservation - Jam, Squash / Syrup / Pickles / Chutney.

Unit IV : My Resources (Periods 30)

Activity (Observation): Observe and list resources available at home and in neighbourhood. Make a detailed study on available community resource and its management, suggest improvements.

Activity: Critically evaluate anyone activity centre of your house. Suggest improvements.

Activity: Suggest a work plan for yourself for a day and state where and why will you take help from others.
**Practicals:** Make flower and foliage arrangements, floor decorations, clean and polish brass, glass, iron, aluminium and plastic surfaces.

**Unit V: My Apparel**  
(Periods 24)

**Activity:** Collect samples of fabrics and study characteristics for identification.

**Activity:** Collect samples of weaves and identify them.

**Practicals:** Carry out burning test, slippage test, tearing test and test for colour fastness.

**Practical:** Dyeing: plain and tie dye printing: use blocks (available or make you own) on small sample.

---

</tbody>
</table>

**Unit I: Know Little Children (0-3 years)** (Periods 34)

**Some specific characteristics:** physical - height, weight and body proportions; motor development during 0-3 months, 3-6 months, 6-9 months, 9-12 months and 1-3 years (milestones only); social and emotional developments; socialization, expression of emotions; cognitive development and language development.

**Protection from preventable diseases:** immunization - concept and types (natural and acquired), breast feeding (one of the ways to develop natural immunity); immunization chart; symptoms and incubation period of childhood diseases - TB, DPT, polio, measles, cholera, diarrhoea, chicken pox.

**Special needs of disadvantaged and disabled children:** socially disadvantaged, physically handicapped (Blind, partially blind & deaf, affected/missing limb): characteristics & needs.

**Substitute care at home and outside:** siblings, grand parents, neighbours creche, day care centres etc: Integrated Child Development Scheme (ICDS) - objectives and functions.

---

**Unit II: Nutrition for Self and Family** (Periods 36)

**Planning meals for the family:** meaning and importance of meal planning, principles and factors
affecting meal planning, planning meals for the family; keeping in mind the needs of individual members, including children, pregnant women, lactating mother, members suffering from fever and diarrhoea; role and preparation of ORS.

**Ways to ensure good health for the family:** using safe drinking water-importance of potable water for good health, qualities of safe drinking water; household methods of making water safe for drinking; boiling, filtering, use of alum and chlorine tablet role of hygiene for food handlers at home level. Safety against food adulteration, definition and meaning of food adulteration as given by PFA; common adulterants present in cereals, pulses, milk and milk products, fats and oils, sugar, jaggery, honey, spices and condiments. Ill effects of some of the adulterants present in the foods: kesari dal, metanil yellow, argemone seeds.

**Unit III : Money Management and Consumer Education (Periods 36)**

**Family Income:** various sources of family income: (i) money income, (ii) real income, direct and indirect; Supplementing family income-need & ways; need and procedure for keeping household accounts.

**Savings and Investment:** meaning and importance of savings; ways/methods of investment-banks, post-office, LIC, Units, PPF, PF; basis for selection of method of investment risk, security, profit, tax saving.

**Consumer Protection and Education:** meaning, problems faced by consumer, Consumer Protection Act (1986) and Services; Consumer aids: labels, standardization marks, advertising, guidebooks/leaflets, Consumer redressal forum.

**Unit IV: My Apparel (Periods 35)**

**Clothing and its relation to personality:** Elements of line, colour, texture: elements of design: balance, rhythm, proportion, harmony, emphasis; factors that influence the selection of clothes: personality, age, climate, occupation, figure, occasion, fashion; selection and purchase of fabrics. Purpose, quality, cost, season, reliable shop.

Checking size and quality in ready-made garments, need and criteria: seams, hem, plackets, fasteners, workmanship, design, drape.

Care of clothes: General principles and precautions to be followed while removing stains and washing: Cleansing agents: soaps and detergents (basic differences); Storage of clothes.

**Unit V: Things I can do with my Home Science Education (Periods 3)**

Application of knowledge of Home Science in everyday life.

Usefulness of some of the skills learnt here for supplementing family income.

Skills learnt here can be gainfully used for employment (self-employment, apprenticeship).

Further training required to make this field a career: various sources and facilities available for training.
## Practical Tests

### Unit I: Know Little Children (0-3 years) (Periods 2)

**Activity:** Observe a child in neighbourhood or at home for various milestones of physical and motor developments and prepare a chart.

**Practical:** Make an interview schedule for working mother.

**Activity:** Interview three mothers working outside the home to find out their arrangements of substitute care for their children (0-3 yrs) in their absence.

**Practical:** Prepare a chart for immunization of a child.

### Unit II: Nutrition for Self and Family (Periods 22)

**Practicals:** Plan meals for the family and carry out modifications to suit individual needs including persons suffering from fever or diarrhoea and for pregnant and lactating mother. Prepare and serve one dish.

**Practical:** Preparation of oral rehydration solution

**Practical:** Simple tests for checking adulteration in-

(i) Cereals
(ii) Pulses
(iii) Milk and milk products
(iv) Tea leaves
(v) Dhania powder
(vi) Red chillies
(vii) Haldi powder
(viii) Gur (Jaggery)
(ix) Black Pepper (Whole)
(x) Mustard oil

Unit III: Money management and Consumer Education (Periods 8)

**Activity:** Open an account. Find out and report how an account is opened in a bank and post office. Collect and fill forms.

**Activity:** Read and evaluate labels of any four household items bearing different standardization marks.

**Practical:** Fill bank/post office forms

**Practical:** Prepare one label each for four household items/products bearing different standardization marks.

Unit IV: My Apparel (Periods 42)

**Practical:** Make sample of

(a) basic stitches:
   (i) Running Stitch
   (ii) Hemming
   (iii) Blind stitch
   (iv) Inter-locking

(b) Fasteners - Buttons and hooks.

(c) Patch work

**Practical:** Examine quality in ready-made garments - workmanship and labels.

**Practical:**

Removal of stains of -

(i) Tea stain
(ii) Coffee stain
(iii) Curry
(iv) Grease
(v) Ball point ink
(vi) Lipstick
Instructions to the Examiners:

Group A

1. Three marks are allotted to Q. No. 1 in group A and Know little Children. Any question can be selected from the list of questions given in Group A. 3 marks for correct chart of milestones/immunisation/interview schedule for working mothers.

Group B

2. Seven marks are allotted to Q. No. 2 in Group B on ‘Nutrition for Self and Family’. Any question can be selected from the list of questions given in Group B Part (a). Further sub-division of eight marks:
   (i) Planning and selection of foods according to specific requirements 2 Marks
   (ii) Preparation of one dish 3 Marks
   (iii) Service 1 Marks
   (iv) Work place and method of work 1 Mark

3. Three marks are allotted for question No. 3 from Group B Part (b and c). Further Sub-division of three marks:
   (i) Preparation of oral dehydration solution 3 Marks
      or
detection of adulterant
      1 mark for correct test
      2 marks for correct identification of adulterant.

4. Three marks are allotted to Q. No. 4 from Group C on Money management and consumer education. Further sub-division of three marks:
   Selection of correct form 1 Mark
   Correct filling of form 2 Marks
   or
   Preparation of label 2 Marks
   Correct quality mark according to the product 1 Mark

5. (i) Three marks are allotted to Q. No. 5 from Group D part (a) on ‘My Apparel’. 3 Marks
   (ii) Two Marks for checking of quality of ready-made garment 2 Marks

6. Two Marks are allotted to Q. No. 6 from Group D (part d+e). Further sub-division of two marks
   Selection of correct detergent 2 Marks
   Removal of stain - using chemicals/detergents/bleach 1 Mark
7. Class Record 5 Marks
8. Viva - questions should be related to practicals conducted during the examination 2 Marks

**General Instructions:**

A. Out of the several alternatives given in each group of questions only one is to be assigned to the group.

B. Preparation of dish means-methodical procedure, economical use of ingredient and finished product.

C. Neat work

D. In all, six questions are to be selected.

- 1 from Group A 3 Marks
- 2 from Group B 8 + 3 11 Marks
- 1 from Group C 3 Marks
- 2 from Group 3 + 3 6 Marks

**Record 5 Marks**

**Viva 2 Marks**

**Total 30 Marks**

**List of Questions**

**Q. No. I : List of questions regarding the experiments from Group A (Unit I parts a, b and c).** 3 Marks

1. Prepare a chart to record the milestones of physical development of child from 0-1 year.
2. Prepare a chart to record the milestones of language development of a child from 0-3 years.
3. Prepare a chart to record the milestones of motor development of a child from 0-3 years.
4. Prepare an immunisation chart for a child from 0-3 years.
5. Prepare an interview schedule for a working mother to find out the arrangement for her pre-school child in her absence.

**Q. No. II : List of questions regarding the experiments from Group B (Unit II part a).** 7 Marks

1. Plan meal for a family and suggest modifications for: any one of the following:
   a lactating mother / a pregnant woman / a person suffering from diarrhoea / a person suffering from fever

Prepare one of the modified dishes.
Q. No. III : List of questions regarding the experiments from Group B (Unit II parts b and c).  
3 Marks

1. Prepare oral rehydration solution. (ORS)
2. Test adulteration and identify the adulterant in one of the following:
   (i) Cereals
   (ii) Pulses
   (iii) Milk
   (iv) Tea leaves
   (v) Dhania Powder
   (vi) Gur (Jaggery)
   (vii) Haldi Powder
   (viii) Black Pepper (Whole)

Q. No. IV : List of questions regarding the experiments from Group C (Unit III parts a and b).  
3 Marks

1. Select and fill form for one of the following:
   (a) To withdraw small amount of money.
   (b) To withdraw large amount of money.
   (c) To open an account in post office/bank.
   (d) To deposit money in cash / cheque.
2. Prepare label for any food product with proper quality mark.

Q. No. V : List of questions regarding the experiments from Group D (Unit IV parts a, b and c)  
3 Marks

1. Make a sample of any one of the following:
   (i) Hemming
   (ii) Running stitch
   (iii) Blind stitch
   (iv) Inter locking
   (v) Fasteners - buttons or hook
2. Examine two points (seams fasteners, patch, embroidery, finishing of edges) in a ready-
made garment and write your observations. 2 Marks

Q. No. VI: List of questions regarding the experiments from Group D (Unit IV parts c and d).

1. Remove one of the following stains from a cotton cloth.
   (i) Tea stain
   (ii) Coffee stain
   (iii) Curry stain
   (iv) Grease
   (v) Ball point ink
   (vi) Lipstick

List of articles to be supplied by the centre:

1. Cooking utensils for each candidate - Dekchi (saucepan) with cover, Karahi, Tawa, Chakla-Belen, Karchi, Karahi, Spoons, Frying Spoons, Fry pan, Stove or Gas Burner, Match box, Pressure Cooker.
2. Sample of adulterated food.
3. Chemicals and reagents for detection of adulteration.
4. Sample of stain.
5. Reagents for removal of stains.
6. Dry and fresh ingredients according to the question paper set e.g. besan, dal, vegetables, milk, spices etc.
7. Different types of bank and post-office forms.
8. Drawing sheets and plain papers.
9. Gum.
10. Samples of different types of cloth (to test effect of temperature of water).
11. Ingredients for preparation of soaps and detergents.

List of articles to be brought by the candidates:

1. Serving utensils and cutlery.
2. Table cloth, napkin, tray.
3. Tray
4. Painting colours and brushes, felt pen, eraser, scale, scissors.
5. Cloth (10 cm x 10 cm) (for sample of stitches).
6. Any ready-made garment (may be used).
7. Needle and thread.
8. Hooks and buttons.
9. Dusters - 2
10. Newspapers - 2 sheets
11. Class record or sessional work.
13. AGRICULTURE (Code No. 068)

CLASS XI (THEORY)

**Unit 1**: Agrometeorology, Genetics and Plant Breeding, Biochemistry and Microbiology  
84 Pds.

**Agrometerology**: Elements of Weather—rainfall, temperature, humidity, wind velocity, Sunshine weather forecasting, climate change in relation to crop production. **16 Pds. Genetics & Plant Breeding 32 Pds.**

(a) Cell and its structure, cell division-mitosis and meosis and their significance.

(b) Organisation of the genetic materials in chromosomes, DNA and RNA.

(c) Mendel’s laws of inheritance. Reasons for the success of Mendal in his experiments Absence of linkage in Mendel’s experiments.

(d) Quantitative inheritance, continuous and discontinuous variation in plants.

(e) Role of Genetics in Plant breeding, self and cross-pollinated crops, methods of breeding in field crops-introduction, selection, hybridization, mutation and polypolidy, tissue and cell culture.

(f) Plant Biotechnology-definition and scope in crop production.

**Biochemistry**: Classification of carbohydrates; proteins; lipids; vitamins and enzymes.  
16 Pds.

**Microbiology**: Micro-organisms-Algae, Bacteria, Fungi, Actinomyceters, Protozoa and Viruses. Role of micro-organisms in respiration, fermentation and organic matter decomposition  
20 Pds.

**Unit 2**: Livestock Production  
84 Pds.

**Scope and importance**  
16 Pds.

(a) Importance of livestock in agriculture and industry, White revolution in India.

(b) Important breeds Indian and exotic, distribution of cows, buffaloes and poultry in India.

**Care and management**  
52 Pds.
(a) Systems of cattle and poultry housing.
(b) Principles of feeding, feeding practices.
(c) Balanced ration-definition and ingredients.
(d) Management of calves, bullocks, pregnant and milch animals as well as chicks crockrels and layers, poultry.
(e) Signs of sick animals, symptoms of common diseases in cattle and poultry, Rinderpest, black quarter, foot and mouth, mastius and haemorrhagic septicaemia coccidiosis, Fowl pox and Ranikhet disease, their prevention and control.

**Artificial Insemination**

Reproductive organs, collection, dilution and preservation of semen and artificial insemination, **role of artificial insemination in cattle improvement.**

**Livestock Products:** Processing and marketing of milk and Milk products.

<th>Marks</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Crop Production</td>
<td>40</td>
</tr>
<tr>
<td>2. Horticulture</td>
<td>30</td>
</tr>
</tbody>
</table>

Unit 1: Crop Production

Introduction

(a) Targets and achievement in foodgrain production in India since independence and its future projections, sustainable crop production, commercialisation of agriculture and its scope in India.
(b) Classification of field crops based on their utility-cereals, pulses, oils seeds, fibre, sugar and forage crops.

**Soil, Soil fertility, Fertilizers and Manures**  
24 Pds.

(a) Soil, soil pH, Soil texture, soil structure, soil organisms, soil tilth, soil fertility and soil health.

(b) Essential plant nutrients, their functions and deficiency symptoms.

(c) Soil types of India and their characteristics.

(d) Organic nature, common fertilizers including straight, complex, fertilizer mixtures and biofertilizers; integrated nutrient management system.

**Irrigation and Drainage**  
24 Pds.

(a) Sources of irrigation (rain, canals, tanks, rivers, wells, tubewells).

(b) Scheduling of imagination based on critical stages of growth, time interval, soil moisture content and weather parameters.

(c) Water requirement of crops.

(d) Methods of irrigation and drainage.

(e) Watershed management

**Weed Control**  
8 Pds.

Principles of weed control, methods of weed control (cultural, mechanical, chemical, biological and Integrated weed management).

**Crops**  
32 Pds.

Seed bed preparation, seed treatment, time and method of sowing/planting, seed rate; dose method and time of fertilizer application, irrigation, interculture and weed control; common pests and diseases, caused by bacteria, fungi virus and nematod, integrated pest management, harvesting, threshing, post harvest technology: storage, processing and marketing of major field crops-Rice, wheat, maize, sorghum, pearl millet, groundnut, mustard, pigeonpea, gram, sugarcane, cotton berseem.

**Unit 2: Horticulture**  
72 Pds.

(a) Importance of fruits and vegetables in human diet, Crop diversification & processing Industry.

(b) Orchard-location and layout, ornamental gardening and kitchen garden.

(c) Planting system, training, pruning, intercropping, protection from frost and sunburn.

(d) Trees, shrubs, climbers, annuals, perennials-definition and examples. Propagation by seed, cutting, budding, layering and grafting.

(e) Cultivation practices, processing and marketing of:
(i) Fruits - mango, papaya, banana, guava, citrus, grapes.
(ii) Vegetables - Radish, carrot, potato, onion, cauliflower, brinjal, tomato, spinach and cabbage.
(iii) Flowers - Gladiolus, canna, chrysanthemums, roses and marigold.

(f) Principles and methods of fruit and vegetable preservation.
(g) Preparation of jellies, jams, ketchup, chips and their packing.

CLASS XII (PRACTICALS)

</tbody>
</table>

A. Field crop Practicals 38 Pds.

(a) To find out germination percentage of crop seeds.
(b) Soil sampling and determination of soil pH.
(c) Preparation of nursery and seed beds.
(d) Seed treatment with fungicides and microbial culture.
(e) Layout of irrigation and drainage channels.
(f) Calculation of fertilizer requirement of crops on the basis of nutrient needs.
(g) Methods of fertilizer application including use of bio-fertilizers.
(h) Methods of sowing/planting.
(i) Interculture operation-weeding, earthing.
(j) Preparation of FYM and Compost.
(k) Uses of sprayers and dusters for pest control and nutrient spray.
(l) Harvesting of field crops.
(m) Determination of moisture content of crop seeds.
(n) To find out 100-grain weight of crop seeds.

Horticulture Practical

(a) Layout of the school garden.
(b) Preparation for nursery raising, pot filling and planting.
(c) Propagation by cutting, layering, grafting and budding.
(d) Pruning and training of trees.
(e) Establishment and maintenance of school lawn.
(f) Preparation of tomato ketchup, jam, jelly, chips of fruits/vegetables.

Observation 16 Pds.
(a) Identification of seeds of crops.
(b) Identification of plants of various crops and weeds.
(c) Identification of manures and fertilizers.
(d) Identification of different types of tools and implements.
(e) Identification of common local pests and diseases of plants.
(f) Identification of different types of ornamental trees, annuals, biennials, perennials.

C. Collection and visits 18 Pds.
(a) Preparation of herbarium of crop and weed plants.
(b) Collection and preservation of important crop pests and diseased plant parts.
(c) Practical record.
(d) Participation in and visit to crop demonstrations, field operation, field days, agriculture fairs organised in the locality by the local extension agencies.
(e) Visit to the important orchards of the locality, state research farms/seed multiplication farms and agricultural Universities/Agricultural Colleges, food processing industry.

Note: Students should submit a written report on the basis of experience acquired during their visits.

D. Viva Voce

Agriculture Practicals

A. List of Practicals 18 Pds.
1. Seed treatment against the pest indicated.
2. Find out 1000 grain weight of crop seeds provided.
3. Prepare a layout plan of a farm of 10 hectares or a school garden of one hectare/irrigation and drainage channels in a hectare of field.
4. Taking soil sample for soil moisture/pH determination.
5. Prepare an ideal seed bed/Nursery bed for the grain or vegetable crop indicated.
6. Calculate the fertilizer requirement for given area of the crop indicated.
7. Calculate the quantity of pesticide required for a given area against the pest indicated of a certain field crop. Also demonstrate the method of its application.

8. Demonstrate how would you prepare an ideal compost with the farm waste material provided.

9. Prepare the vegetable/fruit products indicated.

10. Demonstrate the ideal method of propagation of the plant indicated.

11. Identify the specimens and write two lines comment on each of them.

12. Practical records, collection, sessional work, maintenance of potted plants and reports on visits.

13. Viva-Voce.

**General guidelines for evaluation**

1. (i) The examiner may give anyone out of the first 7 practical exercises. It will carry 10 marks.
   
   (ii) He will allot one out of the next two practicals (8 & 9) which will carry 6 marks.
   
   (iii) For identification the teacher may provide 5 items, each item will carry one mark. (1/2 mark for identification and 1/2 mark for 2 lines comment) (5 marks)
   
   (iv) Practical records and maintenance of potted plants will carry 2 marks each. For collection, sessional work and visit reports, one mark each. (7 marks)
   
   (v) Viva Voce will carry 2 marks

2. In case of practicals, fruits preservation and methods of propagation, the student will have to write the procedure adopted and the necessary precautions to be taken in the answer sheet provided.

**Suggested References**

1. Garden Flowers, by V. Swaroop, National Book Trust of India.
7. Important Breeds of Cattle and Buffaloes, ICAR, New Delhi.

14. COMPUTER SCIENCE (Code 083)

Learning Objectives:
1. To develop logic for Problem Solving
2. To understand the concept of Object Oriented Methodology
3. To implement Object Oriented Programming using C++
4. To understand the concept of working with Relational Database
5. To understand the basic concept of Boolean Logic
6. To understand the basic concepts of Communication and Networking technologies
7. To understand Open Source Concepts

Competencies:
The student will develop the following proficiency:
1. Identifying Computer Components
2. Problem Solving using Object Oriented Programming
3. Database Handling

Total Marks: 70

UNIT 1: COMPUTER FUNDAMENTALS

Evolution of computers; Basics of computer and its operation: Functional Components and their inter-
connections, concept of Booting.

Software Concepts:
Types of Software - System Software, Utility Software and Application Software;

System Software: Operating System, Compiler, Interpreter and Assembler;

Operating System: Need for operating system, Functions of Operating System (Processor Management,
Memory Management, File Management and Device Management), Types of operating system -
Interactive (GUI based), Time Sharing, Real Time and Distributed; Commonly used operating systems: UNIX, LINUX, Windows, Solaris, BOSS (Bharat Operating System Solutions);

Illustration and practice of the following tasks using any one of the above Operating Systems:

• Opening/Closing Windows
• Creating/Moving/Deleting Files/Folders
• Renaming Files/Folders
• Switching between Tasks

Utility Software: Anti Virus, File Management tools, Compression tools and Disk Management tools (Disk Cleanup, Disk Defragmenter, Backup)

**Application software:** Office Tools - Word Processor, Presentation Tool, Spreadsheet Package, Database Management System; Domain specific tools - School Management System, Inventory Management System, Payroll System, Financial Accounting, Hotel Management, Reservation System and Weather Forecasting System

**Number System:** Binary, Octal, Decimal, Hexadecimal and conversion between two different number systems

**Internal Storage encoding of Characters:** ASCII, ISCII (Indian scripts Standard Code for Information Interchange), and UNICODE (for multilingual computing)

**Microprocessor:** Basic concepts, Clock speed (MHz, GHz), 16 bit, 32 bit, 64 bit processors; Types - CISC, RISC

**Memory Concepts:**

Units: Byte, Kilo Byte, Mega Byte, Giga Byte, Tera Byte, Peta Byte

**Primary Memory:** Cache, RAM, ROM

**Secondary Memory:** Fixed and Removable Storage - Hard Disk Drive, CD/DVD Drive, Pen Drive, Blue Ray Disk

**Input Output Ports/Connections:** Serial, Parallel and Universal Serial Bus, PS-2 port, Infrared port, Bluetooth, Firewire.

**UNIT 2: PROGRAMMING METHODOLOGY**

General Concepts; Modular approach; Clarity and Simplicity of Expressions, Use of proper Names for identifiers, Comments, Indentation; Documentation and Program Maintenance; Running and Debugging programs, Syntax Errors, Run-Time Errors, Logical Errors

**Problem Solving Methodologies:** Understanding of the problem, Identifying minimum number of inputs required for output, Writing code to optimizing execution time and memory storage, step by step solution for the problem, breaking down solution into simple steps, Identification of arithmetic and logical operations required for solution, Control Structure: Conditional control and looping (finite and infinite)
UNIT 3: INTRODUCTION TO C++

Getting Started:
C++ character set, C++ Tokens (Identifiers, Keywords, Constants, Operators), Structure of a C++ Program (include files, main function); Header files - iostream.h, iomanip.h; cout, cin; Use of I/O operators (<< and >>), Use of endl and setw(), Cascading of I/O operators, Error Messages; Use of editor, basic commands of editor, compilation, linking and execution; standard input/output operations from C language: gets(), puts() of stdio.h header file

Data Types, Variables and Constants:

Concept of Data types: Built-in Data types: char, int, float and double; Constants: Integer Constants, Character Constants (Backslash character constants - \n, \t ), Floating Point Constants, String Constants; Access modifier: const; Variables of built-in data types, Declaration/Initialisation of variables, Assignment statement; Type modifier: signed, unsigned, long

Operators and Expressions:

Operators: Arithmetic operators (-,+,*,/,,%), Unary operator (-), Increment (++) and Decrement (--) Operators, Relational operators (>,>=,<,<=,==,!=), Logical operators (!, &&, ||), Conditional operator: <condition>?<if true>:<else>; Precedence of Operators; Expressions; Automatic type conversion in expressions, Type casting; C++ shorthands (+=, -=, *=, /=, %=)

UNIT 4: PROGRAMMING IN C++

Flow of control:
Conditional statements: if-else, Nested if, switch..case..default, Nested switch..case, break statement (to be used in switch..case only); Loops: while, do - while, for and Nested loops

Inbuilt Functions

Character Functions:
Header File: ctype.h
Functions: isalnum(), isalpha(), isdigit(), tolower(), toupper(), tolower(), toupper()

String Functions:
Header File: string.h
Function: strcpy(), strcat(), strlen(), strcmp(), strcmpi(), strrev(), strlen(), strupr(), strlwr()

Mathematical Functions:
Header File: math.h, stdlib.h
Functions: fabs(), pow(), sqrt(), sin(), cos(), abs();

Other Functions:
Header File: stdlib.h;
Functions: randomize(), random(), itoa(), atoi()
User Defined Functions:
Defining a function; function prototype, Invoking/calling a function, passing arguments to function, specifying argument data types, default argument, constant argument, call by value, call by reference, returning values from a function, calling functions with arrays, scope rules of functions and variables local and global variables

Structured Data Type:

One Dimensional Array
Declaration/initialisation of One-dimensional array, Inputting array elements, Accessing array elements, Manipulation of Array elements (sum of elements, product of elements, average of elements, linear search, finding maximum/minimum value)

Declaration/Initialization of a String, string manipulations (counting vowels/consonants/digits/special characters, case conversion, reversing a string, reversing each word of a string)

Two-dimensional Array
Declaration/initialisation of a two-dimensional array, inputting array elements Accessing array elements, Manipulation of Array elements (sum of row element, column elements, diagonal elements, finding maximum/minimum values)

User-defined Data Types:
Need for: User defined data type
Defining a symbol name using typedef keyword and defining a macro using #define directive

Structure - struct
Defining a Structure, Declaring structure variables, Accessing structure elements, Passing structure to Functions as value and reference argument/parameter, Function returning structure, Array of structures, passing an array of structure as an argument/a parameter to a function
Class XI (Practical)

Duration: 3 hours  
Total Marks: 30

1. Programming in C++  

One programming problem in C++ to be developed and tested in Computer during the examination. Marks are allotted on the basis of following:

- Logic : 5 Marks
- Documentation/Indentation : 2 Marks
- Output presentation : 3 Marks

2. Project Work  

Problems related to String, Number and Array manipulation

General Guidelines: Initial Requirement, developing an interface for user (it is advised to use text based interface screen), developing logic for playing the game and developing logic for scoring points

- Memory Game: A number guessing game with application of 2 dimensional arrays containing randomly generated numbers in pairs hidden inside boxes.
- Cross 'N Knots Game: A regular tic-tac-toe game
- Hollywood/Hangman: A word Guessing game
- Cows 'N Bulls: A word/number Guessing game

or

Similar projects may be undertaken in other domains

(As mentioned in general guidelines for project, given at the end of the curriculum in a group of 2-4 students)

3. Practical File

Must have minimum 15 programs from the topics covered in class XI course.

- 5 Programs on Control structures
- 4 Programs on Array manipulations
- 4 Programs on String Manipulations
- 2 Programs on structure manipulations

4. Viva Voce

Viva will be asked from the syllabus covered in class XI and the project developed by the student(s).
UNIT 1: OBJECT ORIENTED PROGRAMMING IN C++

REVIEW: C++ covered In Class -XI,

Object Oriented Programming:

Concept of Object Oriented Programming - Data hiding, Data encapsulation, Class and Object, Abstract class and Concrete class, Polymorphism (Implementation of polymorphism using Function overloading as an example in C++); Inheritance, Advantages of Object Oriented Programming over earlier programming methodologies,

Implementation of Object Oriented Programming concepts in C++:

Definition of a class, Members of a class - Data Members and Member Functions (methods), Using Private and Public visibility modes, default visibility mode (private); Member function definition: inside class definition and outside class definition using scope resolution operator (::); Declaration of objects as instances of a class; accessing members from object(s), Objects as function arguments - pass by value and pass by reference;

Constructor and Destructor:

Constructor: Special Characteristics, Declaration and Definition of a constructor, Default Constructor, Overloaded Constructors, Copy Constructor, Constructor with default arguments;

Destructor: Special Characteristics, Declaration and definition of destructor;

Inheritance (Extending Classes):

Concept of Inheritance, Base Class, Derived Class, Defining derived classes, protected visibility mode; Single level inheritance, Multilevel inheritance and Multiple inheritance, Privately derived, Publicly derived and Protectedly derived class, accessibility of members from objects and within derived class(es);

Data File Handling:

Need for a data file, Types of data files - Text file and Binary file;

Basic file operations on text file: Creating/Writing text into file, Reading and Manipulation of text from an already existing text File (accessing sequentially);

Binary File: Creation of file, Writing data into file, Searching for required data from file, Appending
data to a file, Insertion of data in sorted file, Deletion of data from file, Modification of data in a file; Implementation of above mentioned data file handling in C++; Components of C++ to be used with file handling: Header file: fstream.h; ifstream, ofstream, fstream classes; Opening a text file in in, out, and app modes; Using cascading operators for writing text to the file and reading text from the file; open(), get(), put(), getline() and close() functions; Detecting end-of-file (with or without using eof() function); Opening a binary file using in, out, and app modes; open(), read(), write() and close() functions; Detecting end-of-file (with or without using eof() function); tellg(), tellp(), seekg(), seekp() functions

Pointers:
Declaration and Initialization of Pointers; Dynamic memory allocation/deallocation operators: new, delete; Pointers and Arrays: Array of Pointers, Pointer to an array (1 dimensional array), Function returning a pointer, Reference variables and use of alias; Function call by reference. Pointer to structures: Reference operator: *, ->; self referencial structures;

UNIT 2: DATA STRUCTURES

Arrays:
One and two Dimensional arrays: Sequential allocation and address calculation;
One dimensional array: Traversal, Searching (Linear, Binary Search), Insertion of an element in an array, deletion of an element from an array, Sorting (Insertion, Selection, Bubble sort), concatenation of two linear arrays, merging of two sorted arrays;
Two-dimensional arrays: Traversal, Finding sum/difference of two NxM arrays containing numeric values, Interchanging Row and Column elements in a two dimensional array;

Stack (Array and Linked implementation of Stack):
Operations on Stack (PUSH and POP) and its Implementation in C++, Converting expressions from INFIX to POSTFIX notation and evaluation of Postfix expression;

Queue: (Circular Array and Linked Implementation):
Operations on Queue (Insert and Delete) and its Implementation in C++.

UNIT 3: DATABASES AND SQL

Database Concepts:
Relational data model: Concept of domain, tuple, relation, key, primary key, alternate key, candidate key;
Relational algebra: Selection, Projection, Union and Cartesian product;
Structured Query Language:

**General Concepts:** Advantages of using SQL, Data Definition Language and Data Manipulation Language;

**Data types:** NUMBER/DECIMAL, CHARACTER/VARCHAR/VARCHAR2, DATE;

**SQL commands:**
CREATE TABLE, DROP TABLE, ALTER TABLE, UPDATE...SET..., INSERT, DELETE;
SELECT, DISTINCT, FROM, WHERE, IN, BETWEEN, GROUP BY, HAVING, ORDER BY;
SQL functions: SUM, AVG, COUNT, MAX and MIN;

Obtaining results (SELECT query) from 2 tables using equi-join, Cartesian Product and Union

Note: Implementation of the above mentioned commands could be done on any SQL supported software on one or two tables.

**UNIT 4: BOOLEAN ALGEBRA**

Obtaining Sum of Product (SOP) and Product of Sum (POS) form from the Truth Table, Reducing Boolean Expression (SOP and POS) to its minimal form, Use of Karnaugh Map for minimization of Boolean expressions (up to 4 variables);

**Application of Boolean Logic:**

Digital electronic circuit design using basic Logic Gates (NOT, AND, OR, NAND, NOT)
Use of Boolean operators (NOT, AND, OR) in SQL SELECT statements
Use of Boolean operators (AND, OR) in search engine queries.

**UNIT 5: COMMUNICATION AND OPEN SOURCE CONCEPTS**

**COMMUNICATION TECHNOLOGIES**

Evolution of Networking: ARPANET, Internet, Interspace

Different ways of sending data across the network with reference to switching techniques (Circuit, Message and Packet switching)

**Data Communication terminologies:** Concept of Channel, Baud, Bandwidth (Hz, KHz, MHz) and Data transfer rate (bps, kbps, Mbps, Gbps, Tbps)

**Transmission media:** Twisted pair cable, coaxial cable, optical fiber, infrared, radio link, microwave link and satellite link

**Network devices:** Modem, RJ45 connector, Ethernet Card, Hub, Switch, Gateway
Network Topologies and types: Bus, Star, Tree; PAN, LAN, WAN, MAN

Network Protocol: TCP/IP, File Transfer Protocol (FTP), PPP, Remote Login (Telnet), Internet Wireless/Mobile Communication protocol such as GSM, CDMA, GPRS, WLL, 1G, 2G and 3G
Electronic mail protocols such as SMTP, POP3
Protocols for Chat and Video Conferencing
VoIP protocols such as Wi-Fi and WiMax

Network Security Concepts:
Threats and prevention from Viruses, Worms, Trojan horse, Spams
Use of Cookies, Protection using Firewall;
India IT Act, Cyber Law, Cyber Crimes, IPR issues, Hacking.

WebServices:
WWW, Hyper Text Markup Language (HTML), eXtensible Markup Language (XML); Hyper Text Transfer Protocol (HTTP); Domain Names; URL; Protocol Address; Website, Web browser, Web Servers; Web Hosting, Web Scripting - Client side (VB Script, Java Script, PHP) and Server side (ASP, JSP, PHP), Web 2.0 (for social networking)

Open Source Concepts
Open Source Software, Freeware, Shareware, Proprietary Software, FLOSS/FOSS, GNU,FSF, OSI
Class XII (Practicals)

Duration: 3 hours  Total Marks: 30

1. **Programming in C++** 10

   One programming problem in C++ to be developed and tested in Computer during the examination. Marks are allotted on the basis of following:

   Logic : 5 Marks
   Documentation/Indentation : 2 Marks
   Output presentation : 3 Marks

   **Notes:** The types of problems to be given will be of application type from the following topics
   • Arrays (One dimensional and two dimensional)
   • Array of structure
   • Stack using arrays and linked implementation
   • Queue using arrays (circular) and linked implementation
   • Binary File operations (Creation, Displaying, Searching and modification)
   • Text File operations (Creation, Displaying and modification)

2. **SQL Commands** 05

   Five Query questions based on a particular Table/Reaction to be tested practically on Computer during the examination. The command along with the result must be written in the answer sheet.

3. **Project Work** 05

   The project has to be developed in C++ language with Object Oriented Technology and also should have use of Data files. (The project is required to be developed in a group of 2-4 students)

   • Presentation on the computer
   • Project report (Listing, Sample, Outputs, Documentation
   • Viva

4. **Practical File** 05

   Must have minimum 20 programs from the following topics

   • Arrays (One dimensional and two dimensional, sorting, searching, merging, deletion'& insertion of elements)
   • Arrays of structures,
   • Stacks using arrays and linked implementation
   • Queues using arrays (linear and circular) and linked implementation
   • File (Binary and Text) operations (Creation, Updation, Query)
   • Any computational based problems
5. Viva Voce

Viva will be asked from syllabus covered in class XII and the project developed by student.

GUIDELINES FOR PROJECTS (Class XI and XII)

1. Preamble

1.1 The academic course in Computer Science includes one Project in each year. The Purpose behind this is to consolidate the concepts and practices imparted during the course and to serve as a record of competence.

1.2 A group of 2-4 students as team may be allowed to work on one project.

2. Project content

2.1 Project for class XI can be selected from the topics mentioned in the syllabus or domains on the similar lines

2.2 Project for class XII should ensure the coverage of following areas of curriculum:

a. Problem Solving
b. Data Structure
c. Object Oriented Programming in C++
d. Data File Handling

Theme of the project can be

• Any subsystem of a System Software or Tool
• Any Scientific or a fairly complex algorithmic situation.
• School Management, Banking, Library information system, Hotel or Hospital management system, Transport query system
• Quizzes/Games;
• Tutor/Computer Aided Learning Systems

2.3 The aim of the project is to highlight the abilities of algorithmic formulation, modular programming, optimized code preparation, systematic documentation and other associated aspects of Software Development.

2.4 The assessment would be through the project demonstration and the Project Report, which should portray Programming Style, Structured Design, Minimum Coupling, High Cohesion, Good documentation of the code to ensure readability and ease of maintenance.
Suggested Reference Books

Computer Fundamentals and Boolean Algebra

Problem Solving and Programming in C++
Note: Prior knowledge of C is not required in the learning of C++, even though reference about C are made in some of the books.
2. David Parsons, OBJECT ORIENTED PROGRAMMING WITH C++, BPB Publications.

Data Structures
2. Sartaj & Sahni, Fundamentals of Data Structure, Galgotia Book Source

Database Management System and SQL
1. C.J. Date, DATABASE PRIMER, Adison Wesley.

Computer Network
3. Hancock, Network Concept and Architectures, BPB Publications.
15. INFORMATICS PRACTICES (Code 065)

Learning Objectives:
• To gain working knowledge of a computer system and peripherals
• To understand the application development process.
• To gain programming skills in front-end application development
• To gain skills in Database Creation and querying using ANSI SQL.
• To design, program and develop database driven web applications using GUI Programming Tool and RDBMS.
• To understand and appreciate open source and open standard concepts

Competencies:
• Sound knowledge of computer system
• Familiarity with Application Development process using simple IDEs
• Ability to use, develop & debug programs independently.
• Ability to use ANSI SQL for storing and retrieving data from the RDBMS.
• Ability to develop a Web Application using Front end and Back end tools.

UNIT 1: INTRODUCTION TO COMPUTER SYSTEMS

Hardware Concepts:
Computer organization (basic concepts): CPU, Memory (RAM and ROM), I/O devices, communication bus, ports (serial, parallel, network, phone);
Input devices: Keyboard, Mouse, Light pen, Touch Screens, Graphics Tablets, Joystick, Microphone, OCR, Scanner, Smart Card reader, Barcode reader, Biometric sensor, web camera;
Output Devices: Monitor/Visual Display Unit (VDU), LCD screen, Television, Printer (Dot Matrix Printer, Desk jet/Inkjet/Bubble jet Printer, Laser Printer), Plotter, Speaker;
Secondary Storage Devices: Floppy Disk, Hard Disk, Compact Disk, Magnetic Tape, Digital Versatile Disk (DVD) USB Drive, Memory cards; Comparative properties of storage devices;
Memory Units: Bit (Binary Digit)/Byte (Kilobyte, Megabyte, Gigabyte, Terabyte, Petabyte)

Software Concepts:
Operating systems, Need for operating system, major functions of Operating System, Memory Management
Security of system: sources of attack and possible damages, virus and related entities - worms, propagation of these entities, virus detection using a tool, digital certificates, digital signature, cookies, firewall, password, file access permissions

System Software

Productivity Tools

General Purpose Application Software: Word Processor, Presentation Tool, Spreadsheet Package, Database Management System

Developer Tools: Compilers and Interpreters, Integrated Development Environment (IDE)

General features of Desktop:
To be taught through practical. Refer to the practical section.

Word Processing
To be taught through practical. Refer to the practical section.

Spreadsheet
To be taught through practical. Refer to the practical section.

UNIT 2: INTRODUCTION TO PROGRAMMING

Getting started with Programming using IDE
(Refer to Appendix A for sample guidelines of GUI Programming, and Appendix B for Swing Control Methods & Properties)

Introduction, Rapid Application Development using IDE (Integrated Development Environment); Familiarization of IDE using basic Interface components- Label, TextField, TextArea, Button, CheckBox, RadioButton,

Creation of a simple Swing Application ("Hello World")

Developing General Application - Getting Familiar with Java Swing User Interface components- Frame, Dialog, OptionPane, Panel, ScrollPane, Label, TextField, PasswordField, TextArea, Button, CheckBox, RadioButtonItem, ComboBox, List, Table, FileChooser, ColorChooser, ToolBar, Menu.

Basic component handling methods/attributes
setText, getText, add, isSelected, setSelected, getX, getY, addActionListener.

Programming Fundamentals

Data Types: Concept of data types; Built-in data types - byte, short, int, long, float, double, char, String, boolean

Variables:
Need to use variable, Declaring Variables, Variable Naming Convention, Assigning value to Variables;

Integer object method: parseInt
Double object method: parseDouble

Control Structures:
Decision Structure - if, if-else, switch;
Looping Structure- while, do-while, for;

Programming Guidelines:
General Concepts; Modular approach; Stylistic Guidelines: Clarity and Simplicity of Expressions, Names, Comments, Indentation; Documentation and Program Maintenance; Running and debugging programs, Syntax Errors, Run-Time Errors, Logical Errors;
Problem Solving Methodology and Techniques: Understanding of the problem, Identifying minimum number of inputs required for output, Step by step solution for the problem, breaking down solution into simple steps, Identification of arithmetic and logical operations required for solution, Using Control Structure: Conditional control and looping (finite and infinite);

UNIT 3: RELATIONAL DATABASE MANAGEMENT SYSTEM

Database Management System
Introduction to database concepts: Relation/Table, attribute/fields, Tuple / Rows;
Data Types - Number, Character and Date
Key - Primary Key, Candidate key, Alternate key;
Examples of common Database Management System - MySQL, INGRES, POSTGRES, ORACLE, DB2, MS SQL, Sybase.

Introduction to MySQL
(ANSI SQL 99 standard commands)

Classification of SQL Statements:
DML - SELECT, INSERT, UPDATE, DELETE
DDL - CREATE, DROP, ALTER
SQL SELECT Statement (working with demo/already existing tables): SELECT statement, Selecting All the Columns, Selecting Specific Column, Using Arithmetic Operators, Operator Precedence, Defining and using Column Alias, Duplicate rows and their Elimination (DISTINCT keyword), Displaying Table Structure (DESC command); SELECT Statement Continued: Limiting Rows during selection (using WHERE clause), Working with Character Strings and Dates, Working with NULL values;
Using Comparison operators - =, <, >, <=, >=, <>, BETWEEN, IN, LIKE(%_), Logical Operators -AND, OR, NOT; Operator Precedence;
ORDER BY Clause, Sorting in Ascending/Descending Order, Sorting By Column Alias Name, Sorting On Multiple Columns;
Functions in MySQL:
String Function - CHAR(), CONCAT(), INSTR(), LCASE(), LEFT(), LOWER(), LENGTH(), LTRIM(), MID(), RIGHT(), RTRIM(), SUBSTR(), TRIM(), UCASE(), UPPER().
Mathematical Functions - POWER(), ROUND(), TRUNCATE().
Date and Time Functions - CURDATE(), DATE(), MONTH(), YEAR(), DAYNAME(), DAYOFMONTH(), DAYOFWEEK(), DAYOFYEAR(), NOW(), SYSDATE().

Manipulating Data of a Table/Relation: Inserting New Rows, Inserting New Rows with Null Values, Inserting NUMBER, CHAR and DATE Values, Update Statement to Change Existing Data of a Table, Updating Rows in A Table, Delete statement - removing row/rows from a Table;

Creating Table using CREATE TABLE, ALTER TABLE for adding a new column, using naming conventions for column names;

UNIT 4: IT APPLICATIONS

e-Governance - Definition, Benefits to citizens, e-Governance websites and their salient features and societal impacts; e-Governance challenges.

e-Business - Definition, Benefits to customers and business, e-Business websites and their salient features and societal impacts; e-Business challenges.

e-Learning - Definition; Benefits to students (Learners), Teachers (Trainers) and School (Institution) Management; e-Learning websites and their salient features and societal impacts; e-Business Challenges.

### Evaluation of Practical Examination

1. **Problem solving using Java**
   
   Student is required to solve programming problems based on all concepts covered in theory throughout the year and maintain a record of these in the practical file.

   Student will be given a problem to be solved using Java during final practical examination to be conducted at the end of the academic session.

2. **SQL Queries**

   Students will be trying out SQL queries in MySQL throughout the year along with course coverage in theory.

   Student will be asked to write 4 queries based on one or two tables during final practical examination to be conducted at the end of the academic session.

3. **Practical Record File**

   A practical record file is required to be created during the entire academic session. It should be duly signed by the concerned teacher on regular basis and is to be produced at the time of Final Practical Examination for evaluation. It should include the following:

   - Print out of at least 2 documents with use of Different Style, Page Setting/Formatting, Bulleting/Numbering and Tabulation
   - Print out of at least 2 spreadsheets with simple calculations, basic functions, macros and graphs/charts
   - At least 6 solutions of simple problems and 2 IT applications using IDE based Java (refer to Appendix 'A' & 'B')
   - At least 20 SQL queries based on one table

4. **Viva Voce**

   Students will be asked oral questions during practical Examination to be conducted at the end of the course. The questions will be from the entire course covered in the academic session.
General Content to be covered during practical sessions

Familiarization of Computer and its Productivity Tools

Hardware concepts (Demonstration of components of a PC):

Components to be shown through relevant Charts or Animation or Presentation or Video or Internet Sites or real demonstrations:

Microprocessor; Hard Disk, RAM; Mother Board; Boards; USB port; RJ45 LAN port; serial port, parallel port; CD/ DVD drive;

Central Processing Unit (CPU); Arithmetic Logic Unit (ALU), Control Unit, Memory Unit (RAM - Random Access Memory & ROM - Read Only Memory)

Input devices: Keyboard, Mouse, Light pen, Touch Screens, Graphics Tablets, Joystick, Microphone, OCR, Scanner, Smart Card reader, Barcode reader, Biometric sensor, web camera, Thin Clients;

Output Devices: Monitor/Visual Display Unit (VDU), LCD screen, Television, Printer (Dot Matrix Printer, Deskjet/ Ink jet/ Bubble jet Printer, Laser Printer), Plotter, Speaker, Thin Clients;

Secondary Storage Devices: Floppy Disk, Hard Disk, Compact Disk, Magnetic Tape, Digital Versatile Disk (DVD) USD Drive, Memory cards;

Internet- Web Browser, Internet messenger, Mail Client;

Using Office tools;

Sound & Video - CD Player, Sound Recorder, PMovie Player, Music Player,

Universal Access- Orca Screen Reader and Magnifier.

System Menu: Preferences- About me, Appearances, Assistive Technologies, Keyboard shortcuts, Main Menu, Mouse, Network Proxy, Preferred Applications, Screen Resolution, Screen Saver, Sound;

Administration - Hardware Driver/Device Driver Utility, Package Manager, Printing/Print Manager, Update Manager, Users and Groups, Time and Date, Language Support; Help; Log Out; Shut Down.

Word Processing

Opening a new/existing document, closing a document, typing in a document, saving a document, page preview, printing a document, setting up of page as per the specifications, selecting a portion of document, copying selected text, cutting selected text, pasting selected text; changing font, size, style, color of text; Inserting symbol; Formatting: Alignment - Left, Right, Center;

Converting from word processor document to PDF format directly from OpenOffice.org
Spreadsheet

Opening a new/existing spreadsheet, closing a spreadsheet, understanding a cell, row and column, typing in numbers in the cell, saving a spreadsheet, page preview, printing a spreadsheet, setting up of page as per the specifications, selecting a portion of spreadsheet, writing formulas for addition, subtraction and multiplication in cells, writing simple arithmetic formulas in spreadsheet, copying formulas across cells, Converting spreadsheet to PDF format directly from OpenOffice.org

Evaluation of this portion will be done on the basis of work done in the Practical Record File and Viva Voce during final practical Examination to be conducted at the end of the academic session

### UNIT 1: NETWORKING AND OPEN STANDARDS

**Computer Networking:** Networking - a brief overview, Basic concept of domain name, MAC, and IP Address, Identifying computers and users over a network (Domain Name, MAC 'Media Access Control' and IP address), domain name resolution, Network Topologies, Types of network - LAN, MAN, WAN, PAN; Wired Technologies - Co-Axial, Ethernet Cable, Optical Fiber; Wireless Technologies - Blue Tooth, Infrared, Microwave, Radio Link, Satellite Link; Network Devices - Hub, Switch, Repeater, Gateway - and their functions

Network security - denial of service, intrusion problems, snooping

**Open Source Concepts:**

Open Source Software (OSS), common FOSS/FLOSS examples (e.g. Gnu/Linux, Firefox, OpenOffice), common open standards (open document format Ogg Vorbis)

Indian Language Computing: character encoding, UNICODE, different types of fonts (open type vs true type, static vs dynamic), Entering Indian Language Text - phonetic and key map based.

### UNIT 2: PROGRAMMING

**Review of Class XI:**

**Programming Fundamentals**

(Refer to Appendix A for sample guidelines of GUI Programming, and Appendix B for Swing Control Methods & Properties)

Basic concept of Access specifier for classes, Members and methods

Basic concept of Inheritance: need, Method Overloading and Overriding, Abstract Class and Interfaces, use of interfaces.

Commonly used libraries: String class and methods: toString(), concat(), length(), toLowerCase(), toUpperCase(), trim(), substring()

Math object: pow(), round()

Accessing MySQL database using ODBC/JDBC to connect with database.

Web application development: URL, Web Server, Communicating with the web server, concept of Client and Server Side.
HTML based web pages covering basic tags - HTML, TITLE, BODY, H1..H6, Paragraph (P), Line Break (BR), Section Separator (HR), FONT, TABLE, LIST (UL, OL), FORM; Creating and accessing static pages using HTML and introduction to XML

UNIT 3: RELATIONAL DATABASE MANAGEMENT SYSTEM

Review of RDBMS from Class XI

Database Fundamentals
Concept of Database Transaction, Committing and revoking a Transaction using COMMIT and REVOKE,

**Grouping Records:** GROUP BY, Group functions - MAX(), MIN(), AVG(), SUM(), COUNT(); using COUNT(*), DISTINCT clause with COUNT, Group Functions and Null Values,

**Displaying Data From Multiple Tables:** Cartesian product, Union, concept of Foreign Key, Equi-Join

Creating a Table with PRIMARY KEY and NOT NULL constraints, adding a Constraint, enabling Constraints, Viewing Constraints, Viewing the Columns Associated with Constraints;

ALTER TABLE for deleting a column, ALTER TABLE for modifying data types of a column

**DROP Table for deleting a table;**

UNIT 4: IT APPLICATIONS

**Front-end Interface** - Introduction; content and features; identifying and using appropriate component (Text Box, Radio Button, CheckBox, List) for data entry, validation and display;

**Back-end Database** - Introduction and its purpose; exploring the requirement of tables and its essential attributes;

**Front-End and Database Connectivity** - Introduction, requirement and benefits

Demonstration and development of appropriate Front-end interface and Back-end Database for e-Governance, e-Business and e-Learning applications
Class XII (Practical)

Evaluation of Practical Examination

1. **Problem Solving using Java**
   - Student is required to solve programming problems based on all concepts covered in theory throughout the year and maintain a record of these in the practical file.
   - Student will be given a problem to be solved using Java during final practical examination to be conducted at the end of the academic session.

2. **SQL Queries**
   - Students will be trying out SQL queries in MySQL throughout the year along with course coverage in theory.
   - Student will be asked to write 4 queries based on one or two tables during final practical examination to be conducted at the end of the academic session.

3. **Practical Record File**
   - A practical record file is required to be created during the entire academic session. It should be duly signed by the concerned teacher on regular basis and is to be produced at the time of final practical examination for evaluation. It should include the following:
     - At least 12 solutions of simple problems and 2 IT applications using IDE based Java (refer to Appendix 'A' & 'B')
     - At least 24 SQL queries based on one and/or two tables
     - Solution of at least 2 simple problems incorporating Java Application & Database connectivity

4. **Project File**
   - Students in group of 2-3 are required to work collaboratively to develop a project using Programming and Database skills learnt during the course. The project should be an application with GUI front-end based on any one of the following domains - e-Governance, e-Business and e-Learning

5. **Viva Voce**
   - Students will be asked oral questions during practical Examination to be conducted at the end of the course. The questions will be from the entire course covered in the academic session
CBSE Curriculum 2012
Appendix 'A'
Sample Guidelines for GUI Programming

1. To display a message using Label, TextBox, MessageDialog using simple GUI applications
2. To concatenate two text entries and display using simple GUI application
3. To perform a simple arithmetic operation (+,-,*,/) and display the result in MessageDialog or TextBox using simple GUI application
4. To perform simple arithmetic operation (+,-,*,/) and display the result in TextBox using simple GUI application
5. To make simple decision making (if statement) solution and display relevant message using GUI application (Example - Problems related to Eligibility for a given value of Age, "Profit" or "Loss" messages for given values of Cost Price and Sale Price, Grade Display for given values of Marks of students etc.)
6. To create a simple GUI application to perform both arithmetic and logical operation together (Example - Total, Average and Grade calculation for given marks, Salary Calculation on different criteria)
7. To create a simple GUI application to perform an operation based on the criteria input by the user in a CheckBox or a RadioButton.
   (Example 1: Find the Discount of an item on the basis of Category of item [Electrical Appliance/ Electronic Gadget/Stationary specified using a Radio button] and its Cost [Below 1000/Above 1000/Equal to 1000 specified using a Radio button]).
   (Example 2: Calculate the incentive of a Sales Person on the basis of his Sales Amount, Customer Feedback, Count of Customer specified using CheckBox)
   [Introduce variable declaration]
8. To create a simple GUI application to change the property of a swing element based on the selection made by the user
   (Example 1: To change the background or Foreground color of any of the Swing elements of the form based on the color selected from a list)
   (Example 2: To change the foreground and background color of a label based on the values input/stored in a combo box)
9. To store the data(Admission No., Name, Date of Birth, Class and Section) of 10 students in a table [Table] and find total number of students in each class and section.
10. To create a simple GUI application for repeatedly doing a task based on the user input.
    (Example: To display the multiplication table of a number input by the user)
Sample Guidelines for Connectivity Problems

11. To create a simple GUI application that counts and displays the number of records present in a database table.

12. To create a simple GUI application that displays the records of a database table in a tabular format (using jTable) on the GUI form.

13. To create a simple GUI application that displays the records of a database table in a tabular format (using jTable) on the GUI form based on a criteria input by the user.

14. To create a simple GUI application to perform a calculation based on a value retrieved from database table and a value entered by the user in a GUI application.

16. MULTIMEDIA AND WEB TECHNOLOGY (Code 067)

Learning Objectives:
1. To get proficient in Webpage Development
2. To be able to write server and client sides scripts and manage websites
3. To design Graphical images using Image, Audio and Video Editing tools
4. To understand the concept of Open Source software

Competencies:
The student will become proficient in the following:
1. Managing Self Developed web-site
2. Management of a full-fledged web portal
3. Creating, Editing and Embedding Images, Audio and Video clips in Webpage

Class XI (Theory)

Unit 1: Computer System

Introduction to Computer;

Input Devices - Keyboards, Mouse, Joystick, Mic, Camera;

Output Devices - Monitor, Printer, Speaker, Plotter;

Memory Units - Byte, Kilobyte, Megabyte, Giga byte, Tera byte;

Primary Memory - RAM and ROM;

Secondary Storage devices - Floppy Disk, Hard Disk, CD ROM, DVD, Zip Drive, DAT Drive;

Power devices - UPS;

Software - System Software, Application Software, Utility Software;

Working on computers - switching on computer, booting computer; icons, shortcuts, taskbar, mouse pointer, typing, saving and printing a simple text file, drawing simple picture, using calculator option, customizing desktop, managing folders (creating, moving, deleting, renaming), using floppy disk drive, using CD/DVD drives, managing files (copying, moving, deleting, renaming), playing audio and video;

GUI Operating System

Important: Students/Teachers can also perform similar operation on any operating system LIKE Linux, Bharti OOS, windows. It is advised that the teacher while using any one operating system, give a demonstration of equivalent features for the other operating system.
GUI Components
General features, Elements of Desktop - Taskbar, Icon, Start button, Shortcuts, Folder, Recycle Bin, My Computer,

Start Menu: Program, Documents, Settings, Find/Search, Help, Run, ShutDown/Logoff;
Customization of Taskbar, Start menu, Display properties (Wallpaper, Font Settings, Color Settings, Screen Savers);

Program Menu: Accessories - Calculator, Text editor, Image editor, Entertainments (Sound Recorder, Media Player);

Browsers: Mozilla Firefox, Google Chrome, Internet Explorer, Netscape Navigator;
Control Panel: Add new hardware; Add new software, Printer installation, Date/Time settings, Mouse and Regional Settings;

Documentation
Purpose of using word processing software, opening a new/existing document, closing a document, typing in a document, saving a document, print preview, printing a document, setting up of page as per the specifications, selecting a portion of document, copying selected text, cutting selected text, pasting selected text; changing font, size, style, color of text; Inserting symbol; Formatting: Alignment - Left, Right, Center; Justified;

Unit 2: Web Development

HTML
Introduction, Objectives, Introduction to Universal Resource Locator (URL) - Fragment Identifiers and Relative URL's, History of HTML, SGML, Structure of HTML/DHTML Document, Switching between opened Windows and browser (Container tag, Empty tag, Attribute);

Basic Tags of HTML:
<HTML>, <HEAD>, <TITLE>, <BODY> (Setting the Fore color and Background color,
Background Image, Background Sound, link colours), Heading tag (<H1> to <H6>) and attributes (ALIGN),
<FONT> tag and Attributes (size, color, face), <SMALL>, <BIG>, <P>, <BR>, Comment in HTML (<!-- >)
Formatting Text :<B>, <I>, <U>, <EM>, <BLOCKQUOTE>, <PRE>, <SUB>, <SUP>, <STRIKE>,
<ADDRESS>
Ordered List: <OL> (Type- 1, I, i, A, a; Start, Value), <LI>
Unordered List : <UL> (Type-Disc, Circle, Square)
Definition List : <DL>, <DT>, <DD>
Creating Links: Link to other HTML documents or data objects, Links to other places in the same HTML documents, Links to places in other HTML documents, Anchor Tag <A HREF> and <A NAME>;
Inserting Inline Images <IMG align, src, width, height, alt, border>;
Horizontal Rule <HR align, width, size, noshade, color>;

Web Page Authoring Using HTML

Tables: Creating Table <TABLE Border, Align, Cellspacing, Cellpadding, Width, Colspan, Rowspan>, <TH>, <TR>, <TD>, <CAPTION Align>;

Frames: Creating two or more rows Frames <FRAMESET ROWS >, Creating two or more Columns Frames <FRAMESET COLS >Percentage dimensions, Relative dimensions <Frame name, Src, Frameborder, height, width, marginheight, marginwidth, scrolling, noresize> <NOFRAMES>, </NOFRAMES>;

Forms: Definition, Use - data can be written to a file, can be submitted to a database such as MSAccess, MYSql or Oracle or it can be emailed to someone in particular; Form Tag <FORM name, action, method>, <SELECT name, size, multiple / single> <OPTION> </SELECT>, <TEXTAREA name, rows, cols >, </TEXTAREA>, <INPUT type - checkbox, hidden, image, radio, reset, submit>;

Document Object Model

Cascading Style Sheets

Introduction to Cascading Style Sheet (CSS), three ways of introducing the style sheets to your document. Basic Syntax; Creating and saving cascading style sheets. <STYLE> tag. Examples showing the linking of external style sheet files to a document; Inline and Embed, <DIV> <SPAN>;

Introduction to Font, Text, Background, Margin, Padding and Border properties: FONT-FAMILY, FONT-STYLE, FONT-SIZE and FONT-VARIANT, FONT-WEIGHT; COLOR, WORD-SPACING, LETTER-SPACING, TEXT-DECORATION, VERTICAL-ALIGN, TEXT-TRANSFORM; TEXT-ALIGN, TEXT-INDENT, LINE-HEIGHT; BACKGROUND-COLOR, BACKGROUND-IMAGE, BACKGROUND-REPEAT; MARGINS (all values), , PADDIND (all values), BORDER (all values);

Positioning: Absolute and Relative;

Additional Features : Assigning Classes;

eXtensible Markup Language (XML)

XML: Introduction;
Features of XML;
Advantages of XML;
Structure of XML: Logical Structure, Physical Structure;
XML Markup: Element Markup i.e (<foo>Hello</foo>), Attribute Markup i.e. (<!element.name property= "value">) ;
Naming Rules: used for elements and attributes, and for all the descriptors;
Comments in XML;
Entity Declarations :<! ENTITY name "replacement text">;
Element Declarations: <!ELEMENT name content >;
Empty Elements: <!ELEMENT empty.element EMPTY >;
Unrestricted Elements: <!ELEMENT any.element ANY >;
Element Content Model: Element Sequences i.e. <!ELEMENT counting(first, second, third, fourth) >,
Element Choices <!ELEMENT choose(this.one | that.one) >, Combined Sequences and Choices;
Element Occurrence Indicators: -Discussion of Three Occurrence Indicators
? (Question Mark)
* (Asterisk Sign)
+ (Plus Sign)
Character Content: PCDATA (Parseable Character data) <!ELEMENT text(#PCDATA) ,
Document Type Declaration (DTD) and Validation;
Developing a DTD: Modify an existing XML, Developing a DTD from XML Code, either automatically or manually;
Viewing XML in Internet Explorer, Viewing XML using the XML Data Source Object;

Unit 3: Web Scripting

VBScript
Introduction, Adding VBScript code to HTML page, VBScript Data type-Variant subtypes;
VBScript Variables: (Declaring variable, Naming restrictions, Assigning value to variables, Scalar variables and 1-D Array), VBScript Constants, VBScript Operators, and Operator precedence;
MsgBox: functions of message box (Prompt, Buttons, Title, Helpline, Context), Return values of MsgBox function, button argument setting;
Conditional statements: If..Then.. Else... End if, Select case;
Loops: Do loops, While... Wend, For.. Next, For Each.. Next;
VBScript procedures: Sub procedures, Function procedures;
Using VBScript with HTML form controls, Data handling functions, String functions, Date and Time functions;

Unit 4: Multimedia And Authoring Tools

Graphics Devices: Monitor display configuration, Basics of Graphics Accelerator Card and its importance;
Basic concepts of Images: Digital Images and Digital Image Representation
Image Formats: TIFF, BMP, JPG/JPEG, GIF, PIC, PDF, PSD;
Applications: Poster Design, Still pictures, colored layout, Designing of - Books, magazines brochures, children's literature, narrative text handling, scripts in Indian Languages, picture books, comics, illustrations with photographs, scientific illustrations, conceptual illustrations, handling of assignment for the market;

Image Scanning with the help of scanner: Setting up Resolution, Size, File formats of images; image preview, Bitonal, Grey Scale and color options, Image capture (TWAIN)

from scanners;

Significance of PDF: creation, modification;

Animation, Morphing and Applications

Graphic Tools: Image Editing Software (Photoshop / Coreldraw), GIMP

Basic Concepts: An Introduction, creating, Opening and saving files, Menus, Toolbox, Color control icons, Mode control icons, Window controls icons; creating new images,

Image Handling: Cropping, adjusting image size, increasing the size of the work canvas, saving an image;

Operations on Layers: Adding new layers, dragging and pasting selected objects on to layers, dragging layers between files, Viewing, hiding, editing, moving, copying, duplicating, deleting, merging layers, rotating selections, scaling an object, preserving layers, using adjustment layers;

Channels and Masks: Channel palette, showing and hiding channels, splitting channels in to separate image, merging channels, creating a quick mask, editing masks using quick mask mode;

Painting and Editing: Brushes palette, brush shape, creating and deleting brushes, creating custom brushes, setting brush options, saving, loading and appending brushes, Options palette;

Opacity, pressure, or exposure, paint fade-out rate, making, adjusting, moving, copying extending, reducing, pasting and deleting selections using selection tools, softening the edges of a selection, hiding a selection border, Image tracing (CorelDraw).

Concept of Multimedia: Picture/Graphics, Audio, Video;

Sound: Recording Sound using Sound Recorder (Capture), Sound capture through sound editing software (ex: Sound forge), Sound editing, Noise correction, Effect enhancement;

Sound File Format: AIFF (Audio Input File Format from Apple Mac), MIDI, WAV, MP3, ASF (Streaming format from Microsoft).

Importing audio files from external devices and saving them.

Sound Quality: CD Quality, Radio Quality, Telephone Quality;
MULTIMEDIA AND WEB TECHNOLOGY (Code 067)

Class XI (Practical)

Duration: 3 Hours  Total Marks: 30

1. Hands on Experience  15
   • A topic based website is to be developed by each student using various commands covered in HTML and VBScript.
   • Web pages should be designed with following features.
   • HTML Basic Tag(<HTML>/<HEAD>/<TITLE>/<BODY>/<B>/<I>/<U>/<BR>/<HR>)
   • Anchor/Image insertion/Linking
   • Tables/Frame/Form
   • CSS
   • XML Markup / Declarations / Element Content Model
   • Element Occurrence Indicators
   • Buttons/Combo Box/Check Box/Text Box using VBScript

2. Practical File  5
   The practical file should be made on the following domain specific area (with supported documents and printouts)
   • Make a web page for Crime against Poor Community and view it on the browser
   • Link few more pages to the developed page, containing information about Crime and steps taken by Government. (Use HTML tags to make a Static web page)
   • Use inline styling to change appearance of contents of the web page.
   • Use Style sheets (embedding or linking) to change the appearance of all the pages developed in the above case.
   • Enhance the above web page by providing data in sheet format.
   • At this step of web page development add dynamic features such as adding time and current date to the web page
   • Collect user information using forms, for registration. Display the collected user details using message box, saying thank you for registration. (Use VB Script)

3. Project  5
   Knowledge domain: HTML, DHTML, CSS, VB Script, and Image Editing Software
   Suggested topics:
   1. Website of a student containing personal information about student such as email address, photograph, likes, dislikes, hobbies, class, school name, achievements, favorite restaurant, favorite tourist places, ultimate aim of life, message to mankind, role model.
2. Website of a School providing information of a school containing Moto of school, photograph of school, brief description of school, name of the principal, facilities and infrastructure, labs, sports, faculty and departments information, results and achievements of students.

3. Website of a Restaurant providing information about types of food items, brief description about each item with pictures, price list, and availability timings.

4. Website of a Travel Agency to provide the information about various tourist places, various modes of journey available, types of hotels available.

5. Your blog in English/ other language

Note:

• For developing the website collect real information from various sources.
• It is advised to break up the above-mentioned case studies into smaller modules as per coverage of the course.
• Teachers can provide alternative case studies also of similar kind.

4. Viva Voce

Five questions from topics covered in the curriculum

### Unit 1: Computer System

**Database Terminology:** Data, Record/Tuple, Table, Database

**Concept of Keys:** Candidate Key, Primary Key, Alternate Key, and Foreign Key;

**Database Tool:** Using MS-Access, Creating and Saving Table, Defining Primary Key, Inserting and Deleting Column, Renaming Column, Inserting records, Deleting Records, Modifying Records, and Table Relationship.

### Unit 2: Web Technologies

**Communication and network concepts**

**Evolution of Networking:** ARPANET, Internet, Interspace;

Different ways of sending data across the network with reference to switching techniques;

**Data Communication terminologies:** Concept of Channel, Baud, Bandwidth (Hz, KHz, MHz) and Data transfer rate (bps, kbps, Mbps, Gbps, Tbps);

**Transmission media:** Twisted pair cable, coaxial cable, optical fiber, infrared, radio link, microwave link and satellite link.

**Network devices:** Modem, RJ45 connector, Ethernet Card, Hub, Switch, Gateway;

Different Topologies- Bus, Star, Tree; Concepts of LAN, WAN, MAN;

**Protocol:** TCP/IP, File Transfer Protocol (FTP), PPP, Level-Remote Login (Telnet), Internet Application: Wireless/Mobile Communication, GSM, CDMA, WLL, 3G, SMS, Voice mail, Electronic Mail, Chat, Video Conferencing;

**Network Security Concepts:** Cyber Law, Firewall, Cookies, Hackers and Crackers;

Introduction to Open Source based software

**Terminology:** OSS, FLOSS, GNU, FSF, OSI, W3C

**Definitions:** Open Source Software, Freeware, Shareware, Proprietary software, Localisation, UNICODE

**Softwares:** Linux, Mozilla web browser, Apache server, MySQL, Postgres, Pango, OpenOffice, Tomcat, PHP, Python

**Multimedia Application:** Education (use of CAI tool), Entertainment, Edutainment, Virtual Reality, Digital Libraries, Information Kiosks, Video on Demand, Web Pages, Video phone, Video conferencing and Health care.

**Unit 3: Web Development**

Review Of HTML/DHTML, VBScript covered in Class XI.

**Installation and Managing WEB-Server:** Internet Information Server (IIS) / Personal Web Server (PWS).

**Active Server Pages (ASP):** Concept of ASP, features of ASP, other equivalent tools - JSP, PHP;

**Constants:** String and Numeric;

**Data types:** Integer, Floating Point (Single, Double), String, Date, Boolean, Currency, Variant, Object;

**Variables:** Explicit and Implicit Declaration;

**Operators:**
- Arithmetic: +, - (Unary and Binary), *, /, \(\text{integer division}\) mod, ^;
- Comparison: <, >, <=, >=, <> =;
- Logical: AND, OR, NOT, XOR, EQV, IMP;
- String Operator: & or + (for Concatenation);

**Functions:**
- Conversion functions: Abs(), CBool(), CByte(), CInt(), CStr(), CSng(), CLng(), CDate();
- String Manipulation Functions: UCase(), LCase(), Len(), Left(), Right(), Mid(), LTrim(), InStr(), RTrim(), LTrim();
- Time & Date Functions: Date(), Day(), Hour(), Left(), Len(), Minute(), Month(), Monthname(), Now();

**Arrays:** Declaration and use of 1 dimensional arrays;

**Controls:** IF..THEN, IF..THEN..ELSE..END IF, IF..THEN..ELSEIF..THEN..END IF, SELECT..CASE..END SELECT, FOR..NEXT, FOR EACH..NEXT, DO WHILE..LOOP, DO..LOOP WHILE, DO UNTIL .. LOOP;

**Procedures and Functions:** Passing parameters/arguments;

Concept of object model structure (client to server and server to client);

**Objects:** Properties, Methods, Events, Setting Object properties, Retrieving Object properties, calling objects/methods;

**Types of Objects:** Response, Request, Application, Session, Server, ASPErr;

**Response Object:** Write Method, AddHeader, AppendToLog, BinaryWrite, Using Shortcuts \(<%=\text{value/exp}\text{r}\text{expr}Пет\rangle\), Controlling information: Buffer, Flush Clear, End;

**Request Object:** Request Object Collection: QueryString, Form, ServerVariables, Cookies, ClientCertificate;
Application: Contents, Lock, Unlock, Remove, RemoveAll;

ASP Components: AD Rotator, Content Rotator, Counter, Page Counter, Permission Checker;

Text Files: Open and Read content from a text file;

Elementary Database Concepts: Concept of Table/Relation, Relationship, Candidate Key, Primary Key, Alternate Key, Foreign Key, Connecting with Databases: Creation of DSN, using OLE DB.

Working on Database: Inserting, Retrieving, Modifying/Updation of records from Tables in Databases using server objects (ADODB. Connection, ADODB. Recordset);

Server Variables: HTTP_User_Agent, REMOTE_ADDER, REMOTE_HOST, SERVER_NAME;

Unit 4: Multimedia and Authoring Tools

Movie File Formats: AVI, MPEG, SWF, MOV, DAT;

Embedding Audio/Video on the web page;

Multimedia Authoring Using Macromedia Flash

Making of Simple Flash Movie, Setting Properties, Frame Rate, Dimensions, and Background Color;

Movie Frames: Concept of Frame, Frame Buffer, and Frame Rate, Creating a Key Frame;

Scene: Concept of Scene, Duplicate Scene, Add Scene, Delete Scene, and Navigating between Scenes;

Layers: Concept of Layer, Layer Properties, Layer Name, Show/Hide/Lock layers, Type of Layer - Normal/Guide/Mask, Outline Color, Viewing Layer as outline, Layer Height, Adding/deleting a layer;

Inserting Text Into the Frame, Inserting Graphical Elements into the frame, Converting Text/Graphics to Symbol, Inserting Symbol into the Frame, Setting Symbol Property (Graphics/Button/Movie), Inserting Blank Frame, Inserting Blank Key Frame, Inserting Key Frame into the Blank frame, Selecting all/Specific frames of a Layer, Copying/Pasting selected Frames,

Special Effects: Motion Tweening, Shape Tweening, Color effect, Inserting Sound Layer;

Testing a Scene and Movie;

Import/Export (Movie/Sound and other multimedia objects)

Publishing: Publishing A Flash Movie; Changing publish Settings; Producing SWF(Flash Movie), HTML page, GIF image, JPEG Image (*.jpg), PNG Image, Windows Projector (*.exe), Macintosh Projector (*.hqx), Quick Time (*.mov), Real Player (*.smil);

Testing with Publish Preview
MULTIMEDIA AND WEB TECHNOLOGY (Code 067)

Class XII (Practical)

Duration: 3 Hours   Total Marks: 30

1. Hands on Experience

A website based on a particular topic has to be developed by each student using various commands covered in HTML, VBScript and ASP with at least 4 web pages.

Web page should be designed with following features.

- HTML Basic Tags (html/head/title/body/B/I/U/BR/HR)
- Functions
- Conditional and Control Statements
- Objects: Response/Request / Application/Session /Server /ASP error
- Image Editing using Photo Shop/Corel draw
- Merging layers /Moving and Copying Layers
- Use of Multimedia Authoring (Using Macromedia Flash)
- (Note: Output as Web page/Flash Movie/Windows Projector/Quick Time)

2. Practical File

The practical file should be made on the following domain specific area (with supported documents and printoust):

- Make a Simple web page containing almost all the tags of HTML and View that web page on the Browser.
- Develop a Home page for Income Tax department (Simple and Textual) and store it in the directory used for Web Services on the Web-Server.
- Enhance the home page by providing links to other sample pages (e.g. Income Tax Zone)
- Income Tax Detail Form for an individual, Income Tax Notification, Income Tax News etc.)
- Embed Time and Date on the home page.
- Further enhance the website by providing User Registration Page. Collect the user details and Display a new web page showing Thanks For Registration. Also write appropriate functions to validate form inputs.
- Give a login facility to the user with Anonymous name and maintain the session till the user logs out.
- For user log in attempts, maintain a visitor count.
- Change the login module of the web page and now connect it to the IncomeTax User database on the server. This is to be done to store the registration detail and facilitate login to the user.
• The login page is to be made in a way that it should also provide facility to change password, if user forget password.
• Store some of the created or edited sound files on the Web-Server and provide links to play it.
• Change the appearance of the web page using pictures at appropriate places (e.g. Logo of Income Tax Department, Photograph of Income Tax Building etc.)
• Visit websites (State Govt./ Local language newspaper) and get 5 different printouts in local language.

(Note: Student can also improve the case studies from class XI and enhance it further with database and multimedia support)

3. **Project based on case study**

Case Studies are to be divided into following parts:

**Case study Part 1(Collection, Editing and Creation of Website Resources):**
Create an electronic movie with various pictures, audio clipping, movie clippings, and factual text related to school / organisation;
• Introduction to 3D Animation (Using 3D Studio)
• Embedding video and audio in web pages.
• An introduction to interactive walk-through.
• Embedding walk-through into web pages.

**Case Study Part 2(Development of Web Content with resources):**
Case studies covered in class XI with database support with Login, Online Registration, Booking and/or ordering facility.

**Sample Case Study**
(Note: Other similar type of case studies can also be used for the project work)

Mr. Verma is the CEO of copsi soft drinks (I) Ltd. His company is having a wide network of distributors for copsi branded soft drinks. With the increase in sales and distribution network, it is required to adopt a new technological intervention in the existing system. He wants that the company should have a global presence over the widely popular medium, called World Wide Web. Assume that you are appointed as the senior person of the development team. You are required to collect the company information and its current requirement. For your easiness we had collected the details of the company and are as follows:

**The company Information:**
Name of the Company: copsi soft drinks (I) Ltd.
**Zone:** East, West, North and South
**Distributors:** All over the world.

Mr. Verma said that the web site should be able to reflect company in terms of:
• Home Page
• Product & Promotion Page
• Distributor Login Page / Password Recovery Page
• Distributor Specific Details Page
• Registration Page for Distributor-ship
• Company News and Flashes
• Company Profile

Technical Details:
Web site Introduction is to be made in flash.
A proper database is to be maintained for the distributor information.

Note:
For developing the above sites/movies collect the actual information from various sources.
It is advised to break up the above-mentioned case studies into smaller modules as per coverage of the course.
Teachers can provide alternative case studies also of similar kind.

4. Viva Voce

Five questions from topics covered in the curriculum

Reference Books

_ HTML Complete - Sybex (BPB)
_ Mastering HTML 4 Premium Edition - Ray (BPB)
_ HTML Example Book - Farrar (BPB)

_ ASP, ADO and XML Complete - Sybex (BPB)
_ Mastering Active Server Pages 3 - Russell (BPB)
_ Practical ASP - Bayross (BPB)
Educational Qualification for the post of PGT to teach Computer Science (083), Informatics Practices (065) and Multi Media and Web Technology (067)

1. **B.E. or B. Tech** (Computer Science/IT) from a recognized University or an equivalent Degree or Diploma from an institution/university recognized by the Govt. on India.

2. **B.E. or B. Tech** (any Stream) and Post Graduate Diploma in Computers from any recognized university.

3. **M.Sc.** (Computer Science) MCA or Equivalent from a recognized University.

4. **B.Sc.** (Computer Science) BCA or Equivalent and Post Graduate degree in any subject from a recognized University.

5. **Post Graduate Diploma** in Computer and Post Graduate degree in any subject from a recognized University.

6. 'A' Level from DOEACC and **Post Graduate** degree in any subject.

7. 'B' or 'C' Level from 'DOEACC', Ministry of Information and Communication Technology.
17. ECONOMICS (Code No. 30)

Rationale

Economics is one of the social sciences, which has great influence on every human being. As economic life and the economy go through changes, the need to ground education in children’s own experience becomes essential. While doing so, it is imperative to provide them opportunities to acquire analytical skills to observe and understand the economic realities.

At senior secondary stage, the learners are in a position to understand abstract ideas, exercise the power of thinking and to develop their own perception. It is at this stage, the learners are exposed to the rigour of the discipline of economics in a systematic way.

The economics courses are introduced in such a way that in the initial stage, the learners are introduced to the economic realities that the nation is facing today along with some basic statistical tools to understand these broader economic realities. In the later stage, the learners are introduced to economics as a theory of abstraction.

The economics courses also contain many projects and activities. These will provide opportunities for the learners to explore various economic issues both from their day-to-day life and also from issues, which are broader and invisible in nature. The academic skills that they learn in these courses would help to develop the projects and activities. The syllabus is also expected to provide opportunities to use information and communication technologies to facilitate their learning process.

OBJECTIVES

1. Understanding of some basic economic concepts and development of economic reasoning which the learners can apply in their day-to-day life as citizens, workers and consumers.
2. Realisation of learners’ role in nation building and sensitivity to the economic issues that the nation is facing today.
3. Equipment with basic tools of economics and statistics to analyse economic issues. This is pertinent for even those who may not pursue this course beyond senior secondary stage.
4. Development of understanding that there can be more than one views on any economic issue and necessary skills to argue logically with reasoning.

Part A : Statistics for Economics

In this course, the learners are expected to acquire skills in collection, organisation and presentation of quantitative and qualitative information pertaining to various simple economic aspects systematically. It also intends to provide some basic statistical tools to analyse, and interpret any economic information and draw appropriate inferences. In this process, the learners are also expected to understand the behaviour of various economic data.

Unit 1: Introduction 5 Periods

What is Economics?
Meaning, scope and importance of statistics in Economics

Unit 2: Collection, Organisation and Presentation of data 25 Periods

Collection of data - sources of data - primary and secondary; how basic data is collected; methods of collecting data; Some important sources of secondary data: Census of India and National Sample Survey Organisation.

Organisation of Data: Meaning and types of variables; Frequency Distribution.

Presentation of Data: Tabular Presentation and Diagrammatic Presentation of Data: (i) Geometric forms (bar diagrams and pie diagrams), (ii) Frequency diagrams (histogram, polygon and ogive) and (iii) Arithmetic line graphs (time series graph).
Unit 3: Statistical Tools and Interpretation 64 Periods

(For all the numerical problems and solutions, the appropriate economic interpretation may be attempted. This means, the students need to solve the problems and provide interpretation for the results derived)

Measures of Central Tendency- mean (simple and weighted), median and mode

Measures of Dispersion - absolute dispersion (range, quartile deviation, mean deviation and standard deviation); relative dispersion (co-efficient of quartile-deviation, co-efficient of mean deviation, co-efficient of variation); Lorenz Curve: Meaning and its application.

Correlation - meaning, scatter diagram; Measures of correlation - Karl Pearson’s method (two variables ungrouped data) Spearman’s rank correlation.

Introduction to Index Numbers - meaning, types - wholesale price index, consumer price index and index of industrial production, uses of index numbers; Inflation and index numbers.

Unit 4: Developing Projects in Economics 10 Periods

The students may be encouraged to develop projects, which have primary data, secondary data or both. Case studies of a few organisations / outlets may also be encouraged. Some of the examples of the projects are as follows (they are not mandatory but suggestive):

   (i) A report on demographic structure of your neighborhood;

   (ii) Consumer awareness amongst households

   (iii) Changing prices of a few vegetables in your market

   (iv) Study of a cooperative institution: milk cooperatives

The idea behind introducing this unit is to enable the students to develop the ways and means by which a project can be developed using the skills learned in the course. This includes all the steps involved in designing a project starting from choosing a title, exploring the information relating to the title, collection of primary and secondary data, analysing the data, presentation of the project and using various statistical tools and their interpretation and conclusion.

Part B: Indian Economic Development

Unit 5: Development Policies and Experience (1947-90): 18 Periods

A brief introduction of the state of Indian economy on the eve of independence.

Common goals of Five Year Plans.

Main features, problems and policies of agriculture (institutional aspects and new agricultural strategy, etc.), industry (industrial licensing, etc,) and foreign trade.

Unit 6: Economic Reforms since 1991: 14 Periods

Need and main features - liberalisation, globalisation and privatisation;

An appraisal of LPG policies
Unit 7: Current challenges facing Indian Economy:  60 Periods

Poverty: absolute and relative; Main programmes for poverty alleviation: A critical assessment;
Rural development: Key issues - credit and marketing - role of cooperatives; agricultural
diversification; alternative farming - organic farming
Human Capital Formation: How people become resource; Role of human capital in economic
development; Growth of Education Sector in India
Inflation: Problems and Policies
Infrastructure: Meaning-and Types: Case Studies: Energy and Health: Problems and Policies-A
critical assessment;
Sustainable Economic Development: Meaning, Effects of Economic Development on Resources
and Environment, including global warming.

Unit 8: Development Experience of India:  12 Periods

A comparison with neighbours
India and Pakistan
India and China
Issues: growth, population, sectoral development and other developmental indicators.

Part A : Introductory Microeconomics

Unit 1: Introduction 10 Periods

Meaning of microeconomics and macroeconomics

What is an economy? Central problems of an economy: what, how and for whom to produce; concepts of production possibility frontier and opportunity cost.

(Non-evaluative topics: Some basic tools in the study of economics - equation of a line, slope of a line, slope of a curve.)

Unit 2: Consumer Equilibrium and Demand 32 Periods

Consumer's equilibrium – meaning of utility, marginal utility, law of diminishing marginal utility, conditions of consumer's equilibrium using marginal utility analysis.

Indifference curve analysis of consumer's equilibrium-the consumer's budget (budget set and budget line), preferences of the consumer (indifference curve, indifference map) and conditions of consumer's equilibrium.

Demand, market demand, determinants of demand, demand schedule, demand curve, movement along and shifts in the demand curve; price elasticity of demand - factors affecting price elasticity of demand; measurement of price elasticity of demand – (a) percentage-change method and (b) geometric method (linear demand curve); relationship between price elasticity of demand and total expenditure.

Unit 3: Producer Behaviour and Supply 32 Periods

Production function: Total Product, Average Product and Marginal Product.

Returns to a Factor.

Cost and Revenue: Short run costs - total cost, total fixed cost, total variable cost; Average fixed cost, average variable cost and marginal cost-meaning and their relationship.

Revenue - total, average and marginal revenue.

Producer's equilibrium-meaning and its conditions in terms of marginal revenue-marginal cost.

Supply, market supply, determinants of supply, supply schedule, supply curve, movements along and shifts in supply curve, price elasticity of supply; measurement of price elasticity of supply – (a) percentage-change method and (b) geometric method.

Unit 4: Forms of Market and Price Determination 22 Periods

Perfect competition - Features; Determination of market equilibrium and effects of shifts in demand and supply.

Other Market Forms - monopoly, monopolistic competition, oligopoly - their meaning and features.

Unit 5: Simple applications of Tools of demand and supply 8 Periods

(not to be examined)
Part B : Introductory Macroeconomics

Unit 6: National Income and related aggregates  
30 Periods

Some basic concepts: consumption goods, capital goods, final goods, intermediate goods; stocks and flows; gross investment and depreciation.
Circular flow of income; Methods of calculating National Income – Value Added or Product method, Expenditure method, Income method.
Aggregates related to National Income:
Gross National Product (GNP), Net National Product (NNP), Gross and Net Domestic Product (GDP and NDP) - at market price, at factor cost; National Disposable Income (gross and net), Private Income, Personal Income and Personal Disposable Income; Real and Nominal GDP.
GDP and Welfare

Unit 7: Money and Banking  
18 Periods

Money – its meaning and functions.
Supply of money – Currency held by the public and net demand deposits held by commercial banks.
Money creation by the commercial banking system.
Central bank and its functions (example of the Reserve Bank of India).

Unit 8: Determination of Income and Employment  
25 Periods

Aggregate demand and its components.
Propensity to consume and propensity to save (average and marginal).
Short–run equilibrium output; investment multiplier and its mechanism.
Meaning of full employment and involuntary unemployment.
Problems of excess demand and deficient demand; measures to correct them - change in government spending, availability of credit.

Unit 9: Government Budget and the Economy  
17 Periods

Government budget - meaning, objectives and components.
Classification of receipts - revenue receipts and capital receipts; classification of expenditure - revenue expenditure and capital expenditure.
Measures of government deficit - revenue deficit, fiscal deficit, primary deficit: their meaning.
Fiscal Policy and its role (non evaluative topic)

Unit 10: Balance of Payments  
14 Periods

Balance of payments account - meaning and components; balance of payments deficit-meaning.
Foreign exchange rate – meaning of fixed and flexible rates and managed floating.
Determination of exchange rate in a free market.

Recommended textbooks

1. Indian Economic Development, Class XI, NCERT
2. Introductory Micro Economics, Class XII, NCERT
3. Macro Economics, Class XII, NCERT
4. Supplimentary Reading Material in Economics, Class XII, CBSE

Note: The above publications are also available in Hindi Medium
18. BUSINESS STUDIES (Code No. 054)

Rationale

The courses in Business Studies and Accountancy are introduced at +2 stage of Senior Secondary Education as formal commerce education is provided after first ten years of schooling. Therefore, it becomes necessary that instructions in these subjects are given in such a manner that students have a good understanding of the principles and practices bearing in business (trade and industry) as well as their relationship with the society.

Business is a dynamic process that brings together technology, natural resources and human initiative in a constantly changing global environment. To understand the framework in which a business operates, a detailed study of the organisation and management of business processes and its interaction with the environment is required. Globalisation has changed the way firms transact their business. Information Technology is becoming a part of business operations in more and more organisations. Computerised systems are fast replacing other systems. E-business and other related concepts are picking up fast which need to be emphasized in the curriculum.

The course in Business Studies will prepare students to analyse, manage, evaluate and respond to changes which affect business. It provides a way of looking at and interacting with the business environment. It recognizes the fact that business influences and is influenced by social, political, legal and economic forces. It allows students to appreciate that business is an integral component of society and develops an understanding of many social and ethical issues.

Therefore, to acquire basic knowledge of the business world, a course in Business Studies would be useful. It also informs students of a range of study and work options and bridges the gap between school and work.

Objectives

- To develop in students an understanding of the processes of business and its environment;
- To acquaint students with the dynamic nature and inter-dependent aspects of business;
- To develop an interest in the theory and practice of business, trade and industry;
- To familiarize students with theoretical foundations of organizing, managing and handling operations of a business firm;
- To help students appreciate the economic and social significance of business activity and the social cost and benefits arising therefrom;
- To acquaint students with the practice of managing the operations and resources of business;
- To prepare students to function more effectively and responsibly as consumers, employers, employees and citizens;
- To help students in making the transition from school to the world of work including
self-employment;

- To develop in students a business attitude and skills to be precise and articulate.

#### A Part: Foundations of Business (Periods 104)

#### Unit 1: Nature and Purpose of Business (Periods 20)

- Concept and characteristics of business
- Business, profession and employment - distinctive features
- Objectives of business - economic and social, role of profit in business
- Classification of business activities: Industry and Commerce
• Industry - types: primary, secondary, tertiary
• Commerce: Trade and Auxiliaries
• Business risks - nature and causes.

Unit 2: Forms of Business Organisations  (Periods 24)
• Sole Proprietorship: meaning, features, merits and limitations.
• Partnership: features, types, registration, merits, limitations, types of partners;
• Joint Hindu Family Business : features, merits and limitations.
• Cooperative Societies: features, types, merits and limitations
• Company: Private Company, Public Company - features, merits and limitations;
• Choice of form of business organizations
• Starting a business - Basic factors.

Unit 3: Public, Private & Global Enterprises  (Periods 20)
• Private Sector and Public Sector
• Forms of organising public sector enterprises ; features, merits and limitations of following:
  • Departmental Undertaking
  • Statutory Corporation .
  • Government Company
  • Changing role of public sector
  • Global Enterprises : features.

Unit 4: Business Services  (Periods 18)
• Nature and types of Business services - Banking, Insurance, Transportation, Ware housing, Communication.
• Banking - types of Banks, Functions of Commercial banks, E- banking
• Insurance - principles, types: life, fire and marine
• Warehousing: types and functions
• Postal and Telecom services

Unit 5: Emerging Modes of Business  (Periods 10)
• E-Business - Scope and benefits, Resources required for successful e-business implementation, On-line transactions, payment mechanism, security and safety of business transactions.
• Outsourcing- concept, need and scope.

Unit 6: Social Responsibility of Business and Business Ethics (Periods 12)
• Concept of social responsibility.
• Case for social responsibility;
• Responsibility towards owners, investors, employees, consumers, government and community
• Environmental protection and business
• Business ethics: concept and elements.

Part B: Organisation, Finance and Trade (Periods 104)

Unit 7: Formation of a Company (Periods 16)

Stages in the formation of a company:
• Promotion,
• Incorporation, and
• Commencement of business

Unit 8: Sources of Business Finance (Periods 20)
• Nature and significance of business finance
• Owner's funds and borrowed funds
• Sources of raising Finance:
  - Equity and Preference shares
  - Debentures and Bonds
  - Loan from Financial Institutions
  - Retained Profits
  - Global Depository Receipt, American Depository Receipt
  - Loans from commercial Banks
  - Public deposits
  - Trade Credit

Unit 9: Small Business: (Periods 14)
• Small Scale Industry: Tiny Sector; cottage and rural industry.
• Role of small business in rural India.
• Problems of small business in India.
• Government Assistance and Special Schemes for Industries in rural, backward and hilly areas.

Unit 10: Internal Trade (Periods 20)
• Internal trade; types: wholesale and retail trade.
• Services of a wholesaler and a retailer
• Types of Retail Trade:
  - Itinerant retailers and fixed shops.
  - Departmental store, super market, malls, chain store, mail order business, consumer’s cooperative store.
  - Automatic Vending Machine
• Role of Chamber of Commerce and Industry in promotion of internal trade.

Unit 11: International Business (Periods 16)
• Nature and Importance of International Business;
• Ways of entering into International Business. Export-Import Procedures and documentation. Foreign Trade Promotion. Organizational support and incentives; Nature and importance of Export Processing Zone/Special Economic Zone; International Trade Institutions and Agreement: WTO, UNCTAD, World Bank, IMF.

Unit 12: Project Work

Suggestive/Illustrative Projects (Periods 22)
Any one of the following:-
(i) Find out from local sample business unit(s) the various objectives they pursue.
(ii) Problems of setting up and running business units.
(iii) Enquiry into the ethics of running business through questionnaires.
(iv) Survey of quality of bank services in the local branch office.
(v) Study of postal and courier mail services.
(vi) Availability and use of agency services, advertising, packaging, investments in savings schemes, etc.
(vii) Survey of the popularity of credit cards issued by different banks.
(viii) Study the profile of a sole trader/partnership commenting on the nature and working of business.
(ix) Study of a Joint Hindu family business.
(x) Study of the organisational and functional aspects of any of the following cooperatives:
   (i) Banking Cooperatives
   (ii) Thrift and Credit Societies.
(iii) Cooperative Consumer Stores
(iv) Diary Cooperatives.
(v) Housing Cooperatives
(vi) Marketing Cooperatives

(xi) Study of a small business unit regarding source of finance.
(xii) Study of nature of small traders (like hawkers and peddlars in a specific locality) with reference to types of goods, capital investment, turnover.
(xiii) Study of weekly bazaar in a locality.
(xiv) Study of franchise retail store.
(xv) Study of export/import procedure of any article.
(xvi) Problems of women entrepreneurs in business.
(xvii) Survey of waste/garbage disposal by a business enterprise
(xviii) Study of pavement trade.

Prepare a scrapbook and collect articles on the changing role of public sector and any other topics related to the syllabus.

Marks may be suitably distributed over the different parts of the Project Report-
1. Objectives
2. Methodology
3. Conclusions - findings and suggestions

11. Marketing Management 30  14
12. Consumer Protection  16  6

88  40

Part A: Principles and Functions of Management

Unit I: Nature and significance of Management (Periods 14)

- Management - concept, objectives, importance
- Management as Science, Art, Profession.
- Levels of management
- Management functions - planning, organizing, staffing, directing and controlling
- Coordination - characteristics and importance

Unit 2: Principles of Management (Periods 14)

- Principles of Management - concept, nature and significance
- Fayol’s principles of management
- Taylor’s Scientific Management - principles and techniques

Unit 3: Management and Business Environment (Periods 10)

- Business Environment - importance
- Dimensions of Business Environment - Economic, Social, Technological, Political and Legal
- Economic Environment in India; Impact of Government policy changes on business and industry, with special reference to adoption of the policies of liberalization, privatization and globalisation

Unit 4: Planning (Periods 14)

- Concept, features, importance, limitations
- Planning process
- Types of Plans - Objectives, Strategy, Policy, Procedure, Method, Rule, Budget, Programme.

206
Unit 5: Organising  
- Concept and importance.
- Steps in the process of organising.
- Structure of organization - functional and divisional.
- Formal and informal organization.
- Delegation: concept, elements and importance.
- Decentralization: concept and importance.

Unit 6: Staffing  
- Concept and importance of staffing
- Staffing as a part of Human Resource Management
- Staffing process
  - Recruitment - meaning and sources
  - Selection - process
  - Training and Development - Concept and importance. Methods of training

Unit 7: Directing  
- Concept and importance
- Elements of Directing
  - Supervision - concept and role
  - Motivation - concept, Maslow’s hierarchy of needs;
    Financial and non-financial incentives.
  - Leadership - concept ; qualities of a good leader
  - Communication - concept , formal and informal communication; barriers to effective
    communication.

Unit 8: Controlling  
- Concept and importance
- Relationship between planning and controlling
- Steps in the process of control
- Techniques of controlling : budgetary control,

Part B : Business Finance and Marketing

Unit 9: Financial Management  
(Periods 22)
• Concept, importance, objectives of financial management
• Financial decisions : factors affecting
• Financial planning - concept and importance.
• Capital Structure - concept and factors affecting
• Fixed and Working Capital - concept and factors affecting its requirements.

Unit 10: Financial Markets ................................................. (Periods 20)
• Concept of Financial Market: Money Market and its instruments.
• Capital market and types - primary and secondary market.
• Stock Exchange - functions, Trading Procedure, NSEI, OCTEI.
• Securities and Exchange Board of India (SEBI)- Objectives and Functions.

Unit 11: Marketing Management ...........................................(Periods 30)
• Marketing - concept, functions and role, marketing and selling
• Marketing management philosophies.
• Marketing mix - elements
  - Product - nature, classification, branding, labeling and packaging
  - Price - Factors determining fixation of price
  - Physical distribution: Elements; Channels of distribution : types, function, choice of channels
  - Role of Promotion -Elements of promotion mix; Advertising - concept, merits and limitations, objections against advertising. Personal selling - concept, importance; Sales promotion - concept, merits, limitations, methods ; Publicity - concept and importance.

Unit 12: Consumer Protection .............................................. (Periods 16)
• Importance of consumer protection
• Consumer rights
• Consumer responsibilities
• Role of consumer organizations and NGOs.

Recommended text books:
1. Business Studies-I, Class XI, Published by NCERT
2. Business Studies - II, Class XII, — do —
(The above text books are also available in Hindi medium).
19. ACCOUNTANCY (Code No. 055)

Rationale

The course in Accountancy is introduced at + 2 stage of Senior Secondary education, as formal commerce education is provided after first ten years of schooling. With the fast changing economic scenario and business environment in a state of continuous flux, elementary business education along with accountancy as the language of business and as a source of financial information has carved out a place for itself at the Senior Secondary stage. Its syllabus content should give students a firm foundation in basic accounting principles and methodology and also acquaint them with the changes taking place in the presentation and analysis of accounting information, keeping in view the development of accounting standards and use of computers.

Against this background, the course puts emphasis on developing basic understanding about the nature and purpose of the accounting information and its use in the conduct of business operations. This would help to develop among students logical reasoning, careful analysis and considered judgement.

Accounting as an information system aids in providing financial information. The emphasis at Class XI is placed on basic concepts and process of accounting leading to the preparation of accounts for a sole proprietorship firm. Computerised accounting is becoming more and more popular with increasing awareness about use of computers in business. Keeping this in view, the students are exposed compulsorily to the basic knowledge about computers and its use in accounting in the same year.

In class XII, Accounting for Not for Profit Organisations, Partnership Firms and companies are to be taught as a compulsory part. Students will also be given an opportunity to understand further about Computerized Accounting System, as an optional course to Analysis of Financial Statements.

Objectives:

- To familiarise the students with accounting as an information system;
- To acquaint the students with basic concepts of accounting and accounting standards;
- To develop the skills of using accounting equation in processing business transactions;
- To develop an understanding about recording of business transactions and preparation of financial statements;
- To enable the students with accounting for reconstitution of partnership firms;
- To enable the students to understand and analyse the financial statements; and
- To familiarize students with the fundamentals of computerized system of accounting.

## Part A: Financial Accounting - I (Periods 120)

### Unit 1: Introduction to Accounting (Periods 14)

- Accounting- meaning, objectives, Accounting as source of information, internal and external users of Accounting information and their needs.
- Qualitative characteristics of Accounting information-reliability, relevance, understandability and comparability.
- Basic Accounting Terms - Asset, Liability, Capital, Expense, Income, Expenditure, Revenue, Debtors, Creditors, Goods, Cost, Stock, Purchase, Sales, Profit, Loss, Gain, Voucher, Discount, Transaction, Drawings.

### Unit 2: Theory Base of Accounting (Periods 14)

- Accounting Principles - meaning and nature
- Accounting Concepts: Entity, Money Measurement, Going Concern, Accounting Period, Cost Concept, Dual Aspect, Revenue Recognition (Realisation), Matching, Accrual, Full Disclosure, Consistency, Conservatism, Materiality
- Accounting Standards- Concept
- Process of accounting-from recording of business transactions to preparation of trial balance.
- Bases of Accounting - Cash Basis, Accrual Basis
Unit 3: Recording of Business Transactions (Periods 26)

- Bank Reconciliation Statement: Meaning, Need and Preparation, Corrected Cash Book Balance

Unit 4: Trial Balance and Rectification of Errors (Periods 22)

- Trial Balance: meaning, objectives and preparation.

- Errors: Types of Errors: Errors of omission, commission, principles and compensating errors affecting Trial Balance; errors not affecting Trial Balance.

- Detection and Rectification of Errors (One Sided and Two Sided); use of Suspense Account.

Unit 5: Depreciation, Provisions and Reserves (Periods 22)

- Depreciation: Meaning and need for charging depreciation, factors affecting depreciation, methods of depreciation-Straight Line method, Written Down Value method (excluding change in method), Method of recording depreciation-charging to asset account, creating provision for depreciation/accumulated depreciation account; Treatment of disposal of asset.

- Provisions and Reserves: meaning, importance, difference between Provisions and Reserves, types of Reserves: Revenue Reserve, Capital Reserve, General Reserve, Specific Reserve and Secret Reserves.

Unit 6: Accounting for Bills of Exchange Transactions (Periods 22)

- Bills of exchange and Promissory Note: definition, features, parties, specimen and distinction.

- Important Terms: Term of Bill, Days of Grace, Date of Maturity, Bill at Sight, Negotiation, Endorsement, Discounting of Bill, Dishonour, Retirement and Renewal of a Bill.

- Accounting treatment of trade bills.

Part B: Financial Accounting - II  

Unit 7: Financial Statements  

- Financial statements: meaning and users.  
- Capital Expenditure, Revenue expenditure and Deferred Revenue Expenditure  
- Trading and Profit and Loss Account: Gross Profit, Operating and net profit.  
- Preparation of Trading and Profit & Loss Account and Balance Sheet of sole proprietorship.  
- Adjustments in preparation of financial statements with respect to closing stock, outstanding expenses, prepaid expenses, accrued income, Income received In advance, depreciation bad debts, provision for doubtful debts, provision for discount on debtors, manager's commission.  

Unit 8: Accounts from incomplete records  

Incomplete records: meaning, uses and limitations. Ascertainment of profit/loss by statement of affairs method, conversion method.  

Unit 9: Computers in Accounting  

- Introduction to Computer and Accounting Information System (AIS)  
- Applications of computers in accounting:  
  - Automation of accounting process, designing accounting reports, MIS reporting, data exchange with other information systems  
  - Comparison of accounting processes in manual and computerized accounting, highlighting advantages and limitations of automation  
  - Sourcing of accounting system: readymade and customized and tailor-made accounting system. Advantages and disadvantages of each option.  

Unit 10: Accounting and Database System  

- Accounting and Database Management System  
- Concept of entity and relationship: entities and relationships in an Accounting System: designing and creating simple tables, forms, queries and reports in the context of Accounting System.

CLASS XII

Part A:
Accounting for Not-For-Profit Organisations, Partnership Firms and Companies. (Periods 124)

Unit 1: Accounting for Not-for-profit Organisations (Periods 22)

- Meaning and features of not for profit organisations.
- Meaning and features of fundbased accounting.
Receipts and payments Account
Preparation of Income and Expenditure Account and Balance Sheet from Receipt and Payment Account with additional information.

Unit 2: Accounting for Partnership Firms - I (Periods 14)
- Nature of Partnership firm, Partnership Deed-meaning, importance.
- Partners' Capital Accounts: Fixed vs Fluctuating Capital, Division of Profit among partners, Profit and Loss Appropriation Account including past adjustments.

Unit 3: Accounting for Partnership Firms - II (Periods 34)
- Changes in Profit Sharing Ratio among the existing partners-Sacrificing Ratio and Gaining Ratio.
- Accounting for Revaluation of Assets and Liabilities and distribution of reserves (Accumulated Profits).
- Admission of a Partner: Effect of Admission of Partner, Change in Profit Sharing Ratio, Accounting Treatment for Goodwill (as per AS 10), Revaluation of Assets and Liabilities, Adjustment of Capitals.
- Dissolution of a partnership firm. (excluding Garner Vs Murrey and Peace Meal System).

Unit 4: Accounting for Share Capital and Debenture (Periods 54)
- Share Capital: Meaning and Types.
- Accounting for share capital: Issue and Allotment of Equity and Preference Shares; public subscription of shares: over subscription and under subscription; issue at par, premium and at discount; calls in advance, calls in arrears, issue of shares for consideration other than cash. Meaning of Private placement of shares and employee stock option plan.
- Forfeiture of shares: accounting treatment, re-issue of forfeited shares.
- Presentation of Share Capital in company’s Balance Sheet.
- Issue of debentures at par and Premium; writing of loss on issue of debentures; Issue of debentures as collateral security; issue of debentures for consideration other than cash.
- Redemption of debentures; sources: out of profits - debenture redemption reserve; out of capital-methods: lump sum payment, draw by lots, purchase in the open market and conversion (excluding cum-interest and ex-interest).
Part B: Financial Statement Analysis

Unit 5: Analysis of Financial Statements (Periods 33)

- Financial Statements of a Company: preparation of simple balance sheet of a company in the prescribed form with major headings only.
- Financial Statement Analysis: meaning, significance, limitations,
- Tools for Financial Statement Analysis: Comparative Statements, Common Size Statements,
- Accounting Ratios: meaning and objectives, types of ratios:
  - Liquidity Ratios: Current Ratio, Liquid Ratio
  - Solvency Ratios: Debt to Equity, Total Assets to Debt. Proprietary Ratio
  - Activity Ratios: Inventory Turnover, Debtors Turnover, Payable Turnover, Working Capital Turnover, Fixed Assets Turnover,
  - Profitability Ratio: Gross Profit, Operating, Net Profit, Return on Investment, Earning per Share, Dividend per Share, Price Earning Ratio

Unit 6: Cash Flow Statement (Periods 33)

- Cash Flow Statement: Meaning and objectives, preparation, adjustments related to depreciation, dividend and tax, sale and purchase of non-current assets (as per revised standard issued by ICAI)

Unit 7: Project Work in Accounting (Periods 18)

(Please refer to the guidelines published by the CBSE)

OR

Part C: Computerised Accounting (Periods 84)

Unit 5: Overview of Computerized Accounting System (Periods 12)

- Concept and types of Computerised Accounting System (CAS)
- Features of a Computerized Accounting System
- Structure of a Computerised Accounting System
Unit 6: **Accounting using Database Management System (DBMS)**  
(Periods 26)

➢ Concept of DBMS
➢ Objects in DBMS: Tables, Queries, Forms, Reports
➢ Creating data tables for accounting
➢ Using queries, forms and reports for generating accounting information.

Applications of DBMS in generating accounting information such as shareholders’ records, sales reports, customers’ profile, suppliers’ profile, payroll, employees’ profile, petty cash register.

Unit 7: **Accounting Applications of Electronic Spreadsheet**  
(Periods 24)

➢ Concept of an Electronic Spreadsheet (ES)
➢ Features offered by Electronic Spreadsheet
➢ Applications of Electronic Spreadsheet in generating accounting information, preparing depreciation schedule, loan repayment schedule, payroll accounting and other such applications.

Unit 8: **Practical Work in Computerised Accounting**  
(Periods 22)  
(Please refer to the guidelines published by the CBSE)

20. ENTREPRENEURSHIP (Code No. 066)

RATIONALE

Development of school curriculum is a dynamic process responsive to the society and reflecting the needs and aspiration of its learners. Fast changing society deserves changes in educational curriculum particularly to establish relevance to emerging socio-economic environment; to ensure equity of opportunity and participation and finally promoting concern for excellence. In this context the course on entrepreneurship aims at instilling and stimulating human urge for excellence by realizing individual potential for generating and putting to use the inputs, relevant to social prosperity and thereby ensure decent means of living for every individual.

OBJECTIVES

• Acquiring Entrepreneurial Spirit and be Enterprising in all walks of life.
• Familiarization with various uses of human resource for earning decent means of living.
• Understanding the concept and process of entrepreneurship - its contribution and role in the growth and development of individual and the nation.
• Acquiring entrepreneurial quality, competency and motivation
• Learning the process and skills of creation and management of entrepreneurial venture.

CLASS XI

THEORY 

Unit I: Entrepreneurship and Human Activities 30 Marks

A. Entrepreneurship
   • Concept, Functions and need
   • Entrepreneurship : Characteristics and Competency
   • Process of Entrepreneurship Development.

B. Entrepreneurial Pursuits and Human Activities:
   • Nature, Purpose and pattern of Human Activities: Economic and Non-Economic, Need for innovation.
   • Rationale and Relationship of Entrepreneurial pursuits and Human Activities.
Unit II: Acquiring Entrepreneurial Values and Motivation 30 Marks

- Entrepreneurial Values, Attitude and Motivation - Meaning and concept.
- Developing Entrepreneurial Motivation and Competency - concept and process of Achievement Motivation, Self-efficacy, Creativity, Risk Taking, Leadership, Communication and Influencing Ability and Planning Action.
- Barriers to Entrepreneurship
- Help and support to Entrepreneurs

Unit III: Introduction to Market Dynamics 10 Marks

- Understanding a Market
- Competitive Analysis of the Market
- Patents, Trademarks and Copyright

PRACTICAL 30 Marks

I. Study visit by students to any enterprise of own choice. With the help of a schedule/questionnaire the students will record observation regarding - the background of entrepreneur, reasons for selecting the entrepreneurial career, starting the enterprise, the type of enterprise, the process of setting this enterprise, products/services, production process, investment made and marketing practices followed, profit or loss, growth and development, problems faced, institutions/organisations which offer support and entrepreneur’s level and type of satisfaction.

II. Preparation of a brief report based on the observations made during study-visit to an enterprise.

CLASS XII

THEORY: Total marks: 70

Unit I: Entrepreneurial Opportunities and Enterprise Creation 20 Marks

- Sensing Entrepreneurial Opportunities
- Environment Scanning
- Market Assessment
- Identification of Entrepreneurial Opportunities
- Selection of an Enterprise
- Steps in setting up of an Enterprise

Unit II: Enterprise Planning and Resourcing 20 Marks

- Business Planning - Preparation of a Project Report
- Resource Assessment - Financial and Non-Financial
* Fixed and Working Capital Requirement, Funds, Flows, Profit Ratios, Break Even Analysis etc.
* Mobilising Resources - Sources and Means of Fund, Facilities and Technologies for starting an Enterprise.
* Organising/Production of goods and services - quality, quantity and flow of inputs.

**Unit III: Enterprise Management**

(a) General management: Basic Management functions.

(b) Managing Market:
   Meaning, Functions of Marketing, Marketing Mix:
   * Product
   * Price
   * Place
   * Promotion (advertising and sales promotion)

(c) Managing Finance - Sources of Long Term and Short Term Finances
   * Determination of Cost, Income, Calculation of Profit/Loss.

(d) Managing Growth and Sustenance - Affecting Change, Modernisation, Expansion, Diversification and Substitution.

(e) Entrepreneurial Discipline - Laws of Land, Ecology, Consumer’s Concept, Adherance to Contract and Credits.

**PRACTICAL**

**Introduction:**

The main objective of the course in Entrepreneurship is to generate in the students initiative, self-reliance and enthusiasm so as to empower them to become entrepreneurs both in spirit and performance. A number of skills such as observation, evaluation, communication, resource mobilization and management, risk assessment, team building etc. are also to be developed in the students. Leadership qualities, sensitivity to business ethics and adherence to a positive value system are the core issues that the course highlights while presenting different concepts related to entrepreneurship.

Such a course should necessarily have a strong experiential component in the form of practical work. The objectives of the practical work are:

1. To introduce the students to the world of business by developing in them the core skills and competencies required for an entrepreneur.

2. To develop in the students qualities such as leadership, self-confidence, initiative, facing uncertainties, commitment, creativity, people and team building, integrity and reliability.
3. To enable the students to acquire the skills and knowledge needed for conducting surveys, collecting, recording and interpreting data and preparing simple estimates of demand for products and services.

4. To guide the students to prepare a Project Report.

5. To equip the students with knowledge and skills needed to plan and manage an enterprise through case studies conducted and recorded by the students in different fields such as resource assessment, market dynamics, finance management, cost determination, calculation of profit and loss etc.

6. To instill in the students important values and entrepreneurial discipline.

**FORMAT**

<table>
<thead>
<tr>
<th>Total marks: 30</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Project Report/Survey Report 10 Marks</td>
</tr>
<tr>
<td>2. Viva-Voce on PW/SR 05 Marks</td>
</tr>
<tr>
<td>3. Case Study 10 Marks</td>
</tr>
<tr>
<td>4. Problem Solving 05 Marks</td>
</tr>
</tbody>
</table>

1. **Project Report/Market Survey Report** 10 Marks

   a) **Project Report:**
   Preparation of a Project Report for an enterprise involving products/services

   Students may be provided adequate guidance to choose a project based on their interests and availability of information and authentic inputs in the locality. The specimen proforma of project report given in the textbook may be used for preparing the report. However, mechanical preparation of the report by filling in the information in the proforma should be discouraged. Further, as the students will be required to appear for a Viva-voce on the basis of their projects, sufficient care should be taken by the students to prepare the report after studying the various aspects involved thoroughly. In a nutshell, the project report should lead to viable enterprise.

   b) **Market Survey Report**

   Market research is the process and technique of finding out who your potential customers are and what they want. The survey may be on products and services already available in the market or students may also conduct surveys for new products and services. The report of the survey should be organised under the following broad headings:

   1. Objectives.
   2. Methods and tools (interviews, questionnaires etc.) to be used to collect information.
   3. Records of data and information.
   4. Analysis of data and information.
   5. Interpretation and conclusion.

   For example, a survey may be conducted to find out the choice of households in toiletry soap,
tooth paste etc. The data may be analysed to establish a pattern that may be useful to an entrepreneur.

**Guidelines for assessment of Project Report / Survey Report**

1. **Presentation:** Format, Clarity, Use of graphs, tables and other visuals, organisation, methodical recording of data and information and general neatness of execution. 5 marks
2. **Originality and Creativity** 3 marks
3. **Authenticity of information and correctness of calculations and general feasibility of the project/ sustainability of conclusion drawn in the survey.** 2 marks

2. **Viva Voce on the Project /Market Survey Report** 5 Marks

The questions should establish that the report is the original work of the student and that the student has a reasonably clear understanding of the work carried out by him/her.

Entrepreneurial qualities such as leadership, self-belief, creativity, originality, initiative etc. may also be assessed by asking a variety of questions related to the report.

3. **Case Study** 10 marks

A case study is a focused research on an organisation, enterprise, practice, behaviour or person undertaken to highlight an aspect that the study attempts to examine. For instance, a case study may be conducted on the pollution control methods being employed by an industry. Or a successful industrialist may be chosen as a subject of a case study to analyze and understand the strategies that the industrialist adopted to achieve success.

Ideally, a case study should be conducted on subjects with the objectives of bringing to the fore beliefs, practices, strategies, values etc. that have made them what they are. Such studies help us to understand the way in which great minds think and operate. We may also conduct case studies on failures; why a company collapsed, how a service lost its market etc. From both the types of case study, we learn lessons; how to do something or how not to do something. They also provide valuable insight into the processes involved in an enterprise.

A few topics are suggested for carrying out case studies:

i) Drawing a profile of a successful entrepreneur.
ii) Studying a public sector undertaking and highlighting its success/failure, by analyzing the factors responsible.
iii) Studying a small scale unit in the locality to bring out the procedures and processes adopted by the unit to become a feasible business venture.
iv) A study of competition in business by choosing two or more rivals in the market and analyzing their strengths and weaknesses.
v) Take the school itself for a case study and analyze any two aspects of the school plant for chalking out a plan of action: infrastructure, academics, co-curricular activities etc.
vi) A case study on a thriving fast food shop/restaurant in your locality. What makes it so popular?
vii) A case study on the ways in which a business unit has mobilised its financial resources.

viii) A case study on the enterprise management techniques adopted by a business house.

ix) A case study on the marketing strategies of a successful consumer durable company.

x) A case study on the financial management of a Public Limited Company.

xi) A case study on any Specialized Institution that supports and guides the establishment of a small scale unit.

xii) Studying the balance sheets of two big private companies to assess their trade and credit worthiness.

xiii) Studying the inventory management of a large manufacturing industry to ascertain the processes involved for optimizing cost.

xiv) Carrying out a case study on an established industrial house/company to find out the value system of the company and how it fulfils its social commitment/obligations.

xv) Carrying out a case study on an established industry to ascertain the processes followed to reduce/prevent pollution.

xvi) Study on environment friendly companies and their contribution to preservation.

Assessment of Case Studies

i) Presentation: Format, accuracy, clarity, authenticity and general neatness 7 marks

ii) Analysis and Conclusions 3 marks

4. Problem Solving 5 marks

In this session, the students will be required to solve a problem in the form of a written test. The examiner may choose any problem related to the units in class XII Text Book and set it for the class. The problem may be in the following areas:

a. How to scan the environment to establish the feasibility of a project.

b. Given certain figures showing the consumption pattern of a product, drawing conclusions that have a bearing on similar products.

c. Carrying out market assessment for a given product/service to ascertain the feasibility factor.

d. Assessment of Working Capital.

e. Calculation of total cost of production.

f. Calculation of break-even point.

g. Determining location of a manufacturing unit.

h. Problems in inventory control (calculation of the Economic Order Quantity and carrying out ABC analysis).

i. Applying Pricing methods to determine the price of a product or service.
j. Applying promotion mix to plan a sales campaign for a product or service.
k. Working out a simple budget for a given task or job.

Assessment of Answers

The examiner may prepare five problems which are solved by him/her before they are presented to the students. The student may choose anyone of the problems and solve it, showing the different steps/different reasons involved in the solution. If the problem does not involve actual calculations, it may not have anyone correct answer. So weightage should be given not only to the final answer but to the entire process of problem solving that the student has followed. Originality and innovative spirit should be rewarded. The students should not be penalized for spelling errors, grammatical mistakes etc. as long as the answer is coherent. Where definite formulas are involved, accuracy should be given due weightage.

21. HISTORY (Code No. 027)

Rationale

Through a focus on a series of critical historical issues and debates (class XI) or on a range of important historical sources (class XII), the students would be introduced to a set of important historical events and processes. A discussion of these themes, it is hoped, would allow students not only to know about these events and processes, but also to discover the excitement of doing history.

Objectives

- Effort in these senior secondary classes would be to emphasize to students that history is a critical discipline, a process of enquiry, a way of knowing about the past, rather than just a collection of facts. The syllabus would help them understand the process through which historians write history, by choosing and assembling different types of evidence, and by reading their sources critically. They will appreciate how historians follow the trails that lead to the past, and how historical knowledge develops.

- The syllabus would also enable students to relate/compare developments in different situations, analyze connections between similar processes located in different time periods, and discover the relationship between different methods of enquiry within history and the allied disciplines.

- The syllabus in class XI is organized around some major themes in world history. The themes have been selected so as to (i) focus on some important developments in different spheres - political, social, cultural and economic, (ii) study not only the grand narratives of development - urbanization, industrialization and modernization - but also to know about the processes of displacements and marginalization. Through the study of these themes students will acquire a sense of the wider historical processes as well as an idea of the specific debates around them.

- The treatment of each theme in class XI would include (a) an overview of the theme under discussion, (b) a more detailed focus on one region of study, (c) an introduction to a critical debate associated with the issue.

- In class XII the focus will shift to a detailed study of some themes in ancient, medieval and modern Indian history although the attempt is to soften the distinction between what is conventionally termed as ancient, medieval and modern. The object would be to study a set of these themes in some detail and depth rather than survey the entire chronological span of Indian history. In this sense the course will be built on the knowledge that the students have acquired in the earlier classes.

- Each theme in class XII will also introduce the student to one type of source for the study of history. Through such a study students would begin to see what different types of sources can reveal and what they cannot tell. They would come to know how historians analyze these sources, the problems and difficulties of interpreting each type of source, and the way a larger picture of an event, a historical process, or a historical figure, is built by looking at different types of sources.
Each theme for class XII will be organized around four subheads: (a) a detailed overview of the events, issues and processes under discussion, (b) a summary of the present state of research on the theme, (c) an account of how knowledge about the theme has been acquired, (d) an excerpt from a primary source related to the theme, explaining how it has been used by historians.

While the themes in both these classes (XI and XII) are arranged in a broad chronological sequence, there are overlaps between them. This is intended to convey a sense that chronological divides and periodization do not always operate in a neat fashion.

In the textbooks each theme would be located in a specific time and place. But these discussions would be situated within a wider context by (a) plotting the specific event within time-lines, (b) discussing the particular event or process in relation to developments in other places and other times.

<tr>
<td>14. The Industrial Revolution.</td>
<td>(12)</td>
<td></td>
</tr>
<tr>
<td>Focus on England, 18th and 19th century. (a) Innovations and technological change (b) Patterns of growth. (c) Emergence of a working class. (d) Historians' viewpoints Debate, 'Was there an Industrial Revolution?</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- Familiarize the learner with the nature of the economy and society of this period and the changes within them.
- Show how the debate on the decline of feudalism helps in understanding processes of transition.
- Explore the intellectual trends in the period.
- Familiarize students with the paintings and buildings of the period.
- Introduce the debate around the idea of ‘Renaissance’.
- Discuss changes in European economy that led to the voyages.
- Discuss the implications of the conquests for the indigenous people.
- Explore the debate on the nature of the slave trade and see what this debate tells us about the meaning of these “discoveries”.
- Understand the nature of growth in the period and its limits.
- Initiate students to the debate on the idea of industrial revolution.
15. **Displacing indigenous People.**
   Focus on North America and Australia, 18th-20th century,
   (a) European colonists in North America and Australia. (b) Formation of white settler societies. (c) Displacement and repression of local people,
   (d) Historians view points on the impact of European settlement on indigenous population.

16. **Paths to Modernization.**
   Focus on East Asia. Late 19th and 20th century.
   (a) Militarization and economic growth in Japan. (b) China and the Communist alternative.
   (d) Historians' Debate on meaning of modernization

17. **Map Work on Units 1-15**

</tbody>
</table>
| 1. The Story of the First Cities: Harappan Archaeology. | (11) | - Familiarize the learner with early urban centres as economic and social institutions.  
- Introduce the ways in which new data can lead to a revision of existing notions of history.  
- Illustrate how archaeological reports are analyzed and interpreted by scholars. |
| **Broad overview:** Early urban centres.  
**Story of discovery:** Harappan civilization  
**Excerpt:** Archaeological report on a major site.  
**Discussion:** how it has been utilized by archaeologists/historians. |
| 2. Political and Economic History: How Inscriptions tell a story. | (11) | - Familiarize the learner with major trends in the political and economic history of the subcontinent.  
- Introduce inscrptional analysis and the ways in which these have shaped the understanding of political and economic processes. |
| **Broad overview:** Political and economic history from the Mauryan to the Gupta period.  
**Story of discovery:** Inscriptions and the decipherment of the script. Shifts in the understanding of political and economic history.  
**Excerpt:** Asokan inscription and Gupta period land grant.  
**Discussion:** Interpretation of inscriptions by historians. |
| 3. Social Histories: Using the Mahabharata | (12) | - Familiarize the learner with issues in social history.  
- Introduce strategies of textual analysis and their use in reconstructing social history. |
| **Broad overview:** Issues in social history, including caste, class, kinship and gender.  
**Story of discovery:** Transmission and publications of the Mahabharata.  
**Excerpt:** from the Mahabharata, illustrating how it has been used by historians.  
**Discussion:** Other sources for reconstructing social history. |
| 4. A History of Buddhism: Sanchi Stupa | (11) | - Discuss the major religious developments in early India.  
- Introduce strategies of visual analysis and their use in reconstructing histories of religion. |
| **Broad overview:** (a) A brief review of religious histories of Vedic religion, Jainism, Vaisnavism, Saivism. (b) Focus on Buddhism.  
**Story of discovery:** Sanchi stupa  
**Excerpt:** Reproduction of sculptures from Sanchi.  
**Discussion:** Ways in which sculpture has been interpreted by historians, other sources for reconstructing the history of Buddhism. |

22. POLITICAL SCIENCE (Code No 028)

Rationale

At the senior secondary level students who opt Political Science are given an opportunity to get introduced to the diverse concerns of a Political Scientist. At this level there is a need to enable students to engage with political processes that surround them and provide them with an understanding of the historical context that has shaped the present. The different courses introduce the students to the various streams of the discipline of political science: political theory, Indian politics and international politics. Concerns of the other two streams — comparative politics and public administration — are accommodated at different places in these courses. In introducing these streams, special care has been taken not to burden the students with the current jargon of the discipline. The basic idea here is to lay the foundations for a serious engagement with the discipline at the undergraduation stage.

Objectives:

INDIAN CONSTITUTION AT WORK

- Enable students to understand historical processes and circumstances in which the Constitution was drafted.
- Provide opportunity for students to be familiar with the diverse visions that guided the makers of the Indian Constitution.
- Enable students to identify the certain key features of the Constitution and compare these to other constitutions in the world.
- Analyse the ways in which the provisions of the Constitution have worked in real political life.

POLITICAL THEORY

- Develop the skills for logical reasoning and abstraction
- Inculcate attention to and respect for viewpoints other than one’s own
- Introduce students to the different political thinkers in relation to a concept and in everyday social life
- Enable students to meaningfully participate in a concern of current political life that surrounds them
- Encourage the students to analyse any unexamined prejudices that one may have inherited.

POLITICS IN INDIA AFTER INDEPENDENCE

- Enable students to be familiar with some of the key political events and figures in the post-independence period.
- Develop skills of political analysis through events and processes of recent history.
- Develop their capacity to link macro processes with micro situations and their own life.
- Encourage the students to take a historical perspective of making sense of the contemporary
India.

CONTEMPORARY WORLD POLITICS

- Enable the students to expand their horizon beyond India and make sense of the political map of contemporary world.
- Familiarise the students with some of the key political events and processes in the post cold war era.
- Equip students to be conscious of the way in which global events and processes shape our everyday lives.
- Strengthen their capacity for political analysis by thinking of contemporary developments in a historical perspective.

Course Content:

Part A: Indian Constitution at work

   Why do we need a constitution?  
   **12 Periods**

2. **Rights in the Indian Constitution**  
   The Importance of Rights, Fundamental Rights in the Indian Constitution, Directive Principles of State Policy, Relationship between Fundamental Rights and Directive Principles  
   **12 Periods**

3. **Election and Representation**  
   Elections of Democracy, Election System in India, Reservation of Constituencies, Free and Fair Elections, Electoral Reforms  
   **10 Periods**

4. **Legislature**  
   **10 Periods**

5. **Executive**  
   What is an Executive? Different Types of Executives. Parliament ary Executive in India: Prime Ministers and Council of Ministers. Permanent Executive-Bureaucracy,  
   **10 Periods**

6. **Judiciary**  
   Why do we need an Independent Judiciary? Structure of the Judiciary, Judicial Activism, Judiciary and Rights, Judiciary and Parliament  
   **10 Periods**

7. **Federalism**  
   **10 Periods**

8. **Local Governments**  
   Why do we need Local Governments? Growth of Local Government in India, 73rd and 74th Amendments, implementation of 73rd and 74th Amendments  
   **10 Periods**

9. **Constitution as a Living Document**  
   Are Constitutions static? The procedure to amend the Constitution. Why have there been so many amendments? Basic Structure and Evolution of the Constitution. Constitution as a Living Document  
   **10 Periods**

10. **The Philosophy of the Constitution**  
    What is meant by Philosophy of the Constitution? The Political philosophy of our Constitution? Procedural Achievements, Criticisms  
    **10 Periods**

Part B: Political Theory

11. **Political Theory: An Introduction**  
    What is Politics? What do we study in Political Theory? Putting Political Theory to practice. Why should we study Political Theory?  
    **10 Periods**
12. **Freedom** 10 Periods  
The Ideal of Freedom. What is Freedom? Why do we need constraints? Harm principle. Negative and Positive Liberty

13. **Equality** 10 Periods  
Significance of Equality. What is Equality? Various dimensions of Equality. How can we promote Equality?

14. **Social Justice** 12 Periods  

15. **Rights** 10 Periods  

16. **Secularism** 11 Periods  

17. **Nationalism** 10 Periods  
Nations and Nationalism, National Self-determination, Nationalism and Pluralism

18. **Citizenship** 11 Periods  
What is citizenship? Citizen and Nation, Universal Citizenship, Global Citizenship

19. **Peace** 10 Periods  

20. **Development** 10 Periods  
What is development? Criticism of the dominant. Development Model. Alternative conceptions of development

COURSE CONTENTS

Part A: Contemporary World Politics

Course Content:

1. Cold War Era in World Politics
   Emergence of two power blocs after the second world war. Arenas of the cold war. Challenges to Bipolarity: Non Aligned Movement, quest for new international economic order. India and the cold war.

   New entities in world politics: Russia, Balkan states and Central Asian states, Introduction of democratic politics and capitalism in post-communist regimes. India’s relations with Russia and other post-communist countries.

3. US Dominance in World Politics:
   Growth of unilateralism: Afghanistan, first Gulf War, response to 9/11 and attack on Iraq. Dominance and challenge to the US in economy and ideology. India’s renegotiation of its relationship with the USA.

4. Alternative Centres of Economic and Political Power:
   Rise of China as an economic power in post-Mao era, creation and expansion of European Union, ASEAN. India’s changing relations with China.

5. South Asia in the Post-Cold War Era:

6. International Organizations in a unipolar World:
   Restructuring and the future of the UN. India’s position in the restructured UN. Rise of new international actors: new international economic organisations, NGOs. How democratic and accountable are the new institutions of global governance?

7. Security in Contemporary World:

8. Environment and Natural Resources in Global Politics:
   Environment movement and evolution of global environmental norms. Conflicts over traditional and common property resources. Rights of indigenous people. India's stand in global environmental debates.

   Economic, cultural and political manifestations. Debates on the nature of consequences of globalisation. Anti-globalisation movements. India as an arena of globalization and struggle against it.
Part B: Politics of India Since Independence

10. Nation-Building and Its Problems: 12
Nehru’s approach to nation-building: Legacy of partition: challenge of ‘refugee’ resettlement, the Kashmir problem. Organisation and reorganization of states; Political conflicts over language.

11. Era of One-Party Dominance: 12
First three general elections, nature of Congress dominance at the national level, uneven dominance at the state level, coalitional nature of Congress. Major opposition parties.

12. Politics of Planned Development 10
Five year plans, expansion of state sector and the rise of new economic interests. Famine and suspension of five year plans. Green revolution and its political fallouts.

13. India’s External Relations 12
Nehru’s foreign policy. Sino-Indian war of 1962, Indo-Pak war of 1965 and 1971. India’s nuclear programme and shifting alliances in world politics.

14. Challenges to the Congress System: 12

15. Crisis of the Constitutional Order: 12

16. Regional Aspirations and Conflicts 10

17. Rise of New Social Movements: 10

18. Recent Developments in Indian politics: 12

Recommended text books:
1. Indian Constitution at Work, Class XI, Published by NCERT
2. Political Theory, Class XII, Published by NCERT
3. Contemporary World Politics, Published by NCERT
3. Politics of India Since Independence, Published by NCERT

Note: The above textbooks are also available in Hindi medium.
23. GEOGRAPHY (Code No. 029)

Rationale

Geography is introduced as an elective subject at the senior secondary stage. After ten years of general education, students branch out at the beginning of this stage and are exposed to the rigours of the discipline for the first time. Being an entry point for the higher education, students choose geography for pursuing their academic interest and, therefore, need a broader and deeper understanding of the subject. For others, geographical knowledge is useful in daily lives because it is a valuable medium for the education of young people. Its contribution lies in the content, cognitive processes, skills and values that geography promotes and thus helps the students explore, understand and evaluate the environmental and social dimensions of the world in a better manner.

Since geography explores the relationship between people and their environment, it includes studies of physical and human environments and their interactions at different scales-local, state/region, nation and the world. The fundamental principles responsible for the varieties in the distributional pattern of physical and human features and phenomena over the earth’s surface need to be understood properly. Application of these principles would be taken up through selected case studies from the world and India. Thus, the physical and human environment of India and study of some issues from a geographical point of view will be covered in greater detail. Students will be exposed to different methods used in geographical investigations.

Objectives

The course in geography will help learners:

- Familiarise themselves with the terms, key concepts and basic principles of geography;
- Search for, recognize and understand the processes and patterns of the spatial arrangement of the natural as well as human features and phenomena on the earth’s surface;
- Understand and analyse the inter-relationship between physical and human environments and their impact;
- Apply geographical knowledge and methods of inquiry to new situations or problems at different levels-local, regional, national and global;
- Develop geographical skills, relating to collection, processing and analysis of data/information and preparation of report including maps and graphs and use of computers whereas possible; and
- Utilize geographical knowledge in understanding issues concerning the community such as environmental issues, socio-economic concerns, gender and become responsible and effective members of the community.

### Unit-1: Geography as a Discipline (Periods 3)
- Geography as an integrating discipline, as a science of spatial attributes;
- Branches of geography; importance of physical geography.

### Unit-2: The Earth (Periods 10)
- Origin and evolution of the earth; Interior of the earth;
- Wegener’s continental drift theory and plate tectonics;
- Earthquakes and volcanoes.

### Unit-3: Landforms (Periods 18)
- Rocks: major types of rocks and their characteristics;
- Landforms and their evolution
- Geomorphic processes: weathering, mass wasting, erosion and deposition; soil-formation
Unit 4: Climate (Periods 30)

- Atmosphere- composition and structure; elements of weather and climate.
- Insolation-angle of incidence and distribution; heat budget of the earth-heating and cooling of atmosphere (conduction, convection, terrestrial radiation and advection); temperature-factors controlling temperature; distribution of temperature-horizontal and vertical; inversion of temperature.
- Pressure-pressure belts; winds-planetary, seasonal and local; air masses and fronts; tropical and extratropical cyclones.
- Precipitation-evaporation; condensation-dew, frost, fog, mist and cloud; rainfall-types and world distribution.
- World climates-classification (Koeppen), greenhouse effect, global warming and climatic changes.

Unit 5: Water (Oceans) (Periods 8)

- Hydrological Cycle.
- Oceans - distribution of temperature and salinity; movements of ocean water-waves, tides and currents; submarine reliefs.

Unit 6: Life on the Earth (Periods 6)

- Biosphere - importance of plants and other organisms; biodiversity and conservation; ecosystem and ecological balance.

Unit 7: Map work on identification of features based on the above units on the outline political map of the world.

Part B. India - Physical Environment 65 Periods

Unit 8: Introduction (Periods 3)

- Location-space relations and India’s place in the world.

Unit 9: Physiography (Periods 23)

- Structure and Relief;
- Drainage systems: concept of watershed; the Himalayan and the Peninsular;
- Physiographic divisions.

Unit 10: Climate, Vegetation and Soil (23 Periods)

- Weather and climate — spatial and temporal distribution of temperature, pressure winds and rainfall, Indian monsoon: mechanism, onset and withdrawal, variability of rainfalls: spatial and temporal; Climatic types (koeppen)
Natural vegetation-forest types and distribution; wild life; conservation; biosphere reserves;
Soils - major types (ICAR’s classification) and their distribution, soil degradation and conservation.

Unit 11: Natural Hazards and Disasters: Causes, Consequences and Management (One case study to be introduced for each topic) (Periods 16)
- Floods and droughts
- Earthquakes and Tsunami
- Cyclones
- Landslides

Unit 12: Map Work of features based on above units for locating and labelling on the Outline Political map of India.

C. Practical Work (40 Periods)
Unit 1: Fundamentals of Maps (12 Periods)
- Maps -types; scales-types; construction of simple linear scale, measuring distance; finding direction and use of symbols.
- Latitude, longitude and time.
- Map projection- typology, construction and properties of projection : Conical with one standard parallel and Mercator’s projection.

Unit 2: Topographic and Weather Maps (28 Periods)
- Study of topographic maps (1 : 50,000 or 1 : 25,000 Survey of India maps); contour cross section and identification of landforms-slopes, hills, valleys, waterfall, cliffs; distribution of settlements.
- Aerial Photographs: Types & Geometry-vertical aerial photographs; difference between maps & aerial photographs; photo scale determination.
- Satellite imageries, stages in remote sensing data-acquisition, platform & sensors and data products, (photographic & digital).
- Identification of physical & cultural features from aerial photographs & satellite imageries.
- Use of weather instruments: thermometer, wet and dry-bulb thermometer, barometer, wind vane, raingauge.
- Use of weather charts: describing pressure, wind and rainfall distribution.

Unit 3: Practical Record Book and Vivavoce'.

### A. Fundamentals of Human Geography (70 Periods) 35 Marks

#### Unit 1: Human Geography: Nature and Scope

Periods 3

#### Unit 2: People

- Population — distribution, density and growth
- Population change — spatial patterns and structure; determinants of population change;
- Age-sex ratio; rural-urban composition;
- Human development - concept; selected indicators, international comparisons
Unit 3: Human Activities Periods 25

- Primary activities - concept and changing trends; gathering, pastoral, mining, subsistence agriculture, modern agriculture; people engaged in agricultural and allied activities - some examples from selected countries.
- Secondary activities-concept; manufacturing: types – household, small scale, large scale; agro based and mineral based industries; people engaged in secondary activities - some examples from selected countries.
- Tertiary activities-concept; trade, transport and communication; services; people engaged in tertiary activities - some examples from selected countries
- Quaternary activities-concept; knowledge based industries; people engaged in quaternary activities - some examples from selected countries

Unit 4: Transport, Communication and Trade Periods 19

- Land transport - roads, railways; trans-continental railways.
- Water transport- inland waterways; major ocean routes.
- Air transport- Intercontinental air routes.
- Oil and gas pipelines.
- Satellite communication and cyber space.
- International trade-Bases and changing patterns; ports as gateways of international trade, role of WTO in International trade.

Unit 5: Human Settlements Periods 8

- Settlement types - rural and urban; morphology of cities (case study); distribution of mega cities; problems of human settlements in developing countries.

Unit 6: Map Work on identification of features based on above units on the outline Political map of World.

Part B. India: People and Economy 70 Periods

Unit 7: People Periods 12

- Population: distribution, density and growth; composition of population - linguistic, religious; sex, rural-urban and occupational – population change through time and regional variations;
- Migration: international, national-causes and consequences;
- Human development: selected indicators and regional patterns;
- Population, environment and development.
Unit 8: Human Settlements

- Rural settlements - types and distribution;
- Urban settlements - types, distribution and functional classification.

Unit 9: Resources and Development

- Land resources- general land use; agricultural land use, Geographical conditions and distribution of major crops (Wheat, Rice, Tea, Coffee, Cotton, Jute, Sugarcane and Rubber), agricultural development and problems.
- Water resources-availability and utilization-irrigation, domestic, industrial and other uses; scarcity of water and conservation methods-rain water harvesting and watershed management (one case study related with participatory watershed management to be introduced).
- Mineral and energy resources- distribution of metallic (Ironore, Copper, Bauxite, Manganese); non-metallic (Mica, Salt) minerals; conventional (Coal, Petroleum, Natural gas and Hydro electricity) and non-conventional energy sources (solar, wind, biogas) and conservation.
- Industries - types, factors of industrial location; distribution and changing pattern of selected industries-iron and steel, cotton textiles, sugar, petrochemicals, and knowledge based industries; impact of liberalization, privatisation and globalisation on industrial location; industrial clusters.
- Planning in India- target area planning (case study); idea of sustainable development (case study).

Unit 10: Transport, Communication and International Trade

- Transport and communication-roads, railways, waterways and airways: oil and gas pipelines; national electric grids; communication networkings - radio, television, satellite and internet.
- International trade- changing pattern of India’s foreign trade; sea ports and their hinterland and airports,

Unit 11: Geographical Perspective on Selected Issues and Problems (One case study to be introduced for each topic)

- Environmental pollution; urban-waste disposal.
- Urbanisation, rural-urban migration; problems of slums.
- Land Degradation.
Unit 12: Map work on locating and labelling of features based on above units on outline political map of India 3 Marks

C. Practical Work

Unit I : Processing of Data and Thematic Mapping (Periods 20)

- Sources of data.
- Tabulating and processing of data; calculation of averages, measures of central tendency, deviation and rank correlation;
- Representation of data- construction of diagrams: bars, circles and flowchart; thematic maps; construction of dot; choropleth and isopleth maps.
- Use of computers in data processing and mapping.

Unit II: Field Study or Spatial Information Technology (Periods 10)

Field visit and study: map orientation, observation and preparation of sketch; survey on any one of the local concerns; pollution, ground water changes, land use and land-use changes, poverty, energy issues, soil degradation, impact of floods and drought, catchment area of school, Market survey and Household survey (any one topic of local concern may be taken up for the study; observation and questionnaire survey may be adopted for the data collection; collected data may be tabulated and analysed with diagrams and maps).

OR

Spatial Information Technology

Introduction to GIS; hardware requirements and software modules; data formats; raster and vector data, data input, editing & topology building; data analysis; overlay & buffer.

24. PSYCHOLOGY (Code No. 037)

Psychology is introduced as an elective subject at the higher secondary stage of school education. As a discipline, psychology specializes in the study of experiences, behaviours and mental processes of human beings within a socio-cultural and socio-historical context. This course purports to introduce the learners to the basic ideas, principles and methods in psychology so as to enable them to understand themselves and their social world better. The emphasis is put on creating interest and exposure needed by learners to develop their own knowledge base and understanding.

The course deals with psychological knowledge and practices which are contextually rooted. It emphasizes the complexity of behavioural processes and discourages simplistic cause-effect thinking. This is pursued by encouraging critical reasoning, allowing students to appreciate the role of cultural factors in behaviour, and illustrating how biology and experience shape behaviour. The course while developing an appreciation of subjectivity, also focuses on multiplicity of worldviews.

It is suggested that the teaching - learning processes should involve students in evolving their own understanding. therefore, teaching of psychology should be based on the use of case studies, narratives, experiential exercises, analysis of common everyday experiences, etc.

The present effort at reforming and updating the syllabus is based on the feedback received from the teachers and students as well as some new educational and curricular concerns such as, the curriculum load, interdisciplinary approach, issues related to gender parity, concerns of special and marginalised groups, peace and environmental concerns, and inculcating citizenship values.

Objectives

1. To develop appreciation about human behaviour and human mind in the context of learners’ immediate society and environment.
2. To develop in learners an appreciation of multidisciplinary nature of psychological knowledge and its application in various aspects of life.
3. To enable learners to become perceptive, socially aware and self-reflective.
4. To facilitate students’ quest for personal growth and effectiveness, and to enable them to become responsive and responsible citizens.

**Foundations of Psychology**

**Unit I: Introduction to Psychology**

*The unit seeks to help understanding and appreciating psychology as a discipline, its applications and relationships with other sciences through appropriate and interesting examples and analysis of everyday experiences.*

Nature of psychology; Basic concepts: Person, Consciousness, Behaviour and Experience; Similarities and variations in psychological attributes; Evolution of the discipline of psychology; Developments in psychology in India; Psychology and other disciplines; Linkages across psychological processes.

**Unit II: Methods of Psychology**

*The objective of this unit is to familiarize with the methods of studying and understanding psychological questions and issues.*

Goals of psychological enquiry; Some important methods: Observation, Naturalistic, Experimental; Correlational study; Interview, Case study; Psychological tools: Tests, Questionnaires and gadgets; Analysis of data: Concepts and computation of the Measures of Central Tendency; Graphical Presentation of Data: Bar, Histogram, Polygon; Ethical issues in the study of psychological processes.

**Unit III: The Bases of Human Behaviour**

*This unit focuses on the role of biological and socio-cultural factors in the shaping of human behaviour and experience.*
Evolutionary perspective on human behaviour; Biological and cultural roots; Nervous system and endocrine system: Structure and relationship of with behaviour and experience; Brain and behaviour, Role of Neurotransmitters in behaviour. Sleep and weakfulness. Genetic bases of behaviour; Culture and human behaviour: Socialization, Enculturation and Acculturation; Globalization; Diversity and pluralism in the Indian context.

Unit IV: Human Development 07 Marks (16 Periods)

This unit deals with variations in development and the developmental tasks across the life span.

Meaning of development; Factors influencing development; Contexts of development; Overview of developmental stages: Prenatal development, Infancy, Childhood, Adolescence (particularly issues of identity, health, social participation), Adulthood and Old age.

Unit V: Sensory and Perceptual Processes 8 Marks (20 Periods)

This unit aims at understanding how various sensory stimuli are received, attended to and given meaning.

Knowing the world; Nature of stimuli; Nature and functioning of sense modalities; Sensory Adaptation; Attention : Nature and determinants; Selective and sustained attention; Principles of perceptual organization; Role of perceiver , characteristics in perception; Pattern recognition; Perceptual phenomena : After images; Space Perception, Perceptual constancy, Illusions, Person perception; Socio-cultural influences on perception.

Unit VI : Learning 8 Marks (20 Periods)

This unit focuses on how human beings acquire new behaviour and how changes in behaviour take place.

Nature of learning and learning curve: Paradigms of learnings: Classical and Operant Conditioning, Observational Learning, Cognitive learning, Verbal learning, Concept learning, skill-learning; Factors facilitating learning; Transfer of learning: Types and Applications, Learning styles: Learning disabilities; Some Applications of learning principles.

Unit VII : Human Memory 8 Marks (20 Periods)

This unit deals with how information is received, stored, retrieved and lost. It will also discuss how memory can be improved.

Nature of memory; Information Processing Approach; Levels of processing; Memory systems - Sensory memory, Short-term memory, Long-term memory; Knowledge representation and organisation in memory; Memory as a constructive process; Nature and causes of forgetting; Enhancing memory; Pathologies related to memory.
Unit VIII : Language and Thought 07 Marks (20 Periods)

This unit deals with thinking and related processes like reasoning, problem-solving, decision making and creative thinking and relationship between thought and language.

Thought and language: Nature and interrelationship; Stages of cognitive development: Introduction to the ideas of Piaget, Vygotsky, and Information Processing Approach; Development of language and language use; Reasoning: Problem-solving; Decision making; Creative thinking: Nature, process and development.

Unit IX: Motivation and Emotion 07 Marks (18 Periods)

This unit focuses on why human beings behave as they do. It also deals with how people experience positive and negative events and respond to them.

Human existence and nature of motivation; Biological needs; Social and psychological motives: Achievement, Affiliation and Power, Maslow's hierarchy of needs; Emerging concepts: Competence, Self efficacy and Intrinsic Motivation: Nature of emotions; Physiological, cognitive and cultural bases of emotions; Expression of emotions; Positive emotions; Happiness, Optimism, Empathy and Gratitude; Development of positive emotions; Managing negative emotions such as anger and fear.

Practicals (Projects, experiments, small studies, etc.) 30 Marks (60 Periods)

The students shall be required to undertake one project and conduct one experiments. The project would involve the use of different methods of enquiry and related skills. Practicals would involve conducting experiments and undertaking small studies, exercises, related to the topics covered in the course (e.g. Human development, Learning, Memory, Motivation, Perception, Attention and Thinking).

(i) Practical (Experiments) file 05 Marks
(ii) Project File 05 Marks
(iii) Viva Voce (Project and experiments) 05 Marks
(iv) One experiment : (05 for conduct and 10 for reporting) 15 Marks
Psychology, Self and Society

Unit I: Intelligence and Aptitude  

The unit aims at studying how people differ with respect to intelligence and aptitude.

Individual differences in intelligence: Theories of Intelligence; Culture and Intelligence; Emotional intelligence; Aptitude: Nature and types: Assessment of psychological attributes.

Unit II: Self and Personality  

This unit focuses on the study of self and personality in the context of different approaches in an effort to appraise the person. The assessment of personality will also be discussed.

Aspects of self: self concept; Self-esteem and Self-regulation; Culture and self; Personality: Concept; Approaches to Personality: Type and Trait, Psychodynamic, Humanistic, Behavioural and Cultural; Assessment of Personality: Self-report Measures, Behavioural Analysis, and Projective Measures.

Unit III: Human Strengths and Meeting Life Challenges  

This unit deals with the nature of stress and how responses to stress depend on an individual’s appraisal of stressors. Strategies to cope with stress will also be dealt with.
Life challenge and adjustment; Concept of adaptation; Human strengths and virtues: Nature, types and effects on psychological functioning; Coping with stress; Concepts of health and well-being; Life style, health and well-being.

Unit IV: Psychological Disorders  10 Marks  (24 Periods)

This unit discusses the concepts of normality and abnormality and the major psychological disorders.

Concepts of abnormality and psychological disorder, Causal factors associated with abnormal behaviour; Classification of disorder, Major psychological disorders: Anxiety, Somato-form Dissociative, Mood, Schizophrenic, Developmental and Behavioural Substance Related.

Unit V : Therapeutic Approaches and counselling

07 Marks  (20 Periods)

This unit discusses the goals, techniques and effectiveness of different approaches to treat psychological disorders.

Nature and process of therapy; Nature of therapeutic relationship; Types of therapies: Psycho-dynamic, Humanistic, Cognitive, Behaviour; Alternative therapies: Yoga, Meditation; Zen; Rehabilitation of mentally ill people. Counselling.

Unit VI : Attitude and Social Cognition  08 Marks  (20 Periods)

This unit focuses on the formation and change of attitudes, cultural influences on attributional tendencies and conditions influencing pro-social behaviour:

Explaining behaviour through attributions; Social cognition; Schemas and stereotypes; Impression formation; Nature and components of attitudes; Attitude formation and change; Behaviour in the presence of others: Pro-social Behaviour; Prejudice and discrimination; Strategies for handling prejudice.

Unit VII : Social Influence and Group Processes  07 Marks  (22 Periods)

The unit deals with the concept of group, its functions and the dynamics of social influence process like conformity, obedience and compliance. Different conflict resolution strategies will also be discussed.

Influence Processes: Nature of Conformity, Obedience, and Compliance: Cooperation and Competition; Groups: Nature, formation and types; Influence of group on individual behaviour; Social identity; Inter-Group Conflict; Conflict Resolution Strategies.

Unit VIII: Environmental and Social Concerns  06 Marks  (18 Periods)

This unit focuses on the application of psychological understanding to some important social issues.
Human-environment relationship; Environmental effects on human behaviour. Noise, pollution, crowding, natural disasters, social issue: Aggression and Violence; Social Inequality and Poverty; Media and human values; Promoting pro-environmental behaviour, Human rights and citizenship; Peace.

**Unit IX: Applied Psychology.** 06 Marks (18 Periods)

*This unit introduces some of the important areas of application of psychology.*

Application of psychology to following areas:

1. Sports
2. Education
3. Communication
4. Organisation

**Psychological testing Practicals** 30 Marks (60 Periods)

The students shall be required to prepare one case profile and conduct 2 practicals related to the topics covered in the course. The case profile will include developmental history of the subject, using both qualitative (observation, interview) and quantitative (Psychological testing) approaches. Practicals would involve using standardised psychological assessment devices in different domains (e.g. intelligence, personality, aptitude, adjustment, attitude, self-concept, and anxiety).

**Distribution of Marks:**

(i) Practical File 05 Marks
(ii) Case Profile 05 Marks
(iii) Viva Voice (Case profile and practical) 05 Marks
(iii) Two practicals (5 for accurate conduct and 10 for reporting). 15 Marks

**Recommended text books:**

1. Psychology, Class XI, Published by NCERT
2. Psychology, Class XII, Published by NCERT

**Note:** The above text books are also available in Hindi medium.
25. SOCIOLOGY (Code No 039)

Rationale

Sociology is introduced as an elective subject at the senior secondary stage. The syllabus is designed to help learners to reflect on what they hear and see in the course of everyday life and develop a constructive attitude towards society in change; to equip a learner with concepts and theoretical skills for the purpose. The curriculum of Sociology at this stage should enable the learner to understand dynamics of human behaviour in all its complexities and manifestations. The learners of today need answers and explanations to satisfy the questions that arise in their minds while trying to understand social world. Therefore, there is a need to develop an analytical approach towards the social structure so that they can meaningfully participate in the process of social change. There is scope in the syllabus not only for interactive learning, based on exercises and project work but also for teachers and students to jointly innovate new ways of learning.

- Sociology studies society. The child’s familiarity with the society in which she/he lives in makes the study of sociology a double edged experience. At one level sociology studies institutions such as family and kinship, class, caste and tribe religion and region- contexts with which children are familiar of, even if differentially. For India is a society which is varied both horizontally and vertically. The effort in the books will be to grapple overtly with this both as a source of strength and as a site for interrogation.

- Significantly the intellectual legacy of sociology equips the discipline with a plural perspective that overtly engages with the need for defamiliarization, to unlearn and question the given. This interrogative and critical character of sociology also makes it possible to understand both other cultures as well as relearn about one’s own culture.

- This plural perspective makes for an inbuilt richness and openness that not too many other disciplines in practice share. From its very inception sociology has had mutually enriching and contesting traditions of an interpretative method that openly takes into account ‘subjectivity’ and causal explanations that pay due importance to establishing causal correspondences with considerable sophistication. Not surprisingly its field work tradition also entails large scale survey methods as well as a rich ethnographic tradition. Indeed Indian sociology, in particular has bridged this distinction between what has often been seen as distinct approaches of sociology and social anthropology. The syllabus provides ample opportunity to make the child familiar with the excitement of field work as well as its theoretical significance for the very discipline of sociology.

- The plural legacy of sociology also enables a bird’s eye view and a worm’s eye view of the society the child lives in. This is particularly true today when the local is inextricably defined and shaped by macro global processes.
The syllabus proceeds with the assumption that gender as an organizing principle of society cannot be treated as an add on topic but is fundamental to the manner that all chapters shall be dealt with.

The chapters shall seek for a child centric approach that makes it possible to connect the lived reality of children with social structures and social processes that sociology studies.

A conscious effort will be made to build into the chapters a scope for exploration of society that makes learning a process of discovery. A way towards this is to deal with sociological concepts not as givens but a product of societal actions humanly constructed and therefore open to questioning.

**Objectives**

1. To enable learners to relate classroom teaching to their outside environment.
2. To introduce them to the basic concepts of sociology that would enable them to observe and interpret social life.
3. To be aware of the complexity of social processes.
4. To appreciate diversity in society in India and the world at large.
5. To build the capacity of students to understand and analyze the changes in contemporary Indian society.

A. INTRODUCING SOCIOLOGY

Unit 1: Society & Sociology and Relationship with other social sciences (Periods 22)
   • Introducing Society: Individuals and collectivities. Plural Perspectives
   • Introducing Sociology: Emergence. Nature & Scope. Relationship to other disciplines

Unit 2: Basic Concepts (Periods 22)
   • Social Groups
   • Status and Role
   • Social Stratification
   • Social Control

Unit 3: Social Institutions (Periods 24)
   • Family and Kinship
   • Political and Economic Institutions
- Religion as a Social Institution
- Education as a Social Institution

**Unit 4: Culture And Society (Periods 20)**
- Culture, Values and Norms: Shared, Plural, Contested
- Socialization: Conformity, Conflict and the Shaping of Personality

**Unit 5: Practical Sociology: Methods & Techniques (Periods 22)**
- Tools and Techniques: Observation, Survey, Interview
- The Significance of Field Work in Sociology

**B. UNDERSTANDING SOCIETY**

**Unit 6: Structure, Process and Stratification (Periods 22)**
- Social Structure
- Social Processes: Cooperation, Competition, Conflict
- Social Stratification: Class, Caste, Race, Gender.

**Unit 7: Social Change (Periods 22)**
- Social Change: Types and Dimensions; Causes and Consequences.
- Social Order: Domination, Authority & Law; Contestation, Crime & Violence
- Village, Town & City: Changes in Rural & Urban Society

**Unit 8: Environment And Society (Periods 18)**
- Ecology and Society
- Environmental Crises and Social Responses

**Unit 9: Western Social Thinkers (Periods 24)**
- Karl Marx on Class Conflict
- Emile Durkheim on Division of Labour
- Max Weber on Bureaucracy
Unit 10: Indian Sociologists

(Periods 24)

- G.S. Ghurye on Race and Caste 10 Marks
- D.P. Mukerji on Tradition and Change
- A.R. Desai on the State
- M.N. Srinivas on the Village

INDIAN SOCIETY Marks 58

Unit 1: Introducing Indian Society (Periods 10)
   ● Colonialism, Nationalism, Class and Community

Unit 2: Demographic Structure And Indian Society (Periods 10)
   ● Rural-Urban Linkages and Divisions

Unit 3: Social Institutions: Continuity & Change (Periods 14)
   ● Family and Kinship
   ● The Caste System

Unit 4: Market As A Social Institution (Periods 10)
   ● Market as a Social Institution

Unit 5: Pattern of Social Inequality & Exclusion (Periods 24)
   ● Caste Prejudice, Scheduled Castes and Other Backward Classes
• Marginalization of Tribal Communities
• The Struggle for Women’s Equality
• The Protection of Religious Minorities
• Caring for the Differently Abled

Unit 6: The Challenges Of Cultural Diversity (Periods 12)
• Problems of Communalism, Regionalism, Casteism & Patriarchy
• Role of the State in a Plural and Unequal Society
• What We Share

Unit 7: Suggestions For Project Work (Periods 18)

B. CHANGE AND DEVELOPMENT IN INDIA

Unit 8: Structural Change (Periods 10)
• Colonialism, Industrialization, Urbanization.

Unit 9: Cultural Change (Periods 12)
• Modernization, Westernization, Sanskritisation, Secularization.
• Social Reform Movements & Laws

Unit 10: The Story Of Democracy (Periods 22)
• The Constitution as an instrument of Social Change
• Parties, Pressure Groups and Democratic Politics
• Panchayati Raj and the Challenges of Social Transformation

Unit 11: Change And Development In Rural Society (Periods 10)
• Land Reforms, Green Revolution and Agrarian Society
Unit 12: Change And Development In Industrial Society
   (Periods 14)
   ● From Planned Industrialization to Liberalization
   ● Changes in the Class Structure

Unit 13: Globalisation And Social Change
   (Periods 12)

Unit 14: Mass Media And Communication Process
   (Periods 12)

Unit 15: Social Movements
   (Periods 22)
   ● Class-Based Movements: Workers, Peasants.
   ● Caste-Based Movements: Dalit Movement, Backward Castes, Trends in Upper Caste Responses.
   ● Women’s Movements in Independent India.
   ● Tribal Movements.
   ● Environmental Movements.

26. Philosophy (Code No. 040)

OBJECTIVES

Philosophy, a theoretical enterprise with practical applications, aims at understanding the nature and meaning of life and Reality. It is both a view of reality and a way of life. It is considered to be the mother of all branches of knowledge. The nature of Philosophy is that in it no answer is left unquestioned. It attempts to understand and explain the fundamental axioms and presuppositions which are taken for granted by all branches of knowledge. The +2 syllabus is designed to give the students a glimpse of the nature of problems and the way they are dealt with in its various branches—Logic, Ethics, Classical Indian Philosophy and Western Philosophy.

A. INDIAN PHILOSOPHY -

Unit 1: Nature and Schools of Indian Philosophy: Some basic issues
Rta, Karma, Four Purusarthas: Dharma, Artha, Kama and Moksa 24 Pds.

Unit 2: Philosophy of the Bhagavad Gita: Karma Yoga (Anasakta Karma), Svadharma, Lokasamgraha 24 Pds.

Unit 3: Buddhism, Jainism 24 Pds.
Four noble truths and eight-fold path; Theory of dependent origination. Anekantavada and syadvada.

Unit 4: Nyaya - Vaisesika and Samkhya – Yoga 24 Pds.

Unit 5: **Advaita Vedanta** 24 Pds.
The nature of Atman, Brahman and the world.

B. **WESTERN PHILOSOPHY**

Unit 6: Knowledge and truth
Rationalism, Empiricism and Kant’s Critical Philosophy

Unit 7: **The Causal Principle** 24 Pds.
Nature of Cause
Aristotle’s theory of four-fold causation cause-effect relationship: entailment, regularity and succession. Theories of causation.

Unit 8: **Nature of Reality**
Proofs for the existence of God 24 Pds.
Ontological, Teleological and Cosmological arguments.

Unit 9: **Realism and Idealism** 24 Pds.
Mind-Body Problem

C. **Applied Philosophy**

Unit 10: **Environmental Ethics** 24 Pds.
(a) Study of Physical, Mental and Spiritual Environments
(b) Professional Ethics.
(c) Philosophy of Education

12. Supplementary Reading Part C: Material on Unit 10, Applied Philosophy CBSE, Delhi
Aims and Objectives of the Course

- To enable the learners to understand literature as a creative act and understand the creativity involved in it.
- To enable them to appreciate the form of the creative work, the writer's purpose, its meaning, the attitudes and moods, cultural nuances and its universal appeal.
- To enable them to understand the meaning that is not directly expressed and the multiplicity of meanings that may be understood from the text.
- To enable them to generally appreciate literature and to respond to a text both intellectually and emotionally.
- To acquaint them with the different literary practices, genres, styles, figures of speech and techniques of writing.
- To enable them to write creatively guided by the principles of different genres of writing in both fictional and non-fictional prose, as well as poetry.
- To make them aware that for translation, they need proficiency in both the languages.
- To enable them to learn and use the principles underlying translation from one language into another.
- To equip them to translate simple texts from one language into another while retaining the flavour of the original text.

The Whole Approach to Creative Writing and Translation Studies

- Ideally the teacher herself/himself should show sensitivity towards different forms of literature and highlight the creative dimensions of the text.
- An integrated skill approach is recommended to enable the learners to listen, read and respond both orally and in the written form so that the literary experience becomes a complete one.
- The teacher is expected to perceive the learners as individuals, thus making room for multiple meanings and connotations, depending on their own perceptions and previous experiences.
- Though literature has creative principles, established forms, styles, even imagery for different themes and genres 'out-of the box' thinking should also be encouraged.
- Both group and individual activities are advisable to foster discussion, exposition, expression and contemplation.
Acquisition of Language Skills

Approach to Reading

- Activities that enable the learner to draw upon his own experience to understand the meaning of the literary text.
- Activities that promote the higher order reading skills of interpretative, evaluative and creative comprehension should be employed.
- Method of reading should lead to the development of vocabulary by perceiving their differential levels of meaning.
- Development of the ability to deconstruct a text to read between and beyond the lines should be encouraged.

Specific Objectives of Reading

To develop in the learners the ability to:

- use dictionaries, thesaurus and reference materials both actual and virtual
- read differently i.e. skimming, scanning and close reading.
- infer and understand the writer's attitude, bias, cultural and ideological leanings.
- comprehend the difference between what is said and what is implied.
- differentiate the language of persuasion, exposition and expression of personal feelings and ideas.
- distinguish fact from opinion.
- grasp the cultural context of the work.
- identify different figures of speech and appreciate the writer's purpose in using them
- develop a personal response to the given text
- appreciate the special features of the language used in literary text
- identify the elements of style such as humour, pathos, satire and irony in the text
- explore and evaluate features of character, plot, setting etc.
- appreciate the oral, mobile and visual elements of drama.
Listening and Speaking (Aural and Oral)

Specific Objectives of Aural and Oral Skills involved in the conduct of the course are to develop the ability to:

- listen to different types of texts and distinguish their types/genres, the language used, the purpose for which it is written and interpret meaning.
- listen with comprehension speeches, lectures and talks and participate actively in the ensuing discussion.
- listen to reports and other expository texts and extract relevant information: listening for gist or detail.
- listen to poetry for understanding and enjoyment.
- take part in role-plays and enact different characters in drama.
- develop the art of public speaking.
- read poetry aloud with expression.

Approach to Writing Skills

Classroom approach should involve activities that enable learners to develop the skills using a process approach:

The Writing Skills that the course aims to develop are the advanced writing skills. However, during the course of the activities the learners would also learn the sub-skills of writing and get an insight into the process of writing.

The course aims to develop advanced writing skills involving the sub-skills of writing which will

- lead to a logical conclusion of a reading activity.
- integrate listening, speaking and reading as precursors to the actual act of writing.
- avoid linguistic or stylistic errors in writing.
- use appropriate language, style, format, metre (in poetry), sentence-length and length of the piece or embellishments in a particular genre.
- write in an original manner while adhering to the basic principles of a genre.
Further, the objective is to train the learners specifically in the following kinds of writing:

- responses to the questions based on the text.
- different kinds of text using appropriate vocabulary, language, length and style.
- **expository texts**: reports, descriptions of people, places and processes.
- **narrative texts**: reports, autobiography, memoir, stories.
- **reflective texts**: using ideas and themes expressing one's view and using a persuasive writing style.
- travelogues and features featuring appropriate illustrations and highlights.
- essays on different themes concerning their lives.
- simple stories in a narrative style.
- simple dialogues on a given situation.
- a book or a film review.
- short speeches in an impressive or persuasive style.
- a diary or a journal.
- full-fledged composition from outlines
- poems using appropriate words and keeping in mind the rhyme and metre.
- short poems within the frame of a given genre of poetry.

Participation in an interactive class-room approach is advised. Activities should be designed to promote

i) understanding the employment of different kinds of writing skills, and

ii) appreciation and effective composition of different kinds of writing.

SECTION A

READING COMPREHENSION 20 Marks

40 period

Three unseen passages (including poems) with a variety of questions on different levels of comprehension (literal, interpretative and critical) including marks for vocabulary such as inferring and word formation. The total range of the three passages including the poem or a stanza, would be about 1050-1100 words.

a. **Non-fictional prose**, an excerpt 250-300 words in length (for extracting information, inferring and interpreting, evaluating and word attack) - 07 marks

b. **Fictional prose**, a very short story or an excerpt, 250-300 words in length (for interpretation, understanding character, making personal responses and vocabulary) - 07 marks

c. **A short poem or a few stanzas** (for understanding central idea, appreciation and personal response) - 06 marks

The passages or poems could be any one of the following types:

a) Autobiographies or reflective writing like essays or articles.

b) Excerpts from narrative and fictional writing like stories, novels and plays.

c) A short poem like a sonnet or a lyric, or a stanza from a ballad or a longer lyrical poem.
SECTION B

A CREATIVE WRITING SKILLS 20 marks

Four writing tasks as indicated below:

1. Develop a composition of personal writing such as a diary entry, memoir or an autobiography (200 words) 6 marks
2. Develop a feature or a review such as a travelogue, book or film review based on verbal or a visual input (200 words) 6 marks
3. Developing an original poem such as a sonnet or a lyric or free verse based on a given idea or theme, visual input, an incident or event in life. 8 marks

B TRANSLATION 20 Marks 40 periods

1. Guided translation i.e. a piece of translated text for completion based on the original text (prose or poetry) 04 marks
2. Open translation of a prose piece (100 words) 08 marks
3. Open translation of a short poem or a stanza 08 marks

SECTION C

READER 20 Marks 60 periods

1. Four questions of three marks each to be answered in 60-80 words based on the understanding of the text. 12 marks
2. One out of the two open ended essay topics to be answered in 200 words. 08 marks

SECTION D

PORTFOLIO ASSESSMENT 20 Marks 50 periods

The Reader has inbuilt suggestions and activities for the students' Portfolio.

20 marks have been allotted for the Portfolio wherein the following would be assessed:

1. Ideas and their sequencing
2. Applying the basic principles of the particular genre
3. Use of correct and effective language
4. Use of appropriate style
5. Use of techniques and figures of speech.
**Note:** The Portfolio will consist of a compilation of all written submissions over the duration of the course. A minimum of 15 written assignments each of creative writing and translation would need to be submitted. The submission would include both the original and improved versions of assigned tasks reflective of gradual improvement.

The Portfolio will be evaluated according to the following criteria:

1. Regularity in submission of both class and home written assignments.
2. Quality of tasks with emphasis on creative and comprehensive application.
3. Average grades of all Creative Writing and Translation written tasks.

**Conversation Skills** will be tested as part of 'Continuous Assessment'. The students can be assessed for making relevant responses to the text, making a point of view and defending their point of view. Students will also be assessed for their ability to read aloud portions from stories, poems or plays. Dramatization would be another aspect which would be used for exercising their spoken skills.

**NOTE:** The Portfolio can be monitored and moderated at any time by an expert nominated by the Board.

**Recommended Books:**

**Reader:**
1. Creative Writing & Translation Studies for Class XI published by CBSE.
2. Reader published by NCERT.

28. PHYSICAL EDUCATION
(Code No. 048)

It covers the following:
I. Eligibility conditions for opting Physical Education as an elective subject II. Conditions for granting affiliation to the schools for offering Physical Education as an elective subject III. Theory syllabus for class XI (Part A & B) IV. Theory syllabus for class XII (Part A & B). V. Part C - Practical - Distribution of marks for the practical syllabus.

I. ELIGIBILITY CONDITIONS FOR OPTING PHYSICAL EDUCATION

The following category of students shall be permitted to opt the Physical Education:

(i) Those granted permission to join the course should be medically fit to follow the physical education curriculum, theory and practical, prescribed by the Board.
(ii) Those who have represented the school in the Inter School Sports & Games Competitions in any Game/Sport.
(iii) The student should undergo the prescribed physical fitness test and secure a minimum of 40% score.

II. CONDITIONS FOR GRANTING AFFILIATION TO SCHOOLS FOR OFFERING PHYSICAL EDUCATION AS AN ELECTIVE SUBJECT.

Only those schools satisfying the following conditions will be permitted to offer physical education as a course of study at +2 stage as an elective subject:

(i) The school should have adequate open space to accommodate at least 200 M track and play fields for minimum three games/sports.
(ii) The teacher handling the elective programme of physical education should hold a Master Degree in Physical Education.
(iii) The school should provide adequate funds for physical education and health education for purchase of equipments, books on physical education and also for the maintenance of sports facilities.
III. PHYSICAL EDUCATION

Class XI – Theory

Max.Marks 70

PART – A

UNIT 1 : CONCEPT OF PHYSICAL EDUCATION
1.1 Meaning and Definition of Physical Education, Its Aim and Objectives
1.2 Need and importance of Physical Education
1.3 Misconceptions about Physical Education & its Relevance in Inter Disciplinary Context
1.4 Philosophies of Physical Education - Idealism; Naturalism; Pragmatism and Humanism
1.5 Fundamental concepts of Biomechanics in Physical Education and Sports - Laws of Motion, Force, Friction and Projectiles

UNIT 2 : CAREER ASPECTS IN PHYSICAL EDUCATION
2.1 Physical Education as a Profession
2.2 Professional Ethics
2.3 Physical Education and Career Options
2.4 Avenues for Career Preparation
2.5 Self Assessment for Career Choices

UNIT 3 : HEALTH CONCEPTS OF PHYSICAL EDUCATION
3.1 Role of Physical Education Programme on Individual & Family
3.2 Community Health Programme
3.3 Effects of Alcohol, Tobacco and Drugs on Sports Performance
3.4 Life Style Management and Sports - Obesity, Hypertension and Stress

UNIT 4 : OLYMPIC MOVEMENT
4.1 Ancient Olympics (Before 1896)
4.2 Modern Olympics (After 1896)
4.3 Olympic Ideals and objectives
Values through Olympics Movement - Friendship, Solidarity, Fair Play and Free of Discrimination.

Olympic Symbols

UNIT 5: SOCIOLOGICAL ASPECTS OF PHYSICAL EDUCATION

5.1 Meaning of Sociology
5.2 Concept of Sports Sociology and its Importance
5.3 Games & Sports as Man's Cultural Heritage
5.4 Socialization in Sports at Home, School & Community
5.5 Leadership through Physical Education Programmes

UNIT 6: MEASUREMENTS IN SPORTS

6.1 Meaning and its Importance in Physical Education and Sports
6.2 Cross Weber Test (Contents & Administration)
6.3 Calculation of BMI
6.4 Calculation of Waist-Hip-Ratio
6.5 Rock Fort One mile Test
6.6 AAPHER Physical Fitness Test (Content & Administration)
6.7 Measurement of Heart Rate (Resting & After Exercise)

UNIT 7: PHYSIOLOGICAL ASPECTS OF PHYSICAL EDUCATION

7.1 Warming up - General & Specific and its Physiological basis
7.2 Functions and Effects of Exercise on Muscular & Skeletal Systems
7.3 Functions and Effects of Exercise on Respiratory & Circulatory Systems
7.4 Factors Affecting the Physical Fitness Components

UNIT 8: CHANGING TRENDS IN PHYSICAL EDUCATION & SPORTS

8.1 Concept and Principles of Integrated Physical Education
8.2 Concept and Principles of Adapted Physical Education
8.3 Concept and Components of Occupational Health Hazards
8.4 Concept and Components of Health related fitness
8.5 Sports for All

Part B

Following sub topics related to any one Game/Sport of choice of student out of: Athletics, Badminton, Gymnastics, Judo, Skating, Swimming, Table Tennis, Taekwondo, Tennis, Yoga

UNIT 1

1.1 History of the Game/Sport
1.2 Latest General Rules of the Game/Sport
1.3 Specifications of Play Fields and Related Sports Equipments
1.4 Important Tournaments and Venues
1.5 Sports Personalities
1.6 Proper Sports Gear and its Importance

Unit 2

2.1 Fundamental Skills of the Game/Sport
2.2 Specific Exercises of Warm-up and Conditioning
2.3 Related Sports Terminologies
2.4 Sports Awards
2.5 Common Sports Injuries & its Prevention
2.6 CBSE Sports and its Organizational Set-up
IV. PHYSICAL EDUCATION

Class XII – Theory Max.Marks 70

PART – A

UNIT 1 : PHYSICAL FITNESS & WELLNESS

1.1 Meaning & Importance of Physical Fitness & Wellness
1.2 Components of Physical Fitness & Wellness
1.3 Factors Affecting Physical Fitness & Wellness
1.4 Principles of Physical Fitness Development
1.5 Means of Fitness Development - Aerobic & Anaerobic, Games & Sports, Yoga and Recreational Activities

UNIT 2 : PLANNING IN SPORTS

2.1 Fixtures - Knock Out; League; Seeding and Bye
2.2 Intramurals And Extramurals
2.3 Formation Of Committees for Organizing Sports Events
2.4 Specific Sports Programmes - Health Runs; Run for Fun; Run for Unity; Run for Awareness; Run for Specific Causes.

UNIT 3 : SPORTS ENVIRONMENT

3.1 Meaning & Need for Sports Environment
3.2 Essential Elements of Positive Sports Environment
3.3 Role of Individual in Improvement of Sports Environment for Prevention of Sports Related Accidents
3.4 Role of Spectators and Media for Creating Positive Sports Environment

UNIT 4 : POSTURES

4.1 Meaning and Concept of Correct Postures - Standing And Sitting
4.2 Advantages of Correct Posture
4.3 Common Postural Deformities - Knock Knee; Flat Foot; Round Shoulders; Lordosis, Kyphosis, Bow Legs and Scolioses
4.4 Physical Activities as Corrective Measures

UNIT 5 : YOGA
5.1 Meaning & Importance of Yoga
5.2 Yoga as an Indian Heritage
5.3 Elements of Yoga
5.4 Role of Yoga in Sports - Asanas, Pranayam and Mediation

UNIT 6 : SPORTS AND NUTRITION
6.1 Balanced Diet
6.2 Elements of Diet
6.3 Components of Diet
6.4 Role of Diet on Performance

UNIT 7 : TRAINING METHODS
7.1 Meaning, Concept and Principles of Training
7.2 Methods of Flexibility Development
7.3 Methods of Strength Development - Isometric & Isotonic
7.4 Methods of Endurance Development - Continuous Method, Interval Training & Fartlek.
7.5 Methods of Speed Development
7.6 Circuit Training

UNIT 8 : PSYCHOLOGICAL ASPECTS OF PHYSICAL EDUCATION
8.1 Definition & Importance of Sports Psychology
8.2 Types and Techniques of Motivation
8.3 Developmental Characteristics at Different Stages of Growth
8.4 Adolescent Problems & its Management
8.5 Ethics in Sports
8.6 Anxiety and its Management

Part B

Following sub topics related to any one Game/Sport of choice of student out of: Basketball, Cricket, Football, Handball, Hockey, Kabaddi, Kho Kho, & Volleyball.

Unit 1
1.1 History of the Game/Sport
1.2 Latest General Rules of the Game/Sport
1.3 Specifications of Play Fields and Related Sports Equipments
1.4 Important Tournaments and Venues
1.5 Sports Personalities
1.6 Proper Sports Gear and its Importance

Unit 2
2.1 Fundamental Skills of the Game/Sport
2.2 Specific Exercises of Warm-up and Conditioning
2.3 Related Sports Terminologies
2.4 Sports Awards
2.5 Common Sports Injuries & its Prevention
2.6 SGFI & its Organizational Set-Up
V. PART ‘C’ - PRACTICAL

(For classes XI & XII)

Max.Marks 30

The Practical Syllabus has been divided into five parts & the marks allotted for each part are as follows:

(i) Physical Fitness Test (Compulsory) : 10 Marks
(ii) Skill of Chosen Sport/Game : 05 Marks
(iii) Any Five Asanas : 05 Marks
(iv) Viva : 05 Marks
(v) Record Book(File)* : 05 Marks

* Record Book (File) must include other than the details of Game/Sport of your choice the following:

(i) BMI calculation of minimum ten Students
(ii) AAHPHER Test Score of minimum ten Students
Preamble:
Fashion is dynamic and ever changing. It is one of the most powerful forces in our lives. It influences every facet of our lifestyle at a particular period in time e.g. the clothes we wear, the music we listen, the food we eat, where we go for holiday or the car we drive in etc.
Fashion is a big business and key driver for several industries e.g. apparel, accessories, textiles, automobiles etc.
The purpose of the course ‘Fashion Studies’ is to tell the students about the fundamentals of fashion design. Fashion Design as a profession includes the entire process of designing and producing fashion apparels from the fibre and yarn stage to the finished product. The course will give an overview of fashion design and elaborate on different aspects like elements of design, history of fashion, fabrics, understanding of the body, pattern development and garment construction.

CLASS XI

Unit - I : Introduction to Fashion Studies 10 Marks 30 Periods

Objectives of the course
✓ To learn appropriate fashion terminology
✓ To understand the fashion business
✓ To gain knowledge of the working and interrelationships of different industries and services that comprise fashion business
✓ To differentiate and appreciate the nuances of fashion terminology

Learning outcome
After finishing the course, the students shall be able
✓ To use appropriate terminology used in fashion world
✓ To understand the interrelationship in fashion business
✓ To get the overview of fashion

Course content
✓ Fashion-definition of fashion in all its aspects.
✓ Style-the definition of style and differentiation from fashion.
✓ Trend-definition of the term, origin of trends and fashion.
✓ Understanding the similarity and difference between design art and craft.
✓ Understanding the role of fashion professionals like designer, stylist, merchandiser and coordinator.
Fashion Cycle, International Trade in Fashion.

The various aspects of fashion business. designing, manufacturing and retailing scenarios for apparel.

**Methodology of teaching:** Illustrated lectures with slides and visuals

**Reference Text:**

- Inside Fashion Business, by v. Jeanette A. Jarrow,
  Miriam Guerrero, Beatrice Judelle

**Unit. II: Introduction to Fabrics**

<table>
<thead>
<tr>
<th>20 Marks</th>
<th>50 Periods</th>
</tr>
</thead>
</table>

**Objectives of the course**

✓ To initiate students into the world of fabrics
✓ To introduce students to the origin and properties of natural, manmade and synthetic fibres and fabrics.
✓ To make students aware of spinning, weaving, knitting and bonding etc.
✓ To teach the students behavior of fabrics in terms of use and performance.
✓ To brief them about various finishes.

**Learning outcome**

After finishing the course, the students shall be able

✓ To identify and differentiate between fabric varieties
✓ To understand the various processes of fabric manufacturing
✓ To understand the various kinds of finishes both of routine nature and special finishes that enhance performance and aesthetics of the fabric.

**Course content**

✓ Uses of fabrics-for various categories of apparel.
✓ Understanding the characteristics and properties of natural, synthetic and manmade fibres and blends.
✓ Conversions of fibres into yarns, novelty yarns, difference between thread and yarn.
✓ Conversion of yarns into fabrics using looms & knitting machines etc. illustrated through actual fabric samples.
✓ Performance finishes: fabric finishes enhancing properties of fabrics such as shrink resistance, permanent press, flame retardant etc.
✓ Aesthetic finishes: Fabric finishes for value addition of the fabrics such as printing, embossing, dyeing etc.

✓ Product Cycle and the link between yarn, fabric and garment.

Teaching Methodology: Illustrated lectures with slides and visuals along with actual fabric samples. A teacher would be expected to create a library of fabrics to explain conduct the classes.

Unit - III: Elements of Design 20 Marks (Theory) 80 Periods

15 Marks (Practical)

Objectives of the course:

✓ To introduce the students to the basic elements of design

✓ To increase and build sensitivity to the forms around them

✓ To develop and initialise a design vocabulary, an essential tool for practicing as designers

✓ To create visual images with a greater variety of methods and materials to provide unexpected excitement and solutions.

Learning outcome

After finishing the course, the students shall be able

✓ To demonstrate enhanced ability and sensitivity to elements of design

✓ To use their developed ability to observe finer details around them

✓ To develop basic design language

✓ To relate the elements of design to understand design process for their projects

Course content

✓ Understand the concept of design.

✓ Understanding line as an important element of structure that determines the direction of visual interest in the context of a garment.

✓ Understanding 2D and 3D forms.

✓ Understanding the colour quality, intensity, relationship with other colours, textures, shape etc.

✓ Selection of fabric for its appearance and texture- fibre, yarn, manufacturing technique, finish and colour.
✓ Harmony to achieve the condition in which all the elements of design work together successfully.
✓ Understanding of balance and proportion to enable the students to emphasize or to underplay and certain elements.

Teaching Methodology: Illustrated lectures with slides, visuals and demonstrations wherever required.

Evaluation Criteria
- Understanding of the assignment given
- Quality of the work submitted
- Daily assessment to be done after each student presents their work
- Marks would be given for level of improvement of work
- 10% marks to be given for punctuality, regularity and sincerity
- Timely completion of the project

Reference Text: ‘Grafix’ by Wolfganghageney
Repeat pattern-Peter Phillips, Gillian Bunce
Design Elements 2 -Richard Hora

Unit - IV : Elements of Garment Making 20 Marks (Theory) 80 Periods
15 Marks (Practical)

Objectives of the course
✓ To Introduce the students to garment making
✓ To make them familiar with sewing machine and its parts
✓ To make them familiar with use of other sewing aids
✓ To teach them basic hand and machine stitches
✓ To teach them simple machine operations

Learning outcome
After finishing the course, the students shall be able
✓ To work proficiently on the sewing machine
✓ To rectify simple problems of the machine
✓ To stitch different seams on the machine
✓ To finish edges with hand stitches
✓ To make gathers, pleats and tucks on the fabric

Course content
✓ Introduction to sewing machine, its various parts and functions along with other sewing aids.
Understanding the simple problems of sewing machine and its maintenance.

✓ Develop proficiency in straight and curved seams.

✓ Basic hand stitches - basting, hemming, back stitch, running stitch etc. with their end use.

✓ Basic machine seams used for stitching or finishing various parts of the garments like plain seam French seam, flat fell, lapped etc.

✓ Fabric manipulation like gathers, pleats and tucks etc.

Teaching Methodology: Illustrated lectures with slides, visuals and demonstrations where ever required.

Evaluation Criteria

- Understanding of the assignment given
- Quality of the work submitted
- Daily assessment to be done after each student presents their work
- Marks would be given for level of improvement of work
- 10% marks to be given for punctuality, regularity and sincerity
- Timely completion of the project

Reference Text: Encyclopaedia of Dressmaking, by Marshall Cavendish

Fashion Studies

Practicals

Class - XI Practicals

- Exercises using elements of art like line, form, colour, texture, space etc. following the principles of design
- Exercises on colour wheel, value chart, intensity chart, colour schemes
- Exercises on hand stitches - basting, running, hemming, back stitch and its variations
- Seams - plain, French, lapped, flat fell, Hongkong, eased and top stitched
- Gathers, pleats and tucks
- End term project
- Viva voce and portfolio

CLASS-XII

Unit - I: History of Fashion 15 Marks 40 Periods

Objectives of the course

✓ To give an overview of the history of fashion from ancient civilisation through the ages to the present.
✓ To emphasise on the socio-economic and political factors influencing clothing and fashion.

Learning outcome
After finishing the course, the students shall be able
➢ To understand the history of fashion through the ages
➢ To be aware of origin of various trends
➢ To differentiate the style of apparel in different cultures
➢ To appreciate the differences that some of the important events have made on fashion

Course content
✵ Theories of clothing - adornment, protection, identification and ritualistic.
✵ Concept of fashion
 ✓ Body decoration, painting, scarification
 ✓ Draping - Greco-Roman, Indian and other continents
 ✓ Stitched garments - war uniforms, amours inspired
 ✓ Comparison of western and oriental war uniforms
✵ Influence of world wars on fashion - post war fashion in its most primitive sense became generalized to larger groups of people as society became organized in classes each having a different role in economic, social and intellectual development.
✵ Influence of industrial revolution-the twentieth century has witnessed a new situation with industrial revolution where textiles and clothes traditionally custom made are now being mass produced.
✵ Automation and the various technical and scientific developments shaping the finest classless society in many centuries.
✵ Evolution of Indian fashion in the present century.

Teaching Methodology: Illustrated lectures with slides and visuals

Reference Text:
Kaleidoscope of fashion, by Mehar Castilino
Ancient Indian Costume, by Roshan Alkazi

Unit - II. Basic Pattern Development 20 Marks (Theory) 80 Periods
15 Marks (Practical)

Objectives of the course
✓ To introduce students to the world of fashion designing through pattern development.
✓ To explain important skill that enable the designer to convert a design sketch into a three dimensional form.
✓ To develop basic blocks for bodice, sleeve and skirt.
To understand and implement the concept of test fits and to convert paper patterns into muslin.

**Learning outcome**

After finishing the course, the students shall be able

- To understand the basic skill of pattern making
- To understand and appreciate the concept of fit and balance
- To develop basic blocks from measurement charts
- To test fit the pattern
- To Develop patterns for simple designs using basic blocks

**Course content**

- Methods of measuring body and dress form.
- Relationship of sizes and measurements.
- Tools of pattern making.
- Common terms used in pattern development.
- Introduction to Pattern Development for womens wear - how patterns are made and developed, the importance of fit and balance and methods of achieving it.
- Basic bodice - developed from the standard measurement chart and test fitted on the dress form.
- Marking the important details such as darts, seam allowances, notches, grain lines etc.
- Marking of garment details i.e. Armholes, Necklines- V, U, round, boat, square.
- Develop basic sleeve block and set into the armhole of the basic bodice.
- Develop basic skirt block with one dart or two darts.
- Basic of collar development and drafting basic collars like Peter Pan and Chinese.
- Dart manipulation. the mechanism of shifting darts from one position to another or into a seam by slash and spread method.

**Final product:** Student will learn to develop patterns from basic blocks for simple designs for skirts and blouses.

**Teaching Methodology:** Illustrated lectures with slides, visuals and demonstrations where ever required.

**Evaluation Criteria**

- Understanding of the assignment given
- Quality of the work submitted
- Daily assessment to be done after each student presents their work
- Marks would be given for level of improvement of work
- 10% marks to be given for punctuality, regularity and sincerity
Timely completion of the project.

- Pattern making by Helen Armstrong
- Pattern making for women’s wear by Winifred Aldrich
- Pattern making by Pamela Stringer.

Unit. III: Elements of Fashion           15 Marks      40 Periods

Objectives of the course
✓ To introduce students to the basic elements of fashion:
✓ To teach students about movement of fashion, fashion cycle, categories of clothing etc.
✓ To sensitise students about different items of garments in each category i.e. menswear, womenswear and childrenswear
✓ To teach students the difference between high fashion and mass fashion
✓ To distinguish between custom made & ready to wear

Learning outcome
After finishing the course, the students shall be able
➢ To understand the elements of fashion
➢ To be aware of movement of fashion
➢ To understand the fashion cycle
➢ To know the various categories of menswear, womenswear and childrenswear
➢ To understand the difference between hi-fashion & mass fashion and custom made & ready to wear.

Course content
◆ Menswear, women’s wear and kids wear
◆ Menswear - shirts, trousers, formal jackets, suit and sporty suit
◆ Womenswear-dresses, blouses, skirts, trousers, kameezes, saris and blouses
◆ Kids wear - categories of children for 0-15 years and various governments like frocks, skirts, blouses, trousers, dungarees, jackets etc. highlighting the need of age group for which they are designed.
◆ Trims used for the fashion apparel
◆ Hi-fashion-custom and ready to wear, the fashion brand (National & International)
◆ Mass fashion-ready to wear, Mass RTW brands (National & International)

Teaching Methodology: Illustrated lectures with slides and visuals.

Reference Text: Concept to consumer by Gini Stephens Frings
Encyclopaedia of Fashion details

294
Unit - IV: Basics of Garment Making  20 Marks (Theory)  80 Periods  
15 Marks (Practical)

Objectives of the course
✓ To assemble a garment
✓ To construct a bodice using different seams
✓ To make a placket for bodice opening
✓ To finish a neckline by both piping and facing
✓ To set in a sleeve in the arm hole
✓ To put gathers or pleats in the skirt and finish the waist with a waist band or attach a bodice.

Learning outcome
After finishing the course, the students shall be able
➣ To join various parts of the garment and construct a complete garment
➣ To finish a bodice
➣ To set in the sleeve
➣ To stitch a skirt

Course content
• Understanding fabric types and selection of underlining, interfacing, inter-lining and lining.
• Marking methods and preparing fabric for cutting
• Pattern layout and cutting of special fabrics
• Assembling of bodice using different seams and appropriate finish for side seam and shoulder seams.
• Concept of slit and seam plackets. Various plackets and placement of fasteners on different parts of the garment.
• Appropriate neckline finishes with piping, bias facing and shaped facing. Importance and use of stay stitching.
• Sleeve attachment to the bodice by setting in the sleeve into armhole.
• Assembling of skirts, finishing gathers and pleats in a waistband.

Final product
Constructing a skirt and blouse using pattern template.

Teaching Methodology: Illustrated lectures with slides, visuals and demonstrations wherever required.

Evaluation Criteria
• Understanding of the assignment given
Quality of the work submitted
• Daily assessment to be done after each student presents their work
• Marks would be given for level of improvement of work
• 10% marks to be given for punctuality, regularity and sincerity
• Timely completion of the project.

Reference Text: Encyclopaedia of dressmaking by Marshall Cavendish
Readers Digest book of Sewing
Encyclopaedia of Sewing

Class - XII Practicals
• Prepare draft and test fit according to the measurements of the dressform the following-womenswear basic block, sleeve block, skirt block, collars - Chinese and Peterpan
• Exercises on dart manipulation using slash and spread method

Garment stitching and finishing
• Darts
• Waist bands
• Pockets
• Placket - slit and seam
• Neckline finish
• Sleeve attachments
• Construction of garment - skirt and blouse using pattern templates
• End term project
• Viva voce and portfolio

Lab requirement for a batch of 30 students

Lab size - 35ft x 20 ft. (minimum)
AC environment

Selection criteria of school

They should have ability to provide appropriate environment, space, equipment, machinery and maintenance, trained faculty, exclusive library for the course, willingness to upgrade facility and faculty.
30. FINE ARTS

A student may offer anyone of the following courses:

(a) **Painting** (Code No. 049)

OR

(b) **Graphics** (Code No. 050)

OR

(c) **Sculpture** (Code No. 051)

OR

(d) **Applied Art-Commercial Art** (Code No. 052)

The following art terminologies for all the four subjects are prescribed only for reference and general enrichment.

1. **Elements of Composition** : Point, line, form, colour, tone, texture and space.

2. **Principles of Composition** : Unity, harmony, balance, rhythm, emphasis and proportion, abstraction and stylisation.

3. **Drawing & Painting** : Foreshortening, perspective, eye-level, fixed point of view, Vanishing point, ratio-proportion, sketching, proportion sketching, drawing, light & shade, painting from still-life, landscape, anatomy, vertical, horizontal, two & three dimensional, transparent & opaque.

   **Materials** : Paper (Cartridge, Handmade etc.), pencil, water, acrylic colours, tempera colours, poster colours, pastel colours, waterproof ink, canvas and hard-board.

4. **Media of Composition** : Collage, Mosaic, Painting, Mural, Fresco, Batik Tie & Dye.

5. **Sculpture** : Relief and round sculpture, modelling with clay, terra-cotta, carving in wood, stone, bronze casting, Plaster of Paris and metal welding.

7. **Applied Art** : Book cover design and illustration, cartoon, poster, advertisements for newspaper and magazine, animation and printage processes, photography, computer graphic, hoarding and T.V.
8. Portfolio Assessment Method

Introduction: The Art Portfolio will consist of a compilation of all art work, from sketch to finished product. The submission would include both the original and improved versions of assigned tasks reflective of gradual improvement. Step by step development of the work will be assessed in all units.

Components of a Portfolio:

- Schedule of work
- Research Skills
- Resources and materials
- Connections with artists/art movements
- Art making skills
- Personal artist statement
- Studies (e.g. composition/techniques-medium)
- Picture of the final work (Reflective skills)
- Evaluation of final work (affective skills)
- any kind of personalized notes relation to art

Profile of Learners Growth

Values and Attitudes Rubric

The learner develops the ability to:

- Respect, appreciate and demonstrate an open mind towards the artistic expression of others
- Appears enthusiastic and willing to study artistic expressions from other cultures or regions of the world that are very different from own.
- Accept different forms and styles and tries to explore their meaning.
- Be sensitive towards other’s creations
- Be ready to research and transfer his/her learning to his/her own art
- Take initiative
- Be responsible for his/her own learning and progress
- Apply theoretical knowledge in practical contexts
- Possess information and communication technology skills
- Be resourceful and organize information effectively
- Listen effectively
PORTFOLIO ASSESSMENT FOR FINE ARTS MAY BE DONE ON THE BASIS OF FOLLOWING CRITERIA

Creativity
Candidates are required to produce evidence that demonstrates a creative approach to problem-solving. Evidence should also include the ability to interpret a given brief and original approaches to producing a solution. Sketchbooks, notebooks and relevant support material should form part of this evidence.

1. Drawing
2. Detailed Study - observation, record, analysis, interpreting a variety of subject.
3. Mood reflected
4. Follow-up of the Fundamentals of Visual Arts (Elements and Principles)
5. Message the artist wants to convey

Innovation
The knowledge gained with the help of case study (historical importance, great artist work). How the above has been understood in relation to the topic or the theme taken up by the student?

Technique
To foster creativity and self expression (basic understanding of colour concept and application in relation to colour and texture of the material used by the student). Size, details, proportion required according to the base used for the painting medium chosen according to their Art stream. Techniques studied from folk style, contemporary art or traditional art should be used while creating a new concept.

The learners:
- Discover their potential for creativity, self-expression and visual awareness through painting.
- Feel confident with the chosen medium as a means of communicating and generating ideas.
- Develop observation, recording, manipulation and application skills.
- Experiment with a range of media and techniques.
- Relate their work to other artists work and understand the historical context of this work.
- Understand the basic principles of colour.
- Develop critical awareness.

Execution of Work
- Highlight the method of work giving a historical study of the work.
- Originality in the presentation (paintings, sketches etc.)
- Demonstrate an understanding of basic colour principles, colour mixing and representation.
- Employ a variety of traditional and experimental techniques and processes
• Use a variety of media and materials
• Observe, record, analyse, interpret a variety of subjects, including:
  • the manufactured environment
  • the natural environment
  • the human figure
• Present evidence of personal enquiry and self expression
• Discuss and relate own work to recognized artists work
• Observe colour in other craft and design areas
• Make informed critical judgement on work in progress

Experimentation

A. Progressive Work
Candidates are required to show evidence of research carried out. It is expected that their skills will
demonstrate evidence of process and the exploration of a wide range of subjects. An accepted standard
of achievement using a range of media and material should be an integral part of the candidate's
development.

B. Skills
Sound aesthetic judgement and organizational skills should be demonstrated in the process of work
presented by a candidate.

C. Logical organization and collection of creations.

D. Critical evaluation and aesthetic judgement applied.
(A) PAINTING
(Code No. 049)

Introduction

The course in Painting at Senior Secondary stage as an elective subject is aimed to develop aesthetic sense of the students through the understanding of various important well known aspects and modes of visual art expression in India’s rich cultural heritage from the period Indus valley to the present time. It also encompasses practical exercises in drawing and painting to develop their mental faculties of observation, imagination, creation and physical skills required for its expressions.

Objectives

(A) Theory (History of Indian Art)

The objective of including the history of Indian Art for the students is to familiarise them with the various styles and modes of art expressions from different parts of India. This would enrich their vision and enable them to appreciate and develop an aesthetic sensibility to enjoy the beauty of nature and life. The students will also have an opportunity to observe and study the evolution of its mutations and synthesis with other style and the rise of an altogether new style. The students should be made aware of art as a human experience. The teachers should be able to expose them to the wide range of artistic impressions, the media and the tools used. The history of Indian Art is a long one. Hence the students would be acquainted with brief glimpses of the development of Indian Visual Art as are required for concept formation. Examples included in the course of study are selected because of their aesthetic qualities and are intended purely as guidelines.

(B) Practicals

The purpose of introducing practical exercises in Painting is to help and enable the students:

- To develop skill of using drawing and painting material (surface, tools and equipments etc.) effectively.

- To sharpen their observation skills through study of common objects and various geometrical and non-geometrical forms found in life and nature.

- To develop their skills to draw and paint these observations:

- To develop an understanding of Painting-Composition (The use of the elements and the principles of painting -composition);

- To create the forms and the colour schemes in imagination with an ability to express them effectively in drawing and painting;

- To express the different feelings and moods of life and nature in lines, forms and colours.
# History of Indian Art

## Unit 1: Pre-Historic Rock Paintings and Art of Indus Valley

### A. Pre-Historic Rock-Paintings

**Introduction**

1. Period and Location
2. Study of following Pre-historic Paintings:
   1. A Roaring Animal, Bhimbethaka
   2. Wizard's Dance, Bhimbethaka

### B. Introduction

1. Period and Location.
2. Extension: In about 1500 miles
   1. Harappa & Mohenjo-daro (Now in Pakistan)
   2. Ropar, Lothal, Rangpur, Alamgirpur, Kali Bangan, Banawali and Dhaula Veera (in India)

(2500 B.C. to 1500 B.C.)

## Unit 2: Buddhist, Jain & Hindu Art

### Overview

1. Study of following Sculptures and Terracottas:
   1. Dancing girl (Mohenjo-daro)
      
      **Bronze, 10.5 x 5 x 2.5 cm.**
      
      Circa 2500 B.C.
      
   2. Male Torso (Harappa)
      
      **Red lime Stone, 9.2 x 5.8 x 3 cms.**
      
      Circa 2500 B.C.
      
   3. Mother Goddess (Mohenjo-daro) terracotta, 22 x 8 x 5 cm.
      
      Circa 2500 B.C.
      
(3) **Study of following**

**Seal:**

(i) Bull (Mohenjo-daro)
    Stone (Steatite), 2.5 x 2.5 x 1.4 cm.
    Circa 2500 B.C.

(4) **Study of following :**

**Decoration on earthen wares:**

(i) Painted earthen-ware (Jar) Mohenjo-daro

---

Unit 2: **Buddhist, Jain and Hindu Art**

(3rd century B.C. to 8th century A.D.)

(1) **General Introduction to Art during Mauryan, Shunga, Kushana Gandhara and Mathura style & Gupta period:**

(2) **Study of following Sculptures:**

(i) Lion Capital from Sarnath (Mauryan period)
    Polished sand stone,
    Circa 3rd Century B.C.
    (Collection: Sarnath Museum, U.P.)

(ii) Chauri Bearer from Didar Ganj (Yakshi) (Mauryan period)
    Polished sand stone
    Circa 3rd Century B.C.
    (Collection: Patna Museum, Bihar)

(iii) Bodhisattva head from Taxila (Kushan period-Gindhara style)
    Stone, 27.5 x 20 x 15 c.m.
    Circa 2nd Century A.D.
    (Collection: National Museum, New Delhi)

(iv) Seated Buddha from Katra Tila Mathura-(Kushan Period)-Mathura Style
    Red-spotted Sand Stone, Circa 3rd Century AD.
    Stone
    (Collection: Govt. Museum, Mathura)

(v) Seated Buddha from Sarnath (Gupta period)
    Stone
Circa 5th century AD  
(Collection: Sarnath Museum U.P.)

(vi) Jain Tirathankara (Gupta period)  
Stone  
Circa 5th Century A.D.  
(Collection: State Museum, Lucknow U.P.)

(3) **Introduction to Ajanta**  
Location, period, No. of caves, Chaitya and Vihara, Paintings and Sculptures, subject-matter and technique etc.

(4) **Study of Following Painting & Sculpture:**  
(i) Padmapani Bodhisattva (Ajanta Cave No. I, Maharashtra)  
Mural Painting  
Circa 5th Century A.D.

(ii) Mara Vijay (Ajanta Cave No. 26)  
Sculpture in stone.  
Circa 5th Century A.D.

---

**Unit 3: Temples Sculpture, Bronzes and Artistic aspects of Indo-Islamic Architecture**  
36 Pds.

(A) Artistic aspects of Indian Temple sculpture  
(6th Century A.D. to 13th Century A.D.)

(1) **Introduction to Temple Sculpture**  
(6th Century A.D. to 13th Century A.D.)

(2) Study of following Temple-Sculptures;  
(i) Descent of Ganga (Pallava period, Mahabalipuram Tamilnadu),  
Granite rock Circa 7th Century A.D.

(ii) Ravana shaking Mount Kailash (Rashtrakuta period, Ellora, Maharashtra)  
Stone  
8th Century A.D.,

(iii) Trimurti (Elephanta, Maharashtra)  
Stone  
Circa 9th Century A.D.

(iv) Lakshmi Narayana (Kandariya Mahadev Temple) (Chandela period, Khajuraho, M.P.)
(v) Cymbal Player, Sun Temple (Ganga Dynasty, Konark, Orissa)
Stone.
Circa 13th Century A.D.

(vi) Mother & Child (Vimal-Shah Temple, Solanki Dynasty, Dilwara, Mount Abu, Rajasthan)
White marble.
Circa 13th Century A.D.

(B) Bronzes: 12 Pds.

(1) Introduction to Indian Bronzes
(2) Method of casting (solid and hollow)
(3) Study of following south Indian Bronzes:
   (i) Nataraj (Chola period Thanjavur Distt., Tamilnadu)
       12th Century A.D.
       (Collection: National Museum, New Delhi.)
   (ii) Devi (Uma) Chola Period
        11th Century A.D.
        (Collection: National Museum, New Delhi.)

(C) Artistic Aspects of the Indo-Islamic Architecture 12 Pds.

(1) Introduction
(2) Study of following architectures:
   (i) Qutab Minar, Delhi
   (ii) Taj Mahal, Agra
   (iii) Gol Gumbaj of Bijapur.
CLASS XI (Practical)

One Practical Paper

Time: 6 Hours (3+3) 60 Marks

Unitwise Weightage

<table>

</table>

Unit 1: Nature and Object Study 60 Pds.

Study of two or three natural and geometric forms in pencil with light and shade from a fixed point of view. Natural forms like plants, vegetables, fruits and flowers etc., are to be used. Geometrical forms of objects like cubes, cones, prisms, cylinders and sphere should be used. (20 Marks)

Unit 2: Painting Composition

(i) Simple exercises of basic design in variation of linear geometric and Rhythmic shapes in primary and secondary colours to understand designs as organised visual arrangements. (10 Mark) 30 Pds.

(ii) Sketches from Life and Nature (10 Mark) 30 Pds.

Unit 3: Portfolio Assessment

(a) Record of the entire years’ performance from sketch to finished product. (10 Marks)

(b) Five selected Nature and object study exercises drawings in any media done during the session including minimum of two still life exercise. (5 Mark) 24 Pds.

(c) Two selected works of paintings done during the year (5 Mark) 24 Pds.

These selected works prepared during the course by the candidates and certified by the school authorities as the work done in the school will be placed before the examiners for assessment.

Note: 1. The candidates should given one hour-break after first three hours.

2. The time-table to be so framed as to allow the students to work continuously for minimum of two periods at a stretch.

Unit 3: The Bengal School Painting  
(Above mid of the 19th Century)  

(A)  
(1) A New Era in Indian Art-an introduction  
   B. Study of the following painting  
      (i) Rama Vanquishing the pride of the ocean-Raja Ravi Varma  

(2) Evolution of the Indian National Flag (First - 1906, Middle - 1921 and Final 1947 stages)  
: Study of the form and the colour scheme  

(B)  
(1) Introduction to the Bengal School of Painting  
      (i) Origin and development of the Bengal School of painting  
      (ii) Main features of the Bengal School of painting  

(2) Contribution of Indian artists in the struggle for National Freedom Movement
(3) Study of the following paintings of the Bengal school:
   (i) Journey’s End - Abanindranath Tagore
   (ii) Parthasarthi - Nandlal Bose
   (iii) Radhika - M.A.R. Chughtai

Unit 4  The Modern Trends in Indian Art

Introduction

(1) Study of the following Paintings:
   (i) Magician-Gaganendranath Tagore
   (ii) Mother and child-Jamini Roy
   (iii) Woman Face-Rabindranath Tagore
   (iv) Three Girls-Amrita Sher Gil

(2) Study of the following pieces of Sculpture:
   (i) Triumph of Labour-D.P. Roychowdhury
   (ii) Santhal Family-Ramkinker Vaij

(3) Study of the following work of contemporary (modern) Indian Art:
   (a) Paintings
      (i) Mother Teresa-M.F. Husain.
      (ii) Birth of Poetry-K.K. Hebbar
      (iii) Gossip-N.S. Bendre
      (iv) Untitled-G.R. Santosh
      (v) Diagonal- Tyeb Mehta
   (b) Graphic-prints:
      (i) Whirl pool-Krishna Reddy
      (ii) Children-Somnath Hore
      (iii) Devi-Jyoti Bhatt
      (iv) Of Walls-Anupam Sud
      (v) Man, Woman and Tree K. Laxma Goud

   (c) Sculptures
      (i) Standing Woman-Dhanraj Bhagat
      (ii) Cries Un-heard-Amar Nath Sehgal
      (iii) Ganesha- P.V.Jankiram
      (iv) Figure- Sankho Chaudhuri
Note: The names of artists and titles of their art work as listed above are only suggestive and in no way exhaustive. Teachers and students should expand this according to their own resources. However, the questions will be set from the above mentioned art works only.

PAINTING
CLASS XII (PRACTICAL)

<table>
<thead>
<tr>
<th>Units</th>
<th>Marks</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Nature, and Object Study</td>
<td>20</td>
</tr>
<tr>
<td>2. Painting Composition</td>
<td>20</td>
</tr>
<tr>
<td>3. Portfolio Assessment</td>
<td>20</td>
</tr>
</tbody>
</table>

Unit 1: Nature and Object study 60 Pds.
Studies on the basis of exercises done in class XI with two or three objects and drapery for background. Exercises in pencil with light and shade and in full colour from a fixed point of view.

Unit 2: Painting Composition 60 Pds.
Imaginative painting based on subjects from Life and or Nature in water and poster colours with colour values.

Unit 3: Portfolio Assessment 48 Pds.
(a) Record of the entire years' performance from sketch to finished product. (10 Marks)
(b) Five selected Nature and object Study exercises in any media done during the session, including minimum of two still life exercises. (5 Marks)
(c) Two selected works of paintings done by the candidate during the year (5 Marks)
These selected works prepared during the course by the candidate and certified by the school authorities as the work done in the school will be placed before the examiners for assessment.

Note: The time-table to be so framed as to allow the students to work continuously for minimum of two periods at a stretch.
1. Marking Scheme:

Part I: Nature and Object Study,

(i) Drawing (composition) 10 marks
(ii) Treatment of media/colours 05 marks
(iii) Overall impression 05 marks

Part II: Painting Composition

(i) Compositional arrangement including emphasis on the subject 10 marks
(ii) Treatment of media colour 05 marks
(iii) Originality and overall impression 05 marks

Part III: Portfolio Assessment

(a) Record of the entire years' performance from sketch to finished product 10 marks
(b) Five selected Nature and object study exercises in any media including minimum of two still lives 05 marks
(c) Two selected painting compositions prepared on the basis of life and nature 05 marks

2. Format of the Questions:

Part I: Nature and Object Study

Draw and paint the still-life of a group of objects arranged on a drawing board before you, from a fixed point of view (given to you), on a drawing paper of half imperial size in pencil/colours. Your drawing should be proportionate to the size of the paper. The objects should be painted in realistic manner with proper light and shade and perspective etc. In this study the drawing-board is not to be included.

Note: A group of objects to be decided by the external and internal examiners jointly as per instructions. The objects for Nature study and object study are to be arranged before the candidates.

Part II: Painting Composition:

Make a Painting-Composition on anyone of the following five subjects in any medium (Water/Pastel, Tempera, Acrylic) of your choice on a drawing-paper of half imperial size either horizontally or vertically. Your composition should be original and effective. Weightage will be given to a well composed drawing, effective use of media, proper emphasis on the subject matter and utilization of full-space.

Note: Any five subjects for Painting Composition are to be decided by the external and internal examiners jointly as per instructions and are to mentioned here strictly just before the start of the examination for part II.
3. **(A) Instructions for the selection of the objects for Nature and Object Study:**

   1. The examiners, are to select/decide two or three suitable objects in such a way so that Natural and Geometrical forms may be covered in the group of objects:
      
      (i) Natural-forms-large size foliage and flowers, fruits, and vegetables etc.
      
      (ii) Geometrical forms made of Wood/Plastic/Paper/ Metal/Earthen etc. such as cube, cone, prism, cylinder and sphere.
   
   2. Objects should be selected generally of large (suitable) size.
   
   3. An object relating to nature, according to the season and location of the examination centre, must be included in the group of objects. The natural-objects should be purchased/arranged only on the day of the examination so that its freshness may be maintained.
   
   4. Two draperies in different colours (one in dark and other in light tone) are also to be included for background and foreground, keeping in view the colours and tones of the objects selected.

**(B) Instructions to decide the subjects for Painting-Composition:**

   1. The examiners, are to select/decide five subjects suitable for Painting-Composition.
   
   2. The subjects should be so designed that the candidates may get clear-cut ideas of the subjects and they can exercise their imagination freely, because it is not important what you do, but how you do it.
   
   3. The examiners are free to select/decide the subjects, but these should be according to the standard of Class XII and environment of the school/candidates.
   
   Some identified areas of the subjects for Painting-Composition are given below, in which some more areas may also be added:

   (i) Affairs of family friends and daily life.
   
   (ii) Affairs of family Professionals.
   
   (iii) Games and sports activities.
   
   (iv) Nature
   
   (v) Fantasy
   
   (vi) National, religious, cultural, historical and social events and celebrations.

4. **General Instructions to the examiners:**

   1. Candidates should be given one hour break after first three hours.
   
   2. Work of the candidates, for Parts I, II and III, pre to be evaluated on the spot jointly by the external and internal examiners.
   
   3. Each work of Part I, II and III, after assessment is to be marked as "Examined" and duly signed by the external and internal examiners jointly.

**Some Reference Books Suggested for Teachers (For Practical Portion):**

1. “Paint Still life” by Claretta White yet to be revised (Walter T. Foster Publication).
Introduction

The Course in Graphics at Senior Secondary stage as an elective subject is aimed to develop aesthetic sense of the students through the understanding of various important, well known aspects and modes of Visual Art expression in India’s rich cultural heritage from the period of Indus Valley to the present time. It encompasses also a wider range of practical exercises in making of Graphic prints for developing their mental faculties of observation, imagination creation and physical & technical skills.

Objectives

(A) Theory (History of Indian Art)

Note: As the syllabus of Graphics (Theory) is the same as that of Painting (Theory), its objectives are same.

(B) Practicals

The purpose of introducing practical exercises in Graphics is to help and enable to students to make simple compositions in monochrome and in colours through the various print-making techniques using methods and material specifically prescribed for adequate results. The students should be introduced to the subject by giving a short history of the print making techniques. They should be given exercises to inculcate respect for the tools and apparatus-used in the various processes including their maintenance and proper handling.

<tr>
<td>2. Portfolio Assessment</td>
<td>20</td>
</tr>
</tbody>
</table>

**Unit 1:** The students in the class are expected to opt for anyone of the following media depending upon the facilities available in their schools 120 Pds.

(a) Serigraphy.  
1. The history of stencils and silk screen.  
2. Methods and materials.  
3. The use and maintenance of the squeeze.  
4. Sealing, registration for colour, work and preparation for printing.  
5. Solvents for cleaning, use and characteristics of printing inks.
6. Finishing Mounting and the print.

OR

(b) Lithography

1. Introduction: Short history and the methods and material used in producing lithographic prints.
2. The use and characteristics of the Litho stone/Zinc plates.
3. The use of lithographic chalks and ink (Tusche).
4. Preparing for printing and use of various chemicals inking and taking proofs.
5. Papers used in lithography and getting the final Print.
6. Finishing and mounting the print.

OR

(c) Etching and Engraving (Intaglio Process)

1. Introduction to intaglio technique with a short history, methods and materials, Etching press.
2. Preparing the plate and laying the ground (Resist) and Inking.
3. Characteristics of different types of grounds.
5. Colour etching, use of stencils and marks.
6. Finishing and mounting the prints.

Unit 2: Portfolio Assessment

(a) Record of the entire years' performance from sketch to finished product (10 Marks)
(b) Three selected prints prepared during the course by the candidate and certified by the school authorities as works done in the school and to be placed before the external examiner for assessment. (10 Marks)

Note: The time table to be so framed as to allow the students to work continuously for minimum of two periods at a stretch.

GUIDELINES FOR EVALUATION OF PRACTICAL

1. Marking Scheme:

Part I: Graphic-Composition (Print Making)

(i) Emphasis on the subject 10
(ii) Handling on the material and technique of print-making 10 40 marks
(iii) Composition and quality of print 20

Part II: Portfolio Assessment

(a) Record of the entire years' performance from sketch to finished product. 10
Three selected Prints (4+3+3 marks for 3 prints) 10
2. **Format of the questions:**

**Part I: Graphic Composition (print-making) 50 marks**

Choose one of the print-making medium available and taught in your school viz. serigraphy, lithography, etching and engraving.

Make a Graphic-Composition on anyone of the five subjects given below according to the possibility and suitability of the medium:

(Note: Any five suitable subjects for “Graphic-Composition (Print-making)” are to be decided by by the internal and external examiners jointly in accordance with the instructions are to be mentioned here).

Make use of line, tone and texture, exploiting the medium fully to realize composition.

Print your composition in one or two colours.

Pay special attention to print quality and cleanliness. Submit two identical prints along with all the rough layouts as your final submission.

Size of the plate:

(i) Serigraphy 30 cm x 20 cm.

(ii) Lithography 30 cm x 20 cm.

(iii) Etching & engraving 30 cm x 20 cm.

3. **Instructions to decide the subjects for Graphic-Composition (Print-making):**

1. The external and internal examiners, jointly are to select/decide five subjects suitable for Graphic-Composition (Print-Making).

2. Each subject should be so designed that the candidate may get a clear-cut idea of the subject, however, any candidate can perceive a subject in his/her own way but Graphic quality must be maintained in the composition.

3. The examiners are free to select/decide the subjects, but these should be according to the standard of class XII and environment of the school/candidates.

Some identified areas of the subjects for Graphic-Composition (Print-making) are given below in which some more areas may be added, if needed:

(i) Affairs of family, friends and daily life.

(ii) Affairs of Professionals.

(iii) Games & Sports Activities.

(iv) Nature.

(v) Fantasy.

(vi) National, religious & cultural events and celebrations.

(vii) Ideas-personal, social, local, provincial, national or international.
4. Instructions to the examiners

1. Candidates should be given one hour break after first three hours.

2. Work of the candidates for part I & II is to be evaluated on the spot by the external and internal examiners jointly.

3. Each work of parts I & II, after assessment, is to be marked as examined and duly signed by the external and internal examiners.

Some Reference Books Suggested for Teachers.

2. “Print Making”, Harvewy Daniels (Hamlym).

(c) Sculpture (Code No. 051)

Introduction

The Course in Sculpture at Senior Secondary stage as an elective subject is aimed at developing aesthetic sense of the students through the understanding of various important, well known aspects and modes of Visual Art expression in India’s rich cultural heritage from the period of Indus Valley to the present time. It encompasses also a wide range of practical exercises in making of various sculptures for developing their mental faculties of observation, imagination and creation and the physical and technical skills.

Objectives

(A) THEORY (History of Indian Art)

Note: As the syllabus of Sculpture (Theory) is the same as that of Painting (Theory), its objectives are same.
The purpose of introducing practical exercises in sculpture is to help and enable the students to make sculptures. All assignments should be designed to understand problems of volume, weight, play of form in space etc., as against rendering on flat two-dimensional. Adequate technical skills may be provided depending on the facilities available.

Unit 3: Portfolio Assessment

(a) Record of the entire years' performance from sketch to finished product (10 Marks)
(b) Four pieces of Works prepared during the course selected by the candidate and certified by the school authorities as work executed in the school are to be placed before the examiners for assessment.

* Use of clay Composition in hollow for baking.

* Modelling of simplified human figures, birds, animals and plants in relief and round.

* Geometrical shapes like cube, cone, cylinder, etc., and their composition in relief as an exercise in design study of textures. Use of plaster of Paris. (10 Marks)

Note: 1. The candidate should be given one hour break after first three hours.

2. The time table to be so framed as to allow the students to work continuously for minimum of two periods at a stretch.
GUIDELINES FOR EVALUATION OF PRACTICAL

1. Marking Scheme:

Part I: Modelling in Relief
(i) Composition including emphasis on the subject 10
(ii) Handling of media 05  \[ \text{20 Marks} \]
(iii) Creative approach & overall impression 05

Part II: Modelling in Round
(i) Composition including emphasis on the subject 10
(ii) Handling of media 05  \[ \text{20 Marks} \]
(iii) Creative approach and overall impression 05

Part III: Portfolio Assessment
(a) Record of the entire years' performance from sketch to finished product 10
(b) Four works of Sculpture consisting of:
   (i) One Sculpture in Relief (High Relief) 2.5  \[ \text{10 Marks} \]
   (ii) One Sculpture in Relief (Low Relief) 2.5
(c) Two Sculpture in round 05

2. Format of the questions:

Part I: Modelling in Relief:
Make a Sculpture in Relief (low/high) on anyone of the following five subjects, The size should be within 25 to 30 cm. (horizontally or vertically) and about 4 cm. in thickness from the board.

(Note: Any five suitable subjects for “Modelling in Relief” are to be decided by the external and internal examiners jointly in accordance with the instructions and are to be mentioned here).

Part II: Modelling in Round:
Prepare a Sculpture in round, in clay medium, on anyone of the following five subjects. The height should be within 25 to 30 cm. horizontally or vertically.

(Note: Any five suitable subjects for “Modelling in Round” are to be decided in accordance with the instructions and are to be mentioned here strictly just before the start of the examination for Part II.)
3. Instructions to decide the subjects for Modelling in Relief and Round:

(1) The examiners are to select/decide five subjects suitable for Modelling in Relief and five subjects for Modelling in round. The subjects for “Modelling in Round” are to be conveyed to the candidates strictly just before the start of the examination for Part II.

(2) Each subject should be so designed that the candidate may get a clear-cut idea of the subject, however, a candidate can perceive a subject in his/her own way. Distortion of human/animal forms may be allowed.

(3) Choice of high or low relief should remain open to the candidates.

(4) The examiners are free to decide the subjects but they should be according to the standard of class XII and environment of the school/candidates. Some identified areas of the subjects for Modelling in Relief are given below in which some more areas may also be included:

(i) Nature Study;
(ii) Design, natural, decorative, stylized and geometrical;
(iii) Family, friends and daily life;
(iv) Birds and animals;
(v) Games and sports activities;
(vi) Religious, social and personal activities;
(vii) Cultural activities;
(viii) Ideas - Personal, social, local, provincial, national and international.

4. General instructions to the examiners:

1. Candidates should be given one hour break after first three hours.

2. Work of the candidates of Parts I, II and III, is to be evaluated on the spot by the external and internal examiners jointly.

3. Each work of Parts I, II and III, after assessment, is to be marked as examined and duly signed by the external and internal examiners.

Some Reference Books Suggested for Teachers:

(b) **Layout**

Making a simple layout with lettering as the main component.

Unit 3: **Portfolio Assessment** 48 Pds.

(a) Record of entire years' performance from sketch to finished product (10)
(b) Five selected drawings in any media done during the year including minimum three lives. (05)
(c) Two selected works in chosen subject done during the year. (05)

Note: 1. The candidate should be given one hour break after first three hours.
2. The time table to be so framed as to allow the students to work continuously for minimum of two periods at a stretch.

</table>

Unit 1: Illustration

60 Pds.

Study of techniques of Illustration on given subjects and simple situations supported by Drawing from life and outdoor sketching in different media suitable for printing.

Unit 2: Poster

60 Pds.

Making a poster with specified data and slogan on a given subject in two or four colours.

Unit 3: Portfolio Assessment

48 Pds.

(a) Record of the entire years performance from sketch to finished product (10)
(b) Five selected drawings in any media done during the year including minimum of two illustrations (05)
(c) Two selected posters in chosen subject (05)

Note: The time table to be so framed as to allow the students to work continuously for minimum of two periods at a stretch.
Guidelines for Evaluation of Practical

1. Marking Scheme:

Part I: Illustrations

(i) Composition including quality of drawing \[10\]  
(ii) Emphasis on the subject with a specific situation \[05\]  
(iii) Reproducing quality and overall impression \[05\]  

\[
\text{\{20 marks}\} \\
\]

Part II: Poster

(i) Layout and Lettering \[10\]  
(ii) Emphasis on the subject \[05\]  
(iii) Proper colour scheme and overall impression \[05\]  

\[
\text{\{20 marks}\} \\
\]

Part III: Portfolio Assessment

(a) Record of the entire years' performance from sketch to finished product \[10\]  
(b) Five selected drawings in any media including minimum of two illustrations \[05\]  
(c) Two selected posters in chosen subjects \[05\]  

\[
\text{\{20 marks}\} \\
\]

2. Format of the questions:

Part I: Illustration

Make an illustration in black and white in any colour media on anyone of the following five subjects with a specific situation.

Size of the illustration: 30 cm x 22 cm.

Note: Any five suitable subjects or illustration, decided by the external and internal examiners jointly in accordance with the instructions are to be mentioned here.

Part II: Poster

Prepare a poster-design with specified data and slogan in English/Hindi language, in three flat colours, on anyone of the following five subjects. The designing of the poster should have balanced use of typography and illustration.

Size of the Poster-design: 1/2 imp size.

Note: Any five suitable subjects for poster design decided by the external and internal examiners jointly in accordance with the instructions and are mentioned here, strictly just before the start of the examination for Part II.

3. (A) Instructions to decide the subjects for illustration:

1. The examiners are to select/decide five suitable subjects.
2. Each subject should be given a specific situation, which is a main characteristic of an illustration.

3. Each subject should be so designed that the candidate may get a clear-cut idea of the subject and they can illustrate a specific situation based on given subject areas.

4. The examiners are free to decide the subjects but these should be according to the standard of the Class XII and environment of the school/candidates.

   Some identified areas of the subjects for illustration are given below, in which some more areas may be added if needed.

**Subject with a specific situation:**

(i) Family and friends in daily life.
(ii) Professionals/professions.
(iii) Games and sports.
(iv) Nature.
(v) National events and celebrations.
(vi) Religious events and festivals.
(vii) Culture-Dance, Drama, Music and Art.

**(B) Instructions to decide the subjects for Poster-design:**

1. The examiners are to select/decide five subjects suitable for Poster-design.

2. Each subject should be given a specified data and slogan.

3. The data and slogan should be so framed/designed that the candidates may get a clear-cut idea of the subject.

4. The examiners must give the subjects data and slogan according to the standard of Class XII and environment of the School/candidates.

   Some identified areas for poster-design are given below, in which some more areas/subjects may be added.

1. **For Advertisement on:**

   (i) Excurision/Tourism
   (ii) Cultural activities.
   (iii) Community & Nature Development
   (iv) Ideas-Social, national and international.
   (v) Commercial products.
2. **Instructions to the examiners:**
   1. Candidates should be given one hour break after first three hours.
   2. Work of the candidates for Parts I, II & III is to be evaluated on the spot by the external and internal examiners jointly.
   3. Each work of Parts I, II & III, after assessment, is to be marked as examined and signed by the external and internal examiners.

AIMS AND OBJECTIVES

To impart an all round and holistic education that equips the Indian youth of today to face challenges of a global and rapidly changing world, while preserving their own cultural assets, traditions and values this new subject area has been introduced for senior secondary level in schools with the following objectives:

- To understand the critical role of the crafts community and its integral relationship to the Indian society.
- To enable students to understand the relationship between economics, culture and aesthetics,
- To enable students to explore the linkages between environment, craft traditions and society through field studies,
- To develop a respect for the diversity of Indian craft traditions and to uphold the dignity of its practitioners by understanding the difficulties that they face,
- To introduce Indian culture through the crafts, so that school students appreciate the variety of skills and expressions of the Indian artist
- To provide students a creative aesthetic experience of the unique visual and material culture of India and develop values of conservation, protection of the environment, resources and heritage of the country,
- To enable students to understand the relationship between tradition and contemporary trends, form and function, creator and consumer.
- To understand the processes of creating a craft object from start to finish,
- To equip students with the tools to extend craft traditions to wider applications through applied crafts.

Examination:

THEORY: One paper 3 hours 70 Marks

SECTION A 40 Marks

1. Short questions:
   Four questions out of five based on textbook (80-100 words).
   Four questions of 3 marks each (4x3) 12 marks

2. Long questions:
   Three questions out of four based on textbook (100-120 words)
   Three questions of five marks each (3x5) 15 marks
3. **Definitions:**

Five definitions out of six based on textbook in three to five sentences. Five definitions one mark each (1x5) 05 marks

4. **Essay Type:**

One essay type question out of two based on textbook (150-200 words)

One essay type question of 8 marks. 08 marks

**Section B**

5. A question based on the Field Study of the learner as part of his learning. Anecdotal documentation in a descriptive and narrative style. 10 marks

6. Comparison and contrast of two or more forms of craft based on a given case study. 10 marks

**Section C**

10 marks

A personal response question based on the Craft chosen (Clay/ Stone/ Metal/ Jewelry/ Fiber/ Textile/ Painting/ Theatre/ Paper)

**PRACTICAL**

3 hours 30 Marks

**FIELD STUDIES: EXPLORING A CRAFT** 10 marks

1. **Field Studies Project Work** 05 marks

In this part of the course students will be required to do two short and one detailed projects in each class XI and XII. These projects are essentially experiential and analytical in nature.

Each student will prepare:

**Two short** assignments (10 pages each)

Students in the first instance will study their immediate environment and learn about everyday crafts in their everyday lives. They will prepare an assignment of crafts found at home, in their town/village, artisans and crafts communities who live in their locality.

The teachers may discuss the areas and topics related with the topics mentioned in the following paragraph, before starting the work and they may call a craftsperson or someone from the community who feels comfortable talking to the children and at the same time is well versed with the craft traditions specially of that region. Students may talk to people both producers and consumers, find out about different aspects of production and marketing or study the architecture of monuments, visit museums, study the artifacts (sculpture and painting and crafts) and work on the costumes, jewelry, the way of life etc. The assignments can have drawings, illustrations, photographs, maps etc. The students may choose any two topics from following areas for this short project:

- **Crafts in their own locality/home/state** to enable students to understand the design and function of craft traditions in their daily life.
• Local Heritage in Museum/monuments/religious-secular structures to understand the various craft skills involved in historic architecture/building/sculpture/painting.
• Vernacular architecture to study the variety of craft skills in contemporary building of homes, and other structures.
• Market/shop/mela/haat to understand market forces.

Note: Teacher to assess the two assignment out of 05 marks each and take the best out of the two for final assessment.

2. Exploring a Craft - Project Work 05 marks

One long term project on Exploring a Craft

This project will necessarily be a scientific, methodical documentation of a particular craft tradition prevalent in the region (for the first year that is class XI), which will have the following core issues in the background, which the students have also studied in theory;

- Craft Traditions
- Philosophy and Aesthetics
- Materials, Processes and Techniques
- Environment & Resource Management
- Social Structures
- Economy and marketing
- International Examples

The projects taken up for this subject may have different stages of planning, execution and presentation. The projects may be taken up in a group of 4 to 6 students where they can work on a particular craft tradition. In class XI students may visit the crafts-persons in their own region whereas in class XII students may take up crafts clusters of another region if the schools and the students find it convenient.

In the preparatory stage, students along with teachers can discuss about various crafts traditions practiced in the region, their history, distribution etc., collect all information available through various sources including library, internet and resource persons. To avail comprehensive data on various aspects of the crafts, students may develop an interview schedule and decide on number of crafts persons to be interviewed, which all places they will be visiting etc. Teachers must equip the students on interaction with crafts-persons and other people from the community, type of language they should use, how to be polite with them and while handling their materials etc. Students can buy some of the objects from crafts-persons, take photographs films after seeking their permission, make drawings, etc. which later on they can use in presentation or submission of project report.

After the completion of documentation, students could make presentation at school assembly or the class or in parent- teachers' meeting for which they can creatively use.
APPLIED CRAFTS  

This component will consist of a hands-on experience of creative work with a multi-disciplinary approach:

1. **Learning a Craft**  
   Students can learn the basics of a chosen craft from a practicing local artisan, such as pottery/weaving/drawing and work on its techniques, handling of materials and tools, experiment with colour, form, texture, rhythm, balance etc. They can then experiment with them, know about the traditional practices in that craft, the symbolism in them and the different points of views associated with it. The schools should have all the facilities required for practicing all the processes involved in a craft including working space, materials and tools. Schools may not have a teacher who is also an expert in all these crafts and in such a case, the schools should identify resource persons/craftspersons from the community, who can come to the school for demonstrations and students also can visit them.

   Help can be sought from TRIFED, SPIC-MACY, CCRT and other such organizations which are trying to retain the cultural fabric of Indian Society.

2. **Innovation in design and processes**  
   In this stage, students will develop their creative, innovation skills. They will chose one development topic and translate theory into practice.

   Eg. Based on the interest and regional needs, like stone craft in parts of M.P., Tamil Nadu, Orissa, etc. where stone is easily available.

   - **Materials, Processes and Techniques**  
     Experiment with eco-friendly packaging of different crafts,

   - **Environment & Resource Management**  
     Recycling of materials,
     Reducing hazards,

   - **Economy and marketing**  
     Assisting a craftsperson in proper methods of costing and pricing,
     Studying consumer needs/behavior and informing crafts person of changing trends etc.

   - **International Examples**  
     Creative contemporary uses of the craft in India and abroad

   - **Creating an aesthetic environment**  
     Finally it is critical that students who undertake this course have an opportunity to use what they learn to enhance their daily life. Students will be asked to practically demonstrate how they will create an aesthetic environment at school, home, and community. They can redesign their classroom with crafts they have studied; they can design a notice board for the school, or decorate the principal's office. Periodically students can display and organize
exhibitions to show the works and obtain feedback. Students can learn how their products can be creatively used in their lives as well as community members.

**Textbook**

In this subject area of Indian Crafts, there will be **three textbooks for classes XI and class XII**. One textbook each in both the years will be for theory, and one book giving guidelines/ addressing the schools, teachers and students about the practical components.

The theory textbooks for classes XI and XII will be a fully illustrated textbook giving photographs, sketches, maps, timelines, case studies etc. The class XI textbook of theory will introduce children with diverse traditions of the Indian crafts. Whereas the **class XII textbook** will address the six aspects of Craft Traditions: a. Philosophy and Aesthetics, b. Materials, Processes and Techniques, c. Environment & Resource Management d. Social Structures f. Economy and marketing g. International Examples.

These aspects will be studied in light of the crafts traditions referred in class XI.

A work book which will be addressing the students as well as teachers and schools for conducting different activities in practicum, like the field studies and applied crafts will provide some samples of documentation methods/ formats based on which children can develop their own formats to conduct them. This will be a book for both years. It will also suggest what facilities the schools should provide for conducting these activities etc.

**Teacher qualifications:**

A. A Post Graduate in any Art Form *Masters in Fine Arts (MFA) or Masters in Drawing or Painting*
   
   An exposure to at least one Craft even if it is in an unorganised sector.

B. In case a teacher does not have 1.1 above an undertaking should be taken so that at least 10 day training is done with the CCRT or Sanskriti or Crafts Museum or NCERT etc.

**Infrastructure:**

Basic space and kiln etc, potter wheel and other equipments required for the specific craft being offered.

**Recommended Text books:**

1. Reader: *Living Craft Traditions of India, Part 1- Textbook for Class XI*  
   (Published by NCERT)

2. Reader: *Living Craft Traditions of India, Part 2- Textbook for Class XII*  
   (Published by NCERT)
INTRODUCTION

Graphic design is the creative planning and execution of visual communication. One learns to create a combination of shapes and forms, words and images, in order to reproduce them in some flat medium (two dimensional - paper, cardboard, cloth, plastic, video, computer, or projection screen, on poster, billboard, or other signage) or in a three-dimensional form (fabricated or manufactured) in order to convey information to a targeted audience. All graphic design has a purpose or function. Usually its purpose is commercial to explain aesthetically something - to express, inform and influence the thoughts and actions of its audience.

This subject introduces the student to art intended to communicate information and advertising. The focus is on studying and using layout and design concepts used in the graphic design field. The students will employ both analog media (drawing with pencil and paper, etc.) and digital media - using up-to-date computer tools (graphics hardware and software - for drawing, painting, layout, typography, scanning, and photography).

1. Creating Art: Students know and apply the arts, disciplines, techniques and processes to communicate in original or interpretive work.

2. Art in Context: Students demonstrate how elements of time and place influence the visual characteristics, content, purpose and message of words of art.

3. Art as Inquiry: Students demonstrate how the arts reveal universal concepts and themes. Students reflect upon and assess the characteristics and merits of their work and the work of others.

Graphic Design at senior secondary stage is an elective subject. Although there are no prerequisite qualifications for the subject the students should demonstrate basic skill and interest in the fields of art and design to opt this subject.

RATIONALE

Design is the process of selection where visual elements such as print, line, shape, volume, tone, texture, colour, form, format, space, and structure are used by students to express their ideas. Visual sensitivity and working knowledge of design elements would be developed by solving a series of problems and employing a variety of media and materials. The curricular area aims at enabling the students to develop their mental faculties of observation, imagination, and creation and develop skills and sensitivity towards the use of visual elements for an effective visual communication.

Design is an activity of problem solving for the well being of society and individuals. Today, in the world of information and communication everyone has to communicate and get communicated by different groups of people through a wide variety of communication systems.

Graphic design course have great potential in providing creative solutions to communication of complex phenomena of print media such as books, magazines and newspaper, known as pictographic depictions or concept visualization. It can be traditionally applied in typography, cartooning (social, political and educational), and designing poster, book-covers, letters heads, news papers, brochure, logo, textile
prints, or even jewellery. Since the advent of personal computers and design software, graphic design is being utilized in electronic media—often referred to as interactive design which has unlimited applications in advertisements. The students can later become graphic designers working in print production (newsletters, posters, brochures, etc). Graphic designers combine text and images to communicate a message: sell a product or service, inform, or entertain.

The Graphic Design curriculum focuses on creating intelligent and powerful visual communication. Students build a strong foundation for a graphic design career by learning design techniques, visual thinking, concept development, colour, composition and typography through case studies and hands on exercises. During the study, assignments will incorporate problem solving projects that relate to visual communication. The course includes introduction to computer as a tool to create, modify and present the visual messages.

By opting Graphic Design as one of the Elective subjects at Senior Secondary level, the students will have various options to pursue their advanced studies in Graphic Design or the knowledge may be integrated with related curricular/professional areas for their career.

COURSE OBJECTIVES

By studying Graphic Design students will have a wider horizon in the field of art and will -

• Demonstrate artistic growth by executing a variety of images/text as images, traditional and contemporary techniques that solve complex design problems using creative thinking and analytical skills.

• Develop and demonstrate their understanding and skillful use of the elements and principles of visual design (1. conceptual element, 2. visual element, 3. relational element & 4. practical or functional element).

• Gain skill to use the digital tools as a powerful means of communication for creation, modification and presentation.

• Study the works of contemporary artists, designers as well as the masters in the field and discuss the enrich their vocabulary of design.

• Learn ways to apply aesthetic sensibilities into their works and explore ways to balance between formal theories with practical applications.

CORE CONTENT GOALS FOR GRAPHIC DESIGN

The students will learn:

• The history of graphic design.

• What a layout is and how to create an effective one.

• About lettering/fonts and their implications.

• What a logo is and how to create one.

• The basics of two dimensional design including the elements and principles of art.

• About colour theory and its implications in Graphic Design.

• How to use art criticism effectively.
• About Graphic Design as a career.
• To improve their design skills and techniques using a variety of tools.

The students will design and create a variety of projects, both by hand and by using computer graphic design programs. They will maintain good studio organization and use of tools as expected by the teacher. They are expected to maintain facilities in an appropriate working condition.

CLASS XI: GRAPHIC DESIGN

A: THEORY  One Paper  3 Hours  70 marks  180 periods
UNIT - I  Foundations of Graphic Design  20 marks  40 periods
UNIT - II  Graphic Design and Society  25 marks  70 periods
UNIT - III  Development of script  25 marks  70 periods

B: PRACTICAL  20 marks  60 periods
1. Sketching and Drawing  10 Marks
2. Basic Design: Development of Aesthetic sensibility towards design  10 marks

C: PORTFOLIO  10 marks  All year

## UNIT - I  Design Practices and Processes

### 1.1 Design in practices/ Role of Design in Society
- Functions of Design
- Implications and Impact of Graphic Design
- Role of Graphic Designer
- Contemporary Graphic Design in India

### 1.2 Design Processes
- Methodology of Graphic Design

### 1.3 Digital Imaging/ Painting and Printing
- Making Digital Images
- Modifying Digital Images
- Introduction to different types of image - editing software
- Working on layers and its advantages
- Advanced methods of making selection
- Using textures
- Adding text to images
- Difference between digital printing and conventional printing
- Application of digital printing

## UNIT - II Principles and Elements of Design

### 2.1 Sketching & Drawing
- Introduction: Drawing an aid in visual representation
- Virtues of drawing
- Types of drawing
  - Drawing from seeing/ observation
  - Drawing from memory and imagination
  - Drawing from technical information
### 2.2 Colour
- a) Scientific theories of colours
- b) Artists' theories & colour schemes
- c) Colour scales: Gray Scale, Tint and Shade, Intensity Scale and colour Wheel.
- d) Colour Interaction
- e) Colour and expression
- f) Colour symbolism

### 2.3 Basics of Visual Composition/Design Principles
- a) Introduction
- b) Composition in Different Arts Forms
- c) Primary Constituents
- d) Principles of Visual Composition

#### Typography
- a) Anatomy of Typeface
- b) Expressive Typography
- c) Advanced Applications

### 3.2 Principles of layout Design
- a) Theme and content
- b) Types of Layout
- c) Composition
- d) Symbolism of Colour
- e) Copy and Type/typography

### UNIT - III Media and Design 25 Marks

#### 4.1 Advertising Design
- a) Introduction to Media- Electronic and Print
- b) Campaign Design
- c) Event, Publicity and Public Relations

#### 4.2 Graphic design for Interactive Media
- a) Understanding a website
- b) Types of websites

<td>f) Liquefying an Image</td>
<td></td>
</tr>
</tbody>
</table>
### Performing Image Surgery
- Annotating and Automating an Image
- Creating Images for the Web

### C: PORTFOLIO
- Project based on Local and Contextualized Design
- Creativity and Innovation in Project Design
- Project based on market oriented design
- One complete sketch book of at least 150 pages

---

### SCHEME OF EXAMINATION

#### I THEORY PAPER 3 HOURS 70 Marks

**SECTION A**
1. Three out of four short questions based on textbook (80-100 words). (four questions of 3 marks each (4x3)) 12 marks
2. Long questions:
   - Three questions out of four based on textbook (100-120 words) (Three questions of five marks each (3x5)) 15 marks
3. Definitions:
   - Five definitions out of six based on textbook in three to five sentences. (Five definitions one mark each (1x5)) 05 marks
4. Essay Type:
   - One essay type questions out of two based on textbook (150-200 words) (One essay type question of 8 marks) 08 marks

**SECTION B**
5. Three out of four short questions on drawing a design pattern based on the given input 12 marks
6. Two question out of three on designing a motif or a pattern based on (5+5) 10 marks
7. One question out of two on designing any of the following types (brochure/logo/letterhead/book cover/poster/textile print/jewellery) 08 marks

#### II PRACTICAL EXAMINATION: 3 HOURS 20 marks
Course as prescribed in syllabus
III Portfolio:
- Exploring Graphic Design through Portfolio assessment
- One computer sketchbook of at least 100 pages 10 marks

PROJECT WORK AND PORTFOLIO

Project Work:
1. Field Visits and Report writing/ documentation: Packaging industries, Paper Making workshops, printing presses, museums, melas, festivals etc.
2. Project Work: One project in a year where students will identify and pick up a particular design problem or something that they consider a design problem; work on that problem and produce works. Students should be encouraged to take up problems from their own environment like, annual day, sports, meet, function/festivals, school building, signs, communication in the school etc.
3. Work Study: Study of works of any great/known designer (national or international).

(Students will work individually on their assignments most of the time, but they will have the opportunity at times to work together to solve problems if the situation arises. It is essential that students should work on their projects during their designated class periods. Students are expected to have a certain number of assignments done by midterms or end of the quarter in order to receive grade/ marks. Students are evaluated according to how well they meet the criteria of creativity, accuracy, execution etc.)

Portfolio:
Yearly submission of portfolio consisting of selected works (min. no 20) produced during the year. The works should be rich in terms of material exploration and visual impact.

(Students will each develop a portfolio that reflects an intermediate to advanced level of artistic perception, expression, historic and cultural understanding, aesthetic valuing, and an ability to connect their artistic skills to many art related careers, and develop competencies in problem solving, communication, time management and resources. Students are expected to submit acceptable work at the end of academic year. If an assignment is considered unacceptable, the students will be asked to complete and resubmit their work.)
